REV. MR. GRIFFIN NOMINATED.

For Candidate for Congress at the Prohibition Convention in Meriden—Fuffer and Augur for Sheriff—Some of the New Haven Men Present.

E. P. Augur of Middletown was chairman and Fred S. Clark of this city secretary of the prohibition congressional convention at Meriden yesterday. Rev. N. Griffin of Hamden was nominated.

H. L. Puffer of Meriden was named for sheriff by the county convention, at the same time and place.

The Middlesex county candidate for sheriff will be Alfred H. Augur of Middletown.

The convention was held in White Ribbon hall, about twenty-five delegates being present. To add to the interest of the meeting Mr. and Mrs. Beveridge, the noted singers, rendered several selections during the meeting which were loudly applauded.

While a committee on senatorial and probate nominations, consisting of Mr. Fadhman of Essex, Mr. Babcock of New Haven, and Mrs. Boardman of Westfield, were out Rev. D. N. Griffin of Hamden, formerly of Meriden, was nominated for congressman of the Second district. On the return of the nominating committee the following vote was passed:

Voted: That L. A. Babcock and F. S. Clark of New Haven and E. P. Augur and T. P. Fordham of Middlesex county, be and are hereby appointed by this convention a committee to see that senatorial and probate nominations are duly made in the Second congressional district, in cases where regular conventions are not called. We recommend that all nominations be made not later than October 1.

C. D. Rice of Middletown and Fred S. Clark of New Haven were elected the congressional district committee for the next two years. H. L. Puffer of Meriden was nominated for sheriff of New Haven county, and Alfred H. Augur of Middletown for sheriff of Middlesex county, as above stated.

During the intermission rousing addresses were made by Colonel Knowlton of Windsor, Mrs. Christiana Holmes of Meriden and others.

"Mike" Curnen's Big Catch.

Michael Curnen, the genial and popular proprietor of Curnen's cafe at Savin Rock, is one of the best fishermen at the Rock. Sunday afternoon, equipped with a fine new pole and line, he succeeded in catching 106 nice small bluefish, the largest of which weighed about three-quarters of a pound. As he was apparently having such a great run of luck, in a piscatorial sense, one of the party succeeded in hiding his pole and line, but this made no appreciable difference with the disciple of Walton, for securing another outfit from the bottom of the boat, he commenced fishing again and finally succeeded in catching more fish than all the rest of the party combined. "Mike" says it was a great day for sport, and that he was in it from start to finish.

BUT IT WAS VERY SULTRY.

ANOTHER HOT AND CLOSE SEPTEMBER DAY.

Hottest in Over a Month in Many Places—But It Was Two Degrees Below Freezing in North Dakota.

Yesterday was another of the hot days of 1894. The past summer distinguished itself for extreme heat, and September seems to be trying to imitate the August record. It was a very sultry day yesterday, and about everybody is aware of the fact, except, perhaps, those who worked in ice houses. A gentleman who drove out to Centerville yesterday morning said the heat felt more oppressive than at any time before this season.

In New York humidity had full sway, but both fair and cooler weather is predicted for to-day there. Here, after the showers yesterday, the air was more oppressive than before. A New York dispatch yesterday afternoon says: "Weather Observer Dunn had his mind made up as to what we were to have tomorrow at about 11 o'clock this morning, and was also posted on the atmospheric conditions then existing in every portion of the United States. He said that the trouble was due to humidity."

The temperature was high, but humidity was responsible for wilted colars. He described the weather after this manner:

"This is the hottest day since August 8. On that day at 8 o'clock the temperature was 81.3 degrees and the humidity 60 per cent. To-day at the same time the temperature was 78 degrees, and the humidity 85."

This heat covers the Atlantic coast states and goes west as far as the Ohio valley.

West of the Mississippi and over the lake region it was much cooler. But it was left for Williston, N. D., to bear off the palm.

There the temperature was 30 degrees, or 2 degrees below freezing point.

West of the Mississippi river the temperature ranged between 30 and 50. Down in Key West it was 84 degrees at 8 o'clock. That was the warmest place in the country.

Last year on September 10 the temperature was 63 degrees. The hottest day ever had in New York was a September day—September 7, 1881—when the mercury went up to 100 degrees.

In Boston at 8 o'clock the temperature was 74 degrees; in Albany, 76; in Washington, 80; in Chicago, 80; in St. Louis, 70; in New Orleans, 80, and in Jacksonville, 78.

At 9 o'clock this morning the humidity had decreased to 80, and at 11 to 78. Things evened up, however, when temperature came to humidity's aid."

POOR CROP REPORT.

In Parts of the Wheat Region Conditions Are Good—Corn Is Poor.

