

THE PRESIDENTIAL OUTLOOK.

The dispatches from the East, says the Examiner of Saturday, report the positive declaration of Horatio Seymour as a candidate for the Presidential nomination at Cincinnati. He will not accept the nomination, even though it be tendered to him by unanimous vote. This ought to suffice, and now there should be no more talk of Seymour. The great fight is made against Tilden. It is made by a combination of the great railroad corporations, Republicans and Democrats alike, and the mass of the scheming politicians are likewise opposing his nomination—mainly because they all know and feel they cannot use him or hoodwink him. He is the uncompromising and unyielding foe to aggressive monopoly and to corruption in the public service. Hence the great corporations and politicians pre-fer for any other candidate to him. The New York World is the chief organ of the railroad combination to beat Tilden at Cincinnati. It is owned and guided by Republicans, although it pretends to be a Democratic paper. Jay Gould, the owner of the Tribune, the great backer of Blaine at Chicago, and now the backer of Garfield, is working by all his underground and stealthy arts to compass the nomination of any candidate at Chicago, other than Tilden. He is said to be favoring Judge Field. The excitement is growing daily, and by the time the Convention meets, next Tuesday, it will be the greatest that has been witnessed at a Democratic National Convention for many years. The Democracy of California will heartily support the candidate no matter who he may be. This is the only proper sentiment.

MARE ISLAND AND MINING DEBRI.

Representative Whitthorne, of Tennessee, the very able and efficient Chairman of the House Committee on Naval Affairs, has submitted a carefully prepared report in relation to the condition of the waters about Mare Island, and the consequences of the mining debris upon the approaches to the Navy Yard there. He views the situation as serious, and recommends the survey and examination of the causes of the difficulty by naval engineers. The report states: To make such a Navy Yard as the military and commercial interests of the United States demand, will require a very large sum of money. The total cost will exceed \$12,000,000. With the knowledge that the permanent usefulness of this yard is so seriously threatened, and to determine the question whether the causes of the apprehension can be permanently removed or avoided, the committee thinks it is to the interest of the Government that these matters should be inquired into, to the end that in future such appropriations as may be called for to protect naval interests on the Pacific coast may be intelligently considered and determined with reference to the best interests of the Government.

YANKEE FORK.

Hopes, culled from the Herald of June 12th.

In a month we'll have lots of salmon.

Dr. Sprongle returned to Nevada's last of the week.

The Charles-Dickens arrests is running regularly, with its usual good results.

The Yankee Fork shows some of the handsomest scenery in the world; and is a beautiful stream.

The grass is making a showing on the hillsides; and on the river valley below town is several inches high.

The Wain mine on Mount Estes is producing a fine quality of ore, much of it worth from \$500 to \$800 per ton.

Billy Beebe, Tom Corlette and R. C. Divine (Yankee Bob) were down this week from Mount Estes. They report the mines looking well but a great deal of snow up there.

Mr. Thomas and his two sons, and Chris. Warth, have discovered what they believe to be paying placer ground on the Salmon above the mouth of Yankee Fork, and are rigging up sluices for washing.

Mordoff & Co. are driving a lively shingle trade. The Fourth of July is being celebrated in both Bonanza and Ouster parties. They have about 250,000 of the mill and orders for 75,000 more.

Several new strikes are reported from Squaw Creek this week. Prospectors are said to be scattered over the hills all the way from the Bonanza mine to Squaw Creek and even up to the mouth of Yankee Fork.

E. M. Wilson and Maj. Hyndman started Wednesday on a two weeks' trip to the Saw Tooth. Several parties have already gone in by the Wood River pass among them Col. Green, the purchaser of the Pilgrim mine. Live time are anticipated in the Saw Tooth country this season.

The nights are yet cool here and the days anything but warm; but when we hear of people in the East collapsing from sunstroke, and others in Arizona, Nevada and New Mexico burning up with thirst and being stung by centipedes and bitten by tarantulas and snakes, while the inhabitants of the Middle States are carried away in cyclones, and the Fourth of July is made food for the crocodiles, alligators and mosquitoes, we are forced to the conclusion that Yankee Fork is about as safe a country to dwell in as any of them.

WARD ITEMS.

The people of Pioche and Bristol will celebrate the Fourth of July on Sunday, the day on which it falls this year, thus showing their good sense. Sunday is simply a day of recreation, nothing more nor less, and the idea of celebrating the Fourth a day sooner or later out of respect to a day that is no better than any other is simply ridiculous. The Fourth of July should overshadow Sunday all the time.

Should Thurman be nominated by the National Democratic Convention which meets in Cincinnati next Tuesday, we know many Republicans in this immediate vicinity who will vote for him who have voted the Republican ticket ever since the outbreak of the war, but who have become tired of corruption rule, and now propose to vote for a man the corporations have not got money enough to buy.

All the old soldiers in this section are anything but sold for Garfield and Arthur. One said in our presence a few days ago that he would not vote this time; that those who wanted Garfield would have to elect him without his vote. He will be accused, of course, of having deserted to the Democrats.

