

EUREKA DAILY SENTINEL.

FRIDAY, APRIL 9, 1875.

AGENTS. W. E. WILSON, Ploche DOCTOR C. SHULZE, Ruby Hill W. F. GRIFFIN, Palisade A. M. HORN, Austin T. STARR, Hamilton

MYRON ANGEL, No. 411 1/2 California street, Room 15, is Sole Agent for the Eureka Daily Sentinel in San Francisco. Persons in that city having business with this office are requested to communicate with him.

ALF. OHARTZ is authorized to receive subscriptions for the SENTINEL, and collect for the same in this town. All persons in Eureka owing for subscriptions will make payment to him.

PICKETT.

We alluded a few days ago to the case of this poor, old man, who has for nearly six months been confined in a cell of the San Francisco county jail, for offending the dignity of the Supreme Court of California in asserting in the presence of that august tribunal that one of the judges had held his office beyond the time for which he was elected, and that he held his seat upon the bench without legal authority and in violation of the constitution of the State: an opinion which is held by many of the most prominent members of the legal profession on the coast. An effort for his release was to have been made by a number of legal gentlemen, but it appears, that being imprisoned by an order from the highest court in the State from which there is no appeal, he must languish in the gloomy cell of his prison during the pleasure of the Court or until death releases him from the power of his judicial persecutors.

The seeding business is further advanced in Paradise Valley at present than ever before at this season. Some of the farmers are almost through, and nearly all the others have at least half their crops in. The area under cultivation this year is larger than heretofore.

Miss Virginia Balmforth, a California girl, has just received letters patent for the invention of a new portable "button-hole." If somebody would invent a shirt-button that wouldn't lose its grip, that person would be the mother of her country.

About two months ago at least 200 persons from Salt Lake City made their appearance on the streets of Virginia, attracted by the fame of the bonanza. Since then they have disappeared one by one until but few remain.

Henry Clark and James Neary recently returned to Pioche from Panamint. They say there are not 500 people in the camp, and men are leaving it daily.

The Lander county tax for the current year is \$2 upon each one hundred dollars' worth of taxable property, making with the State \$2.90 upon each one hundred dollars' valuation.

A Mr. Finnegan has recently extracted several tons of ore which worked \$350 per ton, from an abandoned claim in Amador district, about six miles north of Austin.

Aaron Brooks, recently of Pioche, has been awarded \$4,000, in currency, by the umpire of the Mexican Claims Commission.

Dr. Spaulding, the well-known establishment, has opened a fine establishment in Virginia.

Dr. C. C. Green, a prominent physician of Virginia, has been sent to the Stockton Insane Asylum.

Senator Stewart was at Virginia last Tuesday, and may be there now for aught we know or care.

Last Monday night an Italian lady gave birth to a child on the western-bound train, near Reno.

The dog poisoner is at work in Austin.

NYE COUNTY ITEMS.

From the Belmont Courier. THE POTOMAC MINE.—For the past ten years, from time to time, John P. Courtier has expended labor and money on what is known as the Potomac mine, at San Antonio, and at last it is confidently believed the true fissure vein has been found, containing a fine body of high grade ore. It appears that heretofore a considerable portion of the money expended has been to no purpose, as the mother vein had not been reached. Within the past few days, a huge vein, with well defined walls, has been cut through, containing a prospect that will cheer the young heart of John P. Courtier, who is now at San Francisco. This development, if it proves what is expected of it, will inspire new life in the old San Antonio District. John will doubtless abandon his present domestic happiness at the Bay for a time, and attempt a trip to his mine by telegraph, on receiving the news of the strike.

A correspondent at Ellsworth, Nye county, sends us the following: James K. Evans, one of the discoverers of this district, died on the 21st ultimo. Deceased was born in Brown county, Ohio, in 1824, which made him 51 years of age at the time of his death. He crossed the plains in 1850 and settled in Ellsworth in 1853, where he had resided up to the time of his death. Deceased was highly esteemed by those who best knew him. His remains were followed to the grave by all the citizens of the town.

