Hotel Arrivals. Parker House—C. Marchat, San Francisco; W. Woodbury, Hamilton; A. Hall, Sterling Mine; S. Palmer, Eureka; T. Russell, Ruby Hill.

International Hotel—J. Kinney, Battle Mountain; W. J. Smith and wife, O. L. Scott and wife, J. J. Hughes, J. O'Brien, P. Sullivan, M. Lyons, Eureka; O. H. Smith, Reno; M. McAlister, Cortez; R. McGarry, P. McGarry, H. McGarry, Prospect Mountain; W. J. Crabb, Ruby Hill; R. Eddy and wife, Montana; L. Dunkel, San Francisco.

Turner House-J. Vickers, P. D. Hicks. J. Stewart, T. Jones, Prospect Mountain; Miss Steadman, Belmont; C. Yager, Sacra-mento; T. D. Page, Fish Creek; M. Grass, P. R. Grass, San Francisco.

The Stage Accident Case. The case of Miss Laughlin against Wood-

ruff & Ennor will probably be tried at the June term of our District Court. The Elko Independent says: J. L. Wines departed for Cherry Creek last evening. He is engaged by Woodruff & Ennor to defend a suit for damages instituted against them by parties in Eureka, and will be absent four or five days. Information Wanted.

The Elko Independent has the following: The mother of Charlie Combs is very anxtous to learn of his whereabouts. He is a young man 17 or 18 years of age. and when last heard from was in Elko. A letter addressed to his mother, at Eureka, in regard to him will be thankfully received.

Ear-ring Lost. The finder of a gold-finished, cameo earring, set in pearls, will please leave the same at this office, and receive a suitable reward. The missing article is advertised under the head of "New To-day."

FLUE DUST. craps from the Note-book of the Sentinel's Reporter.

Germania this evening. There were little flakes of snow yesterday

The gate money was the racket at the Willows on Sunday. The Albion Company paid their miners two month's wages yesterday.

Bartlett has a fine article of whisky that will cure anyone who is sick. The cold weather yesterday spoiled the strawberry and ice cream trade. Cathcart says he will open Central Hall with roller skating on Thursday evening

Mr. Joe Hausmann intends establishing himself here in the gun and locksmith

A more disgusted set of people than those who went to the Willows on Sunday,

The getters up of the bicycle exhibition, on Sunday, are not in good odor with those who attended it. Four tickets—from Palisade to San Francisco, on the Central Pacific Railroad—are for sale at the Postoffice.

Dr. E. Thiele has disposed of his interest in the Pioneer German Drug store to Mr. J. L. Warwick, and will hereafter devote his whole time to the practice of medicine. A new string band, consisting of four boys, arrived here on Sunday evening.
They made some good music at the International Hotel and at Lautenschlager's corner last evening. They are said to be fine musicians.

PERSONALS.

Mrs. Judge L. W. Cromer is reported to We regret to learn that the wife of Sheriff Kyle is dangerously ill. Mrs. J. R. Withington, of White Pine, arrived from California last evening.

Judge Messick passed Palisade for the West on Saturday, and Chinese Commissioner Swift on Sunday. Mr. Wash Woodbury, Assessor of White

Pine county, was in town yesterday. He returns to Newark Valley this morning. Mr. O. L. Scott and wife arrived from the East on Sunday evening's train. O. L. was warmly welcomed by his hosts of

Mrs. John S. Capron, and Miss Hattie, left for the East yesterday morning. Mrs. C. goes to visit her sister, who is very ill. Masters A. J. Butler, of Eureka, and T. H. Marks, of Ruby Hill, returned home on Sunday evening, on furlough from Mc-Clure's California Military Academy.

Postmaster Billy Smith and family returned home on Sunday evening from Salt Lake City. Mrs. Smith has been making a lengthy visit to her relatives in the East.

