in stock at all times, the things that taste good these warm days.

ARIZONA MERCANTILE CO.

A TEMPE MERCHANT WOULD GO TO CHINA

HAS ASKED FOR THE NECESSARY PERMIT

The Securing of It Requires the Unwinding of Much Red Tape.

Officer C. P. Cronin, of the United States Immigration service, spent yesterday here. Mr. Cronin calls Maricopa his headquarters, having recently been transferred there from a point on the border, but most of his time is spent on the road looking into one case and another. For a couple of days past he has been working on a couple of cases in Phoenix, taking testimony for the department, and while there took occasion to close up a little matter here at the same time, thus killing two birds with one stone. A short time ago Wah Hop, the East Tempe merchant, made application to the department for a permit to return to China. His return will not be permanent, for in that case all he would have to do would be to go. He wants to come back again some time, and it is on that account that he has to call upon the department to help him out. If he left without this permit he would have some difficulty in getting back again. Mr. Cronin spent yesterday taking the testimony of various witnesses in regard to the matter, and it is entirely probable that the permit will be issued in due course of time, though considerable red tape must be unwound in the process. Wah Hop will leave for China as soon as the permit is given.

THE COMMITTEE DISCHARGED

The Final Report in the Matter of the Bridge Campaign

A citizens' meeting was held Thursday evening for the purpose of closing up the financial end of the late bridge campaign. The executive committee, consisting of J. B. Cook, C. W. Harris and Andrew Nielsen submitted a report showing the amount of money collected by subscription and the amount of expenditures. The report was adopted and the committee discharged.

NO ONE EXPECTS IT.

Without the use of Seline Pills a weak or run down person cannot expect to become thoroughly strong. Seline Pills are the strongest and surest tonic in the world. The price is \$1 a box; six boxes \$5, with full guarantee. Address or call Elvey & Hulet, druggists, where they sell all the principal remedies and do not substitute.

MONDAY THE FIFTH WILL BE QUIET HERE

Stores Will Be Closed and Mesa Will Be the Center of Attraction.

Monday will be a quiet day in Tempe. No pretense is being made of a celebration of any sort here on account of the big doings at Mesa. Nearly every one here is planning to spend the day at Mesa and on that account all the merchants here have agreed to close their doors for the entire day. The banks will of course observe the holiday and so will the postoffice. There will be no service on the rural mail route though the patrons may get their mail at the postoffice previous to ten o'clock in the morning.

A RECORD BREAKER

Though a good many jokes are cracked at the expense of the ice man it would be rather hard to get along without him and there is probably no one who brings joy to more people these days than that same ice man. He had his hands full yesterday and established a new record for delivery of ice in Tempe. Just an even ten thousand pounds of ice was delivered by the wagon yesterday, more than has ever been delivered before in a single day.

NEAR DEATH'S DOOR

The condition of E. L. Thew yesterday was little changed. He has been low for several days with typhoid fever and the chances of his recovery are regarded as very slight. It is not much the disease, according to the physician in charge, as his general health, that is responsible for this state of affairs. His heart is very weak and his condition altogether is decidedly precarious.

HEADACHES

And neuralgia are immediately cured with "PAINAIDS." One does the work, a second dose is seldom needed. They are also splendid for toothache, backache, pains in the side or region of the ovaries, monthly pains, rheumatism and sleeplessness. They quiet nervousness and produce calm, refreshing sleep. Guaranteed under the pure food and drug laws and contain no opium, morphine, chloral, cocaine or similar habit producing drugs. They are sold in drug stores in 25c packages; trial size, 10c.

PainAids
Sold by Larson Drug Co., Elvey & Hulet, and Bear Drug Store (opposite city hall.)

THE GAS MACHINE THE PROPER DOPE

IT DISCOUNTS THE FAITHFUL HORSE FOR ROAD WORK.

The Experience of Tempe People Which Brings Out This Statement.

Though it is generally admitted that the automobile will never replace the horse in some phases of work, it is becoming an acknowledged fact that for road work, where a man has lots of traveling to do, the auto or a gas machine of any kind is the proper dope. This is all the more true in such weather as this. Dr. Moer, who recently became a devotee of the chug wagon, is more than satisfied with his first week's work. Few men travel more in the course of twenty-four hours than he and he has found that such weather as Tempe has been enjoying for the past week, the auto discounts the horse about a hundred per cent. For instance, on the last day of June the doctor covered seventy-five miles between ten and four o'clock, making a good many stops in that distance. This, of course, would have been impossible with a horse or even two of them in the same space of time. The carrier on route No. 2 has demonstrated beyond a doubt that the motor cycle is a practical machine for that sort of work. He has used one now for over a year and a half, and in that space of time has traveled over 15,000 miles. This with one machine and though the machine today looks as if it will get the first one ever made, it still gets over the ground and is considered good for a few more thousand miles. In using an auto or motor, the user finds himself stranded occasionally, but the occurrences are few and far between and the time saved by their use much more than offsets the time lost once in a while through an incident of this sort.

