NICKALS VS. WINN.

A decision of interest to Nevada farmers. The Supreme Court of the State has reversed the decision of the District Court in the case of Nickals vs. Winn et al. In quoting the decision the Court said: "The generosity by which Congress gave the settler the right of pre-emption was not intended to give him the benefit of another man's labor, and to authorize him to turn his man and his family out of their home. It did not propose to give its bounty to settlements obtained by violence at the expense of others. The right to make a settlement was given on the condition that the settler should improve the land, and that he should not use it as a speculation. It was intended to make improvements on unimproved land. To erect a dwelling-house did not mean to seize another man's dwelling. It had reference to vacant land; to unimproved land, and it would have shocked the moral sense of the men who passed these laws, if they had supposed that they extended an invitation to the pioneer population to acquire inchoate rights to the public lands by trespass, by violence, by robbery, by acts leading to homicide and other crimes of less moral turpitude." The Court regarded the law as settled adversely to the pre-emption rights of the defendant. The judgment in his favor is reversed, and the District Court directed to enter a judgment in favor of the plaintiff, with costs.

An Inquiry Answered.

The SENTINEL yesterday received a letter from a gentleman in Baltimore asking "something reliable concerning the working and prospect of the Eureka Tunnel Mining Company." We must say in response that according to the best information to be had the prospect in the mine is bright. Six tons of \$100 ore are being taken out daily now, and the connection having been made it is expected that twice this amount will begin to be extracted in a few days. The ore body in the mine gives promise of holding out long and truly. We are informed also that the debt of the company has been materially reduced, and that the supply of ore does not fall the debt will be all paid off in a short time. At a recent meeting of the Board of Directors retrenchments were made in the interest of the stockholders for the sake of economy. In a few days a report of the financial condition of the company's affairs in detail will be published.

Killed for Malpractice.

Spoken like of the Klamath Reservation, who killed a medicine man some time since for alleged malpractice, has been hanged. An Indian jury tried him and Agent Nickerson acted as Judge and passed sentence. On the scaffold he confessed to killing six Indians and two whites. When swung off the knot twisted around to the back of the head, and his hands being untied, he commenced climbing up the rope. Then two of the Indians present caught him by the legs and held him down until he was choked to death.

BLUE DUST.

Scrapes from the Note-book of the Sentinel's Reporter.

Andes levies an assessment of 25 cents. Albion shares yesterday waltzed up to \$2 90.

Recitations at the Methodist Church to-night.

Several dialogues at the Sunday School Concert to-night.

The scholars will sing pleasing songs at their concert to-night.

W. T. Loyson intends building a hotel near the Albion mine.

Base Range Council No. 2, I. O. O. F., meet to-day at 1 p. m.

There are only five days more in which to register. Don't get left.

The ladies should read Morris & Levy's new advertisement this morning.

The advertised letter list will be found under the head of "New To-day."

The eighth annual ball of the Miners' Union takes place to-morrow evening.

The scholars of the M. E. Church will expect to see you at their concert to-night.

Up to last evening there were 994 registered voters on the First and Second Ward books.

Another large cave was struck in the Albion Wednesday. It is considered an important strike.

Messrs. Leonard, Hallock, Powning and Bishop, Republican stumpers, are expected to arrive this evening.

The Democratic County Central Committee adjourned their meeting last night to Monday evening at 7:30 o'clock.

Sheriff Kyle has an important notice in this morning's SENTINEL to persons having stock running at large in the streets.

The annual meeting of the Eureka Con. for the election of five trustees takes place at the company's office to-morrow at 1 o'clock p. m.

It seems to be a settled thing among the Democrats that W. O. Mills Jr. is to receive the nomination for the vacant County Treasuryship.

The ladies of the Episcopal Church are requested to meet at the church to-morrow afternoon at 3 o'clock, to make preparation for the coming festival.

J. B. Langstaff, the merchant tailor on North Main street, is just in receipt of an extensive stock of Fall and Winter patterns of foreign and domestic goods, which he will make up in the latest styles and at prices to suit the times.

Jack Perry's puff of Strother is going the rounds of all the Republican papers. The Colonel feels that he is getting to be conspicuous. It's cheap. Any other Democrat can get the same advertisement gratis if he will just throw out a little of the same stuff.

