We Fit Eyes With Proper Glasses

There is only one kind of glass, or lens, that your eyes require. Any other kind is apt to do them an injury. We fit each eye separately by unerring tests that reveal every defect. Our knowledge of the human eye is sufficient to insure that you receive the glasses that you need.

Let Us Examine Your Eyes

There is no charge for advice, and our charges for glasses are as small as the cost of the glasses and frames you require will permit.