Tom Edwards and Fred Padelford left for Rio, Colorado, yesterday, in search of bonanzas that may be laying around loose. They go across the country on horseback.

The Main Tunnel was 1,750 feet in length Wednesday last. It is now quite a walk to the face.

It is the intention to run the cars in the Main Tunnel by mile power next week.

POLITICAL SPECULATIONS.

Invasion of Mexico.

MR. HAYES WILL USE PACIFIC COAST TROOPS.

Filibusters Stronger Than Suspected.

EXPEDITIONS GATHERING AT THREE POINTS.

The Internal Revenue Deficiency—Hayes' Visit to the Coast.

[By Telegraph to the Sentinel.]

CINCINNATI, June 22.—3 p. m.—The following of Judge Field does not appear formidable at this time. At any rate, it is more quiet than that of other prominently mentioned candidates. One of the most conspicuous of the political leaders here has expressed the opinion that the contest would finally be narrowed down to Bayard from the East and McDonald from the West, but it is difficult to see how this is to be brought about while Senator McDonald is among the warmest supporters of Hendricks. Randall has many warm friends; and a contingency may arise which will give him part of the Tilden vote. The Western men regard the support of Hendricks, by a part of the Pennsylvania delegation, as fatal to Randall's chances. It is announced that another letter will be forthcoming from Tilden. The New York delegation's formal acceptance to-day of Mr. Tilden's letter of declaration, finally settles all thought of pressing his name. To emphasize their action, an engrossed copy of their resolution was ordered to be forwarded to the Kentucky delegation, to release them from their pledge to Tilden. The shrewd politicians here dare not venture an opinion as to the outcome.

The hot weather has had the effect of lessening the ardor of the friends of the candidates, and the streets have presented an animated appearance since 11 o'clock. The American and Randall Clubs, of Philadelphia, paraded the streets with music and banners, and were soon afterwards followed by the Hendricks Club of Indiana. The chief topic of conversation is the letter of Mr. Tilden declining the use of his name again for the Presidency. While some are disposed to read in the close of the letter a willingness to serve the party, a majority of the leaders looked on it as a final declaration. Hon. Samuel J. Randall and Hon. Henry Waterson took this view. It is announced with some authority that the New York delegation will present the name of Henry B. Payne, of Ohio, for the Presidency. If this is done the Ohio delegation, which is now solid for Thurman, will be in an embarrassing position. The outside delegates say they will have to leave their man and go to Payne, but all will not do so, as Jewett has friends in the delegation who hope he may be an acceptable dark horse. The Kentucky delegation will vote for Bayard, as being now the most acceptable choice. Senator Beck is for Seymour, his influence is likely to be for Bayard, like the rest of the Kentuckians. It is thought that 16 of the Tennessee delegates will also vote for Bayard. Judge Nickles says Indiana has no second choice; they are first and last all ways for Hendricks. There is a good deal of enthusiasm in support of his candidacy, but its importance will depend largely on the strength that may come from the South. The Illinois delegation meets tonight to vote on their Presidential choice. There is a wide diversity of opinion among the delegates. Missouri is even more divided. The Minnesota delegation reached here this morning in a special car.

A Filibustering Party.

New York, June 21.—The Herald's Washington special says: The subject of an invasion of Mexico by a filibustering party from Southern Arizona, whose project is to cross over into Mexico and seize Sonora, which was under discussion on Saturday, at the cabinet meeting, appears to have more importance attached to it than was first supposed. In the War Department the officials are very reticent, and in the State Department they are further than that it is the intention of Hayes to use the United States troops in General McDowell's division of the Pacific, to prevent any body of men from leaving the United States to go into Mexico. The Secretary of War has received dispatches from General McDowell, in which he shows that the filibusters are stronger than suspected, and it is estimated there are 5,000 armed men at the party at the present time. General McDowell has about 1,000 available men, consisting of parts of two companies of the First and Sixth Cavalry, the Eighth Infantry and Fourth Artillery. The expedition is gathering at three points, at Headquarters at Tucson, and it will take fully three days for Gen. McDowell to concentrate his forces in order to be effective. During the time Gen. McDowell is placing his men in position, to prevent the raid, the filibusters, it is thought, will wait and before General McDowell can get into position the party will be ready to move, and probably will have crossed into Mexico.

The Hendricks' Delegation.

INDIANAPOLIS, June 21.—A special train of ten coaches left for Cincinnati this morning, with the Hendricks' delegation. Seymour's declaration puts the Hoosiers in bad shape. Hendricks would have accepted the second place with Seymour, but must now be put forward for the first place or nothing. The chances are much better that Senator McDonald will receive the nomination, without being just as agreeable to the Democrats here.

The Pressure Produced by Kelly.

New York, June 21.—Many Tilden Democrats here regard Tilden's letter as being part of the pressure produced by Kelly, and declare that they will vote for Garfield if Tilden is crowded out.

President Hayes Coming to the Coast.

WASHINGTON, June 21.—Mr. Hayes says if he visits the Pacific coast it will be as late as September. His idea is to reach Sacramento in time for the State fair.

A \$30,000 Deficiency.

