ARRIVALS LAST NIGHT.

W. E. Davidson C. O. Loughlin
Henry Kind wife & 2 Ch.

Hotel Arrivals.

Parker House—James McMillan, Ruby Hill.
Jackson House—Henry Bollen, Eberhardy, G. R. Henry, Mound Valley, J. R. Townsend, Hamilton, Tom Keogh, Austin.

Casualty on Davitt.

The following letter was written on the occasion of the Michael Davitt meeting held in New York last week:

HOUSE OF REPRESENTATIVES, U. S.,
WASHINGTON, D. C., June 16, 1882.

Prof. John P. Murphy and Gentlemen of Committee: In acknowledging your invitation to attend the reception tendered to the grand patriot, Michael Davitt, I have to say that a great pleasure of public business will not permit me to avail myself of this pleasure.

It is due alike to your committee and myself to say, however, that I honor the occasion, the man, and the sublime cause which he represents.

Relief from the mailed hand of the oppressor, Irish nationality and all of the inestimable blessings which flow from liberty and free government, of any by the people, center in, and let us hope may be the legitimate outgrowth of the Irish National Land League, whose distinguished founder and chief promoter, you meet to honor.

Every devotee of liberty, and equally every foe of oppression, wherever these sacred sentiments find lodgment in the human heart, must join sympathy with you in extending a kindly greeting and bidding a cordial welcome to the patriotic guest, and none, permit me to assume, more heartily than your obedient servant,
Geo. W. Cassidy.

Shannon.

A gentleman stated to a Carson Appeal reporter that ex-Senator Shannon has never been in a more solid financial way since the failure of the Bank of California than at present. It is said that all he touches turns to gold. Should he live ten years longer he will in all probability be classed among the wealthiest men of the nation.

While he devotes much of his time to the augmentation of his already colossal wealth, he does not ignore any of the pleasures in life that money can purchase. He is a good liver and is generous enough to permit his friends to ride with him on the coast of the waves of good fortune.

The ex-Senator's oldest acquaintances say the acquisition of great wealth has not changed his nature; while his enormous interests associate him with a different class of men, yet he does not forget or slight his companions of thirty years ago, however many sorrowful pranks fortune may have played with them. In point of business sagacity he is considered the first of D. O. Mills, who has a patent fact, one given by the present prosperous condition of the Bank of California and the conditions increase of his possessions during times when other millionaires are losing theirs.

Another gentleman stated that he is indeed one of a few men of the century, in point of success.

Hard Pulling.

A wood vendor came in yesterday with a cord a half of hard cedar on his wagon, which he had two little moustangs either wouldn't or couldn't pull up the hill north of neighbor Jack Cohn's house.

There was every sort of maneuvering and all kinds of help offered the driver to get his hauling horses up the hill. Alf Harris looked on encouragingly. Big Sam was in a sun-bonnet and put his hand on the wheel. Another neighbor armed with a stick of the fuel, assisted the woodman in pounding the horses to the extent of their muscular force. The most of the latter part of the afternoon was thus put to time enough to have unloaded the made two or three trips—when the moustangs, getting anxious to eat, no doubt, put their bellies to the dust and the loaded wagon went toppling and crunching over the hill.

District Court.

The Court was occupied yesterday with a case against Penrose, Trevelan, Abrahams and Harris for contempt in violation of the decree in the Rose case in working on Albion ground. They claimed that they worked under the instructions of Foreman Longley of the Richmond mine, and they were allowed until Monday to produce testimony. It appears that they had a drift seven feet in ore beyond the line of the mine. This information they said they got from the returns made by Clerk Bryant of the Richmond, though they did not see the assays.

In the case of L. L. Roy and others against Dapault and others the Court granted the motion of attorneys for plaintiff for triple damages—\$600.

The Californian for July.

The contents of this favorite magazine for July are as follows: James F. Bowman, a poem, by Ina D. Coolbrith; "A Fragment of China," illustrated, Will Brooks; Studies of the California Missions—III, Francis Fuller Victor; "Does It Pay to be Educated?" Andrew McF. Davis; "Thaloo," chapters IV and V, Leonard Rip; "Out of Reach," a camping medley, H. T. C. Peace; a poem, Charles H. A. C. Peace; "The Little Mill," a poem, "Society," Mary D. Mott; "A Logical Sequence," chapters X and XI, Warren Cheney; "Ecco Dens," a poem; "Transmitted Tendencies," Evelyn M. Landon; book notices and "Outcroppings." It is a very interesting number, and should be on the table of those literarily inclined.