EL DORADO SOUTH SHAFT.—We understand the new vertical shaft of the El Dorado South Mining Company has attained a depth of 70 feet. Considering the short length of time since the work was commenced, it has been quickly done, and for which laborers and holders will not grow to put up their coin, as it is a well-directed undertaking.

SALE AT HOT CREEK.—Jos. T. Williams has sold to Maurice N. Donahue three hundred acres of land, situated in the Hot Creek Canyon, known as the Upper Williams' ranch. We did not leave the price paid for the property.

SALE OF MINES.—Valuable mining property has recently changed hands in the Reville District, and the coin paid on delivery.

"LYON COUNTY TIMES."—Harry J. Norton has assumed editorial charge of the Lyon County Times during the temporary absence of Mr. Kenyon. Mr. Norton is an experienced journalist and will keep up the reputation of that excellent paper.

THE Reville denies that the "soldier's game," is taught in the Austin Sunday Schools, and stoutly maintains that no higher branches of the art than three-card monte has yet been introduced among the Sabbath exercises.

MICHIGAN ELECTION.—The election held in Michigan on the 6th instant resulted in a Republican victory by a larger majority than that of last year. Of twenty-one Circuit Judges elected thirteen were Republican.

STEALINGS.

A company of twenty-five emigrants, from the East, says the Gold Hill News of the 6th instant, including two women, were landed at the depot in Virginia, yesterday afternoon, in a blinding snow storm. They stated that they were nearly destitute of money, and being entirely unacquainted with the country were at a loss what to do. They inquired for some cheap hotel or boarding-house, to which they were directed. They had a big disgust on, and wondered what ever induced them to leave their comfortable homes and come to this barren and forbidding region. One man stated that he had mortgaged his farm in Ohio to raise money to get to the bonanza. They were advised to go through to California and get a job of harvesting in the valleys of that State.

The seeding business is further advanced in Paradise Valley at present than ever before at this season. Some of the farmers are almost through, and nearly all the others have at least half their crops in. The area under cultivation this year is larger than heretofore.

Miss Virginia Balmforth, a California girl, has just received letters patent for the invention of a new portable "button-hole." If somebody would invent a shirt-button that wouldn't lose its grip, that person would be the mother of her country.

About two months ago at least 200 persons from Salt Lake City made their appearance on the streets of Virginia, attracted by the fame of the bonanza. Since then they have disappeared one by one until but few remain.

SALE OF MINES.—Valuable mining property has recently changed hands in the Reville District, and the coin paid on delivery.

Just before going to press we were informed that work on the Monitor Belmont mine had been suspended.

EASTERN DISPATCHES.

By Overland Telegraph.

[SPECIAL TO THE DAILY SENTINEL.]

The Beecher Trial.

NEW YORK, April 7. In the Beecher case this morning, it was agreed by counsel, and consented to by the Court, that the further examination of Henry M. Cleveland be postponed till he can go to the country and recover.

More Strikes Expected—Military Movement.

PHILADELPHIA, April 7. The first regiment of the National Guards has been ordered to Hazelton, Governor Hartranft having telegraphed that it was needed at once.

SCRANTON, Pa., April 7.

The miners at Minooko struck today for ten per cent. advance. Other strikes are expected.

PHILADELPHIA, April 7.

The wires have been occupied with official business. There is no news from Hazelton, and it is thought trouble has grown out of the citizens' meeting there last night.

The Strikers Intimidate the Police—Military Called Upon.

HAZELTON, April 7. The two regiments of infantry and one of artillery ordered are expected today. About fifty of the special police, who arrived here last night, left this afternoon for Philadelphia from intimidation. The suicidal policy of the men in stopping the pumps may be understood when the fact is stated that, if a compromise should be immediately effected, it will take from four to five months to pump the mines dry. Until then the miners must remain idle.

WILKESBARRE, PA., April 7.

