San Francisco ever enjoyed and the most prosperous year Los Angeles has ever seen except during the boom of 1887. Property values are advancing and the town is full of strangers, while houses and rooms are scarce. Knights of Pythias returning from San Francisco were loud in praise of the hospitality shown them in both cities. During his absence the major has taken advantage of every opportunity to study postoffices, and he says he has seen some things of advantage that will be incorporated in the local service the coming winter. He expects that within three months new fixtures and new equipment will be placed in the Phoenix postoffice and in the matter of service he proposes to make it second to no office of its size in the country.

BILL WILLIAMS FORK.

llams Fork and down Striped canyon is a good deal of land under cultivation on the Bill Williams Fork and corn, alfalfa and sweet potatoes. When Sam talked about the sweet potatoes in eestacy upon their size and flavor. He did some fishing, and saw great flecks of Sonora pigeons. Says the mesquite forests bore an unheard of crop of beans this season; that the beans abundance of feed for stock. With the Indians the mesquite bean is an article of food. Sam reports a good deal of mining going on in that immediate vicinity, although the main market for most of the produce is at Congress. He referred especially to James Rose berry's mine, below Striped canyon, or which mine a shaft has been sunk to a depth of 240 feet, and a big force of mer will soon be put on. It is a gold, silver and copper property. He also referred especially to Mr. Tiffany's ranch Mr. Tiffany has nearly 200 acres unde cultivation, and Sam avers that many if the sweet potatoes are as long as his arm: that the soil is so mellow the potatoes are easily pulled up and the sur
