

BRYAN TO CAUSE ANOTHER BOLT

His Leadership of Democrats This Year Will End Disastrously.

Washington, D. C. May 23.—The Washington Post, (Democratic,) says editorially: "It is reasonably certain that another contest under Bryan's leadership means another bolt in the east and middle states. It may not be as pronounced as in 1896 but will be formidable. Mr. Bryan will have to take some of the medicine Judge Parker was obliged to take four years ago. Judge Parker and Governor Johnson and other leaders actively now against him, will support him, but will not be able to bring all of their followers into line. Mr. Bryan supported Judge Parker, but tens of thousands of his admirers either sulked or voted for Mr. Roosevelt."

It is the general belief that the anti-Bryan campaign is largely financed from New York, and by men who have not been Democrats for a dozen years. They openly opposed Mr. Bryan in both of his races, and held their hands in the race. Their present activity is with the view of defeating Mr. Bryan for the nomination. If they fail in that they are certain to support the Chicago nominee no matter who he may be; and it is a question if any Democrat would command their support this year. Their object is to dispose of Mr. Bryan, and Judge Taft's nomination, upon which at present they are counting, will be entirely acceptable to them.

"What Mr. Bryan in a vigorous tussle at Denver might uncover, therefore would be the number of those engaged in this work and the extent of their performances. They profess, and call themselves Democrats; but after the race is made up and the horses are off their money will be laid on, and their hopes will center in the Republican 'nag'."

Touching the course of Congress this session, Mr. Bryan said: "I am directly approve the Democratic filibuster in the House, under the leadership of Mr. Williams. It has focused the attention of the country mercilessly on the fact that the Republican party is unable to give the people welfare measures which the people want and which a Republican president has vigorously urged. It has written the Republican party into the record indelibly."

When Mr. Bryan was joked about the Democrats being "quivered" when they refused to vote for the Democratic substitute currency bill, the Ireland currency bill; he said that the omission of two words was the cause of the Democratic refusing to vote for their own bill.

An ineffectual effort was made to ascertain what two words Mr. Bryan referred to. Mr. Williams, the Democratic leader, who had presented and pressed the bill as the Democratic substitute, said he had no idea what these two words could be. An attempt to ascertain such a plain fact from Mr. Bryan himself proved unsuccessful, and he refused to talk any further.

Legislation is being put through the House nowadays by the "omnibus method." There are omnibus pension bills, omnibus navigation bills, omnibus public building bills, omnibus land bills, and various other omnibus measures all saving rolls and insuring a short cut to destination. According to figures of Republican leaders practically three weeks have been taken in rolls since April 1, as a result of the Democratic filibuster, costing several hundred thousand dollars; yet they claim to demand economy.

Attorney General Bonaparte today announced that test cases on the commodity clause of the Hepburn law would be instituted by the government before the United States circuit at Philadelphia. The attorney general asks the judges to agree upon a date after June 15 for a hearing of these cases. Mr. Bonaparte will appear personally to press the cases.

NEW PICTURE OF ATLANTIC FLEET'S NEW COMMANDER

The new man at the wheel of the great Atlantic fleet is Rear Admiral Chas. S. Sperry, who succeeded Bob Evans and will have the great honor of commanding the fleet on the trip around the world. Admiral Sperry is one of the most popular men in the navy.

and hopes to secure an early decision on the constitutionality of the commodity clause.

"This investigation will have to be brought to a close within the next few days, if we are to make a report at this session of Congress," said Representative Mann, chairman of the special House committee inquiring into the wood pulp and print paper question today. "I have letters from a number of people who wish to testify, but we will not have time to hear them. The taking of testimony probably will close Monday or Tuesday."

Statistics compiled by the postoffice department show that 195,182 miles of roads are covered by rural routes in the state of North and South Carolina, Georgia, Florida and Alabama. It is also shown that since the introduction of rural delivery in these states land values have increased an average of 35 per cent, and that considerable sums of money have been spent in improving roads. Assistant Postmaster General D. C. Gray says that, due to the topography of South Atlantic and Gulf states, the nature of the soil and drainage prevailing, the improvement of highways is a difficult proposition.

The seat of Lewis Emery, Jr., a delegate to the Chicago convention from the Twenty-first Pennsylvania district, is to be contested by the friends of Senator Knox because Emery has declared that he will vote for Taft. Emery is the man who ran for governor of Pennsylvania on the Democratic fusion ticket in 1906 and was defeated by Edwin S. Stuart, the Republican candidate. His right to sit in the Republican national convention will be contested on the ground that he is not a Republican and does not subscribe to the Republican policies. Representative James P. Burke of Pittsburgh, who is the manager of the Knox campaign, said: "Lewis Emery, Jr., a former candidate for Congress on the Democratic ticket, and the last Democratic candidate for governor of Pennsylvania, whose platform declared that 'the only prominence the administration of Theodore Roosevelt has attained has been by the feeble and pretended application of the principles of William J. Bryan, the great Democratic commoner, who is now regarded as the certain successor of Theodore Roosevelt' has declared for Taft. Having learned that his right to sit in the Chicago convention is about to be contested on the ground that on the only question with which the Chicago convention has to deal, that is, the successor to Theodore Roosevelt, Mr. Emery is already on record committed to William J. Bryan, he has privately declared his purpose if seated, to vote for Secretary Taft, whose name he proposes to substitute for that of Mr. Bryan in his new declaration as to who shall be the certain successor of Roosevelt."

