### DR. TYSON TO DEFENCE

Pamphlet by Honorary Vicar  
Is Spirited Review of At-  
tack on Rector.

Thirty-five diocesan standing committees in the Protestant Episcopal Church have voted in favor of ratifying the election of Dr. Herbert Shipman, rector of the Church of the Heavenly Rest, as Bishop Suffragan of the Episcopal Diocese of New York. The New York Herald learned yesterday. This is within one of the required majority before the matter is submitted to the bishops of the church for the final decision. The last ratification was reported from the diocese of Springfield, Ill., where the standing committee on Friday night voted in favor of Dr. Shipman's election. The Springfield diocese is known to churchmen as one of the three "highest" in the country.

One of the latest developments in the ecclesiastical procedure which will determine the ratification or rejection of Dr. Shipman as Suffragan Bishop has taken form in a pamphlet defence from the pen of Dr. Stuart L. Tyson of Princeton, N. J., honorary vicar of the Cathedral of St. John the Divine. This review of the charges against Dr. Shipman, made public yesterday, is entitled "The Case Against Herbert Shipman," and is a spirited defence of the Suffragan-elect about whom such a controversy has raged in church circles since his election last May. Copies have been sent to the Bishop of every diocese, to the members of diocesan standing committees and to about 500 other prominent clergy and laymen.

Strong feeling has been aroused among churchmen throughout the country because of what has developed since the election of Dr. Shipman, according to Dr. Tyson. "From all parts of the country," he said, "I have received letters from churchmen of every type. The burden of these letters is a feeling of deep resentment, not primarily on account of personal charges against Dr. Shipman, to many of whom he is known only as a name, but most particularly a feeling of resentment that a violation of the principle of right and justice is involved. They are deeply stirred by charges which they believe unjust and false to a man whom the Diocese of New York, the chief diocese of the Episcopal Church in this country, has seen fit to elevate to the position of Suffragan Bishop.

"If the substance of these letters is to be trusted it is greatly to be feared that the church will be faced with a grave crisis if the election of Dr. Shipman is not confirmed. The contention raised by the standing committee of the Diocese of Vermont that Dr. Shipman had permitted a minister not of his Episcopal faith to officiate in his church at the marriage of Wyllys E. Dowd, Jr. to Mrs. Anna Clement Knowles, November 27, 1920, Dr. Tyson submits a sworn statement from Mr. Dowd and a statement from Dr. Percy E. Edrop, who performed the ceremony, virtually clearing Dr. Shipman of the accusation against him.

By request of the contracting parties, Rev. Nathan Seagle, a relative of the bridegroom, was to have performed the ceremony in question and Dr. Shipman was to have assisted. When Bishop Arthur C. A. Hall of Vermont called Dr. Shipman's attention to his possible participation in the marriage of a divorced person, contrary to the canon law of the church, Bishop Burch was consulted and the original plans were changed on the eve of the ceremony. Dr. Seagle withdrew, and Bishop Burch raising no objections, Dr. Edrop, of the Reformed Episcopal Church, performed the ceremony. Statements from principals in this event gathered by Dr. Tyson agree on these points.

### Marriage Is Explained.

A letter from Dr. Seagle, received after the publication of Dr. Tyson's pamphlet, exonerates Dr. Shipman in this manner:

"Bishop Burch was immediately told about Bishop Hall's telegram on the eve of the marriage, and he declined not to withdraw his consent, saying he knew of no law to prevent Dr. Shipman from permitting his church to be used by some non-Episcopal minister. The marriage had the approval of Bishop Burch, whom Dr. Shipman was most careful to consult and obey at every stage of the affair.

In summary, Dr. Tyson writes that "the general church has alleged no fault in him whom the Diocese of New York unanimously elected as its suffragan Bishop." All charges, he says, have emanated from representatives of the "orthodox" party. The accusers of Dr. Shipman, gathering their evidence while completely ignoring him, continued to keep him in ignorance of the accusations until they were on their way to the distant juries who were to decide his fate.

In every case where presumptive evidence was ambiguous and admitted of either a worse or better construction," Dr. Tyson writes, "the former was adopted, and made the subject of this charge."

More than one standing committee and more than one bishop, he believes, have accepted one or more of the above charges at their face value.

"Finally," he adds in support of Dr. Shipman, "among the many and varied charges sent broadcast through the church not one single fact has been produced which was not known to those who elected him Bishop at the convention last May."

### MANY ITALIANS NATURALIZED.

They Lead Germans in Figures for August.

WASHINGTON, Sept. 17.—Nationals of Italy took the lead last month in obtaining naturalization as American citizens, a position held for many months by Germans, says the Department of Labor.

Total certificates of naturalization issued in August were 16,451, of which 1,429 were obtained by Italians as against 825 by Germans.