Washington, Sept. 10.—The report of the statistician of the department of agriculture for the month of September shows a decline in the condition of corn to 63.4 from 69.1 in the month of August and 85 in the month of July. This is a decline of 5.7 points from the August and 31.6 from the July condition. The change is marked in nearly all of the great grain states. The present condition is 75 in Kentucky; 70 in Ohio; 55 in Michigan; 80 in Indiana; 78 in Illinois; 51 in Wisconsin; 60 in Minnesota; 40 in Iowa; 70 in Missouri; 45 in Kansas; 15 in Nebraska and 16 in South Dakota. In most of the southern states the condition has risen and a good crop is certain.

In addition to the unfavorable prospects arising from the low condition of the growing crop, reports from eight states, viz.: Indiana, Illinois, Wisconsin, Iowa, Missouri, Kansas, Nebraska and South Dakota, in response to a special inquiry show that out of an aggregate of 40,873,984 acres planted in those states there have been cut up for fodder or abandoned, 19,506,000 acres or 48 per cent, which is a little over 20 per cent of the entire area planted in the country.

The percentage of that cut up or abandoned by states reporting, is as follows: Indiana .66; Illinois .10; Wisconsin .21; Iowa .35; Missouri .16; Kansas .83; Nebraska .81; South Dakota .81.

The condition of wheat, considering both winter and spring varieties, when harvested, was 83.7 against 74.0 last year and 85.3 in 1892. The reported conditions from the correspondents for the principal wheat growing states, are as follows: Ohio 102; Michigan 91; Indiana 103; Illinois 101; Wisconsin 92; Minnesota 84; Iowa 92; Missouri 91; Kansas 88; Nebraska 40; South Dakota 82; North Dakota 74; California 88; Oregon 83; Washington 67. In the east New York 83; Pennsylvania 91; Maryland 93; Virginia 90; Tennessee 78; West Virginia 92; Kentucky 92; Texas 82.

In the principal wheat states there has been considerable improvement in condition since July reports. In parts of the wheat region the crop is fully up to expectations and in other parts the yield has exceeded anticipation.

The average condition of oats is reported at 77.8 against 76.5 August 1; 77.7 on July 1 and 87 June 1.

The returns for rye show an average condition of 86.9 against 82 a year ago.

The condition of barley has risen nearly two points during the month, the September average standing at 71.5 against 69.3 in August.

There is a decline in September condition of buckwheat of twelve and one-half points from that of August. The general average being 68.2 against 77.5 last year.

The area under clover seed is reported at 71.9 of that for 1893. The condition is given at 62.2, which is much below the average, thus indicating a very short crop.

The general average of condition for rice is 83.4.

The average condition of apples has fallen during last month from 44.0 to 40.8.

The condition of peaches is 21.1; potatoes 62.4, a decline of twelve points since last month.

The condition of tobacco is 74.5 against 75.9 last month.

A Camp Meeting.

The Grace M. E. church, corner of Howard avenue and Portsea street, will hold a home camp meeting at the church on Tuesday, September 18, in commemoration of the fifth anniversary of the completion of the building.

DEATH IN AN OLD WELL.

Two Men Overcome by the Foul Gas and Lose Their Lives.

Newport, R. I., Sept. 10.—An endeavor to clean out an old well on Callender avenue, a thickly settled portion of the city, this morning cost two lives and placed in jeopardy several others. Charles Johnson, a Swede, married, and father of two young children, were engaged to do the work. He descended immediately after removing the cover, which had been on for months or for years. He had gone down but a short distance when, without even a cry, he fell into the two feet of water and mud at the bottom.

George Underwood, son of the owner of the premises, seeing the plight of Johnson, descended to render assistance and he, too, met a like fate in the deadly air. The latter leaves a widow and three small children.

Two or three others started down a ladder to bring out the unconscious men, but they, too, were badly affected. Two returned and one fell in, but was rescued before he became exhausted. The others were taken out, and though still showing signs of life, were too far gone to be revived when medical assistance arrived.

MERIDEN BUTCHERS' BARBECUE.

A Big Time at Hanover Park To-Morrow—New Haven, Bridgeport and Other Places to Be Well Represented.

The butchers' barbecue at Meriden to-morrow will be a big affair and a large delegation from New Haven will attend. Waterbury, Bridgeport and other places will also be represented. A New Haven man, B. J. Keegan, famous for his energetic work at clam-bakes for twenty years, goes to Meriden to prepare the bed for the big bake. The dinner will be served from 1 to 5 o'clock.

It will be impossible to feed everyone at 1 o'clock and the crowds will conduct themselves accordingly. For the convenience of all, "keep-in-night" cards will be given each one as he or she presents a ticket at the entrance of the bridge to the island where the dinner will be served.

The parade in the morning will be an important feature of the day, especially the fat men who will ride on wheels. So far Stephen Kelley and L. F. Guernsey of Cheshire are the only two who have decided to enter the parade. The fat lady market woman will be in line. She will be drawn by two very fine Arabian ponies, lately imported and hired at a great expense for the occasion.

