School Report For Year

The county school superintendent's office has received the returns from the school marshals of the various districts making the reports for the year complete. There are nineteen of these districts and the total number of children of school age contained in them is 1561, as against 1329 of last year. This shows an increase of 232 for the year, which gain is very evenly distributed over the nineteen districts, the largest gain being in Yuma. It is a matter of note that in House and Parker there are 41 children each, of school age.

Banker Returns From North.

T. M. Berensfeld, vice president of the Farmers' and Merchants' Bank, who has spent the past sixty days in British Columbia, where he attended the opening of the Prince Rupert town site, returned last Friday morning to look after his varied interests here. Mr. Berensfeld is an enthusiastic believer in the future of the northwest, particularly that portion of the country which will be a feeder to the Grand Trunk Pacific railroad, which within two years will link the eastern and western coasts, and provide the most direct connection between the former and the Orient. The banker, however, feels that there is no climate like that of the desert and expresses himself as glad to be where the sun shines every day in the year. He will remain in Yuma for some time.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, finally pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. So it is that Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, Ohio.

Sold by druggists, 75c. Take Hall's family pills for constipation.

Yuma Mercantile Co.

The Yuma Mercantile Co. of the new name under which the old firm of Alexander & Co. is known, are busy people these days, despite the fact that so many Yumaites are out of town. This firm yesterday shipped a car load of fine watermelons, the product of various valley ranches, to the Frank Simpson Fruit Co., Los Angeles. Yuma valley melons are famous in California because of their superior flavor and size, and always find a ready market. If this car load is disposed of to advantage the Yuma Mercantile Co. will ship several more before the close of the melon season.

Thirty to forty crates of melons a day are being shipped by the Yuma Produce Company to various points in Arizona, Texas and New Mexico. The same firm is also sending out fifteen crates of grapes daily and from ten to fifteen crates of tomatoes. Twenty-five to thirty crates of figs go daily from one of the Yuma fig orchards to one of the outside markets. All this sounds well from an arid country, eh?
