MORGAN SAVES MARKET

Most Dramatic Episode of the Day His Emptying of Millions to Avert Ruthless Selling of Stocks. WORST SEEMS TO BE OVER

ONE INSTITUTION, A MEMBER OF THE CLEARING HOUSE, SEVERELY CRITICISED FOR CHARGING USURIOUS RATES FOR CALL LOANS.

New York, Oct. 24.—As a result of to-day's developments in the financial world there is every indication tonight that the crisis in the banking and trust company situation has been safely passed. The Trust Company of America all through the day's banking hours paid out money to depositors as rapidly as possible, and closed the day with all demands having been met. A very favorable feature of the situation respecting this company was that it was able to make its payments with very little assistance, and another was that the company received over its counters in the morning hours an ordinary deposits more than \$1,600,000.

THREE NOTORIOUS EPISODES.

The day was marked by three noteworthy episodes. First and earliest in the day came the announcement of trouble in three minor state banks in the outlying districts of Harlem—the Hamilton bank, the Twelfth Ward bank and the Empire City Savings bank. These banks transacted only a neighborhood business and their suspension of payment was absolutely without significance as bearing on the general situation. The Empire City Savings bank was controlled by a Tammany Hall politician and its business operations were confined to a small area. Although these banks were obliged to close because of lack of ready cash, State Bank Examiner Judson declared this afternoon that all three were solvent, and that their depositors would lose nothing.

RUN ON THE LINCOLN.

The second episode was a rather more serious run inaugurated against the Lincoln Trust company. The run against this company was steady throughout the day, but was not serious at any time, and the sums withdrawn were not large. It is an up-town institution, with a great many women depositors and it carried mainly personal household accounts. The run against it was without importance to the city's banking interests as a whole. At the close of the day the company's officials announced that they were fully able to meet all obligations and felt no nervousness as to the outcome.

MORGAN EMPTIES MILLIONS INTO MARKET.

By far the most notable, even dramatic, episode of the day was the emptying of millions into the market by J. P. Morgan & Co. The run against the Lincoln Trust company was steady throughout the day, but was not serious at any time, and the sums withdrawn were not large. It is an up-town institution, with a great many women depositors and it carried mainly personal household accounts. The run against it was without importance to the city's banking interests as a whole. At the close of the day the company's officials announced that they were fully able to meet all obligations and felt no nervousness as to the outcome.