"Through the powerful speeches of Senator Knox and the thoroughly aroused resentment of the Republicans of Pennsylvania against this attack upon the Roosevelt administration, of which Senator Knox has been a part, Mr. Emery was overwhelmed, is defeated and Edwin S. Stuart, one of the ablest governors Pennsylvania has ever had, was triumphantly elected."

"Mr. Emery's platform was doubly offensive to the Pennsylvania friends of Senator Knox because it was the only political platform enunciated in any state in the Union that pictured the president as a weak and feeble pretender. And in his speeches in Pittsburgh on October 27 and in Philadelphia on October 29, near the close of the campaign, Senator Knox completely exposed Mr. Emery's political duplicity and riddled his claims to any sort of recognition from either party in Pennsylvania."

"Mr. Emery's avowed purpose, therefore, to again ignore the wishes of the Republicans of Pennsylvania is not astonishing, but he will be compelled to go to Denver, where he is qualified to enter the Democratic convention, and not to Chicago, where Republicans only are entitled to seats."

HIGHLANDERS' REAL PHENOM

This young pitcher has been doing wonderful work for Clark Griffith's New York American league club. All the eastern teams were easy for him, and he trimmed the Cleveland outfit, the first western club he tackled, without a bit of trouble. So far he has not lost a game, and nearly all his victories have been shut outs.

LUNA COUNTY FARMERS TO ORGANIZE

Will Incorporate and Work Together for Betterment of Crops and Markets.

Deming, N. M., May 23.—A second meeting of the farmers of Luna county was held in the Adelphi club rooms Saturday and was fairly well attended.

The meeting was called to order by the president, J. P. Miller. In the absence of Mr. Atkins, the secretary, A. S. Booker was elected secretary pro tem.

The report of the committee on by-laws and ordinances was called for and read by E. P. Shull, chairman of the committee. The committee had prepared quite a number of by-laws and ordinances, all of which were endorsed. Some things which the committee wished to insert were left for further consideration, owing to lack of time on the part of the committee.

The question as to the advisability of incorporating was entered into quite freely. No one offered any objections, although it seemed that some had not thought of it. Mr. Shull stated that it would cost the association some \$40 or \$50 to incorporate, but added that he had never gotten any money out of anything that he didn't first have to put some money into it, and declared that those who entered into this association would find within a few years that they were realizing ore from their investment than from anything they ever invested in. He stated that the capital stock could be issued in the form of notes, payment on which would probably never be called for, and by as many as fifty men taking \$40 worth of the stock the amount of a \$2,000 stock would be in hand, which was the amount the committee asked for. The money for incorporating, it was suggested, could be raised by taxing each

Mr. Business Man

Let us present a few facts on the subject of advertising for your consideration

Next to having goods of merit to sell is the importance of letting the public know that you have them. Here is where careful thought should enter into the proposition. Much money is wasted by the thoughtless choice of advertising mediums. In every city is the clever solicitor for programs, calendars, handbills, and all sorts of schemes in which your ad may look pretty, but where it is not read, and consequently brings no returns. When you buy newspaper space you are sure that your advertisement will go into the homes of the subscribers and will be read by them, and, if you have what they want, they will come to your store and buy.

The same good judgment should govern in your choice of newspapers. We maintain that the evening paper is the better medium, because it goes to the home at a time when the entire family has time to read it and plan a shopping trip for next day.

The Albuquerque Citizen

Goes into the home in the evening and is read there where the whole family has a chance to see it. A morning paper is often carried to the office by the man of the house, who does not have time to read the ads, but only skims over the news headings.

We have a large number of letters giving the opinions of big advertisers who use evening papers almost exclusively. We will publish these letters from day to day. Their views are valuable.

EMERY, BIRD, THAYER DRY GOODS CO.

Kansas City, Mo.

"We consider the evening paper the best medium for a department store advertisement, although such departments as men's clothing and furnishings seem to get very good results from a morning paper. The Kansas City Star (evening) and the Kansas City Times (morning) are both delivered to the homes at the one subscription price. One is as good as the other from a newspaper standpoint, but by observation I find that the majority of men carry off the morning edition to read on the car when going to business, while on the other hand the nimble housewife has plenty of time to read the evening paper, and will thoroughly digest a department store ad."