The Despoiled Cactus.

A friend left a bunch of budding cactus flowers at the Sentinel office on Thursday. We placed them in water and yesterday they began to bloom, throwing out a large and brilliant yellow flower. They were an ornament to any garden, and are quite abundant in the ravines in the neighboring hills, where they flourish almost without moisture. They are easily transplanted, and with a little attention would form an attractive feature among other shrubs.

For the Hay Fields.

W. J. Reid, Malcomb Campbell, James McDonald, Jesse Mendes, William Hasten, Sam. Mahoney, John Clark, William Coram, Sam. Tunnely, Al. Wadish, George Stone, Joe Grattan, D. Norton, John Boyle, Richard Cann, William White and George Clark left here yesterday for Huntington Valley to cut hay.

Pay-Days.

The Eureka Co. pay-days will be as follows: Furnacemen on the 3d, miners on the 5th and town bills on the 3d.

The Richmond will pay furnace and refinery men on the 5th, miners on the 6th and town bills on the 5th.

FLUE DUST.

Scraps from the Note-book of the Sentinel's Reporter.

The Bank Exchange was opened last night as a dance hall.

The County Commissioners meet tomorrow morning at 10 o'clock.

It is said that the last quarterly dividend of the Richmond was passed.

Up to June 1 of the present year the dividends of Nevada mines amounted to \$339,512.

There is a message at the Western Union Telegraph Office for Sam. E. Tillman, United States Senator.

Two Chinamen were naturalized last Wednesday in Philadelphia. Two more good Republican votes.

Yesterday was quite warm and pleasant. At 2 o'clock the thermometer marked a temperature of 87 degrees in the shade.

Nevada has fewer dividend paying mines at present than for any period in 20 years. Next year at this time the showing will be different.

Anchor Chain No. 1, I. O. C. P., will meet at Odd Fellows' Hall at 2 o'clock this afternoon. A full attendance of members is requested.

The hydrant on Ruby Avenue, near the junction of Bateman street, was tested last evening. It was found in excellent order, with a splendid pressure of water.

Some one says Pocahontas was a myth. Perhaps she was; but he cannot make us believe that John Smith was also a myth, because he still lives, and we have seen him.

An English physician says a man can stop a fit of sneezing by crawling down stairs head first. Almost anything can be cured that way if the stairs are steep enough.

The Manhattan mine at Austin is producing a larger amount of bullion. The yield for June should not fall far short of \$200,000. In one week the product was \$63,000.

The ladies and children should remember the Fourth of July matinee at the Opera House by the Truckee Concert Company. It will be a novel and attractive entertainment.

The following location was filed with the Mining Recorder yesterday: The Douglas mine, situated on Ruby Hill. Locators—T. S. Douglas, James S. Douglas, Alex. Wilson and Walter Long.

Robinson, the circus man, who will not show here (which announcement is not made without dropping a tear in sympathy with our small boys over their disappointment), says \$70,000 per annum for advertisement.

"Emily" asked the Bodie Miner "if drawers, gathered at the knees, are to be fashionable for Summer wear?" "Orlando" replied: "Candidly, Emily, we do not know. We wear ours plain, tight to the skin, and without gathering or ruffling of any kind."

Louis Brandt, the Fire Warden, accompanied by Messrs. Fitzgerald and Bliss, examined all the plugs about town yesterday and found them in good order. The tanks were also inspected and found to contain a full supply of water for all purposes.

It is reported that another diamond shark from San Francisco is trying to "place" a lot of "precious stones" on the shirt bosoms of some confiding members of our community. The experienced fish one of these fellows some months since should remain as a warning.

Several gentlemen, prominent in mining in Eureka, manifest considerable interest in seeing Nevada's great mineral resources properly represented and advertised at the Denver Exposition, and they will not doubt do directly whatever can be done in the matter.

PERSONAL.

Col. E. N. Robinson goes below Monday morning.

Mr. Henry Kind and family returned from the West last night.

Gen. Connor leaves Salt Lake to-day and will arrive here to-morrow night.

