

CONSPIRACY TO STEAL COAL LANDS

Federal Indictments Returned Against Men Who Control Groups in Kayak.

131 CLAIMS OF 160 ACRES.

Prominent Men in Washington State, New York and California Were Assignees.

Spokane, Wash., Nov. 3.—Federal indictments charging conspiracy to defraud the United States government out of more than 20,000 acres of Alaska coal lands valued at \$200,000,000 were returned in the United States court by the federal grand jury today against six men who control three groups of coal lands in the Kayak mining district in Alaska which represent 131 claims of 160 acres each.

Those indicted are: Raymond Brown and William L. Dunn of Spokane, Charles M. Doughton, formerly of Spokane, now a resident of Seattle; former Mayor Harry White of Seattle, now a resident of Los Angeles; Charles A. McKenzie, capitalist of Seattle, and Donald A. McKenzie, lobbyist, capitalist and promoter of Washington, D. C., Seattle and Alaska.

The charges are that the six men indicted had agreements with the claimants whereby they were to have a half interest in the claims, which would give them more land than was allowed by coal land laws of the United States.

Among the prominent persons who were assignees of one or more of the claims were former Gov. John H. McGraw of Washington, Gov. James N. Gillett of California, Representative McLaughlin of California, Henry F. Oxand of New York and California, president of the American Beet Sugar company, and former Mayor Harry White of Seattle.

The coal lands involved in the indictments are in the vicinity of Katala, in the Bering river fields near the Bering glacier, in the Kayak mining district. The Dunn and Brown groups subjoin each other and are located near Katala.

"YOUR FACE LOOKS SO MUCH BETTER"

Pimples and Blemishes Cleared Away by Poslam, the New Skin Remedy.

Results are seen after one overnight application of poslam when used on pimples, blemishes, rashes, undue redness, clearing the complexion, etc. It works wonders in quickly restoring any affected skin to normal condition and healthy tone. "My face was always full of big pimples, and I used to be ashamed to go on the street," writes Mrs. Helen Christian, Jersey City, N. J., "but since I used poslam my face is as clear as a newborn baby's."

In promptly disposing of these minor skin troubles, poslam gives evidence of its remarkable powers to heal the more serious and stubborn skin diseases, such as acne, fever, scabies, etc., in which it has made its great reputation. Itching is stopped as soon as poslam is applied. A sample sufficient to show results is mailed free, upon request, by the Emergency Laboratories, 32 West Twenty-fifth street, New York City. Poslam is sold in two sizes (trial, 50 cents; regular jar, \$2) by all druggists, particularly Schramm-Johnson Drug Co.

PROMINENT MEN AMONG ASSIGNEES OF LAND

Seattle, Wash., Nov. 3.—Of the six men indicted in Spokane for alleged conspiracy to defraud the United States of Alaska coal lands, only one is in Alaska. Charles A. McKenzie, a real estate and loan agent, he had not heard of the indictments until told by the Associated Press, and expressed surprise, saying that his attorney had assured him there was no possibility of an indictment. His cousin, Donald A. McKenzie, a promoter, is now in Washington, where he was well known as an Alaska lobbyist. Harry White was mayor of Seattle 15 years ago and resigned suddenly after serving a few months. Former Gov. John H. McGraw died last July. The McKenzies and the McGraw estate own the Alaska townsite of Nelson, named in honor of Senator Knute Nelson, chairman of the Ballinger investigating committee.

The claims were known as the M. A. Green group.

Surgeon General Walter Wyman of the public health and marine hospital service is a claimant.

It is understood to be the purpose of the government to cancel all of the coal land filings in Alaska and release land estimated to be worth \$1,000,000,000.

Counsel for Charles A. McKenzie said tonight:

"Mr. McKenzie has been guilty of no wrongdoing. He purchased 15 coal claims from the original locators and violated no law in doing so."

SECY. JAS. WILSON DEFENDS TARIFF

When Republican Party Was Organized Were No Home Markets for Farm Products.

FREE HOMES GIVEN PEOPLE

Who Is to Blame if People Use Telephone to Order Goods and Groceries?

Rome, N. Y., Nov. 3.—Secy. James Wilson of the department of agriculture, was the chief speaker at a Republican meeting here tonight. He said in part:

"When the Republican party was organized there were no home markets for the products of the farm, because a large percentage of the people were engaged in agriculture. It became evident that industries should be diversified. It cost too much to take our products to foreign countries and left but a small margin for the producer."

"The Republican party urged the building up of factories and shops so that we could have markets nearer by. The theory was that the manufacturer and his working people should have protection to the extent of difference in the cost of production at home and abroad."

REPUBLICAN POLICY

"This has always been the Republican policy. Free homes have been given to the people, and our manufacturing system has become the greatest on earth. This policy has built up a great market within our country."

"During the administration of President Cleveland, the bars were let down and the duties were lowered. The result was that our mills could not compete with those of foreign countries. Our workmen were thrown out of employment and the farmer lost his market because idle men could not buy goods."

"Now the cry is raised again that we are being robbed by the tariff. It is up to the voters to say whether they want

Your Cake Raises Evenly

If You Use

Hunt's Perfect Baking Powder

a repetition of the experience between 1882 and 1897, the factories were closed and the workmen were idle.