TAKING NO CHANCES ON THE HOLIDAYS

There Was, Therefore, Little Done in the Stock Market.

New York, July 2.—The stock market today was trivial, both in the volume of dealings and the feeble fluctuations of prices. The imminence of the three days' holiday interval left the speculative element indisposed to take chances of accidents happening during that period. Call loan rates were easier. Chicago Great Western sold as low as 1 1/4. The local traction stocks facing reorganization also made violent declines. The general market was comparatively undisturbed by this center of weakness. The advance in Union Pacific was helped by the report that the company had sold its allotment of the new Southern Pacific convertible bonds to which it was privileged. The new Southern Pacific bonds advanced today to 104, a record price.

Copper rose in the London market today and this gave some benefit to the copper industrials.

Bonds were irregular, total sales, par value, \$4,674,000.

STOCKS.

Amalgamated Copper, 82 1/2; Smelted, 92 1/2; Atchison, 115 1/2; St. Paul, 154 1/2; New York Central, 133; Pennsylvania, 136 1/2; Reading, 137 1/2; Southern Pacific, 131 1/2; Union Pacific, 104 1/2; U. S. Steel 63 1/2; ufd, 125 1/2.

METALS.

New York, July 2.—London tin was easy, closing at £133, 2s and 6d for spot and £132, 15s for futures. The local market was also easier, closing at \$28.75@28.95.

London copper was quiet and slightly higher at 55s, 15s and 6d for spot and £59, 15s for futures. Locally the market was nominal. Lake, \$12.25@12.62 1/2; electrolytic, \$13.00@13.25; casting, \$12.75@13.00.

Lead abroad advanced to £12, 18s and 9d and closed locally at \$4.35@4.45.

Spelter was lower in London, closing £21, 17s and 6d but was unchanged in New York at \$5.40@5.45.

GRAIN.

Chicago, July 2.—Wheat was heavy all day for the distant deliveries. Reports from Oklahoma claimed that the new crop is nearly all harvested and that the movement is now increasing daily. An upward revision of the estimates on the Kansas wheat crop was made by several conservative southwestern grain men as a result of the heavy yields shown and the consensus of opinion was that the crop would not be less than 75,000,000 bushels.

Corn was weak at the close with prices off from 1/2 to 3/4 c.

CATTLE AND SHEEP.

Chicago, July 2.—Cattle—Receipts, 1,000. The market was steady with beefs at \$5.40@7.40; Texas steers, \$4.75@6.25; western steers, \$4.80@6.25; stockers and feeders, \$3.50@5.30; cows and heifers, \$2.50@6.50; calves, \$5.00@7.50.

Sheep—Receipts, 6,000 with the market weak. Natives, \$3.25@3.50; westerns, \$3.25@5.20; yearlings, \$4.75@5.60; Lambs, \$5.00@8.35; western, \$5.20@8.00.

TO DEAR OLD GEORGIA—Mrs. W. A. Wilson on route No. 2 has left for Jonesburg, Ga., where she will attend to some business matters and also spend the summer.

MARKET REPORTS BY PRIVATE WIRE

New York, July 2.—Some very good buying appeared in the security market today. The orders, however, were not over aggressive, though they were in sufficient volume to create a very strong tendency. There was very little news in the street or special movement of securities other than the belief prevailed in well informed quarters that the market was gradually being built up and would work higher in the near future. The government crop report on grain due the coming week will be awaited with interest and will be an important factor.

LOGAN & BRYAN.

BOSTON COPPER.

Boston, July 2.—The principal activity in the local market today was centered in Superior & Pittsburg which was very firm under the best kind of buying. Green Cananea and Groux were also a little stronger and the floating stock in both issues is being gradually absorbed. The balance of the list displayed holiday dullness with no feature worthy of mention. We look for a more active market next week with probably a reaction of three or four points.

PAINE, WEBBER & CO.

WHEAT.

Chicago, July 2.—There was a combination of bearish features today which forced prices lower. Cables were weak and weather conditions were fine. Southwest points are sending bearish estimates on the movement of new wheat for the next week and for the present there is less cash demand. It was noticed, however, that a number of the strongest interests in the trade were good buyers of wheat on resting orders for all months at the early decline. It will take good weather new crop to justify the position of the sellers of today. Anything in the way of bullish influences early next week coupled with the important buying by good people at the decline today should bring about a decided change of sentiment and recovery in prices.

LOGAN & BRYAN.

CORN.

