CAUTION.—Current River Copper Mines, Shannon county, Missouri.—The public are hereby cautioned against purchasing of J. Epes Cowan, any interest in the above named Mines, for the reason that the rightful owner of the property, Joseph Slater, is still in possession of the same, and intends to contend in the courts of the country the validity of the claim set up by Cowan, who, by some fraudulent means, has succeeded in procuring from the officers of the Treasury a decision in his favor so far as that Department could determine. Slater claims the fee simple to the soil, by wirtue a bona fida settlement, use and occupation of the land long before Cowan ever saw it. Upon this settlement a pre-emption was proven, and Slater was permitted to enter the land at Government price, which he did, and now holds the receipt of the Receiver of the Land Office at Jackson, Missouri, for the same. The United at Jackson, Missouri, for the same. The United States have parted with the freehold. The question of title lies between Cowan and Slater, and the courts alone can determine them.

The undersigned will not notice further than this,

to caution the unwary, the false charges made by the contemptible J. E. Cowan against him and Slater, in the Madisonian of the 6th April, A. D. 1843. I refer to the Hon. L. F. Linn, and Hon. James H. Raffe, members of Congress from Missouri, as to the standing of myself and Slater, where we are known. JOSIAS BERRYMAN.

CHEAP BOOKS.

CHEAP BOOKS.

T TAYLOR has on hand a large and valuable collection of Books in every branch of Literature, Science, and Art; Law; Medicine and Surgery; Theology; History; Botany and Agriculture; Classical Literature and Translations; Poetry and the Drama; Geology and Mineralogy; Chemistry, Mathematics, and all other of the Practical Sciences; which he offers for sale at extreme low prices—many of them at cost, some of them at less than cost, and in every case at the lowest price at which the same can be purchased in any of the Northern cities.

Purchasers ordering from a distance may rely on finding this to be the case. The advertiser purchases intle from the Northern booksellers, but chiefly at the trade sales, (wholesale suctions,) where they lay in their aupplies, and at the same prices with them. He is able, therefore, to seil at as small an advance as any bookseller any where in the United States, and willing to do so. This is known to all those who have taken the trouble to ascertain the fact.

Foreign editions he imports direct from London and Paris, buying them for cash in advance in those cities, and they are not sold for lower prices any where in the United States than in his establishment.

A good collection of French books will be found with the advertiser, to which additions are constantly made; also a few of the best authors in the Spanish, Italian, and German languages, with the best books of instruction in each, while on the subjects of History, Naval and Military Science and Service, Geology and Mineralegy, Currency, Finance and Legislation, and on Engineering, Architecture and Mechanics, in all their various branches, as good collections are probably not for sale in the United States as those which may be found at his store.

Orders from a distance, it may be relied upon, will be promptly attended to, and upon the same terms as if the purchaser were upon the spot.

Books, Stationery and Periodicals, or any thing dec, imported to order from London and Paris.

PRINTERS.—THE STATE REGISTER PRINTING OFFICE FOR SALE.—The un PRINTING OFFICE FOR SALE.—The undersigned will sell, upon the most reasonable terms that could be required, the Frinting Office of the State Register newspaper, located in the town of Port Tobacco, Charles county, Md. The entire materials of the office are nearly new; they consist of judiciously selected founts of long primer, brevier, small pica, two-line pica, and a neat selection of job type, every way suitable to print a neat and good-sized newspaper, and to prosecute the department of job printing. The printing press is of the best quality, being one of Peter Smith's patent; is nearly new, and as perfect as if just from the wareroom or foundry, and has attached to it all the apparatus necessary for the most speedy and excellent execution of printing; it will print a sheet of super-royal size. The materials are warranted to be perfect, and quite as good as new. There are also good sets of chases, two imposing stones, &c.

There are also good sets of chases, Iwo imposing atones, &c.

To a practical printer, in all candor I can say, this establishment presents a favorable of portunity for an entrance into this business, as the investment of funds required to be made is but trilling in comparison to the profits to be derived from the office. As circumstances over which I have no control have pointed out the prepriety of my discontanuing the paper and removing from the county, I will dispose of the office at a very low rate, and extend all indulgence in the time of payment which my circumstances will admit of, or which can be reasonably asked.

Those who wish to be advised of the terms of sale, and who may not reside in the city, will obtain such information by addressing the undersigned at Washington city.

With the number for July, 1843, commenced the fifth year of the existence of this standard periodical.
