The Daily Citizen will be delivered in the city at the low rate of 20 cents per week, or for 75 cents per month, when paid monthly. These rates are less than those of any other daily paper in the territory.

Admiral Dewey has stirred up the German nation to the point of irritability.

There are no trusts in New Mexico. These things come along with strenuous civilization.

The president left Washington today. He will address the people of Chicago tomorrow.

The navy department has called for bids for the construction of three 16,000 ton battleships.

Active work on the Albuquerque Eastern will soon begin and the line will be completed this year.

May 5 will be a holiday in Albuquerque. The people will unite in trying to honor President Roosevelt on that day.

A Denver boy whipped a New York lad in a prize fight at San Francisco last night, and the mountain town is swelled with pride.

The tide of emigration from Europe is steadily in the direction of the United States. In March 64,000 emigrants landed at the port of New York.

Within two years Albuquerque will have three railroad lines eastward. At that time Memphis will be placed in direct rail connection with Albuquerque.

Of the 739,000 immigrants who landed in the United States during the calendar year 1920, 124,000 came from Russia. Italy furnished 201,000 and Austria-Hungary 186,000.

Delegate Rodey is doing good work in Washington for New Mexico. He is in close touch with all the departments and is leaving nothing undone that will be beneficial to the people.

About 16 per cent of the members of the next congress were the blue or the gray during the civil war. The proportion of the senate is 29 per cent, equally divided between former union and confederate soldiers.

The Denver News says that an astrologer by the name of Pfuhl has predicted all kinds of danger for Roosevelt on his western trip. A man with a name like that should not try so hard to live up to it.

The navy can't get enough surgeons—it is short about twenty-seven now and doesn't get as many applications as might be expected. The positions are open to any doctor between the ages of twenty-one and thirty who can pass the examinations. But they are not regarded as so desirable as army surgeonships by medical men, for one reason and another.

ONE MORE CONTINENT.

When it seems as if all the world were mapped with railroads crisscrossing the great continents there comes the announcement that it is almost certain, from the facts brought home by the Antarctic exploring ship Discovery, that there is a great and mountainous continent around the south pole. For years the eyes of the world have been directed toward the north and the gallant bands of men

who went into the gloom and the silence of the Arctic night to wrest secrets from nature. The south pole country has only been touched on its outskirts until recently. It was believed that there was a continent there because great cliffs had been skirted and volcanoes seen.

Recently, however, the Belgians sent a party to delve into the waters around the south pole, and then the British and Germans. The southern explorer has worse water to encounter than the north pole hunter, and more open water, behind him, when he wants to get back to civilization. Except for Australia, New Zealand and Tasmania, there is nothing behind him that is habitable until he gets to the Cape of Good Hope. This has always been a drawback, but fearless spirits, finding that the lands around the north pole have gradually been accurately mapped, will now turn their energies to the more inhospitable Antarctic.

MEXICO MODIFIES LAW.

The persistent agitation by the American press against the Mexican practice of imprisoning American railroad men in Mexico whenever an accident occurs and neglecting proper trial of their cases, has at last borne fruit. The president himself has proclaimed the procedure to be used in such cases hereafter, and the effect of his order will be greatly to facilitate the operation of the railroads, but most of all, to make less annoying and dangerous the life of the railroader, hence tending to attract a better class of workmen to the republic.

The rule heretofore has been, in case of an accident on a railroad, to arrest all the trainmen and throw them in jail, there to lie, in some cases, for months, without regard to the merits of their cases, or effort to ascertain the facts. So much latitude has been left to local officials in these matters that great injustice has at times been done, and a species of intimidation adopted by petty officers that has created strained relations between American and the Mexican authorities.

The president now orders that no suspicion shall of necessity rest upon trainmen in case of accident, and that they shall not be treated as criminals, but that an investigation shall immediately be had, and the responsibility fixed according to the facts. Trainmen shall not be imprisoned unless they are shown to be culpable, and then only in accordance with the forms of law. Proceedings are to be hastened, and personal rights respected in all cases, so that men innocent of any wrong may be properly protected.