Mr. Alexander Beatty, of Duckwater, returned from California Friday night.

From Austin Mr. Hickard was below and W. H. Sweeney has returned home.

Mr. W. E. Davidson returned from Salt Lake last night, whither he had gone to attend the races and view the modern Zion.

Virginia Chronicle: Miss Vickie Grosjean, the well known teacher of languages, leaves for New York Monday for Eureka, where she will remain.

Billy Dodd, manager of Gov. Adams' cattle business in Nye County, was brought in to Eureka Friday for medical treatment. He has heart disease and will go below.

W. A. Hanson, clerk in the dry goods house of Maher & Manion, left here yesterday morning for San Francisco. We believe it is the intention of Mr. Manion to remain by the seashore. The young gentleman leaves many friends in Eureka, who will miss his genial and pleasant company.

Monthly Reports.

Dr. Bishop furnishes the following statement in regard to the number of patients in the County Hospital: On June 1st the number in charge of Month June was 22; admitted during the month, 7; discharged, 12; number in hospital, 17. This shows a decrease in the number of patients during June of five.

The amounts received by the following named county officers during the month of June are as follows: Justice of the Peace, \$167 25; District Attorney, \$90; Recorder, \$150; County Clerk, \$468 55; Constable, \$146 76.

The following business was transacted in the County Clerk's office during the month of June: Declared their intention of becoming citizens, 4; naturalization papers, 1; marriage licenses, 3; suits commenced, 11; insane commitments, 1; letters of administration, 1.

The Mill Will Earn Money.

O. J. Salisbury, says the Salt Lake Tribune, has returned from the Bertrand, at Eureka, leaving B. D. Clark in charge. Everything was apparently working well. The ore gave up in the leaching vat 90 per cent of its value. The rolls are equal to crushing 60 or 70 tons per day. It requires from eight to twelve hours to chloridize, and the vat can be charged, leached with hot water, and with the solution, and discharged, in 24 hours. There is nothing to hinder the mill from earning plenty of money.

Fire.

Between 5 and 6 o'clock yesterday afternoon the alarm of fire was sounded, caused by a burning chimney in the Catholic parsonage. The soot must have burned twenty minutes with a brilliant flame extending several feet above the top of the chimney. There was but little wind blowing, else the frame buildings near the parsonage on the north would have been endangered.

The Mining Exposition.

As yet we have seen no indications of any movement in the State, says the Enterprise, to accept the invitation of the people of Colorado to join with them in making the National Mining Exposition a success. Apathy in this matter is not creditable to our State. The exhibition is creditable to our State. The exhibition is creditable to our State. The exhibition is creditable to our State.

No Jurisdiction.

The United States authorities have decided that they have no jurisdiction in the matter of Captain Roper cutting off the queue of one of his Chinese passengers while on the high seas en route to San Francisco. The queueless Mongol is very mad, and thinks that a hair restorer, the U. S. is not a success.

DAN DE QUILLE.

Flattering Tribute to a Veteran Comstock Reporter.

The Carson Appeal does but simple justice to Dan de Quille in the following article. Dan is one of the best of good men, while his writings are remarkable for originality and true wit. Says the Appeal: There is no doubt that Dan de Quille has been connected with one paper longer than any other reporter in America. He became associated with the Territorial Enterprise more than twenty years ago, and has been contributing interesting matter to that journal almost daily since that time. He is still in the journalistic harness, performing excellent work in his capacity. Dan de Quille's pen has done nearly as much toward making the Comstock famous as the discovery of the great bonanza. His literary labors have always been greatly appreciated not only on the Pacific Coast, but also east of the Rocky Mountains. There is scarcely a newspaper office in the Atlantic States in which Dan de Quille's name is not as familiar as that of Mark Twain. Referring to Mark Twain, who, by the way, may in a measure thank Dan de Quille for his fame, we feel justified in saying that were Dan de Quille possessed of the brain of the great humorist, he could with his own true genius, the former would occupy a much higher position and more well merited fame in the literary world than the latter. Dan de Quille is one of the fixtures on the Comstock, and a popular and highly prized one. The Comstockers would as soon think of parting with all hope of more prosperous times in the future as to permit him to leave them. We are told that hundreds of Nevadans, now scattered all over the country, have scrap-books filled with Dan de Quille's early literary productions, which they value most above all things in their libraries. Dan de Quille has accomplished on the Enterprise an astounding, and could only be performed by one endowed with a wonderful vividness of imagination and genius.

