

EXPERT RIFFLE MAKES REPORT ON WATER WORKS

He Presented Some Interesting Figures--Special Committee Favors Purchasing Macadamizing Machine.

ACTION ON SOCIAL EVIL PLEASSED THE MINISTERS

Alderman Thomas Wilkerson, chairman of the special committee appointed some months ago to employ a water expert and ascertain the value of the Albuquerque Water Supply company plant and what a similar system would cost, last night reported to the council the progress of the committee. The other members of the committee are Aldermen Thomas Lanier and Louis Upton. Besides setting forth the figures furnished by the expert employed, the committee recommended that a similar plant would cost \$2,900,000, thus placing the wear and tear and depreciation of the plant now operated by the Water Supply company during the years it has been in service at \$32,336.

But Mr. Riffle, in his report, does not think the plant owned by the Water Supply company adequate to the growing needs of the city, and he sets forth in figures, in tabulated form, what would be the cost of a plant adequate to the growing needs of Albuquerque. In itemizing the equipment of such a plant, giving the cost of each of twelve different departments, Mr. Riffle finds that what he thinks would be an adequate plant would cost \$533,566. The report both on the old plant and what a new plant would cost, were very lengthy, so lengthy that every member of the council and the mayor objected to having them read at the meeting, and by the unanimous consent of the council the clerk was instructed to begin with the first ward and have them passed around among the councilmen so that each would have plenty of time to read them. Alderman Wilkerson said that the clerk could just pass him up when he came to the third ward.

However, the report of the committee was adopted and the clerk was ordered to draw a warrant for \$600 to pay for the services of the water expert, and the committee was authorized to open negotiations with the Water Supply company for the purchase of the plant. Alderman Hanley said that he would like to know what they would sell for.

No opinion was expressed last night as to what the council thought of the report of the expert. Regarding the costs of the report, it is understood that the Water Supply company is to reimburse the city for half of the expenses incurred by the expert.

Social Evil Question.
From the report of the special water committee, the council passed to the report of the social evil committee, of which Alderman Harrison was chairman. The report of the committee was very complete and so in accordance with the sentiment of the best people of the city that a committee of clergymen who had called at the council apartment for the purpose of seeing what was done with the question, called the chairman from the council chamber to congratulate him and the committee and to thank them.

As the clergymen left the city building, one of them was heard to say: "They would have laughed at us if we had proposed such a thing three years ago." This was not very complimentary to the council of 1902, but very likely the spokesman did not mean it exactly in that light, so enthusiastic was he over the good work in progress.

After the following report was adopted, the city attorney was instructed to draw up an ordinance covering the recommendations of the committee:

Mr. Mayor: Your special committee, to whom was referred the matter of the social evil in our city, have had the same under consideration and we make the following recommendations on this subject:

1. That no liquor license be granted to any house of prostitution.
2. That no minor be allowed to enter, approach or loiter about or near any such house or place.
3. That no prostitute shall accept or hold any person on the street or in any public place, anywhere.
4. That no prostitute shall appear on the street or in any public place in company with anyone.
5. That prostitutes be required to dress in subdued and modest attire on the streets or in any public place.
6. That no prostitute be allowed to enter any wine room.
7. That prostitutes be not allowed to sit, or remain in any way, in any door or window of their houses, or rooms.
8. That the system of collecting, demanding, or accepting cash bonds, or fines from suspects or their escorts be at once abolished.
9. That the said prostitutes be removed from their present quarters as soon as a more suitable place is agreed upon, and that they, the prostitutes, be allowed a reasonable time in which to make the change; said location to be in some part of the city (not too remote from the central part of town) where people will not be compelled to pass said houses of prostitution in going to or from said business section.

Hanley and Tiersch purchase of Street Macadamizing Machinery.
The special committee appointed to inspect the macadamizing machinery of D. J. Tiersch, located at Fort Wingate, reported favorably to the purchase of the machinery at \$1,450, which is several hundred dollars less than the price at which Mr. Tiersch offered the machinery to the city. The sub-committee was composed of Aldermen Hanley and Tiersch, and Mr. Hanley and Mr. Tiersch inspected the machinery on Sunday, returning to the city on Sunday night. They found every part of it in good repair.

The report of the committee was adopted, but this does not mean that the machinery will be purchased. The

POLICE THINK THEY HAVE SNEAK THIEF

H. J. Stewart Arrested Last Night--Believed to be the House Burglar.

TALLIES WITH A DESCRIPTION

The police arrested H. J. Stewart last evening and locked him up on the charge of vagrancy. The department believes, however, that it has in Stewart, the petty thief who has been committing annoying depredations about the city of late. Stewart answers the description furnished the police of the rooming house thief who has terrorized guests at these hostilities by a series of bold robberies lately. In The Evening Citizen yesterday appeared an account of a robbery at the Union house, and also at the Los Angeles lodging house where valuable articles and money were secured. Persons at the former house state that a young man closely resembling Stewart, was seen loitering about the place on the evening of the theft. It has been established that Stewart has been working lately, although he has possessed sufficient money to become intoxicated on. Only last Saturday he was arrested and locked up, and admits that he has not worked since, yet has not been out of money until last night.

NEW NATIONAL BANK FOR SILVER CITY

The American National will be the name christened a new bank at Silver City, the county seat of Grant county, in which J. B. Herndon, cashier of the State National bank of this city, will be interested.

Mr. Herndon has just returned from Silver City, where he conferred with A. F. Kerr, of Jacksonville, Texas, who is organizing the new banking company, which will be capitalized at \$50,000. As soon as a charter can be secured and the price of building selected, business will start in earnest. Mr. Kerr, who has been connected with many Texas banking institutions, will be cashier of the new bank. Among those to be associated with him besides Mr. Herndon, who purchased a block of stock, are the presidents of the City National bank of San Antonio, and the City National bank of Austin.

POLICE COURT

Juan Sanchez, Abraham Lopez, Jesus Lopez, Ferdinand Lopez and Parthenio Garcia, the boys who were arrested in the Santa Fe yards by Special officers Wells and Dayards, charged with jumping on and off moving trains, were arraigned before Judge Crawford yesterday and discharged with a reprimand.

WHIPPED A TWO YEAR OLD COLT

A. L. McKee Accuses T. B. Thompson of Maltreating a Horse Yesterday.

E. VASQUEZ WAS ALSO ARRESTED

Several complaints were received by the police yesterday relative to the maltreatment of animals by apparently over-zealous drivers. In consequence, two arrests followed, namely, that of T. B. Thompson, a colored man, and E. Vasquez, a shoe dealer on First street.

A. L. McKee, an aged man, caused the arrest of Thompson. He alleges that the negro was abusing a 3-year-old colt shamefully. Mr. McKee says that Thompson was whipping the animal unmercifully when his attention was first attracted. "Then he took the butt of the whip and clubbed the colt over the head with it until he felled it to the ground. Not content with this," Mr. McKee explained, "he 'booted' the animal in the head with his heels while it was down." The defendant claimed that the colt was balky, and he used the whip with discretion.