Old Fellows Reunion The visit of Grand Master J. C. Smith. of Virginia City, has been an event with the Odd Fellows of Eureka. Yesterday a number of the brethren procured an elenumber of the brethren procured an elegant carriage and accompanied the Grand Master to the mines of Ruby Hill, the smelting works, and all other objects of interest in this vicinity. Last evening a joint special meeting of both of the Eureka lodges took place at the Hall. The room was densely crowded, a large number of visiting brethren being present. Grand Master Smith delivered an able and eloquent lecture of instruction, which was well received and appreciatively enjoyed by all who were fortunate enough to be present. Mr. Smith departs this morning for the Comstock, intending to spend a day at the Comstock, intending to spend a day at Unionville en route. He created a favor-able impression, and made many friends during his brief official visit to the Base

Work was resumed in the Atlantic and Pacific tunnel on Friday last, and will be continued vigorously during the season. Houses, etc., have just been completed for the accommodation of the workmen. The tunnel is being run to develop the Lan-tern, Sagebrush, Welsh King and East Oakland, all promising mines of known value, located at the head of New York canyon, a little south of the Republic mine. The site for a tunnel could not be better. A distance of 1,600 feet will tap the mountain at a depth of 1,000 feet. It is expected that ore will be encountered when from 300 to 400 feet shall have been

run. The group of mines in the vicinity show splendidly at the surface, and many of them have yielded largely. We shall expect magnificent results from the running of the Atlantic and Pacific tunnel. The work is being done by the company, and not by contract.

Toll Road Troubles. The pleasure-seekers, Sunday afternoon, were somewhat surprised at being called

upon for toll at the old toll gate below town. It was generally supposed that the road was free, inasmuch as the County Commissioners had so declared, and the term of the charter was said to have ex-pired. Mrs. Daneke, the lady who owns whatever there is of the old franchise had whatever there is of the old franchise had a different opinion, and consequently insisted upon collecting toll from the passing teams on Sunday. Yesterday Mr. J. S. Whitton made complaint against Mrs. Daneke, for obstructing the highway, and the hearing has been set for 1 p. M. to-day before Judge Cromer. Mrs. D. claims to have acted under eminent legal advice in the matter, and will contest it to the bitter end.

The Germania this Evening. We hope our readers will bear in mind the concert and ball of the Germania Club

at Eureka Hall this evening. All lovers of fine music should not fail to attend, as the members of this organization are the fluest singers that have ever appeared in Eureka. We attended their rehearsal last evening, and were surprised at the proficiency the members have attained. The concert and ball will be the grandest affair ever given in this place. This is the first public entertainment given by the Germania, and we hope our citizens will encourage the members by their presence in large numbers this evening.

Mining Notes. Mr. Eugene Conroy has struck rich quartz ore in the John T mine on Prospect Mountain.

In the El Dorado mine, the property of the Ruby-Dunderberg, they are taking out some ore that is almost pure silver. In the El Dorado No. 2 mine, they are in edge matter at the bottom of the shaft,

Foreign Quotations The London Mining Journal of May 8th is at hand. Nevada shares were quoted at that date as follows: Richmond, \$80@ \$82.50; Ruby-Dunderberg. \$46.25@\$48.75; Eberhardt & Aurora, \$18.75 @ \$21.25. Shares had been quiet in consequence of the unsettled state of the metal market.

The following business was transacted at the Postoffice yesterday: Thirty-one money orders issued, amounting to \$830.75, and 21 letters registered. This is about an average day's business for the office.

Coming West.

Ben Butler left New York on Saturday for San Francisco. He will pass through this State about Thursday or Friday next. The General travels in a special car, and is accompanied by a few friends.

Richmond Bullion. The Richmond Company shipped this morning 10 bars of bullion, valued at \$21,112.90. EUREKA MINES IN LONDON.

