

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative: effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all drug stores in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Wednesday.....	88 67	64 39
Thursday.....	82 45	61 38
Friday.....	76 34	63 35
Average.....	79 55	64 40

Total rainfall during week, 0.25.
A. ASHENBERGER,
Observer, U. S. Weather Bureau.

LOCAL NOTES.

The Jefferson Democratic Club, has 60 members at the present time.

The Board of Supervisors will meet again next Tuesday January 2nd.

Mrs. Capt. Ingalls who has been quite ill with la grippe is recovering.

Dance to-night at O'Toole's hall, given by the young men of the village.

The Yuma Water and Light Company will move into the Cotter block Monday.

The steamer Gila has been hauled out and is receiving a thorough overhauling.

E. E. Rogers, has moved the law office of Fitch & Campbell which he represents, into the Cotter block on Second street.

The baseball game Monday afternoon was one of the best ever played in Yuma. The boys will try it again New Year's afternoon.

The steamer Aztec, Capt. Stacy, left for Norton's Landing Thursday with a full cargo of freight and supplies for the mines.

Miss Debbie Mellon, daughter of Capt. J. A. Mellon, is on a visit to her father and friends in Yuma after an absence of several months.

Diseases of Eye and Ear. Errors of refraction corrected and proper glasses prescribed.

ANCIL MARTIN, M. D.
Phoenix, Arizona.

President H. W. Blaisdel started the gang plows at work Wednesday on Yuma Heights, where he will put 100 acres into vines and fruit trees.

Webster & Beals have rented and will open a bottling and a soda water manufacturing establishment in the Mrs. Smith building near the Court House.

Nothing new or exciting marked Christmas day in Yuma. Excellent dinners made many homes happy. Old Santa Claus did not forget the little ones, hence they were happy.

Major R. Allyn Lewis visited Yuma Sunday and inspected Company H. He found the company in excellent condition, and was very complimentary as to the efficiency of Capt. Ingalls.—Phoenix Republican.

For the Great Fair.

J. M. Morgan and 67 Yaqui and Papago Indians, with three carloads of ollas, cactus, canes, jocolillos, species of cacti, Indian grasses, pottery and other curios, passed through town Tuesday on their way to the Mid-Winter Fair at San Francisco. The party was made up of Indian families, dancers, fancy workers and jugglers. They will build their huts in the regular style, cook and live as they do at home. The manager is under bonds to return the Yaquis to Hermosillo, Sonora, Mexico, at the close of the exhibition. They were an object of curiosity to all who saw them.

A Herald of the Infant Year.

Clip the last thirty years or more from the century, and the segment will represent the term of the unbounded popularity of Hostetter's Stomach Bitters. The opening of the year 1894 will be signified by the appearance of a fresh Almanac of the Bitters, in which the uses, derivation and action of this world-famous medicine will be lucidly set forth. Every body should read it. The calendar and astronomical calculations to be found in this brochure are always astonishingly accurate, and the statistics, illustrations, humor and other reading matter rich in interest and full of profit. The Hostetter Company, of Pittsburgh, Pa., publish it themselves. They employ more than sixty hands in the mechanical work, and more than eleven months in the year are consumed in its preparation. It can be obtained, without cost, of all druggists and country dealers, and is printed in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish.

Arpad Haraszthy, the well-known wine merchant of San Francisco, the father of the champagne interest in California, and brother of Supervisor B. A. Haraszthy, arrived in town Tuesday on a visit to his brother. After looking over the valley below Yuma he went to Gila City to examine some gold mines in which he has an interest. Upon his return he examined the lemons and limes in the gardens of John Gandolfo, J. W. Dorington and others, and expressed himself as perfectly surprised at the excellence of both. He said, if you can raise such limes as these, such vegetables as I have seen and eaten today, picked from the vines and taken from the gardens, Yuma's future is ensured and needs nothing more to make this the leading section of the Southwest. I only wish that my interests in San Diego bay-an-climate were here in Yuma. The gold mines at Gila City are looking better than I expected to find them. The veins are wider, the ore richer. The placers only need water and good management to make them pay well. I know this from my own prospecting. Yuma is in the line of promotion and progress and will make a great point." Mr. H. left for home yesterday.

