

DASHED

BEYOND ALL RECOGNITION

PHOENIX, Arizona, July 4th.—This is an authentic report and can be absolutely substantiated by any individual not believing it; by merely calling upon the undersigned and asking for prices on the line of famous I. H. C. Engines they are closing out. The I. H. C. Engine is a world famous engine, but they are discontinuing handling them on account of new affiliations with the manufacturers of the Ford Gas and Gasoline Engines. At the present time a carload of Ford Engines are enroute and room must be made for them. On this account a large line of I. H. C. Engines must move and as an inducement to the public, this entire line is offered at cost. In other words the prices have been reduced beyond all signs of recognition. Along with this low price goes the usual high class guarantee and one in the market for an engine should not think of overlooking this offer.
