Thos. Burns to Pat. Burns; 192 feet in Surprise mine, 192 feet in Brown ledge; consideration, \$50.

THE JEWELRY PALACE.—The reconstructed advertisement of P. Steler will be found under the head of "New To-day." He has removed his magnificent stock of diamonds, jewelry, watches, etc., to the new building just below, and adjoining, S. Ashim & Co.'s store, which has been fitted up in a style unequalled by any establishment of the kind in the Great Basin. His display of diamonds is the finest ever exhibited in the State, and his stock of jewelry and watches are not surpassed by any metropolitan retail establishment. During his residence here Mr. Steler has, by fair dealing, established a reputation which is an assurance to all that any article purchased from him will prove exactly as represented. Call and see him at his diamond palace.

ST. JAMES' CHURCH.—Easter Day services will be held to-day, at 11 o'clock A. M. The Holy Communion will be celebrated at the morning service. It is expected that all communicants receive the Sacrament on this day. There will be children's church in the evening at 7:30. All friends of the Sunday-school are invited to be present.

ATTEMPTED ROBBERY OF THE EUREKA AND POCHEE STAGE.

The Robber Shot by an Express Messenger.

We received yesterday the following special dispatch from Pochee:
Pochee, April 15.
This morning's Record contains the following account of an attempted stage robbery last night:
"The Hamilton and Eureka stage was stopped by a road agent last evening about three miles from Pochee and Pat. Ryan, the driver, ordered to 'throw down that box.' As the stage was stopped, Eugene Blair, the messenger, dropped down in the front seat with his double-barreled shotgun. Pat. Ryan threw out an empty box to the road agent who, as he grabbed it, called out to Ryan, 'Is that the right one.' Ryan made some reply which he did not recollect, as just at that time Blair fired at the robber, who, without doubt, received the shot in his side, as it turned him partially around. He returned the fire once just as Ryan commenced whipping up the horses. After they had gone a short distance they were hauled up, and Blair, getting down, went back after the box, which he found, but the robber had managed to get away. There is no doubt, however, but that he will be caught this time, as the gun-shot will betray him. Eugene Blair says that the Gentleman Jack of the road is an Irishman, he recognizing the brogue."

ARRESTED FOR BURGLARY.

—Mike Norton was found in Mrs. Brown's boarding-house, on Buel street, about 2 o'clock yesterday morning, helping himself to some eggs. He doubtless was only actuated by the commendable purpose of supplying himself with hen fruit to enable him to celebrate Easter Sunday in a Christian-like manner; but unfortunately the circumstances attending his entrance to the premises, owing to a statutory defect, constituted burglary, and consequently he was snatched by officer Gorman and hustled off to the calaboose, from whence he will emerge tomorrow morning to attend Justice Beatty's matinee. This is not Michael's first appearance before his Honor. He has been up for vagrancy, and for malicious mischief. Under ordinary circumstances he would not aspire to the commission of an offense higher than is punishable by imprisonment in the County Jail, but fortune has favored him and the chances are favorable for his luggage being checked for the Warm Spring.

MINORS IN BAR-ROOMS.

—The following, which is from the Record, will apply to other towns besides Pochee: "We were requested yesterday by the parents of several of the children of Pochee, to call the attention of the proper authorities to the fact that there are a number of bar-rooms in this town that pay no attention to the law which makes it a fine to allow minors to frequent bar-rooms. We understand from those folks that in some places they are permitted to enter, play cards for drinks, etc. This kind of business should be stopped, as these boys will become hoodlums fast enough without that kind of aid."

ARRESTED FOR GRAND LARCENY.

Oscar Denham was arrested by Sheriff Gilmore yesterday for the larceny of a watch, alleged to have been stolen from the Pacific Lodging house, on the 22d of last February. The officers in the Sheriff's office have not lost sight of the matter since its occurrence, and recently they discovered the property in the possession of a party to whom it was sold by Denham, who will have an opportunity of explaining the circumstances to Justice Beatty tomorrow, in the Police Court.

