DEPARTMENT HEADQUARTERS

Gen. Schofield's Opinion of the Future Use of the Military Post at Santa Fe.

A Communication from the Secretary of War—Army Changes this Spring that will Prove Beneficial.

With each passing day the outlook for the location here of department headquarters grows brighter. The latest significant utterance on this subject comes direct from the war department in a letter bearing date of the 3d instant, and addressed to the governor and signed by Hon. Redfield Proctor, secretary of war.

This letter is written to Governor Prince in response to a telegram protesting against the removal of troops and a letter of February 17 transmitting a copy of the joint resolution passed by the legislative assembly protesting against the abandonment of Fort Marcy, and contains this paragraph: "In reply I beg to advise you that upon reference of the matter to the major general commanding the army, he remarks as follows: 'In my judgment there are no present military reasons for the maintenance of a garrison of troops at Santa Fe, and it does not seem probable that a garrison there will be necessary in the future; but for many reasons that place is, and will be, a very desirable one for the location of the headquarters of a department or district, and I therefore recommend that the public buildings at that place be retained in the possession of the war department, so that they may be occupied for whatever military purpose they may be required at any future time.'"

OFFICIAL GATHERINGS.

Delegate Joseph's Return from Washington—Mr. Catron on the World's Fair Appropriation—Capital Notes.

Delegate Joseph arrived last night from Washington en route to his home at Ojo Caliente. To-day he was called upon by a large number of citizens and had a kindly word of greeting for all. Mr. Joseph is greatly elated over the passage of the land court and Indian deprecation claims bills, two measures for which he worked.

John McDonough, of Denver, lately a visitor in Santa Fe, and well known as the associate of Mr. McDonough, who carries the blood of the sturdy Scots in his veins and who is every inch a man. He would make a mayor of whom the people of Denver might well be proud, and he would give an administration clean, able and conservative.

Mr. Simon Nusbaum, so well known as the most efficient assistant postmaster in Santa Fe ever had, and lately employed in the office of the territorial secretary, has received the appointment of chief deputy revenue collector for Arizona. He left to-day for Prescott to take charge of the office held by the late Ben T. Luccock.

Hon. T. B. Catron was asked to-day what he thought of the status of the legislative appropriation providing a fund of \$25,000 for making an exhibit of New Mexico products at the world's fair. He said, that, in his opinion, it was all right, and he had been amply provided for in the general appropriation bill. The levy for this purpose was not a specific one, but the appropriation comes in on the same footing with all other appropriations, a general levy having been provided out of which all the appropriations are to be paid.

Hon. Robert Fisher, well known and esteemed by a whole lot of Santa Feans, has been appointed by the president receiver of public moneys at the Missoula, Montana land office. Mr. Fisher, as senator in Montana made a grand record through the aggressive policy he advocated, known all over the northwest as "Fire-eater Bob," a title conferred upon him by his Democratic opponents.

One of the very best acts of the late legislature was to insert in the finance bill a section repealing the \$300 taxation exemption law, and providing a penalty of 30 per cent for the failure of any taxpayer to turn in his schedule at the proper time. It will result in adding many millions of dollars to the assessed valuation of the territory, and make a more equitable distribution of the burden of taxation than at present prevails.

The first week of June, next, is the time set for the election of school directors. The election was set for June 30 as to enable the school officers to hold office an entire term of school, instead of during the half of two terms.

The cattle sanitary board has notified the railroad companies that on and after the 15th, the brand and ear marks of all cattle shipped over their lines must be previously inspected and recorded by the proper officers.

Thomas F. Nelson, of Folsom, has been commissioned by the governor to be representative from New Mexico to the Southern Bureau of Immigration.

Major Palen has assumed control of the territorial treasurer's office. Mr. Perez, the newly appointed auditor, is at Socorro preparing his bond and will probably take charge of the office on Thursday next.

The government Indian school at Cochiti has been opened for the season. Mrs. J. B. Grozier, late of the government school here, is in charge.

ROUND ABOUT TOWN.