New York, June 19.—There is a deficiency of \$30,000 in the Brooklyn Internal Revenue office. The bondsmen of the late collector Freeland, of Deputy Silas T. Boone, are responsible men.

John McCullough's Mind Deed.

[St. Louis Post.]

"It is strange," said Mr. McCullough, "to what extremes religious prejudice will carry people. I have a good Presbyterian sister up in Pennsylvania, who was so horrified when she heard that I had adopted the stage as a profession that she refused to recognize me. She believed that I was a good Calvinistic antecedent, used to say, was the vestible of the devil's chief workshop. For years we did not meet. She never wrote me a line. Finally, in 1876 her husband, increased with the prevailing idea of the day, concluded to go to Philadelphia and pick up one of the fortunes to so conveniently gathered during the centennial. He sold his little rural home and purchased a small shop in Philadelphia.

John McCullough's Mind Deed.

"In a time of peace to grief. I heard of the distress that had overtaken the family, and I slipped quietly up into the country, bought back the little home, put it in my sister's name, and sent her and her babies back to pure air and contentment. This vindicated the stage. The letter that I received from her was almost worth the years of estrangement, and I do not believe she will live long enough to get done wondering why her church ever taught her that actors were bad people and that the stage was the sum of all villainies."

PACIFIC COAST INTELLIGENCE.

A Motion to Discharge I. M. Kallach From Custody—The McClure Charter Unconstitutional—Kallach Held to Answer—Suicide of Emil Madelaine—Investing in Sonora Mines.

[By Telegraph to the Sentinel.]

SAN FRANCISCO, June 21.—In the case of I. M. Kallach, charged with the murder of Chas. De Young, a motion was made to-day to discharge him from custody, on the ground that he could not be put in jeopardy twice for the same offense. The motion was denied by the court.

The Supreme Court to-day rendered a decision declaring the McClure Charter unconstitutional, on the ground that it does not fall within the definition of general laws.

I. M. Kallach, as a result of the examination, Chas. De Young, was held to answer this case de novo, on the charge of killing without bail.

Emil Madelaine, an old resident of French Corral, San Juan county, committed suicide yesterday afternoon by taking strychnine; cause unknown.

California and Eastern capitalists have recently invested in mines in Sonora and Chihuahua to the value of over a million dollars. Title deeds and descriptions of the properties are now being translated by experts in this city. No particulars of the transactions will be given to the press until absolute possession of the mines is taken.

OVER THE WATER.

A Court Martial—Thomas Dale Sentenced to 336 Days—The Famine Fever—A Village Destroyed by Fire.

[By Telegraph to the Sentinel.]

LONDON, June 21.—Last week a court martial was held at Knight's Bridge Barracks, in the quarters of the Horse Guards, on Thomas Dale, alias Jordan, Captain of the Canadian team of Cricketers, a deserter from the British army. He was sentenced to 336 days imprisonment. He managed to escape from the guard-room, but being recaptured by a civilian, another court martial was immediately held, which increased the sentence to 336 days.

A Daily News' special says there is no longer any doubt the famine fever has appeared in some parts of West and South Ireland. A letter read in the Mansion House Relief Committee, from Charleston, County Mayo, says the famine fever of the most dangerous character is very prevalent, and is making much progress. It has also appeared in Swenford, and in Glenariffe, County Cork.

Fez, June 20.—The village of Homann, in the county of Seempling, was destroyed by fire. Many of the inhabitants were burned, and others injured. The famine having raged since the beginning of the winter, the misery is indescribable.

One thousand and eleven houses were burned in Hungary during May.

FAGIN OUTDONE.

A London Pickpocket Earns a princely Fortune Teaching His Trade.

Twenty years ago Chester established a school in London dedicated to the devotees of St. Nicholas, and he speedily obtained many pupils. The most well known and skillful pickpockets who have paid the penalty of being caught, and those who were clever enough to avoid the clutches of the myrmidons of the law, have all been moulded according to the Chesterian method. And when it is stated that in twenty years Chester has been able to amass a fortune of fifty thousand pounds sterling, the great importance and efficacy of his lessons will be thoroughly appreciated. His pupils, on leaving his institution, were formed into bands of ten, under the guidance of a "methodist," and it was under the aegis of this ever watchful guardian that they overran the earth. Two-thirds of the "profits" were faithfully and punctually paid to the illustrious professor. Chester demeaned himself but twice in his career by "working" personally; it was in Paris during the two last exhibitions. In 1878 he was arrested and condemned to six months' imprisonment, and he was, moreover, prohibited from ever entering France again. He has since the day of his escape from the "business" to two of his best pupils, and retired to Birmingham, where he has a great deal of property. Having some very urgent affairs to settle at Paris, he applied, a few days ago, for permission to pass a week in this capital, which has been duly accorded him. But as it was deemed inadvisable to allow a man of his capacity to roam about the city without let or hindrance, two police agents have been sent to act as an escort of surveillance. Chester is sixty-five years old and is the father of ten children, whom he has educated in a princely manner, and he himself is master of several languages.

FAMILY GROCERIES.

HIRAM JOHNSON, Wholesale and Retail Dealer in STAPLE AND FANCY GROCERIES.