SENTENCED.

—Ah Mook, the heathen who was convicted in the District Court a few days ago of murder in the second degree, was sentenced yesterday by Judge Cole to a term of twenty years imprisonment in the State Prison. Ah Mook who some time ago took a shot at Charley Ah Chee, and was convicted of assault with attempt to commit great bodily harm, was sentenced to two years in the same institution. The heathens both received their sentences with the meekness of Christians.

ADAMS HILL.

—Official letter of April 9th says: We continue to find ore in paying quantities in sinking winze below the 150-foot level, north drift. We also have some ore in the bottom of the shaft, but only in small quantities as yet. The contract for sinking the main shaft will be completed in a few days.

PERSONAL.

—Lieutenant Governor Jewett W. Adams arrived in town on Friday night's train from Carson. He was around town yesterday renewing his assurances with his numerous friends, and left this morning for Nye county to visit his flocks and herds. He will return this way in about ten days.

GOING TO THE CENTENNIAL.

—District Attorney Geo. W. Merrill intends leaving for the East some time during the present week. He will take in the Centennial and return to the Base Range about the middle of July. During Mr. Merrill's absence Judge J. K. Shafer will officiate as Prosecuting Attorney.

GILA.

—Official letter dated April 8th says: Cross-cut in bottom of shaft still in lime; 140-foot level in quartz; 200 foot level in porphyry, and in the winze, after passing through about 12 feet of porphyry, we are in quartz again. No other change of importance.

TYBO CONSOLIDATED.

—Official letter dated April 5th says: I have been compelled to shut down the furnace for want of coal; we will start up soon, and have all the fuel we need. Balance of shipment, four tons, assayed \$5,160. We have made the usual progress in the shaft and lower workings.

AMONG THE DAINTIES.

—To be procured in Eureka, the SENTINEL enumerates strawberries and green onions. Strawberries and green onions, stewed together, with a few mushrooms, make a dish fit for the pigs.—Reveille.
Come over and try some.

A RUNAWAY MATCH.

The following, from Friday evening's Reveille, may prove of some local interest in Eureka:

Austin is getting to be a regular Gretna Green, and Judge Logan has struck a bonanza. He performed the marriage ceremony for a young couple at the International Hotel last evening, whom there is every reason to believe entered into the matrimonial bonds without parental sanction. The story, as we hear it, is that the couple attended dance at Eureka, where they reside, night before last, having prearranged the elopement. While the dance was in progress the couple left the ball-room and jumped into a buggy which was in waiting. They drove all of the night before last, arriving here last evening. On their arrival no time was lost in getting out a license and securing the services of Justice Logan, who, ever willing to bind together two loving hearts, hastened to perform the ceremony of marriage, and shortly after their arrival the twain were one flesh. The Judge received a fee from the happy bridegroom a roll of bright new trade dollars as long as his arm, and his face was wreathed in smiles over his fortunate strike. The bridegroom also furnished a lot of trade dollars, with the request that they be used to "treat the boys," to which purpose they were put, and a large crowd assembled at the International bar and drank health, long life and happiness to the newly-mated couple.

RECOMMENDED TO MERCY.

—When the jury the other day in the District Court brought in their verdict against Ah Hung, the shooting Celestial, of guilty of assault with a deadly weapon with intent to commit great bodily harm, they appended to their decree a recommendation of mercy to the Court. The maximum punishment for this offense under the statutes is two years imprisonment in the State Prison and a fine of \$5,000. Yesterday when sentencing the prisoner, Judge Cole gravely remarked that, although from the evidence adduced he could discern no particular reason for the exercise of judicial clemency in this case, yet, in deference to the recommendation of the jury, he would be as lenient as the circumstances of the case would admit, and therefore would impose no fine, and would only sentence the prisoner to the two-year's imprisonment. An audible smile was noticeable upon the countenances of the attorneys in attendance at his Honor's idea of mercy; but it was generally conceded that the sentence was a just one, and that the fire-eating heathen didn't get a day longer than he deserved.

