Worried feet cause half the ills and discomforts that harass the men and women of our age.

The Scholl "Foot-Eazer"

is a remedy. It is a scientific arch support on cushion that supports the muscles and tendons and gives them strength to carry the weight of the body at the foot arch.

It does away with all nervous and muscular strain and quickly replaces the natural elasticity to the foot and prevents flat-foot with its painful consequences.

Makes walking or standing absolutely comfortable, keeps shoes in shape and gives the instep a graceful arch.

The Scholl "Foot-Eazer" is made of two German Silver Springs, leather covered, and is springy, flexible and self-adjusting to all feet and can be easily slipped into any shoe.

They do not need tacking or pasting but are easily changed from one pair to another.

If you have any foot trouble whatsoever the Scholl "Foot-Eazer" will give you instant relief as well as rest and comfort.

All sizes for men and women, \$3.00 per pair.

We are headquarters for foot comfort and the Scholl "Foot-Eazer" is one of the principal means of conveying it to you. Let us prove it.