NEVADA BULLION.

Marvelous Wealth From the Sage Brush State.

Since the first discovery of the mines of Austin Mining District, in 1862, says an Eastern stock journal, down to the present time, the aggregate bullion yield has amounted to fully \$20,000,000. The vast majority of this came from the mines on Lander Hill, within the borders of Austin. The Manhattan mill is busily grinding out bullion, and produces about \$1,000,000 yearly.

From 1873 to January of the present year the gross ore product of Eureka District amounted to about \$40,000,000. From 1869, when ore began to be produced in the district, up to 1873, at least \$19,000,000 worth of ore was taken from the various mines then being developed, so that the total gross ore product of Eureka District from 1869 up to January last may be set down within safe limits at \$59,000,000.

The bullion product of the Comstock ledge is variously estimated all the way from \$300,000,000 to \$450,000,000. Taking the mean as an average, we find that these three mining districts of Nevada have enriched the world to the extent of \$450,000,000 within the last score of years, or an average yearly output of \$22,500,000.

The Races.

We are requested to state that the entries for the races for the 4th and 5th will be closed Monday night; ladies' tournament, Tuesday night. Pools will be sold Monday and Tuesday nights at the Palace Pavilion. All persons who have subscribed to the races are requested to call there and settle. Everything is in order, now, and a good time is assured. Charles Dean is the track, putting several fine horses in training. Ed. McCortley, the popular mascot, will be duly installed there from to-day on until the races are over, with the best liquor and cigars. A good many talk of taking a spin on the track this morning and this afternoon. It looks as though the road to the track will present a lively appearance to-day.

Chinese Gang Home.

The Tokio, which sailed from San Francisco yesterday, was to take back to China a number of Chinese. About half of the Chinese going home procure registration papers permitting them to return to this country. The other half, for various reasons, do not wish to return. Some are getting too old to work, others are sick of the country, while many, having gained a competence here, are going home to live and do some very clever tricks. In a few days within a few years the number of Chinese in this country will have greatly diminished, as the majority of those returning to China will remain there, and the pretensions taken by the Chinese in the registration matter will prevent others returning in their places.

30,000 Sheep.

Tom Keogh, well known as a stock man, has a flock of 30,000 sheep in Diamond Valley, which he is driving to Cheyenne. He started with them early in last April. From here he expects to get about twenty days on the road to Wells. From that point to his journey's end he will be three months more. He will reach Cheyenne about the first of November, the entire time of the drive being thus about seven months. Mr. Keogh looks brown and tough. He has had a hard time of it to get feed for his sheep on the way. Several times he thought he was on the point of losing every cent he had, but he has been very fortunate, losing only 225 head up to this point. All the rest of the way there is plenty of grass and water.

Variety Amusements.

A change of programme was given at the Truckee last evening to the usual good business. The bill affords nutriment for many laughs and is varied enough to suit the most fastidious. The first part is a novel performance. The first part is a novel performance. The first part is a novel performance.

At the Trivoli the programme undergoes a nightly change and a long bill is offered. Some charming songs are rendered by the DeVere Sisters, and the balance of the company appears in the most excellent and spectacular first part is received with much applause.

Chinamen Striking.

Mr. Fitzpatrick, who keeps the first station out of town on the Hamilton road, informs us that the Chinamen who has been cooking for him at \$7 a week has struck for \$9. And he has found out that they have an understanding among them to hold out for higher wages all along the line. This is not improbable. The number of Chinamen in the State is slowly decreasing, and competition in their kinds of labor is becoming proportionately less.

Bigler Trout.

Seventeen hundred pounds of trout were shipped from Truckee to San Francisco and Sacramento on Monday night. This is the largest single shipment that has been made this season. A single individual caught over 1,400 of these fish in Bigler last week.

Ice Cream, Lemonade, Etc.

If you want good ice cream, lemonade and home made cakes, cookies and pies, call on Mrs. Nichols, a few doors south of the Courthouse.

The choicest fruits that ever came to Eureka at B. Alexander's.

