RIVERS AND HARBORS.

Millions for Oregon, Thousands for Washington.

HOUSE PASSES THE ARMY BILL.

Speculation as to Lord Salisbury's Reply on Bering Sea Question.

A Note Has Been Received, but Its Contents Kept Secret - No More Startling Headlines in the "Record" - The Puget Sound Customs District.

WASHINGTON CITY, March 21.—The House committee on rivers and harbors today completed consideration of the regular river and harbor appropriation bill. It appropriates \$20,700,000, nearly \$4,000,000 more than the amount of the bill which became law at the last congress. The greatest feature is the extent to which the committee enlarges the policy adopted in the last congress of placing some of the most important projects under the contract system, by means of which work can be undertaken with the amount appropriated for the year covered in the bill, and contracts may be entered into for the completion of the work and for its continuance without the serious interruptions which have sometimes happened when the continuance of the work is entirely dependent on the river and harbor appropriations of each congress.

This year the committee authorizes additional contracts to be entered into, aggregating \$32,151,000, of which amount the Mississippi river gets \$16,000,000; the Great Lakes, \$3,334,000; the Columbia river, in Oregon, \$1,700,000; the Hudson river, \$2,446,000; and the remainder to some Atlantic coast cities. Of the Mississippi appropriation, \$700,000 is to be expended from the mouth of the Ohio river to the mouth of the Missouri, and \$900,000 from the mouth of the Missouri to St. Paul. The remainder will go for the river south of the Ohio. In the Great Lakes project \$400,000 is appropriated for a ship channel, to be twenty-one feet deep and 300 feet wide, in the shallows of the connecting waters between the Great Lakes.

In the cases of several improvements put under the contract system, the bill provides that the secretary of war may enter into contracts to complete the present project of improvements, to be paid for as appropriations may be made, the aggregate cost not to exceed the cost heretofore named as the limit of the cost for the completion of the improvement. For these projects there is directly appropriated in the bill the amount for the Columbia river, including one at the rapids for \$435,000. Among the appropriations in the bill are the following:

FOR HARBOUR WORK.
California—Humboldt harbor and bay.....\$20,000
Oakland.....100,000
Wilmington.....20,000
San Diego.....75,000
San Luis Obispo.....30,000
Oregon—Columbia and the Cascades.....455,000
Lower Willamette and Columbia below Portland.....30,000
Wilmington above Portland.....200,000
Coquille.....25,000
Mouth of Siuslaw.....10,000
Idaho—Snake river to Seven Devils mining district.....20,000
Washington—Skagit, Nooksack, Snohomish and Snoqualmie rivers.....10,000
Swinomish slough.....15,000

FOR RIVER IMPROVEMENTS.
California—Sacramento and Feather.....\$150,000
San Joaquin.....50,000
Petaluma creek.....10,000
Oregon—Columbia and the Cascades.....455,000
Lower Willamette and Columbia below Portland.....30,000
Wilmington above Portland.....200,000
Coquille.....25,000
Mouth of Siuslaw.....10,000
Idaho—Snake river to Seven Devils mining district.....20,000
Washington—Skagit, Nooksack, Snohomish and Snoqualmie rivers.....10,000
Swinomish slough.....15,000

IN THE HOUSE.

Reform in Speech-Printing—The Army Appropriation Passed.

WASHINGTON CITY, March 21.—It is likely to be a radical reform in the matter of the privilege afforded the members in extending their speeches in the Record will result from the investigation into the transgressions of Walker, of Massachusetts. Ever since the session opened there has been warm political rivalry between the Republican and Democratic representatives from the Bay State, and Walker has had several lively bouts with Hoar and Williams, whom he takes pleasure in designating alternately as "Mugwumps" and "kindergarten" Democrats. His interjection into the printed report of his speech of some leading abolitionist, shot off by the words of his speech printed, although not delivered on the floor, and that the whole of the undelivered portion of his speech be expunged from the Record. The report will be considered tomorrow.

