DISORDER AT GLENDALE

Wagon Load of Prisoners From That Peaceful Precinct.

Constable J. G. Hammels of Glendale precinct arrived at the office of the sheriff late yesterday afternoon with a wagon load of prisoners consisting of ten men and one woman. He had taken them up for a disturbance of the peace and drunkenness. They were all still drunk enough to show that the constable had made no mistake. That there had been a disturbance of the peace was equally evident. One of the men had been pounded nearly to pieces. There was blood on all of them including the woman. All of them are Mexicans. The woman is young but not innocent. They are all strangers in Glendale and had been working in a camp near there. Warrants for their arrest were issued by Justice Robertson before whom they will be tried today. There is a justice of the peace at Glendale but it was impossible for him to handle the case without a great deal of expense to the county. There is no jail at Glendale. If the warrants had been issued from the local court the prisoners would have to be tried there. It would have been necessary to bring them to the county jail anyhow and then it would have been necessary to bring them to the county jail anyhow and then it would have been necessary to bring them to the county jail anyhow.

The coming of the prisoners was like a thunderbolt out of a clear sky. This is the first time since the beginning of the year that Glendale, one of the most peaceful communities in the county has contributed anything to the county jail. The precinct had been silent so long that the sheriff's officers were not sure that there was a justice of the peace there and Mr. Hammels though a prominent citizen in that community had never heard of as a peace officer.

The Capitol restaurant has changed hands. George Taylor, the popular chef, will preside over the culinary department. Special dinner 5 to 8, 25c.

A CASE OF INSANITY

Which Turned Out To Be a Manifestation of a Jag.

Mrs. A. M. Clancey was before the probate court yesterday on a charge of insanity. She lives on McKinley avenue, not far from First street, and about 11 o'clock the night before had disturbed the neighbors so much that a call was sent to the police station. Officer Andrews responded. When he got to the Clancey house he believed that it was an insanity case, and he called up the office of the sheriff. Deputy Widmer went out and the woman was brought to jail.

She had been adjudged insane before. He asked her if she had not been drinking. She admitted that she had a drink or two, but not enough to hurt her. Under the cross-examination by the court it was brought out that she had been doing her share to keep the traffic in liquor up to its present high standard, but she had been ill much of the time and she regarded liquor in the light of medicine.

The court said he knew her to be a good woman but for her appetite for strong drink. He lectured her severely upon the habit generally and especially because it made her a nuisance in the neighborhood.

It turned out that the witnesses knew that liquor was at the bottom of the trouble, but they had not intended to say so until that fact was brought out by the court.

Mrs. Clancey was discharged with an admonition in the course of which the court said without a thought of profanity, for he is a gentleman of deep religious conviction and active practice. "Now, if you wouldn't drink the neighbors wouldn't be complaining of your raising hell all the time."

Southern California Business College, 614 S. Grand ave., Los Angeles. Open all the year. Faculty the best, teaches business methods and thoroughly handles all studies requisite to business education. A safe place to attend. Send for catalogue.

Physicians are calling attention to the fact that influenza or grip has come to stay. In the larger cities there has been a marked increase in diseases affecting the organs of respiration, which increase is attributed to the prevalence of influenza. Persons who are recovering from grip or influenza are in a weak condition and peculiarly liable to pulmonary disease.

"A word for your 'Golden Medical Discovery' cures coughs, bronchitis, lung 'trouble' and other diseases of the organs of respiration. It is the best tonic medicine for those whose strength and vitality have been exhausted by an attack of grip. It purifies the blood, cleansing it of the poisonous accumulations which breed and feed disease. It gives increased activity to the blood-making glands, and so increases the supply of pure blood, rich with the red corpuscles of health."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood, and lungs.

The sluggish liver is made active by the use of Dr. Pierce's Pleasant Pellets.

DERMAKOLA ointment cures all skin diseases.
