MINING, BUSINESS AND STOCKS.

FEW DUSTERS FOUND IN RANGELEY FIELD

Oil District Near Vernal Now Has Thirty-five Wells Down-No Flowing Wells-Driving Is Cheap.

Thirty-five wells have been sunk in the Rangeley oil district, 60 miles southcast of Vernal, and of that number there are not more than four or five "dusters," according to Enas Bennion, merchant of Vernal, who was in Silt Lake on business, Tuesday.

"Our Emerald Oil company, made up principally of Uintah county stockholders, owns 5,000 acres of promising of lands in the Rangeley district," said Mr. Bennion. "From all indication we have some very choice lands. We have put down eight wells, all o which are in oil. The depth ranges from 600 to 1,000 feet. These are prospecting wells principally, each having been placed on a tract of about 160 acres, so you see our domain is pretty well

icsted.

"None of our wells are flowing, and little gas has been encountered. They are all pumpers. From bailing tests we figure these wells have a capacity of from 10 to 20 barrels a day. The Rangeley of is of the very finest quality with paraffin base.

"One well adjoining our lands is being pumped to supply fuel oil for three well-boring engines operating in the vicinity. It is producing about 15 barrels per day, which is 750 gallons of excellent fuel oil, teing much cheaper for operating the engines than either wood or coal.

"The cost of well driving runs from

or coal.

"The cost of well driving runs from
\$1.50 to \$3 a foot.

"One well driver is now in operation
20 miles east of Vernal. At 500 feet,
water was struck, and this is giving the
men some trouble The indications there
are promising for oil."

FEW PRICES CHANGE. Trading on Local Exchange Slows Down Slightly.

Trading on the local market was slower today. But few changes were slower today. But few changes were made in prices and they were at an advance. The market seemed to be taking a rest and interest was flagging. Trading throughout was featureless. Ohio Copper failed to respond to the information that it had been financed and sold around the same prices as on yesterday. Colorado was slightly stronger and Columbus Consolidated commanded a better figure than on yesterday and sold at \$2 cents at the close.

close. Iron Bloss m was sold quite heavily but it failed to have much effect on the price. It opened at 85 cents and closed strong at 86 cents.

The total number of shares bought by the brokers this morning was 21,550, while the amount paid out in the transactions was \$8,947.75.

Trading on the curb market was mostly in Opex. This security was slightly stronger today. The sales were: 2,000 shares of Governor at 28 cents: 1,700 shares of Opex at 37 cents; 1,800 at 37½; 1,000 at 38; 400 at 38 buyer 60 days.

SOON TO ADD ANOTHER SHIFT. Moscow Mining Company Expects to Get Water in Week.

The Moscow Mining company will shortly be on the way to its first dividend. The supply of water which has delayed the company in accomplishing the work it has had laid out for the past two months will soon be increased.
The pipe line of the Western Pumping company which is to send water from Lahoe flat, five miles from the mine, will be in operation in about a week it is believed, although it may be de-layed. This pipe line will supply the Red Warrior and the Moscow compa-

The Red Warrior is now shipping at the rate of eight carloads of ore a month. This will be increased as soon as its supply of water will warrant its being done.

heing done.

As soon as sufficient water is received at the Moscow another shift will be put on and the present shift increased. At that time the company will begin increasing its output.

An air hoist is shortly to be added at the Moscow mine and this will be used in working the wingers. in working the winges.

CUMBERLAND-ELY SOON TO BE THING OF PAST

Stockholders Meet Tomorrow at Portland, Me., to Wind Up Affairs and Dissolve the Corporation.

The Cumberland-Ely Copper company is to pass out of existence. This was made known within the week, when no tice was sent to stockholders that a special meeting will be held in Portland, Me, tomorrow, when the stockholders will be asked to approve the following

1. To instruct the directors to sell ali the property and assets of the company exclusive of its cash and accounts collectable as an entirety at such price and on such terms as the stockholders may determine, in the event of the sale being authorized by the stock-

2. To instruct the directors of the company to distribute proceeds of such sale with any cash that may be in the treasury pro rata among the stock-

3. After such distribution has been

3. After such distribution has been made to take proceedings that may be necessary to winding up the affairs and the dissolution of the company.