After the opening of the session today Hoar, of Tennessee, offered a resolution calling on the secretary of the treasury for a list of persons employed in the coast and geodetic survey whose salaries had been increased or decreased during 1890; also for a list of those dismissed or who had been reinstated during that year. Hoar said he had information from a discharged employee that the coast survey was in the hands of a ring. The resolution was adopted.

The House then went into committee of the whole on the army appropriation bill. A long discussion took place during its consideration over a point of order raised by Chairman of the Committee on the bill that hereafter no money appropriated for army transportation shall be used in payment for transportation on non-aided lines owned, controlled or operated by the Union Pacific company, or by the Southern Pacific over the line embraced in its Pacific system. The chair sustained the point on the ground that the proviso is made a permanent law. It was then amended to be made applicable only to the present bill. This was agreed to, and the committee having risen, the bill was passed.

The House then went into committee of the whole on the free wool bill, and Goodnight of Kentucky assailed the protective system in a speech of some length. Snodgrass of Tennessee consumed his time in opposing the bill donating \$5,000,000 to the World's fair. The committee then arose and the House adjourned.

Free Delivery in the Country.

WASHINGTON CITY, March 21.—[Special.]—The postmaster-general has received a letter from a business man of Minneapolis,

in which he says, speaking of the extension of the free delivery into villages and farming districts:

I want to know what success you have had as far as you have gone in this. I am getting words of encouragement from all over the country, promises of aid, if I want it. I only started a few circulars to feel my way, and the result is beyond expectations. It will win; it must. And the dreams of my boyhood, when I was sent miles after the mail, barefooted, through the country roads in the big woods of Minnesota, may yet be realized.

LORD SALISBURY REFUSES.

His Reply Is Very Brief, and British Warships Gather at Esquimaux.

New York, March 21.—A morning paper is informed from Washington City that Lord Salisbury's reply is a naked refusal to continue the *modus vivendi* and accompanied by no assurance, verbal or otherwise, that the British government will not concentrate her fleet in Bering sea.

WASHINGTON CITY, March 21.—It is impossible to obtain any official information concerning the note received from Lord Salisbury yesterday on the Bering sea question. One rumor that has many believers is that Lord Salisbury has answered the president's note insisting on the necessity of a *modus vivendi* with a counter-proposition that in case one is agreed upon the United States shall agree to indemnify Canadian vessel owners for losses incurred thereby. The United States has already rejected a proposition of this kind. General Foster, representing the state department in this matter, had two interviews with the president on the subject today, and the impression is general that they considered the character of the reply to be made to Salisbury. It is pretty well established that the president is not disposed to recede from the position already assumed in regard to the preservation of the seal herd, and will take steps to secure that end with or without co-operation of the British government.

Another report in circulation tonight is to the effect that the communication was merely a short dispatch stating that a reply proper to Acting Secretary Wharton's note of the 8th inst. is being prepared and nearly ready, and will be adverse to the request for a *modus vivendi*. According to the same report, the communication says, in effect, that the British government will not interfere with the policing of Bering sea by United States vessels pending the negotiations and settlement of the questions at issue by arbitration, though it may hereafter ask for damages in behalf of its Canadian sealers as may suffer by seizure or interference by American vessels.

It is said at the navy department that no orders have been issued looking to the dispatch of a naval fleet to Bering sea this season, and that no action of that kind will be taken until the policy of this government has been clearly defined, or until the department is informed that the revenue vessels to be used in patrolling the sea are inadequate for the service. Notwithstanding this semi-official statement, it is said that the department is preparing vessels for service in the Northern Pacific coast in the event that they will be needed. The Adams and the Ranger are now being fitted out at Mare Island, Cal. Both will enter into commission in a short time. Another vessel that will undoubtedly go to Bering sea this spring is the Mohican, now at Seattle. Other vessels that can be utilized in case it should be deemed advisable to strengthen the fleet, are the Baltimore, at San Francisco; the Charleston, at San Diego, and the Boston and the Yorktown, en route for San Francisco. These, or a portion of them, with the revenue vessels Bear, Rush, Corwin and Albatross, would constitute quite a formidable fleet.

