In Woman's World.

The time will come when the state will require all prospective home-builders, before entering the marriage relation, to take a thorough course in eugenics and child-rearing, writes Prof. William Henry Lighty in The Delinicator for January. Until such things can be brought about we must go on blundering fearfully in respect to these matters.

Parents all about us are failing sadly in their efforts to retain their children in the home, not so much because of indifference, as because of lamentable ignorance. For example, they commit again and again the serious fault of assuming that it is soon enough to train a child to work when he has become old enough to take a part in productive labor.

But nothing could be farther from the truth. On the other hand, much effort and patience must be expended in training the child in the principles fundamentals to work long before he is of efficient age and strength to earn

ed flour that is extremely soft and unassertive.

Marking Underclothes and Handkerchiefs.—To mark underclothes satisfactorily, write your name on linen tape and outline it in red or blue fast cotton. You can of course buy them ready woven, but they are rather expensive. If you have your strip of tape so that you can pick it up at odd moments you will soon have plenty of markers. Write the name in ink so that it will not rub off while working. It doesn't show under the cotton. For handkerchiefs, the best way is to outline your name with white embroidery thread. It will outwear any handkerchief, and is always unmistakably plain.

Delicious Snow-Cake.—One pound of arrowroot, one-fourth pound of powdered white sugar, half a pound of butter, the whites of six eggs, and flavoring to taste; almonds, vanilla, or lemon. Beat the butter to a cream; stir the sugar and arrowroot gradually, at the same time beating the mixture; whisk the whites of the eggs to a stiff froth; add them to the other ingredients and beat well for 20 minutes. Flavor, pour

the cake into a buttered mold of tin, and bake in a moderate oven from one to one and one-half hour. This is a genuine Scotch recipe.

When Replacing a Cane Seat—Old chairs take on a new lease of life when fiber seats replace worn-out cane ones, but these seats, so easily tacked on with brass-headed nails, do not always fit. I cut a paper pattern to fit the chair, and paste it on the bottom of the fiber seat, which I then take to a shoemaker to trim to the right size.

An Easy Way to Put Cotton in Quilts—I have discovered that time and patience may be saved when putting cotton in quilts if the cotton is first rolled about an ordinary yardstick. Spread the cotton out on a large table or the floor, roll on the stick, then transfer to the quilt foundation and unroll.

SO IT WOULDN'T.

Little Ruth found that the horse had stepped on and broken the leg of one of her little chickens. Looking up at the horse, she said reproachfully: "O Boss, how could you be so careless? Why, this little chicken wouldn't step on you and hurt you like that for anything."