SEA boy, whose schoolmates had put a pin in his chair, had the nerve to keep his seat and even look unconcerned until he had a chance to extract it unnoticed. It was a tough job for him, but he knew he had the satisfaction of filling their souls with disappointment.

The Democrats had a grand rally at Virginia City on Friday, at which R. Sadler of Eureka made a speech and said that he had accepted the nomination against the "heavy weight" of the Republican party; that he would meet this "heavy weight" at the Sink of the Humboldt with a majority that would sink him. He also predicted 1,000 majority for Adams in Eastern Nevada.

PERSONAL.

Cassidy and Merrill spoke at Aurora last night.

R. Sadler and daughter returned from Virginia City last evening.

We are pleased to learn that Dr. Roth of Ruby Hill has regained his health.

W. O. Mills Jr. is expected to return from San Francisco Tuesday evening.

Mrs. W. E. Griffin left on this morning's train for an extended visit to relatives and friends in Chicago. Mr. Griffin and Miss Minnie accompanied her as far as Palisade and will return this evening.

VERY CURIOUS.

A Man With a Feather Growing in His Beard.

One of our best known knights of the razor tells a curious story, for which he vouches himself and brings witnesses whose word, as well as his own, cannot be impeached. Several days ago a man called in for a shave, and taking his seat in the chair, he did his wants duly attended to. The operator noticed a feather sticking out in his beard, which was rather well grown, and supposing that it had merely lodged there, started to pull it out. The man stopped him, saying: "Don't, that is not mine." He then told our informant that ever since his beard began to grow that feather had a place on his cheek, and that pulling it out did not check the growth, but rather increased it. He had finally concluded to accept it as inevitable, and accordingly never allowed it to be pulled out now. The feather was very perfect, and about like that ordinarily plucked from a chicken's tail.

Miners' Union Ball.

The dance party to be given by the Ruby Hill Miners' Union to-morrow evening has been anticipated by elaborate preparations, and will doubtless be a splendid success in every particular. The best music to be had in Eureka County, and where could better be found, has been provided for the occasion. The floor will be in perfect order. A large attendance is assured. Already, as a great number of tickets have been sold. All those who are fond of dancing and wish to have a splendid time had better attend. The Union is for one of the noblest of men, and it would have been a disgrace for labor and dignifying toil, and is also a benevolent institution. The ball is for the benefit of the Union, and should be liberally patronized.

Religious Intelligence.

Services will be held in all the churches this morning except the Presbyterian.

At the Episcopal Church this evening will be rendered the anthem, "Lord, I Have Loved the Habitation of Thy House," J. B. Herbert.

At the Ruby Hill M. E. Church this evening Mr. Porter's subject will be "The Sunday School Concert will be given this evening at the M. E. Church."

Rev. Mr. Crawford's subject for this evening will be "St. Luke, the Physician." This should be interesting to men of the medical profession.

Stock Notes.

The next assessments delinquent in the Bond will be the Potosi of 25 cents and North Belle Isle of 15 cents, on the 16th.

Albion stock is growing stronger as the time for the starting of the new furnaces approaches.

Eureka Con. stock is becoming weaker. There are poor prospects of any more dividends for a long time to come.

Surprise Party.

A large number of the friends of Miss Nettie Cohn went in a body to this young lady's home last night and gave her a rousing surprise. The evening was spent very pleasantly. Miss Cohn has been a favorite in the social circles of Eureka, and this testimonial of regard was well timed as it was hearty. She left this morning for San Francisco, where she expects to reside hereafter permanently.

Richmond Bullion.

The Richmond Company shipped this morning by Wells, Fargo & Co.'s Express 7 bars of Bullion, valued at \$11,470 00.

MORMON COMPLAINTS.

A Revelation from the Very City of the Saints.