"The present administration has been doing things. The interstate commerce commission will do justice between the shipper and the railroads. The tariff has been modified. Any country discriminating will be discriminated against. Our goods will go on equal terms to other countries or the law will be used."

"The department of agriculture is in touch with all sections of the country. It has 3,000 specialists making research into conditions which interest the farmers."

"A few years ago nearly all our rice was imported. Along the Gulf of Mexico we have raised the equivalent of all rice used in the United States. We import some, but we also export some."

"Along the northern border states we make 500,000 tons of sugar from beets. The last beet sugar crop was worth nearly \$100,000,000. Adopt these Democratic policies and put sugar on the free list and the growth of beets and the making of sugar would stop."

"From California 52,000 cars of citrus fruits were shipped last year. Take off the duty and we will get the fruit from Mediterranean countries where cheap labor prevails. We are studying dry farming. Already we have found a wheat from northern Africa which will grow on our dry lands, and we are now getting about 60 million bushels of wheat annually from that land. There is no reason why we should not raise all the wheat we want on these lands alone. Meat producing will follow."

"Food prices are dear and people are blaming the tariff for protecting prices. Food cannot come from Europe. It is up to the people who buy farm products in the cities, towns and villages, to look into their own affairs a little. The average profit put on meats last year by the retailers was 35 per cent. Is the farmer to blame?"

WHO IS TO BLAME?

"If the people must use the telephone to order by and goods are delivered from butchers and grocery stores at much greater expense than in the past, who is to blame? It would be much better for people to give more attention to the transit of products from the farm to the table."

"But there is reason in some of the instances. Our country is growing fast. Nearly 1,000,000 people come to us from abroad every year and perhaps as many more by the natural increase. Most of the foreigners and many of the younger generation settle in towns. If a small percentage of the people of towns and villages would become producers and get the benefit of the high prices of products of the field, the equilibrium soon would be established and the high prices may contribute to this very end."

FOSS DISCUSSES WOOL AND ANSWERS LODGE

Lowell, Mass., Nov. 3.—Schedule K, the wool and woolen goods tariff, was discussed here tonight by Congressman Eugene N. Foss, Democratic candidate for governor.

"Senator Lodge says he voted for schedule K for fear the senators from the wool growing states would join the Democrats. But President Taft tells the whole story when he says that the interests of the worsted manufacturers of the east and of the woolgrowers of the far west, and the worsted manufacturers of other states, were sufficiently strong to defeat any attempt to change the woolen tariff."

"Senator Lodge has said Massachusetts' woolen and worsted mills turn out \$102,000,000 worth of goods a year and pay wages amounting to \$18,517,197. A few nights ago the president of the American Woolen company publicly stated that the \$102,000,000 worth of woolen and worsted goods made by the American people were bought abroad for half that amount. On that basis the \$102,000,000 worth of goods could be bought abroad for \$51,000,000. In other words, the American people are paying a tax of \$51,000,000 a year in order to protect workmen who receive \$18,500,000 in wages."

Mayor John Fitzgerald of Boston, another speaker, made a prophecy of the vote to be cast. He said:

"There is no question in my mind but that Mr. Foss will come into Boston 10,000 votes ahead, and Boston will roll up a majority of from 20,000 to 25,000 for Foss."

"I will carry at least six of the fourteen congressional districts, and from present indications we undoubtedly will have enough Democratic members of the house and senate to join the progressive Republicans to defeat Henry Cabot Lodge for reelection."

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes, and it has never disappointed them. Sold by all dealers.

TEXAS MOB BURNS MEXICAN AT STAKE

San Antonio, Tex., Nov. 3.—Antonio Rodriguez of Las Vacas, Mexico, aged 25 years, was burned at the stake tonight by a mob at Rock Springs, Tex., following his confession that he shot and killed Mrs. Lem Henderson, wife of a cattleman, yesterday, because "she spoke mean to him."

Rodriguez was arrested this morning when he pulled at a ranch near Rock Springs for food. The mob began to form early in the afternoon and

by night several thousand persons had gathered. Later the crowd stormed the frail prison at Rock Springs, overpowered the guard and took Rodriguez some distance from the city to an already prepared pyre.

Without a show of emotion and offering little resistance, Rodriguez was bound to the stake and the torch applied. When his body was completely incinerated the mob dispersed, and a deputy sheriff several hours later reported conditions as practically normal, with no further disorder anticipated.

UNITED STATES AERONAUTIC RESERVE

New York, Nov. 4.—The first station of the United States aeronautic reserve has been established at Columbia university, where the first university aeronautical society in this country was founded three years ago. Philip Wiley, who flew in a machine of his design at Minola last summer, and Jay Gould are among the members of the Columbia Aero club.

The Columbia station will begin a course of lectures on aeronautics this winter and if funds can be obtained, an aeroplane will be purchased which will be used to instruct the members.

ENDS MISERY FROM INDIGESTION OR A SICK, SOUR, GASSY STOMACH.

A little Diapepsin Makes your out-of-order Stomach feel fine in five minutes.

The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia, or out-of-order Stomach is merely a matter of how soon you begin taking some Diapepsin.

If your Stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak Stomachs should take a little Diapepsin occasionally, and there will be no more Indigestion,

no feeling like a lump of lead in the stomach, no heartburn, Sour risings, Gas on Stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to your druggist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.