Official Regarding the Richmond and Ruby-Dunderberg. The London Mining Journal for May 8th in receipt. The number contains the usual official reports from our Eureka

mines. This mention is made of THE RICHMOND. The usual telegram from the mines at Eureka states that the week's run was \$65,-000, from 968 tons of ore. During the week 000, from 968 tons of ore. During the week the refinery produced dore bars to the value of \$50,000. There have been some interruptions. The manager (April 14) reports upon the various points of operation. The 400-levels north from No. 11 and No. 15 chambers, are looking promising. The 500 north from No. 12 chamber, looks favorable for striking ore shortly. All the chambers are looking very well, and turning out the usual quantity of ore.

RUBY-DUNDERBERG The report states that the existence of a ourse of ore between the 400 and 500 foot levels is so far proved that a winze has been sunk 47 feet below the 400 foot level, and the rise in the back of the 500 foot evel to meet it are both in rich ore; and that a rise has been put up in the back of the 400 foot level, which is now up 50 feet towards the 300 foot level. The other important feature in the 'eport is that as by this time a communication has been made between the 400 and 500 foot levels, ventilbetween the 400 and 500 foot levels, ventilation will have been secured to enable them to drive the crosscut at the 500 foot level, and come under the Home Ticket deposit, and beside this to explore the ground until the quartzite is reached. The telegram giving the returns for the week is stated to show a marked improvement on those of the previous week, there being left a considerable profit.

THE SENATORIAL QUESTION. Hon. James F. Lewis and Hon. Wm

Woodburn also in the Field. The Gold Hill News of the 22d has this: Interest in the Senatorial question continues unabated on the Comstock, and aspirants to the toga are not wanting. As was stated in the News some time since, Hon. Wm. Woodburn is avowedly in the field. He has made no particular stir in the matter as yet, but whoever has asked him the question has been answered directly and unequivocally, so that there is no doubt on the subject.

no doubt on the subject.

This morning a representative of the News sought out Judge Lewis and asked him if he was a candidate to succeed Mr. Sharon. Judge Lewis said that he considered it too early yet to make a formal announcement to that effect, but that when the time came he would certainly enter the field for a fair contest for the position. As Mr. Tritle had suggested, he thought the first consideration of the campaign to be the success of the party in the United States and the election of a Republican President, and to that end the maintenance of the control of this State by the Repubof the control of this State by the Repub of the control of this State by the Republicans was of primary importance. It would be better to lose every Senator to be elected in the United States than to lose the President. Entertaining such views he placed his own success secondary to that of the party. He was willing to aid to the utmost of his endeavors to give the electoral vote of the State to the possible. toral vote of the State to the nominee of the Chicago Convention. In this respect he was ready to join hands with Mr. Tritle he was ready to join hands with Mr. Tritle and Mr. Woodburn, and whoever would come in and contribute to the general success of the party. He was willing to take his chances with an honest Legislature, after the grand success had been achieved. The Judge expressed himself freely on the issues of the day, but the object of this item is simply to let the readers of the News know that he is an aspirant for Senatorial honors.

EUREKA DISTRICT. A Subject for the Attention of Mine

Owners and Others. [From the Ruby Hill Mining News.] Mr. John McG. Scott gives notice to-day that the work of preparing his book on the resources of Eureka District is nearly com-

A copy of Mr. Scott's work should be sent

A copy of Mr. Scott's work should be sent to every newspaper in the United States and Canada, and also placed in every public library. There is no surer way to call the attention of people to the merits of the district. A subscription should be raised in Eureka and on the Hill for this purpose. We guarantee that Ruby Hill will respond promptly and liberally.

If Hiram or Mark Johnson, Wm. Stowell, Joe Mendes, R. Sadler, M. H. Joseph, and other gentlemen who have always manifested a lively interest in mining matters, would take hold of this proposition it could be carried through successfully in twenty-four hours.

four hours.

Mr. Scott is entitled to the thanks of every man who has the interests of our sec-tion at heart, and who looks to a possible future, for the tireless manner in which he has pursued his object. The undertaking was a risky one pecuniarily, and at no time has he received such assistance as the char-acter of his work entitled him to expect.

WARD ITEMS.