The sports will be timed as follows: Ham race, 1:30; pudding race, 2; boat race, 3; tub race, 4; greased pig, 5; ball game at 2 o'clock.

A large number of the merchants have signified their intention to make the day a half holiday.

Mr. Lauber's New Tobacco Store.

Mr. G. Lauber, for many years tobacco dealer on Grand avenue, has very handsomely improved the well known tobacco store No. 735 Chapel street, opposite the Ford jewelry store, formerly H. C. Collins'. Mr. Lauber is receiving congratulations on all sides over his large and fine stock and the store's fine appearance. A large trade is assured Mr. Lauber, who is an expert in his business. Fine imported and Key West and all domestic cigars a specialty.

Approaching Wedding.

Cards are out announcing the coming marriage of Miss Della Zunder, daughter of Mr. and Mrs. Maier Zunder, and Alderman Charles P. Well. The wedding is awakening great interest, owing to the prominence in social circles of the parties interested, and will take place at the Court street temple on September 20. The ceremony will be performed by Rev. Mr. Levi. After the marriage has been solemnized there will be a reception at the Harmonie club house. More than 500 invitations have been sent out and there will be friends of the young people from New York, Boston, Springfield, Philadelphia and other large cities.

Well is the son of Paul Well, the Chapel street liquor dealer, and is an officer in a large Springfield brewing company.

Picnic at Lake Saltonstall.

The Woman's Christian Temperance union No. 1 will hold a picnic at Lake Saltonstall on Wednesday, September 12. They will leave the corner of Church and Chapel streets at 10 a. m. All "white ribbon" women are cordially invited.

A SWITCHER'S LUCK.

May Some Day Be Worth Several Millions of Dollars—Rea's Like a Romance.

Nowak, Sept. 10.—A natural course of events may one day find Mrs. William Baker, a stitcher employed in Benedict & Lookwood's shoe factory, New Canaan, with several million dollars worth of property to look after. Nearly twenty years ago she died in England an uncle of Mrs. Borel, who is Mrs. William Baker's mother. He had accumulated an immense fortune in India, and the estate he left is now valued at \$42,000,000. There were difficulties in the settlement of the estate, but they have been overcome, and Mrs. Borel recently received notice of the settlement. She is now abroad, but will return as soon as the papers which constitute actual possession of her legacy are in her hands.

Mrs. Borel is a native of France; she has two sisters and a brother, who reside in Switzerland. Her share in the estate will exceed \$10,000,000. Besides Mrs. William Baker, Mrs. Borel has three children, a daughter, Mrs. Vail, living at Lake Malheur, New York; son at Carmel, N. Y., and another son at Indianapolis, Ind. Baker has a daughter of twenty, and two small boys.

ROAD RACE TO-DAY.

Of the Meriden Wheel Club.

Meriden, Sept. 10.—The Meriden wheel club road race to-morrow afternoon will be run, rain or shine, and as a number of new riders are desirous of entering the officers kept the entry list open until 8 o'clock this evening. Those who have decided to race are: H. C. Voorhes, E. W. Gould, W. Dough, Bert Trewhella, W. F. Kennedy, C. E. Lewis, Paul Booth, W. L. Wilcox, J. E. Brainard, A. W. Curtis, E. K. Barnard, W. B. WILL BE RUN BY STEAM.

The Draw at the Quinnipiac Bridge Will Be Operated by Steam Power.

Arrangements are almost completed for the running of the Quinnipiac draw-bridge by steam power and it is confidently expected that it will be in operation certainly by the latter part of this week. All of the steam apparatus which was formerly used to propel the draw at Tomlinson bridge has been transferred to and is now in position at the Quinnipiac drawbridge and will immediately be placed in running order. This will prove a great improvement over the old system under which the drawbridge has been operated for many years.

Disorderly House Raided.

Patrolmen Gibson and Eagan raided a disorderly house at 38 Hudson street kept by Emma Jones, yesterday afternoon, and arrested the proprietress, May Green and C. W. Hall. The trio were locked up in default of bonds.

Methodist Ministers' Meeting.

The regular monthly meeting of the New Haven Methodist Ministers' association will convene at the parsonage of the St. Andrew's M. E. church, No. 212 Forbes avenue, Thursday afternoon, September 13th, at 3 o'clock.

Rev. C. B. Ford will read a sermon and Rev. Henry Mueller will furnish a paper on "Contributions of German Authors to Modern Socialism." The ladies of St. Andrew's church will furnish a collation and it is expected that a large number of the pastors will be present.

Twenty-five Years a Fire Chief.

The New London Day says: The retirement of Erastus S. Chesebrough from the office of chief engineer of the Stonington fire department recalls the efficient manner in which he has discharged the many duties of the position for twenty-five years. During his term of office probably not more than \$3,000 worth of property has been destroyed, and not a man has been injured while in the discharge of his duties as a fireman. Until two years ago Chief Chesebrough served the borough faithfully without any compensation and since that time has received \$125 per annum.
