## Happenings At Iron Springs

### News Of Summer Vacation Colony

The card party which is held in the pavilion every Wednesday afternoon was very well attended this week. Highest score was made by Mrs. H. L. Latham and second highest by Mrs. J. S. Griffin. Among the rest who participated were Mr. and Mrs. Talbot, Mr. and Mrs. Rountree, Mr. and Mrs. Scott, Mrs. C. T. Collins, Mrs. J. S. Griffin, Mrs. H. M. Kennedy, Mrs. A. H. Marshall, Mrs. Fagan, Mrs. E. S. Griffin, Mrs. Children, Mrs. Pemberton, Mrs. W. K. James, Mrs. W. S. Hefflin, Mrs. Handrock, Mr. Laird, Mr. Daster, Mrs. Alexander, Mrs. Hulet, Mrs. Evans and Mrs. Walter Bennett.

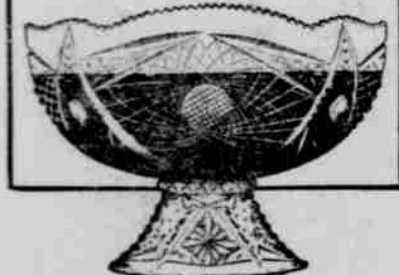

HERE EVERYWHERE

## DELAWARE PUNCH

Its delicious flavor and its rich bouquet make you smack your lips when you drink it. It solves the hot weather question. Try it today—NOW.

At all fountains, clubs, etc.

One of the most novel affairs of the summer was a very informal breakfast given by Mrs. J. S. Griffin for the leader of the D. T. club. Her breakfast room was charmingly decorated with maiden hair ferns and wild mountain flowers, which blended perfectly with the blue and white decorations of the room. Afterwards her guests enjoyed a game of auction bridge. Mrs. A. G. Hulet winning highest score.

Mr. and Mrs. J. J. Johnston and son, Raymond, arrived in camp Thursday where they intend spending a few days.

Rev. Coeks and wife have taken the I. J. Johnston cottage preparatory to spending the rest of the summer in camp. They came up on the noon train Wednesday.

Mrs. A. C. McQueen is spending a few days in Mesa.

Mr. Harold Pemberton arrived from Phoenix Wednesday night. He intends spending the next week in camp.

Mrs. W. K. James spent Thursday afternoon in Prescott.

Edward Marshall returned to Phoenix on the Wednesday evening train. Walter Martin spent Thursday afternoon in Prescott.

## Roosevelt District

A meeting of the members of the school boards of Wilson, Roosevelt and Bais districts was held in Superintendent Higgins' office on August 7 for the purpose of forming a circuit for domestic science and manual training teachers. Mrs. La Rue of Bais district, H. E. Austen of Roosevelt, and T. G. Fox of Wilson were chosen to represent their districts and constitute a board of which Mrs. La Rue was made chairman and Mr. Austen clerk. Mr. Riggs, a qualified teacher of manual training, was elected, and a domestic science teacher will be engaged later.

It is intended to start in a rather modest way in Roosevelt district. The pupils will be expected to make some of the benches for use in manual training.

The East End Ward school is nearly completed. Mrs. Myra Wilson, formerly of Buckeye, will assume charge upon the opening of school.

Mr. H. J. Dowd has been elected attendance officer and janitor for the Roosevelt school. His work will include care of the buildings and grounds all necessary repairs and looking after the attendance. Mr. and Mrs. Dowd will reside in a tent on the school grounds.

K. C. Sprattin, principal, is spending a few weeks in Prescott.

Miss Parrott, who will have the fifth and sixth grades in Mrs. Coeks' place, will shortly leave her home in Ohio for Phoenix.

Miss Josephine Ayers will teach the third and fourth grade.

Miss Richards will be at the West End school again, where she rendered such excellent service last year; and Miss Grace Warner, who has been spending the summer on her father's ranch south of Tempe, will be back in her old place. Miss Marcia Carter, a resident of the district, will teach the first grade in Miss Pugh's place.

Mrs. Price, president of the school board is summering in San Diego, but will return soon with many plans for the bettering of the school. The other trustees are following the plough and milking cows.