ARRIVED.

—D. G. Waldron, manager of the Alf. Burnett Troupe, arrived on last night's train from Salt Lake City, where he has made arrangements for the company to play an engagement at the principal theater. If satisfactory arrangements can be consummated, the troupe will commence an engagement here about the 1st proximo, at Bigelow's Hall. Mr. Waldron's reputation as a manager is in itself a strong recommendation for any troupe with which he is connected, as he never associates himself with professionals of mediocre talent.

AN OLD AUSTINITE.

—We received last evening a call from John Frost, mining foreman for the Manhattan Company of Austin. He arrived here last evening from Troy district, where he has been examining some mill property. He has, since he left Austin, visited Jefferson, Belmont and Reveille districts. Jack looks as natural as an old shoe, and doesn't appear to have changed a particle since we first made his acquaintance during the flush times of Reese River, half a century ago. He will return to Manhattanville to-day.

A SURE SIGN.

—"One swallow does not make a summer," but "Peanuts!" A return to Manhattanville to-day. Two burros are as sure an indication of spring as a policeman is of trouble. He has brought them in from their winter quarters, and although for the present they are engaged in the plebeian occupation of hauling around fish and garden sash in a four-wheeled go-cart, as soon as the season is a little further advanced they will be attached to "Peanuts!" Roman chariot for the distribution of ice-cream and summer fruit.

BULLET EXTRACTED.

—Dr. Bishop yesterday extracted a bullet from Ratti, the Italian who recently attempted suicide at Palisade. The ball entered the left breast directly opposite the heart, and was aimed directly for that organ, but from some unknown cause it diverged its course and passed entirely around, just grazing the pericardium all the way, and was extracted from the back a little below the left shoulder blade.

THE REASON.

—The reason some of our citizens started a chess club in town was because they thought it a more exemplary occupation than playing cards. At chess you play with two bishops and at cards you play with knaves.—Pochee Record.

IF THE RECORD MAN WILL COME TO EUREKA.

We will guarantee him a lively game of pedro, which he can play with a brace of bishops.

HIGH WATER.

—The snow melting in the mountains causes a large flow of water down the canyon and the big ditch is booming like a mill-race. It behooves our friend Rufus to be unusually careful not to slip into the canal at the present high stage of water, or the chances are the Commissioners will be obliged to call a special meeting to fill a vacancy in the Clerk's office.

GONE TO CARSON.

—Sheriff Gilmore left on this morning's train with the two heathens, Ah Mook and Ah Hung, for the State Prison at Carson. The first two will remain there for awhile, but the latter expects to return immediately.

EASTER FESTIVAL.

—The children of St. James' Sunday School will gather in Critterion Hall on Tuesday evening next to observe the usual Easter-week festival. Friends of the school are invited to be present.
SEED.—Garden Seed, flower and vegetable, alfalfa, etc., at Mrs. M. A. Ashim. mr28-1f

DANGEROUSLY ILL.

—We regret to learn from the Reveille that John Emery, Sheriff of Lander county, is confined to his bed with pneumonia, and that fears are entertained for his recovery. The writer is one of hundreds of John's Eureka friends who will await with anxiety the result of his contest with the dread messenger. He is one of Nature's noblemen, and we hope he will be spared for many years to come.

TRIPLE-PLATED TEA SET.

—Frank Durkee has at his establishment, in the Postoffice building, an elegant triple-plated tea set, which he will sell 25 per cent. cheaper than a similar set can be procured from any other dealer on the coast.

DISTRICT COURT.

—Besides sentencing the two Chinamen, there was considerable civil business transacted in the District Court yesterday. The court will convene again to-morrow, at 10 o'clock.

NEW HOISTING WORKS.

—The Eureka Consolidated Company will commence putting up the machinery for their new hoisting works at the Lawton shaft to-morrow.

NOTICE.

—There will be a special communication of Eureka Lodge, No. 16, F. and A. M., at their hall on Monday evening at 7:30 o'clock for business of importance.

SPECIAL NOTICES.
