The Secret of Koch's Lymph.
BERLIN, Jan. 16.—It is announced that Professor Koch will publish the ingredients which enter into the composition of his famous lymph.

Parrell Wins It Up.
LONDON, Jan. 16.—The Star to-day says that Mr. Parrell has definitely and finally abandoned all idea of retaining the leadership of the Irish party.

Receiving Passes.
LANSING, Mich., Jan. 16.—A bill is pending in the Legislature prohibiting the issuing of railroad passes to numbers, under penalty of a fine not less than \$1,000 nor more than \$10,000. The law also applies to all State officers and judges courts of record. If the passage of the bill is reported to a like line of the year's imprisonment, at the option of the court.

The Silver Bill Passed.
WASHINGTON, Jan. 16.—The senate passed the silver bill by a vote of 42 to 20. The bill is a free coinage measure, pure and simple; free from all the national bank and bond legislation contained in the financial bill. With the exception of slight technical amendments and the omission of the provision for covering in to the treasury the national bank redemption bond, the bill is like that passed by the senate last year, which was the basis of the compromise embodied in the present law.

A Colorado Racket.
DENVER, Colo., Jan. 15.—Before leaving the assembly halls today, Speaker Hannah swore in ten deputy sergeants at arms and left them in position of the chamber. Soon afterwards twenty Pinkerton detectives were sworn in and sent up to assist in holding the fort. The "combine" have tiny armed men in the lobby and outside of the building, and the slightest rinder will result in a battle. The state militia have been ordered out and are now camping on their arms at the armory.

The Elections Bill.
WASHINGTON, Jan. 15.—The total vote cast last night in the senate, on Mr. Hoar's motion to take up the elections bill, was 60, exclusive of the vote of the Vice President. Twenty-two senators were recorded as absent, including twelve republicans and ten democrats. As a matter of fact, Senator Inalls was present, but refrained from voting, and four of the republican senators, while not in the chamber when the vote was taken, were in the city. The actual republican absentees were seven in number: Stanford, Blair, Chandler, Farwell, Moody, Pettigrew, Pierce and Squire. The republican vote was 33 (exclusive of the Vice President) or fifteen less than a quorum, so that if the democratic senators should resort to the plan of refusing to vote, and these are joined by Senators Stanford, Teller, Wailes, Jones of Nevada, Stewart and Washburn (the republicans who voted with them last night) the advocates of the elections bill would require the attendance of six of these seven actual absentees before they could proceed with the measure or could act upon the cloture rule.

CONDENSED NEWS.

President McGrath of the Kansas Farmers' alliance has been declared diametric in the matter of the "Turrer" letter.

The abandonment of Fort Lowell, seven miles east of Tucson, has been ordered by the secretary of war. The citizens of Southern Arizona are making a strong remonstrance.

Colonel J. M. Eddy, general manager and receiver of the International & Great Northern railroad, died at Pasadena, California.

On assurance of General Miles that no more danger to settlers is anticipated, four companies of Nebraska militia stationed on the frontier are ordered to return home.

The Behring sea, controversy got into United States supreme court.
Wyoming has appropriated \$30,000 for the World's Fair.

A rough, Hatley McCoy, shot and killed Police Inspector Hawley at the door of the Colorado house of representative day before yesterday.

ADDITIONAL LOCAL.

The New Pastor.
A kindly note from Rev. Thos. Harwood, superintendent of the M. E. church missions in New Mexico, informs the New Mexican that the Rev. C. J. Mills, late professor in the Albuquerque college, has, by invitation of the Methodist people in Santa Fe, been appointed pastor of this church here. Mr. Mills came to New Mexico about two years ago in search of health. Thinking himself nearly well he accepted the professorship of the Albuquerque college at the beginning of the school term in 1888, and notwithstanding his hard work in the school, he has gradually grown stronger and is now quite recovered. The professor's last pastoral work prior to coming to New Mexico was Waterville, Me., where he had a church membership of some 400 persons, a large Sunday school and a salary of \$1,300 and parsonage. If Mr. Mills can only retain his health, the Santa Fe people may well congratulate themselves in securing his services as pastor of their flock and people.

AGAINST FREE LEAD.

The Miners of New Mexico Speak Up Earnestly—Strong Resolutions Adopted.

To the Editor of the New Mexican.
Deming, Jan. 14.—There was a very fair representation of the mining districts of New Mexico at Deming on Monday last, and proxies by letter and telegraph were received from others of the most important camps. The abandonment of trains on the railroad on Monday, resulting in cutting off many miners that would have been there if the train had run as usual.

The committee on resolutions appointed at the first session on Monday reported the following morning at 10 o'clock the following which were presented by Walter C. Hawley, the chairman of the committee; and which, in order that they may be given the widest possible circulation, the NEW MEXICAN is requested to publish:

Whereas, We are informed that efforts are being made to have the tax by the McKinley lead ore seeking entrance into the United States, we would respectfully present for the consideration of congress the following brief statement of facts:

1st: Prior to the legislation that resulted in placing the tax upon Mexican lead, there was not a lead mine in the territory of New Mexico working to a profit. Miners at several good lead mines had abandoned their workings as they found that they could get Mexican lead produced by peon labor cheaper than they could mine it at home.