Lige Bettis, one of Yuma county's pioneers, a man who saw both sides of life, influential in his time, respected by all, died Tuesday night aged 63 years and 11 months. In the early days Mr. Bettis was a prominent figure in the history of this section of the Southwest. His friends were a host, his enemies none. He has crossed the great divide, and his name passes into history. One by one the old veterans and pioneers are falling by the wayside, and soon at roll call, no one will answer. Old friend, companion of the past fare the well. May his remains rest in peace. He was buried in the Protestant cemetery.

Don Carlos Cervantes, the well-known merchant of Sonora, on the Mexican boundary line, has been a visitor at his friend John Gandolfo's during the week, and has been greeted most welcome by a host of old friends. Don Carlos says, that things are very quiet in his section. The Boundary line survey commissions have made it more lively than it has been for some time past. They will soon complete their work to that point.

Jim Williams, returned from the mines at Gila City, with a full growth of regular old fashioned alfalfa whiskers. He has been at work in the mines which he says look well.

Another mining sale has been made in the Harqua Hala Yuma county region, Alexander McKay, selling his interest to W. C. Davis, for \$25,000.—Florence Tribune.

Said a prominent and wealthy Californian Thursday, who had been spending a few days in Yuma: "I am surprised at your genial climate more so to see and eat your delicious oranges, limes and lemons, and still more so at your excellent vegetables. I dined today with a friend who picked the peas for dinner from the vines, dug the sweet potatoes in his garden from which he took the radishes, lettuce, and all the vegetables on the table. A watermelon picked from the vines today was as sweet and palatable as any I ever tasted in July. I saw in his and other gardens, in fruits, flowers and vegetables what I never would have believed, that Yuma could produce, the last of December, had I not seen them. Talk of Yuma, she has a grand future. Her early and late fruits and garden productions alone will make her rich. Her location cannot be surpassed. Her advantages are unexcelled by any town on the Pacific coast."

Capt. J. A. Mellon was the recipient yesterday of a proposition from the Boleo Mining Company of San Rosalia, and from the San Juan Mining Company of San Antonio, Lower California, to run a steamer from Yuma down the gulf to those two points, in order to supply those great mining companies with fat cattle, flour, fruit, vegetables provisions and mining supplies. The former employs 3500 men in a town of 6500 people, the latter 1400 men in two towns, one of 2,000 and the other of 3,000 inhabitants. The Boleo Co. turns out 100 tons of copper per day besides its gold and silver. The San Juan Co. has yielded as high as \$2800 per day in gold and silver.

Several parties in town from the Cocopah mountains, state that there are about 60 men at work in the placer mines. Some very rich gold quartz has been found 20 miles west of Block Butte on the north side of the range. Deer and antelope never were so plentiful in the mountains. The lakes and streams are covered with ducks, geese, cranes, snipe, curlew and other water birds. Wild hogs by the hundreds exist all along new river, and on both sides of the Colorado. Feed is good, water in abundance, cattle are fat and the miners taking out some gold, enough to live on.

Col. J. Blanco's four-horse team took a notion Thursday, that it would wait no longer, and away it went, while the driver, Ed Heron had stepped into the office for a moment. They took a turn down to the big corral and up the old road to T. B. Wilkisons, where they jumped a hole from which sand had been excavated, and then climbed the bank, leaving the carriage behind, with a broken pole and four bows. No one was hurt. Damage about \$20.

Maj. R. S. Lewis, of the 2nd Battalion, reached Yuma Sunday morning, to inspect Co. H. The Co. came out in good shape and did more than well. Maj. L. was well pleased and expressed himself in the highest terms. It is seldom that one meets with a more agreeable gentleman gaining the confidence of all with whom he met. Capt. Ingalls and Co. H. deserve great credit for bearing so good an inspection.

Geo. B. Kelley, proprietor of the Monitor placer mines near Gila City, returned to Moberly, Mo., via Denver, Col. He writes us, "I was surprised to see the deep interest felt in Denver, in regard to Yuma and her future. Her good mines and early fruits have awakened a deep interest in the minds of Denver Capitalists which will result in much good. They are well awake as to the future prospects for Yuma."