The stockholders will, of course, approve this proposition en bloc. This is made certain by the fact that Nevada Consolidated will vote 1,271,134 shares Consolidated will vote 1,271,134 shares of the outstanding stock, there being only 28,866 shares outstanding which have not been exchanged for Nevada Consolidated on the basis of one share of Nevada Consolidated for each 3½ shares of Cumberland-Ely. The exchange proposition is still open, and this outstanding Cumberland-Ely stock may be sent in for exchange before the date of the meeting.

date of the meeting.

If any of the stock remains outstanding, it will, of course, share prorata with the stock owned by Nevada Consolidated, on the basis of a total capitalization of 1,300,000 shares, in the proceeds of the dissolution of the corporation, and the sale of its property and assets.

WILL SELL PROPERTY.

WILL SELL PROPERTY.

The property to be sold and distributed on the basis of total issued capitalization consists of the mining estate at Ely, including the Veteran mine, in which, approximately 3,000,000 tons of ore have been blocked out; 10,000 shares of the capital of the Nevada Northern railroad; 32,000 shares of the capital of the Steptoe Valley Mining, Smelting & Refining Co., operating the big reduction plant at Ely, and \$500,000 of the bonds of the Nevada Northern railroad. These holdings are carried on the books bonds of the Nevada Northern railroad. These holdings are carried on the books of the company at par, \$4,700,000. The proceeds to be distributed among the stockholders will embrace these holdings, the proceeds from the sale of the mining property and the company's treasury cash. It is believed that the better part of the outstanding 28,866 shares will be converted into Nevada Consolidated stock before the dissolution of the Cumberland-Ely is ordered. The aim of the proceeding is, of course, to pass to the direct ownership of the Nevada Consolidated all of the property in the Ely district, including property in the Ely district, including the railroad, in which it is now interest-d. With Cumberland-Ely eliminated, the Nevada Consolidated will be the sole owner of the Ruth, Copper Flat and Veteran mines: the railroad, which is 150 miles long: the reduction plant, and immensely valuable sources of wa-ter supply, and, except for a refinery, will be in position to turn out fine cop-

WILL PURCHASE COAL LAND. Mrs. Belie H. Adams of Salt Lake has made application for the purchase of coal lands located in the southeast quarter of section 3, township 17 south, range 7 east of Salt Lake meridian. This entry is made under provision 2348-2352. All adverse affidavits must be filed by Oct. 5.

per, besides forever occupying a comanding position in the Ely district.

APPLIES FOR PATENT.

The Cliff Mining company has made application for patent covering the Silver Kween, Silver Crown and Silver Shield mining claims, embracing 34 acres located in the Ophir mining district, Tooele county.

CONCENTRATES

The July output of the Utah Copper was 8,677,851 pounds of refined copper. The Utah Copper directors meet the latter part of this month to take action relative to dividends.

During the month of July 6,896,429 pounds of copper were shipped from the Nevada Consolidated property.

The Ely Consolidated Copper company has extended its day of delinquency from Aug. 17 to Sept. 15, the sale to be Nov. 13.

The annual meeting of the Utah Apex will be held at Portland, Me., on Sept. 13. At that time directors will be elected and also a clerk of the corpora-

Ore is being shipped from the old Carbonate mine in Big Cottonwood. Fifteen teams are engaged in hauling down ore for the smelter from the

J. C. Dick returned from Tintic yesterday with the announcement that the May Day will shortly begin work on its own account. Eleven leasers are now operating on the 1,000-foot level of the mine and every one has ore. The company intends extending the 1,100-foot level from 150 to 200 feet and catching the ore at that depth. For some time the company has been leasing the work in the mine and putting the tailings dump through the mill.

More property is being acquired by the Cole-Ryan people in Ely, according to reports from that place. Eugene Glies, cashier of the Copper National bank of Salt Lake, has purchased the Gold Coin group of claims for \$20,000. This group adjoins the Giroux Consolidated. The property is about 700 feet from the Giroux shaft and was taken over from P. L. Terry, Raymond and John McKernan, Walter Schallenbarger, and George Metzger, all of Ely.

STOCK CERTIFICATES.

A NOVELTY IN CORN.