The deeds of the Mormon "Church" cannot endure the light. No wonder that John Sharp and others try to dodge the additional condemnation growing against them in the public mind by denying the statement that they will use money and every other crushing influence to beat Cassidy. The bloody practices of their "destroying angels" are too familiar to the people of Nevada. The "Church" scruples at nothing to accomplish its purposes, the chief of which is now to punish Nevada's Representative, who for the maintenance of decency and the honor of society in our first Congress, passed the monstrosity in Utah, which is a slavery of body and conscience, in its true colors in the House of Representatives. The Elders cannot squirm out of their proposed attempt to carry the election in Nevada. The Salt Lake Tribune, a conservative Republican journal, up to all the Mormon tricks, says:

It was not doubted before that the Mormons were doing their utmost to defeat Mr. Cassidy in Nevada. In this revelation to defeat their pet aversions wherever they have a chance. But the dispatch yesterday morning puts the matter in a clearer light, and it shows that the vindictive work of these Ishmaels is going on with greater activity than might have been supposed. Money will not be spared, it seems, to corrupt the Nevada polls, and the Mormons will not confine themselves to the West, either, in the fight against those whom they hate. In view of this revelation, we commend the subject seriously to the citizens of Nevada, and ask them whether they, as citizens of an independent State, can afford the humiliation, not to say vandalism, of the control of their election by the corrupt Mormon conspirators against the Republic; whether they can afford to submit to the dictation of an outside and alien power in the choice of their Representative. If Gladstone's interference and tell them they must elect Powning, and that he would spend the revenue from Ireland to accomplish that end, it would be no more a foreign dictation than for John Taylor to this interference, and boast of what is going to be done with his Mormon votes and tithing-house revenues.

Presented in this light, the Mormon system is not alone the death-blow to Republicanism in Utah; it is a serious menace to the Nation itself. It is rich with money wrung from the hard labor of thousands of ignorant, deceived and oppressed men. It now proposes to use the money thus extorted for the corruption of American elections, to the defeat of the popular will. It will thus do, in opposition alike to Republicans and to Democrats, making obedience to its own will the sole condition on which it will cease to war on every man alike who tries to bring Utah into accord with Republican institutions, regardless of politics. It has long been known to be false that this was the Mormon intrigue wherever it could be set on foot; but now it is blazoned forth to the whole land. The way to meet it is for both parties to unite on this question, and so remove this baleful influence from the American political arena, and so prevent such laws as will bring the rebels and corruptionists face to face with the laws of their country in the criminal courts, give them such full force for their spare that they won't have any left to corrupt the ballot-boxes of the land.

E. & P. EXTENSION.

A few days since several of our citizens, among whose names we recognize those of G. W. Baker, E. N. Robinson, Wm. Parley, P. N. Hansen, W. M. Patterson, Charles Graham, John Torre and others, organized a railroad company to build and operate a railroad from the Ruby Hill Railroad, where it crosses the compromise line between the Eureka and Richmond Mining Companies' southernly some ten miles, and to beyond the summit of the Spring Valley Mountain. It is to be a narrow gauge, the same as the Eureka & Palisade Railroad, and when completed will enable that company's cars to run to the Albion furnaces and mine and so on to a point beyond the summit, thus opening up all that section of country to railroad facilities. The construction of this railroad will certainly stimulate mining on the west slope of Prospect Mountain, as well as along the route of the road on both sides, as it will enable the miners to get their ores to the furnaces without great cost for transportation, and will also materially extend the area whence our furnaces draw their supplies of coal and wood. The officers of the company are L. L. Robinson, President; George W. Baker, Vice-President; E. N. Robinson, Treasurer and Superintendent; O. C. Moore, Secretary; and the office of the company is at the office of Col. E. N. Robinson. The Board of Trustees consists of George W. Baker, E. N. Robinson, John W. Nevada, Wm. Parley and L. L. Robinson. The capital stock of the company is \$100,000, consisting of 1,000 shares of \$100 each, which has all been subscribed. A survey has been made for the road to the summit of the mountain, and an actual location has been made around Ruby Hill to a point on the Albion ground which covers the most difficult portion of the whole line.

Work we ascertained at the County Clerk's office yesterday that the S. Y. B. R. Co. had commenced proceedings to condemn the right of way across the ground of the Richmond Mining Company. Nevada, for a distance of some 1,900 feet, as that company refuses to grant the right of way.

Some Figures.

A discussion on the streets yesterday as to which party had been economical in the management of Government affairs led to an inspection of the record. The result is in figures, to which the addition of verbal comment is superfluous. Look at this: The Republicans were in a majority in Congress from 1873 to 1876, both inclusive. In 1873 the Sundry Civil bill amounted to \$20,118,413 90; in 1874 it amounted to \$23,163,139 00; in 1875 it amounted to \$27,000,644 81, and in 1876 it was \$26,644,330 00.

