WAIM'S PANACEA.—The following letter from Doctor John Howell, of Trenton, N. J., a regularly bred physician of scientific practice, will show his opinion of Swaim's Panacca, and his desire that his name may be used to recommond it the testimony which he gives in the following cases cannot fail to be interesting.

MR WM. SWAIM. Trenton, June 7th, 1827. Dear Sir-I have just received your letter of the 6th, re-questing an answer respecting the cases of Pulmonary affec-

tions, &c. that I some time ago mentioned to you. I am sorry that I am not able to comply with your request, as I keep no regular docket or register that I can refer to for the treatment and symptoms. But as far as I can recollect, I am fully persunded they were both in a very critical situation:—they com-plained of great pain in the thorax, and difficulty of breathing; they both had a distressing cough and a free expectoration of mucus. But since they have commenced taking your Panacea, they have experienced a wonderful change; the pain in the thorax is better, the cough is not so troublesome, and the ex-pectoration is lessened; they still continue the use of it, and I have no doubt, with attention to diet and dress, they will be restored.

restored.

My son, who is afflicted with an Epilepsy, I must say, since he has commenced with your Panacea, has not had a single return of his fits, now more than five weeks; and since the commencement of his disease he has never before went over ten days without having them. And I can say, your medicine has done him more good than all that he has taken for the last three years. I have given him the two bottles that you sent me, and I should be glad to know if I must continue the use of it any longer, and if so, you will oblige me by sending another bottle, as I shall be directed altogether by your opin

My son, a student of medicine, related a case to me this morning of a black man, who has had the King's Evil for four years, and is now cured by taking three bottles of your medi-

cine, as directed by my son. The black man is a laborer, living about five miles from this place.

I give you full liberty to publish this letter, if you wish it or as much of it as you think proper. And if my name can be of any use in giving your Panacea that character which it deserves, you may use it with pleasure, and I shall ever feel it my duty to recommend it to the public, as a safe and valuable medicine. Yours, most respectfully, JOHN HOWELL, M. D., &c.

From an intimate acwho may favor him with their orders. From an infinite ac-quaintance, for a number of years, (nearly eight,) with the business of type founding, he hopes to be able to produce type-equal to any offered to the printers of the United States. His prices, though low, will of course be the same as oth-ers in the same business. Nor will he attempt to violate truth,

or insult common sense, by pretending to any "increased fa-cilities in the manufacture;" (for there are no other "facilities" at present in this city, than there were twelve years ago; when type were from 40 to 50 per cent. higher than at present when type were from 40 to 50 per cuts inguer than at pres-ent,) nor have the "materials, used in making printing types, been so greatly reduced," as to bear any proportion to the reduction in the prices of type. But the reduction has been, and induced by competition, and an overbearing disposition in some of those founders, who have grown rich on the here-