Compare Red House prices with other dealers'.

PACIFIC COAST ADVICES.

(SPECIAL TO THE SENTINEL.)

Twenty-Two Cases of Smallpox.

SAN FRANCISCO, July 1.—A quarantine officer to-day discovered twenty-two more cases of smallpox on the steamer Belgio and seventeen doubtful cases. The Chinese and white cabin passengers will be quarantined in separate hulks. The Belgio, after disinfection, will be docked.

Harmony Among the Democrats.

SAN FRANCISCO, July 1.—A meeting of the Democratic State Committee was held to-day, at which a resolution was adopted to the effect that rumors to the purport that the Committee was not in accord with the action of the State Convention is unqualifiedly false, and expressing hearty endorsement of all the nominations made at San Jose.

Complaint from the Chinese Minister.

SAN FRANCISCO, July 1.—The Chinese Minister at Washington has just complained to the State Department of the attack upon the Chinese wash-house at Martinez, last April, when one was killed and a number injured, asking that the guilty be brought to justice. The Secretary of State has called the attention of Governor Perkins to the matter, and he has given it to the District Attorney of Contra Costa County for information. Some of the mob have been indicted by the Grand Jury.

Killed by a Train.

SUMMIT, July 1.—Charles Bulger, night shed foreman, was killed last night by the train. He had been drinking considerably during the day, and it is supposed that he fell in front of the train.

STATE NOTES.

The Star service on the route from Shesbourn to Aurum, Nev., is increased to twice a week.

George Fritz, a former well-known resident of Austin, died at Colfax, Washington Territory, June 15.

Senator Jones' mother, who resides in Gold Hill, is now 80 years of age, and is in the enjoyment of excellent health.

The Tribune says: Nevadans are seeking homes in Salt Lake daily. They are mainly from the Comstock and Eureka.

Two miners were discharged a day or two ago from the Carson and Colorado mines. They were bringing up \$50 worth of ore in their dinner buckets.

Of six car loads of Chinamen from San Francisco, four have just passed East and two have gone to work on the Carson & Colorado Railroad.

Senator Powning has gone to Salt Lake to establish an evening paper. During his absence State Printer John Madrell is conducting the Journal.

At Lake Bigler on Monday, a trout weighing 30 pounds was successfully landed. The captor thought he had a whale on the end of his line.

The Victorine mine, the first clean up of the Victorine mine, has just resumed work on the very rebellious ore of that mine, as being very satisfactory.

Flowing water has been struck at 250 feet in an artesian well at White Plains, Nev. The water is slightly brackish, but the well is to be sent down much farther.

According to the Truckee Times Review the Nevada mine is now yielding ore that mills from \$150 to \$400, with the vein from one foot to fourteen inches in width.

Carson Index: There is evidently an uprising among the Esmeralda people, having for its object the political promotion of ex-Senator Gallagher to the Governorship.

Reveille: Four tributers in one of the mines of the Manhattan Company recently had a crushing of 25 tons at the mill, which averaged \$75 to the ton. After squaring up their indebtedness they had \$9,000 balance to divide.

Superintendent Keating says that the surface men have been laid off and all necessary work will be done hereafter through the Combination shaft at a considerable reduction of expense. The Savage Company being one of the principal owners of the Combination shaft.

The Carson & Tahoe Lumber Company, controlled by Yerington & Bliss, expect to cut from 15,000,000 to 10,000,000 feet of lumber and 75,000 cords of wood this season. The Sierra Nevada Lumber & Wood Company, controlled by Hobart & Marlette, expect to get out 40,000 cords of wood.

Look Out for the Locomotive.

It makes one's hair stand, and curdles the blood, to observe what risks the children take in playing along the line of the track running through town. As a warning of what is liable to happen them any day for their foolishness, we reprint the following story from the Reno Journal of Friday:

Just as the 6 o'clock V. & T. freight train was drawing up to the depot last evening an Indian boy jumped upon the cow car, but missed his step and fell under the wheels, which ran over one leg, commencing below the knee, running around the bone and then flattening the foot out like a pancake. Dr. Bergman rendered what surgical assistance was possible at the time and had the boy taken to the hospital. This morning he will amputate the leg just above the ankle. No possible blame can be attached to the engineer of the train. The boy did what he had often done before, but this accident proves that he did it once too often. It is a wonder that more such accidents do not occur.