The school grounds and bays are at present in an excellent condition, and with a man on the ground all the time it is hoped to make them more and more attractive.

The men of the Sunday school are to have a shingling bee on Friday the thirteenth, for the purpose of shingling the new addition to Neighborhood House. Their time will be accredited to the Comrade Bible Class. Several members hauled lumber and other materials last week. When settlement is made a substantial sum will represent their labors.

The attendance at Sunday school was close to sixty last Sunday, which shows that the interest is being well maintained during the hot weather.

The Iris club furnished a good program at the midweek social given by the Neighborhood club on August 11.

Mr. Farmer felicitated Mr. and Mrs. Austen, the honored bride and groom, and wished every sort of prosperity upon them. Mrs. Wilkinson sang, Miss Ruth Winslow recited and the Temper band, ably directed at the end Professor A. Barrow's baton, rendered a spirited number. Messrs. Burch and Strong sang a duet, followed by a vocal solo by Miss Joan Wilkinson, and a piano solo by Miss Janet Farmer. Miss Lillian Schlick won loud applause by singing a Japanese song in costume. The evening's entertainment was concluded by a story told by Master Jack Copeland.

## Hayden Happenings

Mrs. Thomas Armstrong, of Winkelman, is home from Superior, where she was called by the illness of her daughter, Mrs. Robt. Jones.

Misses Viola and Ethel Brandis will leave on Sunday for Flagstaff. They will complete their work at the Normal this winter.

Mrs. Charles Tweed, who has been visiting in Hayden for several weeks, has returned to her home in Phoenix.

S. M. Bryan was here Thursday from Mesa, where he has a prosperous melon ranch.

Harry Thompson, of the Knight,

Thompson Co., is preparing to build two cottages for the use of the employees of the store. They have been occupying Ray Consolidated houses, but the demand for them is so great that employees of other companies will no longer be able to obtain them.

Mrs. V. N. Deering and children returned Thursday from Mesa, where they have visited relatives for several months.

Rev. Morrison has been notified that Dr. Adkinson, superintendent of missions for this district, will be here to hold quarterly conference on Saturday and Sunday, Sept. 18 and 19.

Mrs. Cora Ruhl and her mother left on Tuesday for Kansas City.

Harry Grevelle returned to Hayden Thursday after an absence of a year.

Mrs. Turner, of Ainsworth, Neb., is visiting her daughter, Mrs. A. B. Root. Mrs. Turner has been on the coast several months and is on her way home.

The picture "As Ye Sow," shown here on Tuesday night, had unusual local interest owing to the fact that Mrs. Marden, of Winkelman, is the daughter of the Rev. John Snyder, who wrote the scenario, and saw the picture for the first time that night.

Pat Arnold, who travels for the dry goods firm of Grant Bros., was in town this week on one of his regular trips.

Mrs. Richards, the wife of the telephone man, is visiting in Los Angeles.

On Friday afternoon Hayden was treated to a heavy rain accompanied by wind and lightning, which resulted in greatly cooling the heat for the remainder of the day.

Lee Burnett was in town on Friday from his claim in the mountains to remove Ray.

James Farmer is tearing down his shooting gallery, preparatory to moving it and his family to Tucson where he expects to locate.

## SOME SPRINKLER

"What was all the excitement over at your house at midnight last night?" "Aly brought a bunch of boys to serenade me, and by mistake they got beneath Papa's window and sang 'Sprinkle Me With Kisses.'"

"I'll bet they were humiliated when they discovered their mistake."

"Yes, papa sprinkled them with bird shot."—Houston Post.