Reflex of Last Saturday.

Dr. L. B. Brooks and Charley Sommer-lott left for Silver Canyon Tuesday. The Doctor goes to look after and commence active operations on his mining property, while Charley thinks of going into business over there. Dr. Brooks will soon be able to give employment to sixty or seventy The Main Tunnel is now in a distance of

1.500 feet, and advancing at the rate of from eight to ten feet a day. The next thousand or twelve hundred feet will bring the tunnel into very interesting ground, though some are of the opinion that ore will be found befor that point is reached. Any one who succeeds in supplanting even one of White Pine's present officials at the coming election, will find at the next election—if he wishes to succeed himself—that he has been guilty of a grave offense, and that chronic office holders have some rights in this county.

The placer miners of Osceola have been sluicing for a week past. They calculate on about three week's water, and are reported to be working lively. Of late some of the boys have been averaging \$7 a day with rockers.

P. McCannon, a former resident of Pioche, says the Pioche Record, died in the Toombstone country a short time since.

Going Starring It. Harry Lorraine, proprietor of the Adelphi Theater, intends leaving here in a few days with a theatrical company, for a trip to Idaho and Oregon. He will return here about the middle of September, and will bring with him a first-class troupe. During his absence, a cozy little theater will be fitted up for him. Harry is a good actor and a gentleman, and we wish him unbounded success in his business.

Says the Elko Independent : The indiations are that base ball will rage to a considerable extent this summer in all our considerable extent this summer in all our towns. Eureka comes to the front with a friendly challenge to the Elko nine, and mildly insinuates that they can knock the cussed conceit out of most any nine in the State that has the hardihood to try conclusions with them. They will probably be accommodated.

There is a letter held for postage at

DEATH OF JOHN SCOTT. Accidentally Killed in Leadville by

a Runaway Team. The Leadville Chronicle brings the sad intelligence of the accidental death in that place last week of Mr. John Scott, a gentleman widely known in Eastern Nevada, and especially in Eureka, White Pine and Cherry Creek. Mr. Scott was a clever. whole souled gentleman, and had many friends wherever known. Following is the

count of the fatal accident: About 6 o'clock last night, as one of Barlow & Sanderson's stages was being started up Harrison avenue from the Windsor, the doubletree broke. Mr. Thomas Kinlock, the driver, observing the mishap, attempted to turn his team down Chestnut street, preferring to risk a runaway on that less crowded thoroughfare. He had scarcely turned the corner when the leaders spread out, being frightened, and two unfortunate gentlemen, John Scott and ex-Alderman John McCombs, were caught, as it were, in a trap. The driver tried to check up, but the position of the men and the noise of the crowd only frightened the horses the more. Officer J. H. Webb sprang from the sidewalk and grasped for the bridle of the leaders, but missed them. He succeeded in catching the rein of the lead horses, but it was then too late, as the injuries had then been inflicted.

Scott was thrown directly under the coach, a wheel passing over his head and body. He was taken up by Officers Webb and Clark, and carried to the office of Drs. Collins & Eyer, in an unconscious condition. Everything possible was done to relieve him. From this office he was taken to his room in the Grand Central. He lived until a few minutes after 8 o'clock. McCombs suffered from a broken arm. He was taken to the Grand Central. where he received medical treatment, and from there was conveyed to his home.

For a time there was a great deal of excitement among the crowd, which rapidly gathered, and the driver was censured by About 6 o'clock last night, as one of Bar

For a time there was a great deal of excitement among the crowd, which rapidly gathered, and the driver was censured by those who did not witness the accident. Officer Webb, who was standing on the corner, and saw the whole of it, does not think the driver should be blamed. His story is as we have given it, and he says that after the accident it took a man at the

story is as we have given it, and he says
that after the accident it took a man at the
head of each horse to control them.

The driver, Thomas Kinlock, is regarded
by all who know him as one of the most
careful and skillful drivers on the road.
After the accident he went to the jail and
offered to give himself up, but was told
that when he was wanted he would be notified.

