EDDIE POWELL - HAS ARRIVED IN PHOENIX
Eddie Powell of the Fighting Marines arrived in Phoenix Tuesday night, having landed in the United States but a few days ago. Mr. Powell formerly was circulation manager of The Republican, going about two years ago to Boston to become manager of city circulation for the Christian Science Monitor.
Eddie came back to Phoenix a year ago last Christmas and was married to Miss Ruth Bandy, of the office staff of The Republican. After a brief honeymoon Eddie went to the coast and joined the Marines.
While in France he was wounded in action and spent some time in a hospital. He is here now on furlough and does not know how soon he will be discharged from the service.

My Dream of the West
I shall return unto my mountains vast,
My high Sierra's of the far flung west.
The hills in which with solitude I passed
My peaceful days, my happy days, my best.
I shall return unto my rugged grand
Old cliffs and caverns, gushing brooks and tarns.
Where few are met, but they with out-stretched hand
Give, live and spin their wild rough yarns.
When camped upon the e'er receding plains,
I oftentimes lie upon my couch and dream
About the lonely hills where I would fain
Rest all my days beside some friendly stream;
And then in memory I wend my way
Along the rocky climb of driver trails,
And standing on the highest peak survey
The silver rivers winding 'round the dales.
I see the pack-man driving home his mules,
And see the stealthy hunter after deer;
I see the angler lurking by the pools,
And see the cow-man rounding up his steers;
I visage e'er minutely in my dreams
Each elken pine bough rustling in the breeze;
The glistening, sparkling, foaming of the stream;
The checkered shadows of the giant trees.
I dream about the meadows circled 'round
By tall and sentry pine trees, watching e'er
To guard their friends, the deer, from hunter hand,
Or she-wolf prowling from her whelps and lair;
And then I lay me on the lush, soft green,
And of a crystal spring drink long and deep,
And little think I that 'tis but a dream
That vanishes away when breaks my sleep.
Oh dreams, oh dreams of mountains vast and far,
The one consolation of a soldier's life;
Let not my days my dreams of mountains mar;
But let me dwell upon the distant heights—
Let me dream of my mountains vast,
My high Sierra's of the far flung west;
The hills in which with solitude I passed
My peaceful days, my happy days, my best.
—By Pvt. Harry L. Shaw, Phoenix, Arizona.

A Phoenix orchestra has been secured to provide the music. Lee N. Newell will appear in a series of exhibition dances during the evening.

BOARD TAKES STEPS TO EQUALIZE PRICES
WASHINGTON, March 19.—Initial steps toward bringing about a reduction of prices and stabilization of the basic commodities were taken today at a conference of representatives of the steel industry, with the department of commerce's recently organized industrial board. The steel men, headed by E. H. Gary, chairman of the American Iron and Steel Institute, met with the board and later held a separate conference. Another meeting, with the board, will be held tomorrow. The attitude of the steel manufacturers toward the board's proposals was not announced. The board, however, in a statement issued after the joint conference said that "while an actual decision on a lowered scale of prices 'had not been reached,' satisfactory progress had been made."

Chairman Peek of the board was quoted as saying the steel men had shown an entire willingness to "co-operate in making effective any program that will hasten the return to normal conditions."

It was generally understood that the factor of labor costs entered largely into the discussion by the manufacturers of the board's proposals for stabilization of the industry and possible reduction in prices.

The statement issued by the board

PLANT
Hairy Peruvian Alfalfa Seed
Facts You Should Know
It is impossible to distinguish Hairy Peruvian from other varieties of alfalfa seed. We guarantee the stock we have to be genuine Hairy Peruvian.
Plants grow taller, stems larger with hair on full length of stem, also hair on under side of leaves.
Color of leaves grayish green, with veins in them showing very prominent. Best plant to grow where the water table is near the surface of your land.
On poor sandy land, Hairy Peruvian will give you cuttings of hay where other kinds will not.
Will yield one more cutting in a season.
Will yield from one to three more tons of hay in a season.
Will give you winter pasture for your hogs and cattle.
Will recover quickly after each cutting.
Will grow at a temperature 10 degrees colder than common.
Winter-kill at 10 degrees Fahrenheit.
Do not try to get a stand without first getting your land in shape.
Do not stunt your young plants for want of water.
Cut early and avoid having coarse hay with woolly stems.
