ROOSEVELT STILL IN THE RUNNING.

But It Is for Presidential Instead Russia's Great Military Preparaof Vice Presidential Nomination.

HE IS NOW AN OPPORTUNIST. DEMANDS IN THE FAR EAST.

Longer Support McKinley and the New Yorker Is the Available Man.

The Republic Bureau.

New York, March 30 .- Although the renomination of President McKinley by the Republican National Convention, to be held in Philadelphia, is considered a foregone conclusion, it is just possible that this programme will be upset. There is a dark herse in the presidential race in the person of Governor Roosevelt of New York, and stranger things have happened than that he should eventually receive the Republican

nomination. Mr. Roosevelt, to be sure, pledged himself at the recent banquet of the Ohio Society in this city to deliver the vote of the Empire State to Mr. McKinley, but this pledge was made with the idea that the President would be unopposed at Phila-

Republicans of national reputation have become alarmed over the recent change in public sentiment in the rank and file of the Republican party, and the question now is seriously asked if it would not be wise to sidetrack McKinley and go before the country with a younger man, and one who is not committed to the policies associated with the McKinley administration. The long-drawn-out Philippine war situation, with its train of military and administrative errors, the Puerto Rican tariff fiases, which threatens to allenate thousands of Republican votes, the Idaho bull-pen scandal and the too intimate relations of the McKinley and Salisbury governments induce the betlef in high places that McKinley is losing strength and that he will not do. A new man is demanded by those Republican leaders who do not wear the Hanna coller, and, intuitively, these gentlemen have turned to

It is a fact that Senator Lodge of Massachusetts is in almost dully correspondence with the Governor of New York, but not a view of inducing him to accept the presidential nomination, as has been stated in some newspapers. Lodge and Roosevelt are close and intimate friends and the Massachusetts Senator knows that Roosevelt will not accept second place on the ticket with McKinley or with any other man. The natural inference, therefore, is that Lodge is keeping Roosevelt posted on the political movement in Washington and that he is canvassing the possibility of successfully placing his friend before the Philadelphia convention as a candidate for

Just how much strength the Roosevelt movement has it is impossible to say at this time, but there is no mainsayin; the fact that the Governor of New York is ascoming prominence as a possible candidate for the presidency. Senator Lodge is the helmsman of the Roosevelt movement, and the Bunderstood that he has adopted an opportunist policy. That is to say, Roose-vel's pledge to McKinley stands for the China He said it should be large in mind. The Standard Oil Company of the China He said it should be large in mind. time being, and the Governor is not to figure actively as a candidate. Should it appear, however, that McKinley's growing weakness is calculated to endanger Repullican success in November, Senator Lodge will sound the toesin and Roosevelt's boom til be formally launched.

Meanwhile, all talk of Governor Roose-telt in connection with the vice presidency s mere rubbish. Mr. Roomevelt would be fer a second term as Governor of the Em-pire State, and only the presidency will tempt him to give up this ambition

capital of Korea:
"M. Pavloff, the Russian Minister, recently demanded from Korca the cession of a coaling station to a Russian steamship company at Atkinson Point, commanding Masampo Harbor and, to prevent a counter claim by Japan of the neighboring area, he demanded that Kerea should not alienate any portion of Kojedo Island to any other

"Yesterday, at an imperial audience, for reasons not given but surmised, M. Pavioff meditied his original demand, asking instead of Atkinson Point another site within the treaty limits of Masampo. This de-mand is unobjectionable. At the same time, however, he insisted on the nonalismation of Koledo. His action indicates that Russia claims the reversion of this island, is of higher strategical value, as coming the Korean Strails, and it is bound to provoke Japanese opposition."

DISTURBANCES IN CHINA.

Britain Urged to Repel Russia's Advances.

London, March 38-The Parliamentary Secretary of the Foreign Office, Mr. Brodetick, replying in the House of Commons, to day, to a question on the subject, confirms the reports that disturbances had occurred in the neighborhood of Ten-Tsin, saying that they apparently were caused by the secret goolettes. He added that the foreign representatives had ealed on China to rem-ely the matters, the Governor of the Prov-mee in which the disturbances had eccurred had been recalled and a new Governor had been appointed. The transport service of the Japanese Army is well organized and the leading steamship lines have vessels constructed with special regard to their employment by the Government for the transport of troops. The Russian Government has been concentrating troops around Port Arthur and