A private letter from Mr. James Newman to the Sentinel also gives an account of the accident, which is substantially as above. The deceased was buried on the day following, his funeral being largely attended by the people of Leadville, among whom he had made many friends. The death of Mr. Scott will be universally regretted by a large circle of friends and acquaintances in Eastern Nevada.

YANKEE FORK.

Notes Culled from the Herald of May 15th. Our snow is on its last legs.

The blue-birds have returned. Swift's steam saw mill is on the road

Probably 150 arrivals since our last issue and still more coming.

Some rich specimens are coming out of the Daniel O'Connell. There are 100 persons in Challis waiting to come into this district. Several bears have been seen in this vi-

cinity the past few days. A good many newcomers have put in an Bonanza will have a money order office after the first day of July next.

Nuggets, big and bright, are beginning to make their appearance on the market. It is expected that pack trains will be

Fox & West have the road from town to their saw mill in condition for teams, and will commence the first of the week to de-liver lumber in town. ver lumber in town.

The snow is still deep and soft on the Redewill, their traveling representative,

pleted, and asks that in case he has missed any meritorious property, notice of such omission be sent to him, in order that it may be corrected in time.

The snow is still deep and sort on the divide. The mail comes in on time every day, but it has to come in from the toll gate (18 miles) on the backs of able-bodied men employed for that purpose.

The snow is still deep and sort on the divide. The mail comes in on time every day, but it has to come in from the toll gate (18 miles) on the backs of able-bodied men employed for that purpose. J. W. Hamilton returned to Bonanza Sunday, from Madison, Wis. James de-nies that he married a Madison lady dur-ing his absence, but he looks too innocent

Bay & Co. are making some good clean-ups on the Morrison placer ground, above the mouth of Jordan. Much of the gold is coarse, weighing from a pennyweight up to as high as six ounces.

It looks new as though there will be no It looks now as though there will be no census enumerator in this country; there certainly will not be one in this section unless application is made at once. The objection seems to be that \$6 a day will not pay a man to go to the different mining camps at the time which the census is to be taken.

PIOCHE ITEMS.

The Record of a Week as Recorded

Notwithstanding the rumors which have been set afloat during the week in regard to the management of the Raymond & Ely mine, nothing could be traced to any authentic source. During the week a number of the thirty-day drafts have been cashed down at San Francisco by the Company, but as yet we have heard of none of the sight drafts being cashed. This really looks to us as though spite was shown, and that those in charge of affairs down at the Bay were little boys and utterly unfit for the positions they fill.

Matt Howell, Manager of the Hillside

Matt Howell, Manager of the Hillside Company, was in town during the fore part of the week, buying up low-priced lead ore for use in the Hillside furnace as fluxing material. The affairs of the Hillside Company are in much better condition than they have been for a long time. There is nothing like having the right man at the wheel.

Several cows have lately died at the lower end of town, their death being caused by drinking the water running from the old Floral mill tailing pit.

George Birdsall, a former Deputy Sheriff of Lincoln county, under the administra-tion of Andrew Fife, has been appointed jailer at Virginia City.

The machine shop of the Raymond & Ely Company is now employed on work for the concentration tables at Bullionville. We have really jumped into summer at last. Linen coats and straw hats are now Judge Rives is expected in Pioche on the

A Tin Wedding. Mr. and Mrs. William Gibson formerly resided in Eureka, where they still have many friends and acquaintances. The Reveille of last Saturday has this item

regarding them: The tin wedding of Wm. Gibson and wife was celebrated last night at their residence on Court street. About forty ladies and gentlemen were present, many of whom took along articles of tinware as presents to the couple, who had just completed ten years of wedded bliss. A State exchange perpetrates the follow ing: A Washoe Valley belle was married

last week, and the other day when asked how she liked it as far as she had gone, she said: "It's the boss racket, you bet yer bloomin' life. You hear me I'm a shout-in'; and don't you forgit it." Passing Bullion. Wells, Fargo & Co. shipped this morning the Postoffice, addressed as follows: Thos.