2d: As soon as it became apparent that the Mexican lead would have to pay the tax, the miners began to recover their unworked mines in this territory, and so far as we are able to judge, they have without exception been put in profitable condition.

3d: Mining camps that have been for years deserted, at once showed signs of activity. Miners who had been without means to develop their properties because the price paid for lead had been too low, were at once enabled to begin operations.

4th: The vast lead ore bodies that have been exposed during this short season of great activity have surprised all of us. There has been shown up twice as much lead ore as at any previous time, and more than we believed to exist. This is particularly true of the San Pedro, Magdalena, Cook's Peak, Florida, Hachita and Pinos Altos districts.

5th: There has then, by reason of this better price for lead, sprung up an almost entirely new industry in this territory. The lead produced for the year 1890 will almost represent the gross profits of the entire mining industry of New Mexico for the year.

6th: This new branch of the mining industry which has begun to be developed so rapidly and which holds much promise to us as miners so long as the Mexican ores are compelled to pay the duty, has not, in our opinion, flourished at the expense of miners of other classes of ores. They are now being treated better, their price for lead, sprung up an almost entirely new industry in this territory. The lead produced for the year 1890 will almost represent the gross profits of the entire mining industry of New Mexico for the year.

7th: It is our belief that there is a sufficiency of lead ores in New Mexico to supply all of the needs of the territory.

Therefore, we
Resolved, That we most earnestly petition the congress of the United States to protect our new industry of lead raising in New Mexico by refusing to allow the lead ores of Mexico produced by peon labor to come in without taxation, and that the tax be not reduced, as the margin for profit now worked is only such as insures a reasonable profit to the lead miner.

The resolutions were freely discussed and adopted without a dissenting vote.

F. M. SMITH, Secretary. B. Y. MCKINLEY, Chairman.

Citizens Denounce It.

To the Editor of the New Mexican.
GOLDEN, N. M., Jan. 14.—Hon. J. B. Mayo arrived home to-day, and his coming was made the cause of a significant demonstration. His friends regardless of party and the Republican leaders gave him a hearty reception. They denounced in the most severe manner the action of the sixteen members of the legislature of unseating Messrs. Mayo, Read and Young, and thus countenancing and aiding the bullet, box steal and profiting by it for partisan purposes; thus setting at defiance the wishes of the people of the territory. They also denounced the two men, Gable and Easley, severely for obtaining by fraud the two seats belonging to Messrs. Read and Mayo who were chosen by the people and seated by the supreme judge and territorial secretary.

If Your House is on Fire

You put water on the burning timbers, not on the smoke. And if you have catarrh you should attack the disease in the blood, not in your nose. Remove the impure cause, and the local effect subsides. To do this, take Hood's Sarsaparilla, the great blood purifier, which radically and permanently cures catarrh. It also strengthens the nerves. Be sure to get only Hood's Sarsaparilla.

ROUND ABOUT TOWN.

The following notaries have just been appointed: Wm. S. Ryan, Roswell, Chaves county; Geo. W. Mills, Silver City, Grant county; Frank McKee, Albuquerque, Bernalillo county; Chas. A. Kousoun, Winfield S. Williams, Socorro, Socorro county.

Any scheme that contemplates the improvement of Santa Fe would be defective if not taking into account the establishment of water storage reservoirs and artesian wells. Ten chances to one are in favor of success of the latter, if wisdom is displayed in selecting location. As for the reservoirs, there is no possible question of their utility. Oceans of water will go to waste in the spring, hence it is time to be discussing these matters.

This is a vital time for the capital city, for certainly local property holders can not expect outside investors to come in here when no effort is made to encourage them by fixing reasonable prices on real estate. If mistakes in the past count for anything the leasing business men and property owners will not make any more such mistakes.

F. G. Smith, the piano tuner, is in the city. He reports that his overcoat containing his purse with \$180 and checks to the amount of \$400, was stolen from him on the train between Cerrillos and Lamy. He offers a reward of \$100 for the recovery of the property and the detection of the thief.

For-man Holloway, of the Edison Electric company, has removed his family from Denver to Santa Fe, and has several men at work getting things in shape for stringing the wires. The poles have all been delivered, and the work of setting them up begins next Monday.

The governor has received a letter from a lady in England asking for information as to the whereabouts, if alive, of W. T. Whitlock. When last heard of he was in Arizona, but as inquiries there have proved fruitless, it is supposed that he may be in New Mexico. Any information regarding him will be thankfully received and forwarded to the proper quarter.

Messrs. Ramsey & Burnham of the Palace hotel are enjoying a very good patronage these days and the guests at that first class hostelry are well satisfied.

Dyspepsia and Torpid Liver.
Nathaniel Hyatt, Insurance Department, Albany, N. Y., writes:

"I have been a great sufferer from dyspepsia, water brash, acid stomach and constipation for the last fifteen months. Some time ago I read in one of Brandreth's Calendars the case of a gentleman in Albany who was cured of a similar affliction by using Alcock's Porous Plasters. Knowing the gentleman referred to, I purchased two—one I put on the pit of the stomach and two on my right side. I wore them a week, then took a bath and removed the plasters, I washed the place with cologne, rubbed them dry and then applied fresh Alcock's Porous Plasters. I found my appetite and digestion much improved in two weeks; in three weeks my bowels became regular and, after using the plasters for four weeks, I found myself entirely cured."