Jake Brunton, a farmer, living five miles northwest of Blair, astonished the managers of the corn show there to a finish by bringing in for exhibi-tion, a full well-developed ear of corn, with an odd number of rows of corn on it. It is a noted fact that all ears with an odd number of rows of corn on it. It is a noted fact that all ears of corn have even number of rows—running from 14 to 22—but no odd numbers. This ear has 15 rows with 48 grains to the row. Mr. Brunton planted 15 hills from a peculiar ear of corn of his own selection, and the planting received the same attention as planting received the same attention as his other corn. He read last year of an offer by an Illinois corn raiser of a 320-acre farm for an ear of corn with an odd number of rows. He bewith an odd number of rows. He began to experiment, and planted an odd number of grains in a odd number of hills on the 13th day of the month, and husked and counted each ear separately. A dozen corn experts examined it this afternoon, and would not believe it until counted by themselves. It is a freak of which Mr. Brunton is justly proud, but says he forgot to take it to Omaha to the national show.—Omaha Bee.

SIX BEST SELLING BOOKS.

RECORD FOR JULY According to reports from the leading book sellers of the country, the six books (fiction), which have sold best in the order of demand during the month are:

1. The Wild Olive. Anon.....\$1.50

1. The Wild Olive. Anon. \$1.50 2. A Modern Chronicle. Churchill 1.50 3. The Rosary. Barclay. 1.35 4. A Splendid Hazard. MacGrath 1.50 5. Simon the Jester. Locke. 1.50 6. Nathan Burke. Watts. 1.50 DESERET NEWS BOOK STORE.

The Leading Book Concern.

LACKING SUPPORT, STOCKS WERE DOWN

New York, Aug. 24.-The stock market developed a downward tendency at the opening with losses of a full point in such active issues as Reading, Southern Pacific and United States Steel. Candian Pacific lost 24 and there were substantial fractional declines in Union Pacitic, St. Paul, New York Central. Concolidated Gas and Amalgamated Copper. Further weakness developed in the first hour and stocks were thrown over with general lesses well in excess of a point Reading, Union Pacific, and United States Steel bore the brunt of the selling. Reading lost 24. Union Pacific 24. Southern Pacific. United States Steel, International Harvester and North American 2. New York Central and St. Paul 14. Northern Pacific and American Steel Foundries

The selling stopped and the market became quiet, with prices generally ruling above the lowest. Near noon the downward movement was resumed, and Union Pacific, Reading and United States Steel sold at the lowest point. The selling was attributed to the prospect of further tariff legislation. The weakness of the industrial group was partly accounted for

in legislation. The weakness of the industrial group was partly accounted for by the reports that one of the largest independent steel companies had ordered restriction of operations because of the discouraging outlook. Brooklyn Union Gas gave way 4 points, Federal Mining preferred 2%. Rock Island 2 and Pennsylvania. Pittsburg C. C. & St. Louis, Consolidated Gas. American Cotton Oil and American Hide and Leather preferred 1½ to 1%.

Honds were easy.
International stocks were sold freely for foreign account which encouraged activity by the bears. Prices continued to fade away, the only nall being the occasional check resulting from short covering. Reading ruled 3 points under yesterday's closing, Union Pacific 2%, Northern Pacific 2%, Brooklyn Transit and Westinghouse Electric 2, and Atchison and Amalgamated Copper 1%. There was a slight rally before 1 o'clock and the market grew dull again.

Business was on a much reduced scale during the afternoon and the fluctuations in the standard stocks were very narrow. Prices ruled from ½ to % above the lowest. Illinois Central and Chicago Great Western fell 2.

The market closed steady. After holding almost motionless during the greater part of the last hour the market began to sag again in the last 10 minutes in sympathy with an attack on Amalgamated Copper which lowered it more than 2 points from yesterday's closing. Reading, Union Pacific and U. S. Steel were foremost in the decline elsewhere with the list generally going down to near the lowest of the day. Just at the close a sharp upturn began which ran to 1¼ in St. Paul and 1½ in New York Central.

LIVE STOCK.

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Aug. 24.—Wheat opened steady today. The range was from 4c down to 4 up, with May a trifle stronger than the less distant options and speedily developed weakness. The foreign markets were somewhat more bullish. Some of the important concerns were liberal sellers, commission houses taking the buying side. In the first hour the figures declined from 4c to 5c. Favorable weather reports from the northwest fields and cessation of the Canadian frost talk were also taken advantage of by the bears. September opened 4c down to 4c 4c up at 95% to 1.05 and sagged to 354. December opened at the same range at 1.04 to 4c and fell away to 1.03 c.