Dempsy, Barton, Alleghaney county, Md. I bar of bullion, valued at \$1,788.62.

TOMBSTONE DISTRICT.

A Few of the Promising Mines. A correspondent, writing to the New York Engineering and Mining Journal,

The Tombstone is par excellence the lo-cality for rich mines, having more paying ones than any other in Pima county. The Contention is the first. Then comes the Tough Nut, which is not much inferior. Contention is the first. Then comes the Tough Nut, which is not much inferior. Both mines are producing ore in sufficient quantities to keep their respective mills constantly employed. The next mine of importance is the Grand Central. This property is being worked, and discloses a large body of rich ore. Then come the Head Center and Yellow Jacket mines, which adjoin the Contention on the northwest. These properties are worked by a large force, disclosing a large vein of ore carrying a heavy percentage of gold, which is, perhaps, the richest ore for so large a body yet opened in the district. An organization has been effected in San Francisco; number of shares, 20,000. The owners are mining men of experience and capital. I expect to hear a good account of this property as soon as the mill is completed.

The Sunset is another promising mine. Work is carried on night and day in this property. The ores are high grade. A large quantity of ore is now on the dump, waiting only the erection of a mill to reduce the ores and extract the gold and silver. This mine is owned by gentlemen from Pennsylvania.

There are several other mines in the dis-

ver. This mine is owned by gentlemen from Pennsylvania.

There are several other mines in the district which, in a few months, will take rank with the present dividend-paying ones. They are developing good bodies of high-grade ore, and cannot fail to attract the attention of capitalists.

The water-works, now in course of construction, will soon be completed, furnishing not less than 50,000 gallons per day. This will be of immense benefit to all interested in mines, as well as those engaged in other pursuits.

The railroad is now running regularly to within forty miles of Tombstone, and the

The railroad is now running regularly to within forty miles of Tombstone, and the track is laying beyond at the rate of one mile per day; so that in a little over a month the cars will reach the new town of

Benson, about 22 miles from the di At the latter point, a railroad will be

districts. A company has been organized for that purpose.

The Patagonians are looking up, so I am told. I was told yesterday that they had made quite a strike in the Hermosa. I hope it may prove all that is claimed for it. I have sometimes doubted ir regard to the "staying" qualities of this mine. The ore, what little there was below the 200-foot level, was not rich. In fact, I have little faith that the free chloride ore, such as is produced in the Hermosa, will reach any produced in the Hermosa, will reach any great depth.

Never Listed.

The SENTINEL stated some time since on what it supposed to be good authority, that the stock of the Connolly mine of this dis-trict had been stricken from the London Stock Exchange. Superintendent Potter now informs us that the stock has never been listed.

"Manual of Social and Business

The new improved and enlarged edition of "Hill's Manual" is a book for everybody. It is an encyclopedia of informabody. It is an encyclopedia of information of all kinds needed in social and business life. Its chapter on Elocution and
Oratory is admirable. The tables of reference are complete. It is claimed as a standard work on general etiquette, or conversation, visiting, or at the table, in the ball
room, etc. Its commercial forms, embracing book-keeping and penmanship, are very
complete. The book also teaches telegraphing, phonography, the arts of composition
and poetry; and, in fact, everything pertaining to educational, social, commercial
and legal forms. A. Redewill, agent for the
same, is at present in Eureka.

A. L. Bancroft & Co., of San Francisco sell first-class and medium-priced piano and organs on the popular installment plan, every instrument being accompanied with a written guarantee for five years. Old instruments received in exchange for

The Corner Saloon. This saloon having been purchased by Mr. Wm. Liggitt, has, under his management, become a popular place of resort Mr. Liggitt prides himself on his liquors and cigars, and all who patronize him think he is correct in his ideas. Give him a call, and you will be well pleased with
