

## PHOENIX SPECIAL TRAIN TO PRESCOTT JULY 4

Plan of J. M. Ormsby of Board of  
Trade Is For Big Boast  
Excursion

If Phoenix has several hundred motor fans, who are enough so to impoverish themselves to the extent of a trip to Prescott for the loop race, Phoenix can put over one of the best little publicity stunts that has emanated from the fertile brains of the Board of Trade people in several years. It will take four Pullman loads of travelers to do it. In case enough enter the thing to make up a special train, the committee will ordain the following program.

Leave Phoenix at ten o'clock the night of July 2.

Arrive at Iron Springs at 8 in the morning, in time for breakfast.

Arrive in Prescott at 9 a. m. for a big parade with the Phoenix Municipal band in the lead.

The band will go up in time for several concerts, for Director F. H. Redwell has arranged some preliminary music work for his players. Streamers, arm bands, hat decorations and other distinguishing marks will be handed on the Phoenixians, who will walk the streets letting Prescott know that the Capital city is with 'em.

The arrival of the Phoenix delegation will be the signal for the start of the 50-mile loop race, in which all the best Arizona auto racers and possibly some outside drivers will be entered.

J. M. Ormsby is chairman of the committee which is working on the tour. He will be pleased to hear from anyone who has ideas in regard to the proper conduct of such an undertaking.

## VELVE AMBULANCE IS MOST LUXURIOUS CAR

M. L. Naquin Receives Fine Motor-  
Hearse for J. Tom Whitney—Race  
Plans Progressing

That the Velve motor car makers can produce wagons for the dead as well as for the quick was proven yesterday when a large grey hearse arrived at M. L. Naquin's agency for J. T. Whitney. In fact the vehicle carried on its ornate side a shining plate with that name; "J. T. Whitney."

Built on a one ton truck chassis, the Velve hearse is finished like a palace car, and will serve both as ambulance and hearse. The engine is big, but has a carburetor governor that keeps the speed below thirty miles an hour.

This makes the second motor ambulance to be put into commission in Phoenix, and speaks well for the progressiveness of the local undertakers as well as for the automobile dealers.

Cooper, both of that Naquin is not plays to content himself with being a mere motor dealer. Having secured in "September Eve" one of the fastest little wagons in the state, he next set out to gather the rest of the equipment. He first purchased a brilliant scarlet hood with goggles and ear flaps, and then he ordered a cartoon of those civilized clairs to arrow into one corner of his mouth a la Oldfield, while racing. He is already planning places to spend the thousand dollars that will reward the winner of the Prescott 50 mile loop race on July 4.

## FINANCE AND MARKETS

[ASSOCIATED PRESS DISPATCH]  
NEW YORK, June 3.—Slow progress upward was made in the stock market. Trading was in smaller volume and the signs of reviving life yesterday failed to show themselves today. A significant feature was the cessation of professional pressure and outside liquidation. New Haven and Lehigh Valley, whose weakness yesterday disturbed the whole list made a better showing today. Steel, Amalgamated and Union Pacific were bought freely for foreign account, about 10,000 shares being taken. Speculative sentiment was cheered by favorable crop forecasts from private sources as well as by the improved showing of railroads in the April returns as compared with the preceding month. Most of the bonds were in good demand, but in a few cases heaviness developed, which gave the market a ragged appearance. Rock Island collaterals were under pressure and several convertible issues, particularly Atchison, American Telephone and others, were weak. Total sales represented a par value of \$2,700,000. United States bonds were unchanged in call.

Judge Freil upheld the Cincinnati National club, making permanent the injunction preventing the pitcher from playing with the Federals. It was generally reported that a wholesale desertion of players in organized ball to the independents would have followed a decision favoring the Federals. The "Outlaws" at once reopened the attack by taking steps for an appeal and announcing Johnson would play games in all Federal league parks except Chicago despite the injunction which is effective only in Illinois.

## Costs least PER MILE

We do not manufacture Red Crown to sell at any set price. We make the best gasoline that our experience and resources enable us to produce. The quality of the gasoline determines its price—not the price its quality.

# RED CROWN

The Gasoline of Quality

That is why Red Crown may cost you a little more per gallon—also why it costs you less per mile. Red Crown is a product of the best California crude—distilled and re-distilled—a product of straight refining, not a mixture. Its absolute uniformity avoids readjustments of the carburetor and assures full power and mileage always. Make it a practice to ask for Red Crown.

Red Crown signs are furnished to all dealers handling Red Crown Gasoline. Watch for the sign or ask our nearest agency about delivery in bulk.

## PASSING OF HOME RULE BILL STIRS ULSTER; TROUBLE FEARED

Coast guards wig-wagging to torpedo boats; inset shows Ulster leaders, left to right: Sir Edward Carson, Lord Londonderry and Captain Craig.

The feeling which has been aroused in Ulster by the passage of the Irish home rule bill is akin to a flame ready to burst into a conflagration that may rage indefinitely. Predictions range from a minimum of faction fighting between Orangemen and Nationalists to the maximum of organized rebellion by the covenanters. The home government, appreciating the situation, has drawn a cordon of torpedo boats in the harbor at Belfast, and coast guards are patrolling the Ulster coast.