The sheriff to-day became satisfied that it was useless to try any longer to preserve order in the coal regions by a posse and called for troops. General Osborne at once ordered the Ninth Regiment of Infantry and the Wyoming Artillery, of this place, with a battery of four guns, to proceed to Hazelton. The general and his staff left here at 7 P. M. for the scene of the disorder.

Fire in the Coal Mines—The Strikers Refuse to Put it Out.

HAZELTON, Pa., April 7. A fire broke out accidentally in one of the mines at Stockton to-day, and the miners at a meeting held expressly to consider the question, absolutely refused to assist in putting it out, although such action on their part is in direct opposition to their interests. A messenger from Stockton arrived for assistance to put out the fire, and a squad of special police has been detailed for that purpose. Lenderman, proprietor of the Stockton Company, telegraphed here offering a steam fire engine company \$10,000 if they will quench the fire. The pumps at Buck Mountain are all idle, and a raid is looked for at that place to-night.

Rhode Island Election—The Republicans Carried the State.

PROVIDENCE, R. I., April 7. The State election occurred to-day. The question of the repeal of the prohibitory law has partially broken up the political parties and renders a classification of the Assembly impossible. There is no election for Governor or Lieutenant Governor, but the remainder of the Republican State ticket is elected by a very large majority—the largest ever given in the State—with three wards and three towns to hear from.

Resignation of Gen. Hill—Renewed Appointment.

WASHINGTON, April 7. Assistant Attorney General Hill has offered his resignation to take effect at the adjournment of the present session of the Supreme Court.

General Palmer, of Wisconsin, and Commissioner Douglas, are mentioned in connection with the expected vacancy in the Court of Claims by the resignation of Judge Peck.

The Black Hills Reservation.

WASHINGTON, April 7. The Commissioner of Indian Affairs to-day received a telegram from the agent at the Cheyenne River Agency, stating that he can bring to Washington nine Sioux chiefs whenever needed for the contemplated negotiations to buy the Black Hills reserve. The Commissioner will notify them not to come till he receives reports from two other agents in the Sioux country, so as to have all the proper representatives of the tribes here at the same time.

Severe Snow Storm.

CHEYENNE, April 7. A snow and wind storm has been raging since 10 o'clock last night. The telegraph lines are prostrated between the North Platte and Omaha. At ten o'clock A. M. to-day trains arriving at North Platte from the east bring reports of a heavy rain and sleet storm, extending as far east as Brookville. In Kansas a large force of repairers is on the ground and the line was working at 7 o'clock P. M.

More Troops Sent to Quell the Disturbance at the Coal Mines.

PHILADELPHIA, Pa., April 7. A detachment of 150 volunteers started this morning for Hazelton and the third detachment leaves this evening.

Beecher Continues His Testimony.

NEW YORK, April 7. In the Beecher trial this morning, although all the parties were present promptly, the proceedings did not commence till fully 15 minutes after the usual hour, counsel for defense being engaged in consultation. Beecher resumed and testified as follows: In December, 1872, "I do not think there was any interview between Tilton and myself about the Rev. Dr. Storrs, nor do I remember any conversation about his visit to Stone's." When Tilton was reading his true story, and when he prefaced a passage by saying: "If you could stand that you could stand it all," I did not say "he might as well state the fact as put it in that way." In a subsequent conversation with Moulton, I said I was a blockhead if he supposed I would stand that sentence. This was said as a protest. Moulton said something about an interview with Tracy about this matter. We were talking and he dropped that

his lawyers had said so; I was startled with surprise, and he said he did not intend to carry the case any further without lawyers. He said something about Tracy, but there was no understanding between us that Tracy should be brought into it, nor did I propose his name. The understanding was that no lawyer should be brought into our counsels." In reply to a question by Everts, as to Moulton's testimony in regard to a conversation he stated that he had with witness about employing Tracy as counsel, Beecher said "nothing of the kind occurred. It was all imagination. Moulton never said to me that he told Tracy that I was guilty of adultery with Mrs. Tilton, and that he (Tracy) said if this was true it must be kept quiet at all hazards. It is an absolute fact, said witness, that there is not a word of truth in it; it is false from beginning to end. He never said anything to me about it except what I have stated. He never told me he told Tilton of having informed Gen. Tracy of it. This is entirely false; I never told Moulton I was glad Tilton had assented to this course, and perhaps good would come out of it." Witness testified to 25 years' acquaintance with Oliver Johnson.