R. E. L. Daniel, of Jackson, Miss. left Yuma for the Indian Agency at Parker, where he takes charge. Mr. Daniel is a very pleasant gentleman with large experience in business and will make a good agent.

Took French Leave.

Wednesday morning, while some 40 prisoners from the penitentiary were assisting in hauling the steamer Gila out on to the ways, Z. H. Booth, sentenced to 12 years for horse stealing, hid behind a gang of his comrades and ripping off his prison garb, under which he had a white shirt and a pair of blue overalls, got up passed by the guards and escaped. He passed down the street to the Yuma Water and Light Co's woodyard, jumped over the fence into an old corral and crossed over the railroad track to the old government corral where he hid for the day and were late in the afternoon, Mrs. Marable, found him under the hay in a manger, while she was looking for eggs. The guards and trailers followed his tracks to the railroad where they were destroyed by the constant travel. When he left the corral he took up a small gulch over the hill, down to the ditch, when he turned and came back and took the road for Gila City, following it and the railroad as his fancy took him. Nothing has been heard of the trailers who were after him since he reached a point just this side of that place. At Blaisdel he took a few pieces of jerked beef that hung on the line. Frank Eastman and two Indian trailers are following him. A reward of \$250 is offered for his arrest and return to the prison.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists. 75c.

Ex-Chief Miguel, and his companions say that they were glad to get away from the prison at Los Angeles, that they have had enough of it, that they see where they were in error, and will now obey the U. S. laws, will respect Chief Joe Parma, and will not oppose the Indian school. If so it will be well. If they do not do as they promise the government will handle them without gloves.

Tuesday evening a surprise party was given James Barney at the residence of his sisters Misses Cecilia and Clara Barney. There were present the Misses Lola and Carmen de la Osa; Misses Jesusita, Annie, Titile and Lola Daniel, and the Misses Louisa, Sarah and Jesusita Morales. Among the gentlemen present, were: Prof. Dimond, C. H. Riise, A. Morris Ben Hoyl, W. Alexander and A. Townsend.

There was a grand party, festival and dance at Palomas, Monday evening, attended by everybody in that section. It was one of the pleasantest entertainments ever given in the valley. Sheriff Mel Greenleaf and M. L. Pool, represented Yuma at the Christmas festival.

Col. E. H. Hiller of Phoenix returned from his mines near Ehrenberg on the train Thursday evening. He said that the development was more than satisfactory the mines promising better than ever. Col. Gray remained to oversee the work being done.

Jas. Lacey, one of the pioneers of Yuma county, an old miner and prospector arrived in town from Ehrenberg Sunday. He says that mining matters in that section of Yuma county are prosperous.

LOCAL NOTES

The new levee is nearly finished. It is a good piece of work.

The first story of the Modesti block will be nearly if not quite finished today. The building will be an ornament to Main street.

The walls of Cash M. Smith's new brick cottage on Orange avenue, are well under way and will soon be finished.

The City election will take place next Tuesday January 2nd at the Court house. The polls will open at 10 a. m. and close at 4 p. m.

The Board of Prison Commissioners, will hold their next regular meeting on Tuesday January 2nd, in place of Monday as that is a holiday.

The Silver Grill, Miss Martin and Mrs. Keyes, proprietresses, is now open in the new brick block on Madison avenue, where one can get the best meal in town.

Jasper Peters, formerly baggage master at this place for the S. P. R. R. is now a motorman on the electric railroad in San Francisco.

Contractor McKeone is grading Orange avenue in good shape. As soon as each section is finished it will be covered with the blue cement gravel from prison hill.

The sentence of Wm. Hicks, convicted of selling liquor to Indians has been reduced to six months in the penitentiary, the appeal having been dismissed.

The lowest point reached this fall by the river was 16 feet 3 inches. For two months it has ranged about 16 feet 8 inches, when it is at a very good navigable stage.

A. Blaise, has refurnished his photographic gallery in a No. 1, style and is ready to accommodate his many friends in Yuma with anything they may wish in his line.