VICTORIA, B. C., March 21.—[Special.]—The captain of H. M. S. Daphne tells me today that the admiral has, during the past two weeks changed his plans entirely and has altered the routes and dates of every ship in the Pacific squadron materially. It had been previously decided that the Daphne should go out of commission April 1, but it is pretty certain now that this move will not be made. The Warspite, instead of taking a trip to Honolulu and staying there some time, reached Santa Barbara today on a new route to the Hawaiian Islands. The champion will not summer in Chilean waters, according to her programme when she left here. Instead of lying in Valparaiso she has other work to do, and is fast coming up the Pacific in the track of the Warspite. The powerful Melbourne is also, by latest orders, withdrawn from Chile and is just now leaving Acapulco for Victoria. So that by April 2 the flagships and the champion will be here, and by the middle of the month the Melbourne also. The Nymph and the Garret will then be the only warships of the British flag on the Chilean coast. The position of the admirals in London have received cable advices from Admiral Hotham to rescind all past-made dates in favor of these latter ones sent them, and a telegram received from Santa Barbara yesterday to the senior officer commanding informed him that the new arrangements are as stated. There is reason to believe that when Admiral Hotham arrives here next week it will be found he is in possession of distinct instructions regarding any new phase of the Bering sea question, and it is evident that the British government intends material occasion call for it, to have several material at hand to send to Bering sea.

More Crimes of Demon Deering.

ADELAIDE, Australia, March 21.—The police here identified Deering, alias "Red" Deering, as the robber who committed here in 1888. He was at that time living in Adelaide under the alias of Ward. The day after the robbery Deering, accompanied by his wife and two children, sailed for St. Helena, en route for Cape Town.

A SURE REAL ESTATE INVESTMENT.

Some Iowa Bankers just one year ago bought six River Park lots for \$1 each and they were sold this past week for \$120 each. Knott & Whitworth are still selling River Park garden lots for \$60 to \$125 each, with a discount of \$10 on each lot when a buyer takes 12 or more lots at one time.

If you are nervous or dyspeptic try Carter's Little Nerve Pills. Dyspepsia makes you nervous and nervousness makes you dyspeptic. Only other readers you miserable, and these little pills cure both.

NEWS OF NORTHWEST.

City Marshal of Oakesdale Kills Alexander Young.

FATAL ACCIDENT AT SPOKANE.

The Corpse of a Suicide, Pistol Close by, Found Near Dayton.

I. Joseph's Swindling Operations in Snohomish County—Cour d'Alene Miners to Resist Wage Reduction—Tacoma Express Officers Arrested.

OAKESDALE, March 21.—[Special.]—Early yesterday morning a row occurred in this city which promises to terminate fatally for one of the parties. Trouble arose in McClure's saloon between "Skook" Lloyd and Alva Stout, two well known characters, which terminated in Lloyd's shooting at Stout. The city marshal arrested Lloyd, but just as he was being put in jail, Alexander Young, who had followed from the saloon, opened fire with the marshal with two revolvers. A general fusillade ensued, resulting in Young's being shot three times, twice in the breast and once in the arm. Young then tried to run, but fell on the railroad track, where he was found later. Young died this afternoon. In order to prevent an attempt on the part of friends to release Lloyd he was taken in the afternoon to the county jail at Colfax.

A BULLETHOLE IN THE FOREHEAD.

The Corpse of a Suicide Found on the Touchet, Near Dayton.