## The Mines of Arizona

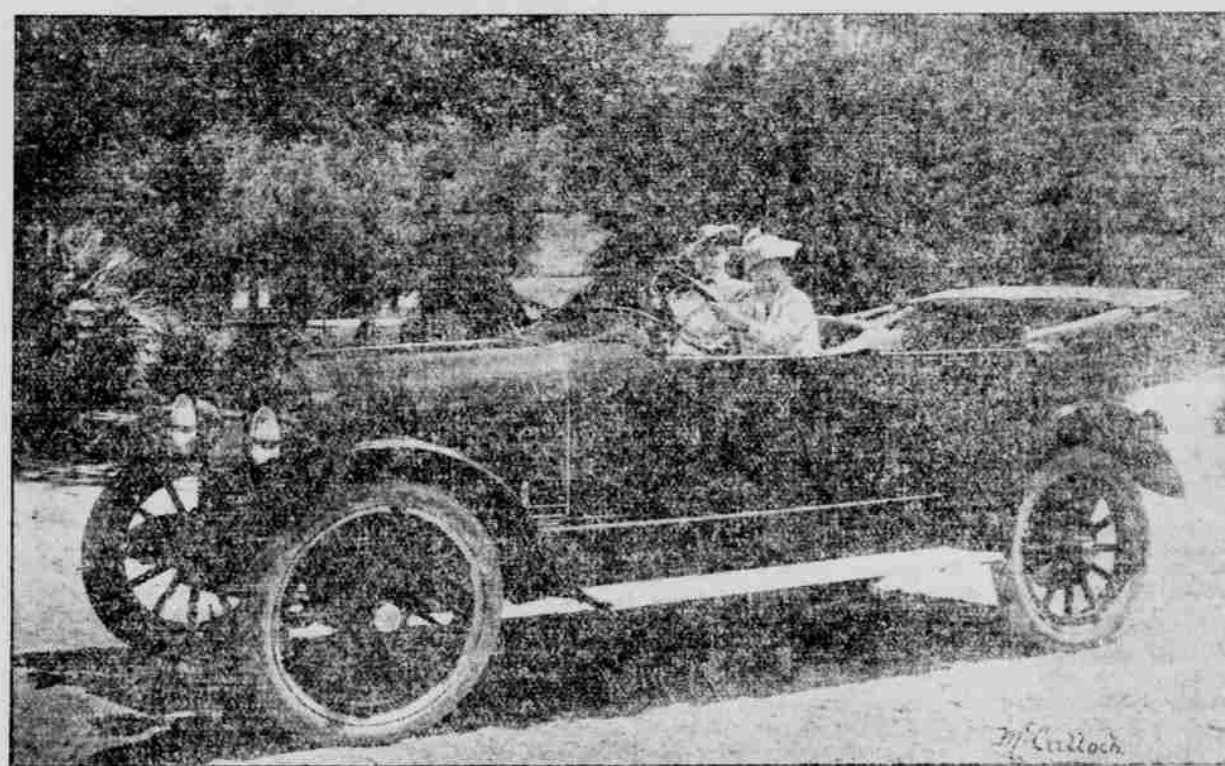

(Continued from Page Nine)

been made recently with falling bodies. It is stated, for instance, that a car of broken rock could be dumped into a shaft of a mine a mile deep without injury to a man standing directly underneath.

The reason is that the rock would never reach the bottom, but would lodge in the sides of the shaft on timbers that protrude a few inches at intervals—that is, the rock would not fall straight, since these shafts are exactly vertical.

In the experiments conducted two round metal balls were dropped into

## A TRIO OF BEAUTIES

Miss Winnie Burns and Miss Elsie Burns of Romaine Fielding's Lubin company looking happy in a Chesterfield Six. The two young stars of the picture world love automobiling and are equally at home behind the wheel of a car, or on board a bronco.

the center of a shaft by burning threads by which they were suspended, so as to give them no lateral motion. It was tried to catch the balls in a box of clay at the bottom of the shaft. None of them were caught. One ball was never found afterward. The other was found in the east wall of the shaft, only a few hundred feet below the surface. The explanation is that the earth is revolving from east to west, which gave the ball an eastward component in its fall, because a particle on the surface of the earth is traveling at a higher rate of speed than one nearer the center, although at the same angular velocity.—Tut-Bits.

The Tertiary Period

SAN FRANCISCO.—The geographical distribution of animals and the series of changes, geographical, climatic and geological, which brought about the present arrangement, were discussed recently by William Berryman Scott, professor of geology at Princeton University, in an address

before the American Association for the Advancement of Science.

"In the earlier part of the Tertiary period," he said, "Central America and the Isthmus of Panama were submerged, a broad sea separating North and South America. In consequence of this separation, South American animals developed along highly peculiar lines while North America, because of its frequent connection with the Old World, remained true to the type which prevailed over the whole northern hemisphere."