Corn opened unchanged to 4c up and quickly lost its strength, declining in the first hour to 4c lower than yesterday's closing figures. Country houses were active sellers and were joined by some of the buyers of yesterday. September opened unchanged to 4c up at 60% to 6f and declined to 60% December started unchanged to 4c down. In the first hour sellers loaded the pit and shaved 4c off prices signtember opened unchanged at 34%. December started 4c up to 4c down at 36% to 4c and quickly declined to 35%.

Can and quickly declined to 35%.

Light offerings and improved prices for hogs kept provisions generally steady at the opening, the figures at the outset being from 5 to 10 cents down. Opening prices for the September products were Pork 2.127%; lard. 11.55; ribs, 12.35.

Wheat—Offerings continued to load the pit and at the close the weakness was pronounced. September closed 14c 4c to 14c off at 28%. December closed 14c 4c to 14c off at 28%. December closed 14c 6c off at 6c off at 15c to 14c off at 26c off at 15c off at 6c off at 15c off at 6c off at 15c off at 15c off at 6c off at 15c off at 15c

The decline of the Primitive Church is an all-important subject to thinkers and students. A concise yet masterly treatment is given in Dr. Talmage's new work, "The Great Apostasy." For sale by Deseret News Book Store; cloth, 60 cents.

POCKET WIRELESS.

The Italian savant, Mgr. Cerebotani, papal nuncio at Munich, is the in-ventor of an instrum at, like a large watch, which enables a person to re-ceive messages transmitted from "wireless" stations.

The apparatus is merely a pocket re-ceiver, says The Journal, and the only accessories are a bobbin of wire, and a metallic incased cane. A person thus

metallic incased cane. A person thus equipped can at a given moment receive communications (for a station within a radius of 20 to 30 miles.

In order to do this, he halts in the vicinity of an elevated point or at the foot of a tree, uncoils his bobbin of wire, and fastens one end to the highest branch or any other support; the other end of the wire is fastened to the apparatus which is connected on the opposite side with the cane firmly planted into the earth. The telegraphic receiver is now complete, and all that receiver is now complete, and all that remains to be done is to watch the movements of the single needle atimulated by the Hertzian waves of the transmission post.

The needle points successively to the

The needle points successively to the various letters or signs inscribed on the apparatus, and thus messages are formed which can easily be deciphered after the fashion of the Breguet system. The instrument works rapidly, and it is expected will be of great importance for military purposes. The invention has been successfully tested by the inventor in the presence of the Bavarian court and leading German scientists.—London Express.

READ "WHY I AM A MORMON?" By O. F. Ursenbach

It is a new book of 220 pages, re-cently issued from the press of The Deseret News, wherein the author, from scriptural, scientific and logical phases, presents the "Mormon" ques-tion in a very interesting and con-vincing manner.

tion in a very interesting and convincing manner.

To the young man preparing for missionary work; to the Latter-day Saint home, and to the earnest investigator of "Mormonism" is the little work especially recommended. For sale at the DESERET NEWS BOOK STORE. Prices postpaid \$1.00.

Secure Your

Patents

Through the **Deseret News**

We desire to announce that we have established in connection with our paper, a Patent Bureau and invite the co-operation of Inventors, Mechanical Engineers, Draughtemen, Machinists, Superintendents and Foremen of Shops and Mills, Skilled Mechanics in all trades, Farmers and all others, in building up a patent system, that will give honest advice to investors, protect their interests by good patents and strong contracts, and assist Inventors in perfecting their inventions, and in all matters to render caraful service and give full value for money paid.

We have associated with us at Washington, D. C., an attorney who has been in continuous practice for the past twenty years, and we are in position to guarantee that any patent matters placed in our hands will receive prempt and careful attention, and that the charges will always be moderate.

All patents secured through our Bureau will be advertised for sale at our expense, and will thus be brought to the attention of the thousands of readers and materially assist the inventors in deposing of their patents.

If you have made an invention, send us a sketch or model and description with \$5, and we will have our attorney make a thorough search of the records of the United States Paient Offee, and advise you as to the securing of patent, the cost and the manner of proceeding. Patent Bureau, The