And then look at this: The Democratic party has been in a majority since 1876. In 1876 the Sundry Civil bill amounted to \$16,351,474 58; in 1877 it was \$17,133,750 00; in 1878 it was \$24,750,100— but the bill of that year included \$5,000,000, being the fisheries award under the treaty of Washington. Deducting this, which was extraordinary, the Sundry Civil bill of 1878 would have been \$19,250,100. In 1880 it was \$17,634,868 56; in 1881 it was \$23,503,568 29; in 1882 it was \$22,092,194 12.

Elston's Benefit.

The occasion of George Elston's benefit attracted a tremendous crowd last night to the Truckee Concert Hall. Mr. Elston is deservedly a very great favorite, and a first-rate variety artist. The appreciation of the play-going people was fully expressed for him by the turnout at Nevada, which amounted almost to an ovation. The performance by the Truckee Company was excellent and highly appreciated by the entire audience. The company is one of real merit, and during the dearth of theatricals it would no doubt be pleasing to the community to see them on the boards at the Opera House. We are acquainted that they could get their evening house. The presence of the Union Guard Band was a very fine feature of Mr. Elston's benefit. They are splendid musicians, and performed last evening with great credit to themselves and to their leader. The audience enthusiastically in their praise. They joined occasionally in the choruses, and sang almost as well as they played.

CAPITAL NOTES.

Politics and Social Life Over at Carson City.

CARSON CITY, Oct. 12, 1882.

We breakfast, lunch, dine and sleep on politics "in the dear old days." But it is the local article we are getting. The State itself, so called, seems to be taking care of itself. The "village statesman" is at his busiest just now. His shoulders are rounding and his form is bending under the weight of the responsibility with which he is expected to labor until the close of the 7th of the coming month.

THE BLACKS DIVIDED.

As you are aware, Ormsby has two local tickets in the field, as every well regulated country should have. The Republican ticket is composed of the old fighters, who have done official service in "the better and purer days," and contains but three names on it of the disaffected who went off on Dolly Vardenism four years ago. The Anti-Monopoly, Fusion ticket, or whatever you may choose to call it, consists of seven Democrats and nine men who have hitherto acted with the Republican party. The first-mentioned ticket has the support of the Appeal and the Tribune, which have recently come over to the Fusion side and is now working harmoniously with the Bee. The work of mud-throwing has commenced vigorously between our newspaper quartet, and promises to continue throughout the campaign.

A CLOSE FIGHT.

Impartial ones claim that the local contest in Ormsby will be a close one, and even the candidates do not claim a walk-over in any way. Register Carey thinks that the vote in this county this Fall will be at least 300 less than at the last State election. As the campaign progresses your readers will be posted as to the political goings-on at the State Capital.

STUMP SPEAKING.

Senator Jones, who passed through to San Francisco a few days since, is expected to arrive here to-morrow. He is to deliver several speeches during the campaign, the first to be delivered at Candelaria on an early date.

A SUBJECT OF JOCKEYING.

The races for the three last days of this week, about which the Carson papers have had much to say, will not come off. The weather has had something to do with the indefinite postponement, but the true explanation is that the lovers of legitimate sports got such a surfeit of jockeying over at the late Reno Fair that they don't want to hear of much less see, racing for another year.

THE DRAMA.

We have had nothing at the Carson Opera House in a theatrical way since the "Hazel Kirks" Company, which was here on the 26th ult. Frank Mayo, in "Davy Crockett" and Frank Mordant, in "Old Shipmates" are booked for early dates next month.

NOTES.

George Ernst, our Democratic candidate for Surveyor General, is doing the lower levels of the Comstock at present. Saturday evening soirees at the Opera House, managed by Mader & Hall, are gaining popularity with our dance-loving ones.

Governor Kinkaid, who was confined to his house by illness for several days past, is convalescing and expects to be out on the streets to-morrow.

SILVERADO MOUNTAIN.

Recent News from the Mines Located Thereon.

From Dick Berryman, who was in yesterday from Silverado Mountain, we learn that there are indications of new life in the camp, the mines in that locality showing continual improvement as the work of development progresses.

The Queen mine is looking healthy, and is showing more ore in sight than at any one time since it was located. The owners are at present working on a four-foot vein of hard carbonate and galena ore that will assay from \$300 to \$500 per ton. It shows signs of permanence, and the boys are greatly encouraged.

