CHICAGO TONES DOWN THEATER ORDINANCES.

New Municipal Code Makes It Possible for Every Playhouse to Open September 1.

Chicago, July 19.—Amendments to the theater ordinance which will make it possible for nearly all theaters to open September 1 have been passed by the City Council. Some of the principal amendments for existing theaters are:

Sprinkler System—Not required in auditorium or above or below stage; retained in paint, storage, property, scenic and dressing-rooms. Optional whether there shall be cross aisles or direct exits through tunnel.

Rise in Gallery—Maximum slope increased from 18 to 22 inches.

Vents—To be opened by pressing electric button instead of by mechanical device.

Seats in Row—Eleven seats allowed in row in balcony and on main floor; thirteen permitted if within twenty of an exit.

Floors—No police attendance required; two firemen held sufficient.

Distance Between Rows—Minimum decreased from 34 to 24 inches.

Lights—Lights over exits allowed to be gas instead of electric.

Official Admittance—City electrician and heads of police and fire departments given right to enter building at any time.

OLDEST CITY IS FOUND.

Ancient Adab Uncovered by Archaeological Expedition.

Chicago, July 19.—Udunkul, the ancient Adab, perhaps the oldest city in the world, has been discovered by the University of Chicago's excavating expedition in Babylonia. This city has for many years been the object of search by Orientalists.

It is mentioned in the code of Hammurabi, an early King of Babylonia, which document was translated recently by Professor Robert F. Harper, director of the expedition. He has just received the news here in a cablegram from Professor B. J. Banks, field director of the expedition, who since leaving this country last winter for Bismya in Babylonia, has announced many important discoveries.

The uncovering of ancient Adab is one of the most important archaeological achievements of recent years.

Professor Banks informed Professor Harper that he had found bricks bearing the syllables of Ud-Nun-Ki at the lowest level of the ruins. He is certain that these bricks identify the city of Adab. With a force of 120 men he excavated the ruins at Bismya and found the remains of four temples built one above the other, which he named according to the Kings who built them.

The dates became earlier until finally the bricks identifying Udunkul were found. Among the other articles which Professor Banks found are marble statues, onyx and sandstone lamps and many bronze objects.

WHY GEN. MILES WITHDREW.

Tells Why He Did Not Accept Prohibition Honors.

Chicago, July 19.—John G. Woolley of this city has received a letter from General Nelson A. Miles in which the former field commander of the Federal Army explains why he withdrew as a candidate for the Prohibition nomination for President.

General Miles says that when he saw the danger of discussion his name created he sent word to keep his name out. He could not think of "betting the Prohibition party by the ears."

He declares that if the temperance people of this country could get together they could elect a President, "break off the partnership of the Government and the saloon."

The New Chalfonte Hotel.

Hotel Chalfonte, the newest and one of the handsomest in Atlantic City was opened Saturday, July 2. The building is ten stories, absolutely fireproof, the walls being of brick and terra cotta, and are carried upon a steel frame, supported by a foundation of piling, with concrete cross caps. The floors are of concrete and cement and the roof of tiling. The house is remarkable for elegance of appointments and the richness of its furnishings. The amusement room, the playroom, children's playground, and similar apartments are on the ground floor. The main portion covers a space of 47,170 feet on the parlor or second floor. The dining-room is 33,317 feet, with a clear story for illumination and ventilation, and windows on every side. The mail chutes, telephone system and all furnishings of the bedrooms are all along the modern lines. The library is on the tenth floor, and an art room for the exhibition of paintings adjoins it. From the library opens the large porch or promenade down to the sea. The management of the hotel is under the management of Henry W. Leeds and Sarah Leeds of Hadron Hall, Associated with them is Albert T. Bell. It is claimed that the hotel as completed is one of the best of its kind on the seaboard.