Billy Soule, is again behind the bar of the S. P. Hotel, much to the pleasure of his many friends. With Mr. Andrews and Billy in the office of the hotel, the public can rely upon being accommodated.

P. E. Farrell has resigned as 2nd Lieutenant of Co. H, and P. Aune has been elected to fill the vacancy. Lieut. Farrell has charge of one of the railroad yards in San Francisco for the Southern Pacific.

S. S. Gillespie and R. J. Duncan have located six gold quartz mines near Gila City. They have also filed articles of incorporation of the Two Rivers Mining and Milling Company with headquarters at Yuma.

Hon. P. R. Brady, probably the best authority on what has occurred in Arizona for the last 40 years, says it was long ago settled both judicially and by a special act of congress, that Yuma is in Arizona.—Tempe News.

Some thieves broke into Balsz's butcher shop Sunday evening by opening the front window, and stole a quarter of a beef and a whole sheep. They unlocked the front door and left with their booty, unheard by those sleeping inside the building.

No meal like the one cooked in mother's style, and just such as you get at The Silver Grill, Madison avenue, Martin & Keyes Proprietresses. The best in town.

H. E. Harris, the well-known mining man of Harqua Hala, was a passenger on Sunday's westbound express for California, where he went to spend Christmas with his family. He said that the work on the Bonanza mines at Harqua Hala was being pushed as fast as men and money can do it.

L. A. Hicks, brought in some of the finest and largest strawberries from Yuma Heights Saturday that were ever seen in town. They show what can be produced on our mesa soil. From the growth this year and the crop produced, it is plain that Yuma Heights can produce an excellent berry and plenty of them.

Plant trees and vines. What has been accomplished by the untiring efforts of several of Yuma's ladies, old citizens, some of them now gone, can be done in every garden in the village. If this is done, what a beautiful place it would be. Anything almost grows luxuriantly with water. Set out fruit trees, not the useless shade tree. Plant the vines and flowers, and a year or two will repay you well.

Beware of Confidence Men.

When Louis Jaeger, opened "The Place," everything he put into it was new and nearly everything bore his letter L. A few days since he had his suspicions aroused that everything was not just right and that some one had changed his dice for loaded ones. So well satisfied was he that he broke a set open, and found his suspicions true. The dice bore his letter L, was the same size, weight and shape. Inside the dice were a mere shell one corner being filled with lead, another with paper and the remainder of the cavity was filled with cork, wool and other light material. No matter how they were thrown, they would nearly always come up on one of three figures. Louis says that he is satisfied who did the changing and that they are well-known to the fraternity.

Dr. W. P. Book, expected to reach Los Angeles today on his way to Yuma, and where he wished to consult with his architect, his attorney and his agent, relative to his new brick block which he will build on the corner of Main and First streets.

Old People.

J. V. R. is the only Sarsaparilla that old feeble people should take, as the mineral potash which is in every other Sarsaparilla that we know of, is under certain conditions known to be enervating. J. V. R. on the contrary is purely vegetable and stimulates digestion and creates new blood, the very thing for old, delicate or broken down people. It builds them up and prolongs their lives. A case in point:

Mrs. Belden an estimable and elderly lady of 80 Mason St. S. P. was for months declining so rapidly as to seriously alarm her family. It got so bad that she was finally afflicted with fainting spells. She writes: "While in that dangerous condition I saw some of the testimonials concerning J. V. R. and sent for a bottle. That marked the turning point. I regained my flesh and strength and have not felt so well in years." That was two years ago and Mrs. Belden is well and hearty to-day, and still taking J. V. R. If you are old and feeble and want to be built up Ask for

JOY'S Vegetable Sarsaparilla
Largest bottle, most effective, same price.
For Sale by GONDER & Co.

\$100.00 REWARD.

I will pay the above reward for the arrest and conviction of the party or parties stealing a set of "Craps" dice off the table in my house, known as the PLACE, LOUIS J. F. IAEGER, Proprietor.

C. James Dimond,
Tyner House, near Court House.

TEACHER AND COMPOSER
OF MUSIC.