American railroad men recently determined to carry their protest against existing conditions to the government itself. Representations made to the president have brought about the order as above noted. The change in policy is good cause for rejoicing among railroaders in both republics, and is highly creditable to the good judgment, sense of justice, and appreciation of international amity, possessed by Mexico's president.

THE COTTONWOOD.

The Denver Republican says that it is about time that Colorado people learned to appreciate the good points of the cottonwood tree. Because it grows so freely and so cheerfully disregards lack of care, the tree is regarded as but a poor thing, only good for sandbars in the rivers and hedgerows on ranches, and not to be compared with the elms and maples and ashes and other trees which grow naturally in the east, and grudgingly here. The cottonwood has one fault, that the platilute trees for a few weeks in summer shed a shower of cotton. But this fault is one which nurserymen could correct, but have not simply because they have not appreciated the tree. A staminate cottonwood sheds no cotton, and if only the staminate trees were propagated the cotton nuisance would be eliminated.

The cottonwood is among the handsomest of trees. It spreads its branches abroad, and the trunk towers toward heaven, making a perfect dome of foliage. Its branches are high, so that there is abundant circulation of air beneath. Its limbs are strong, so that no winds break them. It grows rapidly and always symmetrically. Its trunk is graceful in outline, and in winter it is one of the handsomest of the denuded trees. None of the freaks of our climate ever catches it napping. When snow storms in September tear the elms and maples literally limb from limb, the cottonwoods stand unscathed. They never fill their trunks with sap during a warm spell in winter, only to have them burst in the next freeze up. They never put out their buds until spring is certainly here. The glossy finish of their leaves bids insect pests begone, and their tough bark is too much for the borers.

A cottonwood lives and flourishes and is the home of birds and the shelter of men, until some man with an axe and a prejudice comes along and says, "Go to, here is a big cottonwood. Let us cut it down and plant a little maple."

POSITIVE PROOF

of the efficacy of Hostetter's Stomach Bitters in cases of Loss of Appetite, Belching, Heartburn, Indigestion, Dyspepsia, Insomnia, La Grippe or Constipated Bowels can be found in its record of cures during the past fifty years and in the hundreds of voluntary testimonials received annually. What it has done for others it will do for you. Try a bottle and see for yourself. Avoid substitutes. Our private stamp is over the neck of the bottle.

HOSTETTER'S STOMACH BITTERS

FROM HILLSBORO.

The Mining Situation in a Good Town of Sierra County.

Special Correspondence.

Hillsboro, N. M., March 30.—Word is received here today that R. H. Hopper, general manager of the Sierra Consolidated Mining Company, who is at present in New York City, will be here by June 1, ready to commence active operations upon the company's mining properties. This means that within three months Hillsboro will be in the midst of the most prosperous times in her history. The company is composed of some of the wealthiest and most conservative business men of New York state, with ex-Senator Warner Miller president. The company has a capital of \$3,000,000.

Dr. A. G. Brower, of Uteca, N. Y., and John Kasser, of this place, recently purchased from Messrs. Hall and Blitcke the famous Freiberg mine, the consideration being \$10,000. Mr. Kasser informs us that a 100 ton mill has been purchased and will be ready in sixty days to drop stamps on Freiberg ore. This property has in eight thousands of tons of perfectly free-milling gold ore running from \$4.50 to \$15 to the ton, and the ore bodies are large and continuous.

The machinery for the Prosper Gold Mining and Milling company's mill has arrived and Manager Hersch is straining every nerve to have it in operation in thirty days. The Cincinnati mine at a depth of 340 feet shows an ore vein of ten and a half feet in width, the ore averaging \$7 gold per ton. The Prosper Gold Mining and Milling company is a Cincinnati, Ohio, corporation, with a capital of \$1,500,000, with J. N. Mittendorf, of Covington, Ky., president. This gentleman visited the properties of his companies last week, and returned home much pleased with the very favorable report which he can make to his company, regarding this property.

Cattle Sanitary Board.