The narrow gauge train men say there is fifteen feet of snow on the D. & R. G. line leading over Cumbres mountain to Chama, Durango and Silverton. A rotary snow plow is at work east of Chama and an engine and a large force of shovellers are bucking the beautiful between Chama and Monero. They say that if the road is opened in ten days only the best good luck can do it. Since February 16 no mail has gone west of Chama. A car load of mail now lays at Espanola, a part of which has been taken to Chama overland by W. E. Broad's team. Mr. Broad receives \$80 a round trip for taking up the mail and the passenger fare from Chama to Espanola is \$20.

The Athletic club now has eighteen members, and it is proposed to increase its usefulness as a local organization by removing into more convenient quarters, probably the building lately occupied by G. W. Hickox. To this end it is proposed to establish several departments, making it in all respects a club room where business men can assemble at their pleasure. Aside from the athletic room there will be apartments devoted to a library and a chess and billiard room. New memberships are being solicited to-day among business men with a view to increasing the revenues of the club to carry out this plan, and it bears every evidence of proving successful.

Messrs. Felipe Ortiz and Juan Miguel Valencia have been elected water overseers for the north and south sides respectively. Both are fair-minded men, experienced in handling and distributing water for irrigation purposes. Now in ordering out the men to clear away the ditches let them use their influence to widen and enlarge the water courses, so that less water shall be left to roll to waste down the main stream.

It is so seldom now-a-days that any territorial paper has a good word for Santa Fe that it is refreshing to find this in Las Vegas' new paper, the Weekly Free Press: "In the way of improvements Santa Fe has a bright outlook for the year 1891. Electric light, street railway, large and handsome business blocks are now in store for the capital city. Incorporation will add lustre to the present gratifying outlook."

The best equipped printing and binder establishment in the southwest is the New Mexican Printing office. A very large stock of all kinds of papers and envelopes on hand. Call and get your printing done at this office. It will pay you and the community you live in. Always patronize home industry.

Those wishing to attend the G. A. R. encampment to be held at Deming on March 24, can purchase round trip tickets, Deming and return, at \$10.85; sold March 23 and 24, limited for return up to and including March 28. A. T. & S. F. ticket office.

It looks very much as though the progressive element will win in this matter of city incorporation. As the New Mexican goes to press there is a rousing mass meeting in progress at the court house for the purpose of discussing the best methods of procedure in the premises.

The appropriate music for the Lenten season was excellently rendered yesterday at the church of the Holy Faith by the choir, consisting of Mrs. Koch, Mrs. Ireland, Mrs. Clancy, Miss Gunn and Miss Warner. C. L. Bishop to-day bought out W. M. Emmert's grocery establishment. Mr. Bishop will consolidate his stock with his new purchase. Mr. Emmert will remain in Santa Fe and engage in other business.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder ABSOLUTELY PURE

Half a dozen men who are opposed to city incorporation were quite active about the plaza this morning.

The World Enriched. The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

TERRITORIAL TIPS.

The White Oak mines are yielding handsome returns. An extensive wolf hunt is to take place in the eastern portion of Colfax county about the 20th of March.

Folsom is now blessed with a stream of water flowing on each side of Grand avenue, and it will not be many days until a large number of shade trees will be planted. We will soon have the most handsome and progressive town in the territory.—Metropolitan.

The finding of Asher Jones' body, in Colfax county, has settled the question that he was brutally murdered and robbed. He was shot through the body and arm and put in a rat cage condition. He expects to largely people the excellent land along this ditch this coming season.—Raton Range.

The big ditch below Dane's ranch on the Vermejo is being vigorously pushed toward completion. The Maxwell land grant company has purchased the Springer land association ditch system and General Manager Pels will go over it shortly and put it in rat cage condition. He expects to largely people the excellent land along this ditch this coming season.—Raton Range.

Bishop Johnson, the general manager of the new Mexican Central Railroad company, was just returned from a visit to Chihuahua in the interest of the company. Arrangements are now practically complete for the commencement of the active work of construction. Work on the Chihuahua branch has already begun, and is now only awaiting the arrival of Chief Engineer Smith to begin here. Mr. Smith is to be here on next Wednesday or Thursday. Construction material is now on the way, and as soon as it arrives the work will be pushed with all possible vigor from this end. It is the determination of the company to have trains running from Deming to Corralitas, 140 miles, within the next six months.—Deming Headlight.