PACIFIC COAST DISPATCHES

FROM CALIFORNIA.

Explosion of Giant Powder—Destructive Fire and Fearful Loss of Life.

SAN FRANCISCO, April 8. About half past three o'clock yesterday afternoon, an explosion of giant powder took place in a small shanty on Harrison street, below Spear, used as an office and place for preparing giant powder cartridges by J. N. Risdon, the contractor for removing Rincon rock. The explosion shattered the building into fragments and also demolished a saloon at the corner of Spear and Harrison streets, a frame dwelling on Spear street, another dwelling on Harrison street, adjoining the office on the east, and crushed in the northwest corner of Hathaway's brick bonded warehouse, next east on the wharf. In a few moments all were in flames, as were also a large hay barn on the opposite side of Harrison street, a two-story frame dwelling adjoining, and a coal shed of the Black Diamond Coal Company. The alarm was immediately turned on, but owing to another alarm for a small fire a few blocks distant having been struck a few moments before, some delay occurred in the engines reaching the scene and the fire had attained uncontrollable headway. It was at once evident, from the cries of victims, that a number of persons were buried under the debris of the fallen buildings and the utmost efforts were made to save them, with only partial success. A man named Clark, foreman for Risdon, was taken from the ruins after the fire was partially subdued burned to a crisp. The bodies of Frederick Haas, a saloon-keeper, and a colored man named Brown were recovered not much disfigured. Jas. McIntyre, lately discharged from the navy, died shortly after being removed. The bodies were removed to the morgue. Several men, women and children, badly injured, were removed to St. Mary's Hospital for medical attention, three of whom were Alex. Thompson, a Longshoreman, Wm. Knight, and Henry Richards, a seafaring man. They are not expected to recover. Several others received severe though not necessarily fatal injuries. A number of persons were missing at last accounts, and it is feared they are buried in the ruins. The loss of goods in the bonded warehouse will not fall short of \$500,000. There was a great scarcity of water owing to the small size of the mains in that portion of the city, and the engines took water from the bay. It is thought that an abundant supply from hydrants would have prevented much loss of property. The number of lives lost will probably be definitely ascertained to-day, when a thorough search of the ruins is made.

Reception of Senator Sargent.

SAN FRANCISCO, April 8. The reception of Senator Sargent last evening was imposing. There was a large military escort, and the Senator was met at the wharf by a Committee of the Board of Supervisors, headed by the Mayor, and the procession marched to the Cosmopolitan Hotel. After the reception there was a greeting of friends, consisting mostly of employes in the Custom-house. The Senator addressed the crowd in the street, being introduced with a few remarks by Mayor Otis. Mr. Sargent defended his political course, and touched at some length on questions upon which his record had been called in question, after which a champagne discussion ensued in his apartments. As an outburst of popular enthusiasm, the reception could hardly be considered a success.

BORN.

In Eureka, April 8, to the wife of R. F. Bertlett, a son.

In Virginia, April 4, to the wife of Edward Greenhalgh, a daughter.

In Virginia, April 4, to the wife of D. McNaught, a son.

In Belmont, April 1, to the wife of E. Wilmarth, a son.

In Belmont, April 1, to the wife of John Bowman, a son.

In Belmont, April 2, to the wife of T. Warburton, a son.

DIED.

In Virginia, April 4, John Dohls, aged 50 years.

In Virginia, April 5, Martin Leach, aged 74 years.

NEW TO-DAY.

Notice to Creditors.

ALL CREDITORS HAVING DEMANDS against Frank Hetchman will present them immediately at W. H. Clark's store, for adjustment.

H. SADLER, MAX OBERFELDER, Trustees. W. H. CLARK, Eureka, Nev., April 8, 1875. ap8-1w