Cash prices were 1 to 1 1/4 c lower in some sections. Dispatches claim free selling of corn to make room for the holding of new wheat. The last prices were near the bottom and at a loss of 1 cent or more from the close of yesterday. Friends of the market seemed disappointed and made little resistance to the decline.

PROVISIONS.

There was a decided strength in all hog products in the face of weakness in grain. Stocks of products in Chicago houses were made public and they were remarkably small compared with a year ago.

FRANK J. O'BRIEN, Broker.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to 100. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for anyone who can cure a case of catarrh by any other method. Send for circular and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Spend Your Vacation at Venice.

Venice Villas make ideal summer homes. They are cheap, cheerful, charming and comfortable. Completely furnished, including lights, water, house-launder, etc. Located on beautiful canals. Perfectly sanitary.

Ellington's warehouse does a general storage business and has for sale grain sacks and will buy grain.

LAST YEAR'S VICTIMS—According to the Journal of the American Medical Association the Fourth of July casualties for last year were 5,623, over 162 deaths.

Do You Think Uncle Sam's Whiskey Test the Best

Here is everything that your Uncle Sam requires of whiskey before he will place the little green stamp over the cork of the bottle. That it pass the test of the U. S. gauger as coming up to the governmental standard of purity, being straight, 100 proof, full measure and aged at least four years. Here is the famous Cedar Brook test:

Not only must all the requirements of Uncle Sam be met, but there must be quality supreme, a wonderful flavor, delicacy, smoothness, individuality. It must be aged six to eight years.

Only choicest selected grains and purest spring water used.

W. H. McBrayer's

"Cedar Brook"
Bottled in Bond

In short, must better the test of Uncle Sam. Compare the age. It will show you the difference in the tests. Uncle Sam requires four years, while Cedar Brook requires six to eight. It has the green stamp on every bottle, and it meets the Cedar Brook test, TOO. The world's best whiskey since 1847.

At all places where good liquor is sold.

W. H. McBrayer's Cedar Brook Distillery
Lawrenceburg, Ky.

WICKENBURG DEPARTMENT

ACTIVE OPERATION ON THE OCTAVE

THREE SHIFTS ARE NOW BEING EMPLOYED.

A Change of Power From Steam to Electricity.

Wickenburg, Ariz., July 2.—(Special correspondence of The Republican.)—With a force of seventy-five men working in three shifts the Octave mine promises to soon become one of the best paying propositions in the country. W. W. Ditto, consulting engineer for the company, and representing the C. E. Miesse interests of Chicago has certainly made things hum since his arrival here. The entire power used to run the machinery has been changed from steam to electricity, effecting a great saving in the cost of operation. The company is now storing a large amount of ore on the dumps daily and the work is progressing so rapidly that Mr. Ditto thinks the mill will be in actual operation in about ninety days, and when it does start it will be permanent. Among the many things Mr. Ditto is supervising at the mine is that of sinking a jaker shaft to connect with the 1,200-foot level, where a block of ore running 1,000 feet long and 1,000 feet deep is present. Mr. Ditto, who is accompanied by his wife from Chicago, expects to stay till about September 1 and, in short, will put the mine in a better condition than it has ever enjoyed in its history. The Central Arizona Electric company, which is owned by the Octave interests, is also being pushed to a state of completeness and the company soon expects to be able to supply consumers with electricity.

It is generally believed that the recreational company, who have been working hard the past few nights taking stock, have completed their task and are once more able to pursue their social, political and sporting duties. It is needless to mention that they are very active in the above affairs, and everything else that has the improvement of Wickenburg as an object.

It is generally believed that the recent fire at Parker will not interfere with the ball game, which is to be played with the Parker team here on the Fourth of July. The building of the grand stand and the improvement of the diamond is going on as if nothing had occurred.

O. A. Hesla, the Prescott jeweler and watch inspector for the Prescott and Phoenix railroad, is in town today.

B. F. Rupp of St. Louis is a Wickenburg visitor.

Wickenburg was greeted with a nice shower Thursday night, which lasted about thirty minutes.

The Merry-makers, the show booked by R. W. Baxter for his opera house Sunday night, July 4, will be one of the enjoyable features of the coming holiday.

"Thousands of California and Nevada People Play at Santa Cruz—Why Not You?"

SANTACRUZ, CAL.

Has These Advantages Over Most Seaside Resorts:—

It combines the pleasures of bathing, boating and fishing, with the enjoyments of the mountains. The Beach at Santa Cruz is only twenty minutes from the famous Big Trees of California. Fish for salmon in the Bay in the morning at Santa Cruz and in the afternoon whip the streams for trout in the shade of the giant redwoods.

Mr. Vacation Man, try Santa Cruz this year. You've heard of it, but possibly never seen it. Address BOX E, CHAMBER OF COMMERCE, for literature and let them obtain your accommodations, also.