The New Mexico cattle sanitary board was in session Monday at the office of the secretary, J. A. Le Rue. Those members in attendance were: Col. E. G. Austen, Mora county; N. M. Chaffin, San Miguel county; W. C. Barnes, Colfax county; W. H. Greer, Grant county, and Secretary J. A. Le Rue.

Pneumonia is Robbed of its Terrors by Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time it will prevent an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

Was at Silver City.

W. T. McCreight, the hustling side-partner of Tom Hughes in the conduct of the Albuquerque Daily Citizen, was in Silver City Thursday afternoon looking after the interests of his bright publication. Mr. McCreight came up from Paywood, where he had been taking a well earned rest at the springs, and was feeling very much benefited as a result of his vacation.

The powder puff may help to hide the ravages of time but it avails little to hide the ravages of disease. When the face is disfigured by eruptions, the treatment must go below the surface to the blood, which is corrupt and impure.

Dr. Pierce's Golden Medical Discovery cures disfiguring eruptions which are caused by impure blood. It cures scrofulous sores, erysipelas, boils, pimples, eczema, salt-rheum and other eruptive diseases which impure blood breeds and feeds.

"I was troubled with eczema from the crown of my head to the soles of my feet," writes Mrs. Ella Quick, of Cass City, Tuscola Co., Mich. "I could not walk at times nor wear my shoes. Thought there was no help for me—at least the doctor said there was none. I went to see friends at Christmas time and there heard of the good that Dr. Pierce's Golden Medical Discovery had done for them, and was advised by my friend sent to the village and got a bottle and made me promise that I would take it. I took thirteen bottles of the 'Golden Medical Discovery' and ten vials of Dr. Pierce's Pleasant Pellets, and used 'Anti-Healing Salve,' which made a complete cure. It was slow, but sure. I was taking the medicine about eight months. I would say to all who read this: try Dr. Pierce's Golden Medical Discovery before wasting time and money."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pellets cleanse the clogged system from accumulated impurities.

He published a complimentary and interesting letter about people in Silver City in Saturday's issue.—Independent.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Alvarado Pharmacy.

To Reorganize.

Adjutant General W. H. Whiteman arrived in the city from Santa Fe. He is here with the view of reorganizing company K, First Infantry, and it is hoped that the organization will again be effected. It is rumored that Captain De Costa will again be asked to take the captaincy of the company, and should he be prevailed upon to again take up military duty the success of the company will be assured.—Las Vegas Optic.

Foley's Kidney Cure makes kidneys and bladder right. Don't delay taking. Alvarado Pharmacy.

Card from Mr. Bachechi.

Editors Citizen.
I noticed a few days ago that I was on the committee of the good government league. As I have not signed any list it seems to be a mistake, and I refuse to act on the same as I have never been consulted in the matter whatever.

Dreadful Attack of Whooping Cough.

Mrs. Ellen Harrison, of 300 Park avenue, Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Alvarado Pharmacy.

Prisoner Pardoned.

Governor Otero has pardoned E. T. Vick, several years ago sentenced to seventeen years in the penitentiary, for the murder of Dr. Ferris at Roswell. Ferris has brought Vick from Anna, Ill., to Roswell, and Vick found employment as a printer. One night Vick went into Ferris' drug store and quarreled with Ferris, finally shooting the latter through the body. Ferris dying soon afterwards. Vick was only 20 years old when the shooting occurred.

Due Notice is Served.

Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. B. H. Briggs & Co.; S. Vann & Son.

Mr. Bridgeman Surprised.

Monday evening at the home of Mr. and Mrs. Bridgeman, South Broadway, occurred a very pleasant social affair. It was in the nature of a surprise on the gentleman, it being his birthday. The guests were Mr. and Mrs. Money, Mr. and Mrs. Foutz, Mrs. Rutherford, Misses Alice Rutherford and Lucy Wardell, and Messrs. Ralph Springer, Alexander and Wardell.

Save the Loved Ones!

Mrs. Mary A. Vliet, Newcastle, Colo., writes: "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no need for it." Ballard's Horehound Syrup is the great cure for all pulmonary ailments. 25c, 50c and \$1.00, at Cosmopolitan Pharmacy, B. Ruppe.
