OF LOCAL INTEREST

BAPTIST SERVICES.—At the Baptist church service on Sunday evening Mrs. Alice Halsey will sing by request "The Eternal City." The pastor's theme will be "How to Get Power."
PRESBYTERIAN CHURCH.—Regular services in the Presbyterian church tomorrow will be: Preaching at 11 a. m. and 8 p. m. Sunday school at 9:45 a. m.; Christian Endeavor meeting at 7 p. m. Rev. George Logie, of Flagstaff, will preach at both the morning and evening services and Mrs. E. M. Dewey will sing at the morning service.
A SILVER WEDDING.—Last night was the twenty-fifth anniversary of the wedding of Mr. and Mrs. A. H. Davidson and it was celebrated by a large gathering of their friends at their

HOPELESS CASES.

When the doctor leaves and says the case is hopeless, what remains to be done? Nothing, if the doctor's word is final. Much, if you will listen to the statements of men and women who were once "hopeless cases" given up by doctors, and who were perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery.

Nothing is more sure than that thousands of men and women with diseased lungs, obstinate coughs, hemorrhage, emaciation and night sweats, have been restored to perfect health by the use of the "Discovery." Will it cure you?

It has cured in ninety-eight cases out of every hundred where it was given a fair and faithful trial. By that record you have only two chances in a hundred of failure and ninety-eight chances of being restored to perfect health. It is worth trying.

Abram Freer, Esq., of Rockbridge, Greene Co., Ill., writes: "My wife had a severe attack of neuritis and lung trouble; the doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery and she began to improve from the first dose. By the time she had taken eight or ten bottles she was cured, and it was the cause of a large amount being sold here. I think the 'Golden Medical Discovery' is the best medicine in the world for lung trouble."

FREE. Dr. Pierce's Common Sense Medical Adviser containing over a thousand large pages is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

pleasant home, corner of Seventh and Jefferson streets. Mrs. Davidson and daughter will shortly leave for Scotland where they will spend the summer with relatives.

THE CONTRACT.—B. A. Fowler yesterday signed for the committee of citizens the formal contract between the committee and the banks under which the latter are to accept the notes and securities recently raised by the committee and advance money for the work on the Tonto freight road. The contract was turned over to Walter Talbot, another member of the committee, who will secure the signatures of cashiers of the banks.

PROMPT RESPONSE.—Replies were received yesterday from the friends of Ernest Savage, the young man who committed suicide at the Commercial hotel on Wednesday night. A telegram was received by G. H. N. Luhrs from a brother of Savage living in Brooklyn, directing his personal effects to be sent there, and another was received at Merryman's undertaking house for the sending of the body to the former home of Savage in New Jersey.

THE TIME WAS NOT RIPE.—At a meeting last night at the Osborn school house of the water users of that neighborhood for the purpose of electing commissioners, after a discussion of the object of the meeting it was decided to make no election. It was thought that inasmuch as there was nothing at present for the commissioners to do, there should be no election to a useless office. Satisfaction was expressed with the work of the Water Users' association. In a year it was thought that commissioners might be of service and the election of them was postponed that long.

ADVANCED ONE GRADE.—Postmaster McClintock has received notice that the Phoenix postoffice has been advanced one grade as the result of its increased business. The smallest first-class postoffice is one whose receipts are not less than \$40,000 annually. The second class offices are divided into grade A, receipts \$35,000 and up; grade B, receipts \$30,000 and up; and grade C, receipts \$24,000 and up. Hitherto Phoenix has been in grade C of the second class offices, but is now advanced to grade B, the receipts last year exceeding \$30,000 by \$415.

SENATOR BAR COMING.—In its report of an interview with Senator Bard in Los Angeles, the Times of the 2nd inst. says: Through his intimate connection with all recent legislation on matters of national irrigation, the senator is deeply interested in the work of the reclamation service along the Colorado river, and in the situation in the Imperial country with regard to the question of government aid to the water users of that valley. He said last night that he intends to make a personal visit to the Imperial valley in October, and also to the Salt River valley in Arizona.

If Marshall Bonney will communicate with his mother at Ogden, Utah, he will hear something to his advantage.

ROGERS SPRINGS MINES

Bonded to National Copper & Gold Mining Co. of Arizona for \$60,000.

A representative of the National Copper & Gold Mining company of Arizona, was here last week from his home in Indianapolis, to meet G. M. Fowler, of this city, who has been in correspondence with him for some time respecting the requirement of the Rogers Spring group of copper mines, thirty miles north of Phoenix. The mines are owned by W. E. Marlar of this city, and it is announced that the National company has taken a bond on the property for \$60,000, and will begin development work upon it at once, an advertisement to that effect appearing elsewhere in this issue. Mr. Fowler for the time being will represent the management and says he proposes to develop the property at the rate of not less than 100 feet per month.

The Rogers Spring group, though never extensively exploited, is one of many groups in that section that has been under location for a long time. The National company has also located surrounding claims that their holdings may not be interfered with in the event the property proves to be what they now think it is.

The gentlemen composing the company are Michigan, Chicago and Indianapolis capitalists, and say they will have no difficulty in getting all the money they need to develop a mine as large as any in Arizona, in the event the property stands the test. Emil Ganz of this city will be one of the directors and G. M. Fowler will have a small stock interest in the enterprise. The full official roster, however, has not been announced here yet. A cash payment has been made on the bond of sufficient amount to make the contract binding and insure the beginning of operations. The promoters of the National C. & G. M. Company of Arizona are intimately connected with other large mining enterprises, among them the Calumet & Arizona, at Bisbee, the Calumet & Pittsburg, the Junction, and other associated investments. The success of these mines is a guarantee of the good faith and business ability of the gentlemen concerned and a guarantee that if they have found what they are looking for there will be something doing worth while at the Rogers Spring property.

RICH BACK COUNTRY

Mining Region North of Phoenix a Valuable Undeveloped Resource.

Today the first announcement is made of another new mining company, organized to start work in the mineral district north of Phoenix. This particular company proposes to raise \$50,000 or more for development work and all the trade will come to this city.

Such enterprises deserve the co-operation of everyone interested in the future of Phoenix for in the end the greatness of the city will depend very

THE HUB,
Phoenix, Arizona.

largely upon the exploitation of the surrounding mineral districts. If Phoenix is ever made the mining center of the territory as its location suggests that it should be, it will only be brought about by the hearty encouragement of all legitimate mining enterprises.

It happens that the new mining company spoken of above is largely composed of the same people, who have made the Calumet & Arizona at Bisbee a success, but the home companies, made up of local prospectors and local business and professional men, are entitled to the same hearty support as long as they continue honestly to seek for and develop promising claims. It is nonsense to say there are no more good mines to be found in the region mentioned. Work alone is all that is needed to transform many of the prospects of that region into paying mines and though they will not all prove to be United Verde, yet in the aggregate they will produce more business for Phoenix than can now be estimated. The recent strikes of large and rich ore bodies in the Grand Terrace & Arizona, the Marquette & Arizona, the Ben Hur, the Mormon Girl, the Nil Desperandum and other properties in the Cave Creek section are but the beginning of the inevitable advancement of one of the richest mineral districts in Arizona.
