That Royal Baking Powder makes delicious, appetizing food—unquestionably wholesome.

Some women, however, do not know that food made with cheaper baking powders, containing alum and phosphate compounds, is often inferior in taste and texture;—many of the highest food authorities have declared alum baking powders to be unwholesome and injurious.

The safe and sure way is to use

Millions of doughnuts are being turned into dough in the drive of the Salvation Army for \$13,000,000 to be used as a home service fund.

Mrs. Vincent Astor and Mrs. J. Borden Harriman, two of the wealthiest women in America, recently led a doughnut drive in Wall

street, New York, selling the famous "sunkers" at big prices. The photo shows them with Commander Evangeline Booth.

### DISMISS COMPLAINT AGAINST INS. CO. AND WEST COAST AGENTS

The matter of the investigation of the Scottish Union and National Insurance company, their agents for the west coast, Bentley & Waterman, and A. H. McClure, of Yuma, relative to alleged violations of the state insurance laws, has been dismissed by the corporation commission.

A complaint was filed by the Barr agency, alleging that they had been appointed agents for automobile insurance for the state by the general agents, Bentley & Waterman, that they were to receive commissions of 25 per cent, pay sub-agents 15 per cent, and that the coast agents had issued Arizona policies, sending them to McClure for signature, and paying him 5 per cent.

Bentley & Waterman have no license to write insurance in this state, and the issue raised was whether Arizona insurance laws were not being violated. The parties were cited to appear by Commissioners Jones and Johnson, Chairman Betts dissenting on the ground that the Barr agency had a remedy at law for violation of contract.

May 22 Bentley & Waterman filed a statement that they had discontinued the practice complained of, and the same day the Barr agency asked that the matter be closed, the business

hereafter to be handled in the regular manner.

The commission holds that the practice complained of was, if not a violation of the insurance law, an evasion thereof, but that since the practice has been discontinued and will not be repeated, the matter will be dismissed.

### YUMA DISTRICT IS TO HAVE NEW SOURCE OF ELECTRIC POWER

Sanguinetti & Ewing, of Yuma, have been granted a certificate of convenience and necessity by the corporation commission for the distribution of electrical energy in the Yuma district, and to the Yuma Ice company, which they own.

Sanguinetti & Ewing, proprietors of the Yuma Ice company, also have large land interests in the Yuma district. They have a contract with the Sierra Power company of California for a large amount of cheap electric power which they desire to retail in the districts outside of Yuma where shallow well irrigation is practical. They claim that by the distribution of this power they will be able to have brought under cultivation a matter of 29,000 acres of land that is now unproductive.

The Yuma Gas, Light and Power company opposed the granting of this permit, on the ground that they are an established company, serving electrical energy to that community for many years, and willing to serve all who desire the power.

The commission, however, in granting the permit to Sanguinetti & Ewing takes the ground that it is not prejudicing the interests of the other company, for the reason that the com-

### WOMAN SIGNALLED FOR HELP FROM TOP OF SQUAW PEAK?

The discovery of the body of Mrs. Hedstrom on the summit of Squaw Peak on Sunday throws some light on

what seemed a mystery to the family of J. C. Woolsey, of 1225 East Fillmore street, last Tuesday night. About 9 o'clock that night a member of the family saw on the top of the peak what seemed to be a red light. Mr. Woolsey had a pair of good field glasses, and through them he discerned that the light was that of a small bonfire.

As he looked, the light seemed to come and go. It was at first thought that some one was passing to and fro in front of the fire. But then it occurred to him that that would not wholly obscure the light, and he decided that it was a bonfire built by Boy Scouts and that they were signalling by means of a blanket.

Mrs. Woolsey at the time suggested that there might be some relation between the fire and the missing woman of whom the newspapers had spoken, but that was not seriously considered and the family concluded that the fire was that of a Boy Scouts' encampment.

When it was learned that the aged woman had with her a steamer rug,

Mr. Woolsey believed that she was signalling at that time.

### BEAT COSTA RICA INVADERS

SAN JOSE, Costa Rica, May 27.—The Mexican general, Manuel Chao, and the Nicaraguan general, Segundo Chamorro, with the entire force of revolutionists attacked the Costa Rican government forces on the Jobo ranch, near the frontier yesterday.

There was heavy fighting for an hour, in which the invaders were defeated and retreated towards the frontier, leaving behind prisoners, dead and wounded, machine guns and rifles. The government troops are closely pursuing the revolutionists, whose morale is said to have been broken by their defeat.

### "There Ain't No Such Animal--"

Some years ago when Los Olivos was first introduced, and those large, handsome lots were offered for sale—many people said the same thing that Uncle Hiram did when he saw his first ostrich. "There ain't no such animal."

The original divergence from the staid city lot, to lots of such ample freedom was hard to comprehend. Like the man from Missouri "you had to be shown"—then the unique advantages were noticed and appreciated, as evidence shows.

There is only one Los Olivos in Phoenix. A tract laid out with the careful supervision to minute details, and guarded by the strict restrictions which have been critically enforced in Los Olivos, is not often repeated in any city.

As the present ad. is written there are over thirty thousand dollars worth of homes being constructed in Los Olivos.

There's A Reason—Let Us Show You.