DAYTON, March 21.—[Special.]—While stock hunting this afternoon, Carl Bishop and Benny Whiting, 14-year-old boys, found the remains of a man two miles from Dayton, on the Touchet. Corner Van Patten and Sheriff Thompson were notified and went to the scene at once. The body was found resting on the right side, the left arm across the breast, the right arm upright with the hand bent over. A 44-calibre revolver with two chambers empty was found on the ground, as if he had dropped it from the right hand. A hole in the forehead told the cause of death.

Numerous letters found on the dead man indicated that his name was Nick Trampert, of Luxemburg, Germany. The letters found were addressed to him at No. 30 Madison street, Portland, Ore., and were from Peter Trampert, Eden Valley, Minn. A silver watch and chain, two note books, a buxskin purse and a red silk handkerchief were also found. The notebooks contained the address of P. D. Meredith, Portland, Ore., and nothing else. Inside the watch case were tintypes, presumably likenesses of Nick, which are mentioned in one of the German letters written by Peter Trampert. The purse contained only 5 cents.

Trampert was well dressed, wearing an astrakhan coat and vest, new pants, shoes and underclothes. He was last seen in Dayton nearly a month ago, when he pretended to be buying cattle for Spaulding & Co., of Portland. All the letters found are written in German and are from Luxemburg to Peter Trampert, who remained there until the end of the year. The letters send greetings to his bride, but there is no other evidence of his having been married. The coroner's jury returned a verdict of suicide. Sheriff Thompson telegraphed to the friends of deceased and is awaiting their disposition of the body. Trampert was about 40 years of age.

Although the jury returned a verdict of suicide today there is likely to be a further investigation in the case tomorrow. Since the remains have been brought to the city it has been discovered that the hole in the forehead of the dead man is the best indication that he was shot from behind.

BUNKOED BY JOSEPH.

How a Slippery Newspaper Attache Did Up Snohomish County People.

SNOHOMISH, March 21.—[Special.]—I. Joseph, the story of whose operations at Pe-Eli are detailed in to-day's Post-Intelligencer, is well known here, having become connected with the *Sun* soon after P. S. Musseter took charge of it, about a year ago. He lost his position last January when the management discovered that he was spending about \$20 a week on a \$10 salary. Subsequent investigation developed the fact that he had for a long time been engaged in a systematic pilfering. These facts were not made public by the newspaper management, however, and he soon afterward notified with certain parties who were interested in real estate and mining property at Granite Falls, a point north of this city, near the line of the Seattle, Lake Shore & Eastern railway, with a view to establishing a newspaper there. The venture fell through and Joseph left the country but he is remembered by some of the real estate and mining speculators of Granite Falls who hold his verbal "promise to pay" in amounts which will aggregate probably \$100. It can not be learned from the *Sun* company as to the amount of his peculations there.

When he first came he cut a wide swath among the newspaper fraternity on the strength of his false statement that he had been proof-reader on the San Francisco *Examiner*, and later on the Post-Intelligencer.

FATAL ACCIDENT AT SPOKANE.

Bridge Foreman Watts Killed by a Blow From a Derrick Boom.

SPOKANE, March 21.—[Special.]—A fatal accident occurred yesterday morning at the Division-street bridge, which resulted in the death of William Watts, foreman of the stone work. The men had just started to work on the bridge when one of the stone piers below the bridge was a large granite rock was being slowly lifted into place. Suddenly the hooks which held the rock slipped and the heavy boom, lightened of its load, flew upward with lightning-like rapidity. It struck the main post of the derrick with sufficient force to break the cap, and the boom fell downward and struck Watts on the back, killing him. The injured man was immediately taken to the Sacred Heart hospital where it was found that his back was broken and that there was little hope for his recovery. A consultation was held and it was decided to place him in a wire casket. Everything possible was done for the injured man, but after suffering the greatest agony during the day he died at 8 o'clock last evening. Deceased was a single man.

Cour d'Alene Miners Want Old Wages.

SPOKANE, March 21.—It is evident that the Miners' Union of the Cour d'Alene section propose to resist the attempt of the mine
