Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

The Effects of Mental Exhaustion.

Many diseases, especially those of the nervous system, are the products of daily renewed mental exhaustion. Business avocations often involve an amount of mental wear and tear very prejudicial to physical health, and the professions, if ardently pursued, are no less destructive to brain and nerve tissue. It is one of the most important attributes of Hostetter's Stomach Bitters, that it compensates for this undue loss of tissue, and that it restores the energy to the brain and nerves. The rapidity with which it restores mental vigor, and the physical vitality it imparts, are of the highest order. Besides increasing vital strength, it combats nervous debility, and prevents the formation of disease. It is a powerful tonic, and a medicinal stimulant and remedy.

All kinds of legal blanks, deeds, justice of the peace blanks, note books, etc., all stock at the New Mexican office.

Epith.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel that they owe their restoration to health to the use of the great alternative and tonic. If you are troubled with any disease of kidneys, liver or stomach, or if, in short standing, you will surely find relief by use of Electric Bitters. Sold at 25c and \$1 per bottle at C. M. Creamer's drug store.

Round trip tickets to Las Vegas hot springs and return, good for ninety days, on sale at \$5 at A. T. & S. F. railroad office.

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center, sanitary, archiepiscopal see, and also the military headquarters. An Indian pueblo had existed on the site previous to the 15th century. Its name was O-ah-phe, but it had been abandoned long before the Spanish time. The Spanish town of Santa Fe was founded in 1692. It is the second oldest European settlement still extant in the United States. In 1804 came the first venturesome American trader—the forerunner of the great line of merchants who have made traffic over the Santa Fe world-wide in its celebrity.

THE CLIMATE

Of New Mexico is considered the finest on the continent. The high altitude insures dryness and purity (especially adapted to the permanent cure of pulmonary complaints, as hundreds will be witness), and by traveling from point to point almost any desired temperature may be enjoyed. The altitude of some of the principal points in the territory is as follows: Santa Fe, 7,047; Costilla, 7,774; Tierra Amarilla, 7,555; Glorieta, 7,587; Taos, 6,950; Las Vegas, 6,452; Chamaro, 6,489; Bernalillo, 5,791; Albuquerque, 4,918; Socorro, 4,650; Las Cruces, 3,814; Silver City, 3,946; Ft. Stanton, 5,800. The mean temperature at the government station at Santa Fe, for the years named was as follows: 1874, 48.9 degrees; 1875, 48.6 degrees; 1876, 48.1; 1877, 48.3; 1878, 47.6; 1879, 50.6; 1880, 46.6; which shows an extraordinary uniformity. For tubercular diseases the death rate in New Mexico is the lowest in the union, the ratio being as follows: New England, 25; Minnesota, 14; Southern States, 6; and New Mexico, 3.

DISTANCES.

Santa Fe is distant from Kansas City 889 miles; from Denver, 328 miles; from Trinidad, 216 miles; from Albuquerque, 85 miles; from Deming, 318 miles; from El Paso, 240 miles; from Los Angeles, 1,032 miles; from San Francisco, 1,281 miles.

ELEVATIONS.

The base of the monument in the grand plaza is, according to latest corrected measurements, 7,015 feet above the level of the sea; Bald mountain, toward the northeast and at the extreme northern end of the Santa Fe mountains, 12,661 feet above sea level; Lake Pecos to the right (to the Santa Fe creek has its source), is 12,045 feet high; the divide (Tesque road), 7,171; Agua Fria, 6,489; Cieneguilla (west), 6,025; La Bajada, 5,514; mouth of Santa Fe creek (north of Pena Blanca), 5,225; Santa Rita mountains (highest point), 10,603; Old Mans, 6,801; Los Orlizos mountains (south), 5,584 feet in height.

POINTS OF INTEREST.

There are some forty various points of more or less historic interest in and about the ancient city.

The adobe palace stands on the spot where the old Spanish palace had been erected shortly after 1692. Flat ancient structure was destroyed in 1680 and the present one was constructed between 1697 and 1719.

The chapel of San Miguel was built between 1630 and 1693. In the latter years the Indians destroyed it. Fully restored in 1711, it had previously, and after 1693, been the only Spanish chapel in New Mexico. It still remains the oldest church in use in New Mexico.

The walls of the old cathedral date in part from 1622, but the edifice proper is from the past century.

Old Fort Marcy was first recognized and used as a strategic military point by the Pueblo Indians when they revolted against Spanish rule in 1680 (drove out the enemy after besieging the city for nine days). The American army under Kearney constructed old Fort Marcy in 1846.

Fort Marcy of the present day is garrisoned by two companies of the 10th U. S. infantry, under command of Col. Snyder, and there at 9 a. m. daily occurs guard mounting, a feature of military maneuvering of interest to the tourist.

Other points of interest to the tourist are: The Historical Society's rooms; the "Garita," the military quarter; chapel and cemetery of Our Lady of the Rosary; the church museum at the new cathedral; the archbishop's garden; church of our Our Lady of Guadalupe with its rare old works of art; the soldiers' monument, monument to the Pioneer Path-Finder, Kit Carson, erected by the G. A. R. of New Mexico; St. Vincent hospital, conducted by Sisters of Charity; and the Orphans' industrial school; the Indian training school; Loreto Academy and the chapel of Our Lady of Light.

The sight-seeer here may also take a vehicle and enjoy a day's outing with both pleasure and profit. The various spots of interest to be visited are Tesque pueblo, asking in the divide en route; monument rock, up in picturesque Santa Fe canon; the Aztec mineral springs; the turquoise mines; place of the assassination of Governor Perez; San Ildefonso pueblo, or the ancient cliff dwellers, beyond the Rio Grande.

THE CITY OF SANTA FE

is making a steady modern growth; has now a population of 8,000, and has every assurance of becoming a beautiful modern city. Her people are liberal and enterprising, and stand ready to foster and encourage any legitimate undertaking having for its object the building up and improvement of the place. Among the present needs of Santa Fe, and for which liberal bonuses in cash or lands could undoubtedly be secured, may be mentioned a canning factory; a wool scouring plant; and a tannery. Skilled labor of all kinds is in demand, and real property, both inside and suburban, is steadily advancing in value.

Many diseases, especially those of the nervous system, are the products of daily renewed mental exhaustion. Business avocations often involve an amount of mental wear and tear very prejudicial to physical health, and the professions, if ardently pursued, are no less destructive to brain and nerve tissue. It is one of the most important attributes of Hostetter's Stomach Bitters, that it compensates for this undue loss of tissue, and that it restores the energy to the brain and nerves. The rapidity with which it restores mental vigor, and the physical vitality it imparts, are of the highest order. Besides increasing vital strength, it combats nervous debility, and prevents the formation of disease. It is a powerful tonic, and a medicinal stimulant and remedy.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.