Ben Holladay.

Ben Holladay is a feature and fixture of Washington. He lives in a beautiful residence on K street, where he entertains a coterie of friends in right royal fashion. His fortune is estimated at from \$2,000,000 to \$5,000,000, and that may be fairly presumed that if he should prove successful in the prosecution of his claim for \$350,000 he will not be in immediate want for the necessities of life. He has retired from business, but advances his leisure hours with seeing the Congressmen about his claim. Though advanced in age, he shows no sign of failing in strength or health. His hair is just turning gray, but his frame is as powerful and vigorous as it was in early youth, when he established and operated his famous overland stage line, known as the pony express. He likes to tell of his experience as a pioneer of advancing civilization on the Pacific Coast among the Argonauts of '49.

The Eunatic Children.

Sheriff Kyle has found places for two of the Eunatic children, Mrs. W. P. Haskell taking the girl Minnie, and Mr. Houghton, a farmer of Clover Valley, Elko County, taking the five-year old boy. The little girl, 22 months old, will probably be sent to the Orphans' Home.

JULY.

When the scarlet cardinal tells Her dream to the dragon-fly And the lazy breeze makes a nest in the trees It is July.

When the tangled cobweb pulls The corn-drover's cap awry And the lilacs fall lean over the wall To bow to the butterfly.

When the heat like a mist-vell floats, And poppies flame in the rye, And the silver note in the meadow's throat Has softened almost to a sigh, It is July.

When the hours are so soft and true, Forget me not, and let them stars wink At the sunset in the sky, It is July.

When each finger post by the way Says that summer is a night, And the grass is tall, and the roses fall, And nobody wonders why, It is July.

—Susan Hartley Sweet in St. Nicholas for July.

Wines, Liquors and Cigars.

The wholesale and retail liquor house of Tonkin & Co. have just received and are now offering to this market the largest and most complete stock of foreign and domestic liquors and cigars ever introduced on the Base Range. Their whiskies are of pure excellence, being direct from the Kentucky distilleries, including the celebrated Robertson County (Tenn.) Sour Mash. They have also introduced Faly's celebrated Milwaukee beer, with which they are now prepared to serve their customers. Prices to correspond with the times.

Coast Papers.

The Examiner, Call, Chronicle, Bulletin, Alta, Post, Report, Exchange, Virginia Enterprise and Chronicle, Sacramento Bee and Record-Union, and Salt Lake Tribune received daily, and delivered promptly to all parts of Eureka for 25 cents per week each by Davidson.

Agency of the Nabob Whisky.

Messrs. Simmonds & Co., proprietors of the celebrated Nabob Whisky, manufactured at Covington, Ky., have appointed Mr. W. H. Stowell, the druggist, as their agent in Eureka. Mr. Stowell will receive a consignment of the whisky about the 1st of July.

Rhine Wines.

Messrs. Singleton & McNicol have just received a large consignment of the following celebrated brands of wine, viz: Liebfraumich and Rautenhald Berg. This is the choicest imported wine ever sold in this market.

Millinery.

Madame Loryca is constantly replenishing her stock of millinery. Ladies in need of the same will please call at her new store on Main street, next door to the Opera House.

Sole Agents.

Messrs. Singleton & McNicol are sole agents for the celebrated brands of Badewiger, Milwaukee and Blatz beer. Hereafter they will keep large quantities on hand.

Sensible Library.

The only place in Eureka where you can find a full line of this popular Library is at Davidson's Bookstore. New issues received daily.

The March of Improvement.

With a nicely arranged stock, I am able to meet all demands of the trade for the Fourth. B. Alexander, Red House.

Insurance.

A. D. Haskell will place your insurance in the best English, French, or American companies.

Wm. H. Stowell.

Assayer, No. 3 Main street, Eureka.

F. B. Alderson, General Insurance and Business Agent, has removed his office to the first door on Clark street, Whitton Building.

ICE CREAM at Brown & Godfrey's confectionery store at all hours for the season. Families supplied.

MONACO has reduced the prices at his photograph gallery.

Carpets and Wall Papers at M. J. Franklin & Co's.

FRESH EGGS \$7 50 per case at B. Berg's, the groceryman.

INAUGURATION