Leon Dillio is putting in good looks on the Silver Globe. The tunnel has been run in and connection made between it and the old surface works, which are being cleared of all the waste that has accumulated. A new vein of hard carbonate and carbonate ore is exposed, upon which the work of extraction will immediately be commenced.

John Potter is running his new tunnel, and is much pleased with the indications presented.

The Diagonal mine is looking well and proving to be a property of greater value than ever. The Berryman boys and others are at present working on a four-foot vein of hard carbonate and galena ore that will assay from \$300 to \$500 per ton. It shows signs of permanence, and the boys are greatly encouraged.

John Potter is running his new tunnel, and is much pleased with the indications presented.

Mining Investments That Pay.

Our recent exposition of the fact, says the New York Mining Record, that birds of prey had been battering even more successfully upon railway enterprises than upon the business of mining, scandalous as may have been the operations of the past five years of certain men in this last connection here in New York, as well as on the Pacific Coast, we see, in the subject of the subject elsewhere, with assent to the correctness of our premises and deductions therefrom. For that matter, the more the subject is studied, the more it is illustrated by examples, the more clearly it must appear that the mining industry rightly should not fall into the least discredit with business men because of the misdoings of certain professional free-booters who have chosen the mining interest as their field of pillage, rather than railway enterprises.

The Danger.

The Genoa Courier says: "Enoch Strother's attempt to join the members of the Republican State Central Committee down on the assessment question seems to have been kept a secret, and although some of the different editors of Republican newspapers have been very indignant over this, and also wished to substitute the name of J. H. Kinkaid at the head of the Republican ticket in place of Enoch Strother, have contented to the subject elsewhere, with assent to the correctness of our premises and deductions therefrom. For that matter, the more the subject is studied, the more it is illustrated by examples, the more clearly it must appear that the mining industry rightly should not fall into the least discredit with business men because of the misdoings of certain professional free-booters who have chosen the mining interest as their field of pillage, rather than railway enterprises."

From the Army to the Press.

The Post asserts that Gen. McDowell has secured a proprietary interest in the Alta California newspaper, and that upon his retiring from the army he will reside on Van Ness Avenue and give attention to the publication of the paper named.

Wines, Liquors and Cigars.

The wholesale and retail liquor house of Tonkin & Co. have just received and are now offering to this market the largest and most complete stock of foreign and domestic liquors and cigars ever introduced on the Base Range. Their whiskies are of excellent quality, being direct from the Kentucky distilleries, including the celebrated Robertson County (Tenn.) Sour Mash. They have also introduced Falk's celebrated Milwaukee beer, with which they are now prepared to serve their customers. Prices to correspond with the times.

Something New.

Messrs. Singleton & Mc Nicol are just in receipt of some choice Winter drinks which have never before been introduced in this market. Following are some of the brands: Peach and Honey, Rock Candy and Rye, Rock Candy and Kummel, Rhu-barb Rock and Rye, Royal Pan and Geneva Gins. Also, a very superior article of Irish Whisky. These liquors cannot be surpassed anywhere. Drop in and ask "Don" to show you samples.

Pleasant Rooms.

Mrs. Minna Kaeton has thrown open to her friends and the public a fine reading-room in which refreshments will be served. She has, also, a number of nice suits of rooms, single and double, for rent at moderate rates. She solicits a share of the public patronage.

Stoves! Stoves!

Remington & Co. are just in receipt of a car load of stoves. They have all styles and sizes, from the smallest parlor to the largest sized office stoves, which they are selling at greatly reduced prices.

Just Opened.

A grand assortment of Fall and Winter millinery, which will be sold, very cheap, for cash only, at Madame Loryon's new store, next door south of Haskell's furniture store.

Cool Off! Cool Off!

Until further notice I will sell the Eureka Safety Oil—the best in the market—for \$8 per half barrel of 20 gallons, equal to \$4 per case. P. N. HANSEN.

Fresh Oysters.

The Jackson House Restaurant is in daily receipt of fine fresh saddle Rock oysters.

Received Daily.

Berg, the groceryman on South Main street, receives daily fresh oysters and fish.

Insurance.

A. D. Haskett will place your insurance in the best English, French, or American companies.
