REMINGTON, JOHNSON & CO.

Notice to Lien-Holders.

In the District Court of the State of
Nevada, Eureka County.

D. NATHAN, Plaintiff,

vs.

WILLIAM FERGUSON, Defendant.

NOTICE IS HEREBY GIVEN THAT THE
above entitled suit is brought to foreclose
a material man's lien for \$218.87 against and
upon that certain mine and mining claim
known and described as the Margaretta mine,
situate on Adams Hill in Eureka Mining Dis-
trict, Eureka county, State of Nevada, com-
mencing at the north line of the Lone Pine
and Macon City mines, and running in a north-
easterly direction fifteen hundred feet from its
easterly location, and one hundred feet on
each side joining the eastern line of the Good
Hope mine on Wide West Hill, located by Ed-
win L. McEllan and William Ferguson.And all persons holding or claiming liens
under the provisions of an Act of the Legisla-
ture of the State of Nevada, entitled "An Act
to secure Liens to Mechanics and others and to
repeal all other Acts in relation thereto," ap-
proved March 2, 1875, against or upon said
Margaretta mine, to be and appear before said
Court at the courtroom thereof, in the town and
county of Eureka, State of Nevada, on the 18th
day of August, A. D. 1887, at 10 o'clock A. M., or
as soon thereafter as counsel can be heard, and
then and there exhibit proof of their said liens;
and liens not so then and there exhibited and
proven shall be deemed to be waived in favor
of those so exhibited and proven.D. NATHAN, Plaintiff.
R. M. BRATTY, his Attorney.
Eureka, Nev., May 17, A. D. 1887. m20-3w

NOTICE.

UNITED STATES LAND OFFICE,
EUREKA, Nevada, July 25, 1887.
NOTICE IS HEREBY GIVEN THAT
John E. Jones, of Carson City, State of
Nevada, authorized agent of the State of Ne-
vada, and acting for and on its behalf, has filed
an application to enter under the provisions of
an Act of Congress, approved June 16, 1880, en-
titled "An Act to grant to the State of Nevada
lands in lieu of the sixteenth and thirty-sixth sec-
tions in said State, the N. 1 of SW. 1 section 15,
township 16, N. range 57, east, Mount Diablo
meridian, in the district of lands subject to
sale at Eureka, Nevada, and containing 80 acres.
The selection of the above described tract of
land will be tendered at said Land Office on
Monday, October 3, 1887.

INFORMATION

...FOR...

OWNERS AND LOCATORS

...OF...

MINES.

APPLICATION FOR PATENT.

Where papers have once been filed with
Register and Receiver they become a part
of the record, and can neither be withdrawn nor
returned, but must be transmitted to the Gen-
eral Land Office.An application will be rejected when the
description of the premises is erroneous or
insufficient.Application for patent will be rejected be-
cause:First—The notice was published without the
knowledge of the Register.Second—The notice was not published in
newspaper designated as published nearest the
claim.Third—Record title was found defective,
andFourth—A previous application had been
made for the same premises, which was with-
drawn pending a suit in Court commenced by
the adverse claimant.An application for patent will be rejected
when the survey does not accurately define the
boundaries of the claim.Where the claim was not located in accord-
ance with law.Where several parties own separate and dis-
tinct portions of a claim, application for
patent may be made by either for that portion
of the claim owned by him; but where several
parties own undivided interests in a mining
claim all should join in an application for a
patent.A person or association may purchase as
many places or locations as the local law admits,
and embrace them all in one application for a
patent.Two or more lodes cannot be embraced in
one application for a patent except for placer
claims embracing two or more lodes within
their boundaries.Papers sworn to before any person purport-
ing to act as a deputy for the Register and Re-
ceiver cannot be recorded as evidence.In all patents for mining claims situated
within the interior boundaries of a town site
a clause is inserted "excepting and excluding
all town property, rights upon the surface,
and all houses, buildings, structures, lots,
blocks, streets, alleys or other municipal im-
provements not belonging to the grantee here-
in, and all rights necessary or proper to the
occupation, possession and enjoyment of the
same."Publication of notice must be made a only
one newspaper for the period of 60 days.Notice must be published 10 consecutive
weeks in weekly newspapers, and in daily
newspapers 60 days must elapse between the
first and last insertions.Where the Register designates the daily issue
of a newspaper for publication of notices of a
mining application for patent it is not a com-
pliance with law to change to some weekly edi-
tion of the same paper without authority of
the Register.The existence of a salt spring on a tract of
land withdraws it from the operation of the
homestead and preemption laws. A mining
claim for the purpose of proving the agricultural
character of such land is not allowed. Land
containing valuable deposits of slate may be
entered under the mining Acts.

ADVERSE CLAIMS.

Adverse claimants must file a separate and
distinct claim against each application which
it is alleged conflicts with the premises owned
by such adverse claimant.The papers in an adverse claim, once filed,
cannot be withdrawn, but become a part of the
record.When an adverse claim has been filed it can-
not be amended so as to embrace a larger por-
tion of the premises than that described in the
original adverse claim.An adverse claim must be made out in
proper form and filed in the proper local office
during the period of publication of the appli-
cation for the patent to be effective.It is the duty of the adverse claimant to
commence suit in proper form within the re-
quired time, and if he trusts the uncertain
medium of the United States mail he must
abide the consequences, should the delay
cause, through misfortune or accident, should
the failure to commence suit be the result of
the corrupt or dishonest action of his attorney,
the Interior Department cannot redress the
wrong.An adverse claimant should set forth in de-
tail the facts upon which he bases his adverse
claim. A statement in general terms, embody-
ing conclusions of law, without stating the
facts specially, will not be considered in evi-
dence.An adverse claimant should show a compli-
ance with the local laws in recording his claim
and in regard to expenditures, and shall file a
copy of the original notice of his location, and
show the nature or extent of the conflict
alleged.An allegation of parties to a suit that they
compose the company is sufficient, and they
are not required to prove that they are the
original locators or the identical parties who
present the adverse claim.

AGRICULTURAL OR MINERAL LANDS.

Where land is of little, if any value, for agri-
cultural purposes, but is essential to the
proper development of mining claims, it
should be disposed of under the Mining Act.Where lands containing valuable mineral
deposits have been included in an agricultural
entry, said entry will be canceled at any time
prior to issuance of patent, upon satisfactory
evidence of the existence of such valuable de-
posits.Where valuable deposits of mineral are dis-
covered upon a tract after the same has been
entered as agricultural, but before patent has
been issued, the parties claiming the mine
may make application for patent in an agricul-
tural entry, and the agricultural entry will be canceled
to that portion of the land embraced by said
mining claim.Where mineral deposits are discovered on
agricultural lands after patent has been
issued to an agricultural claimant, they pass
with the patent.Agricultural College scrip cannot be
received in payment for claims.

ALIENS.

A foreigner may make a mining location and
dispose of it, provided he becomes a citizen
before disposing of the mine. Proof that the
party was not a citizen before disposing of his
claim must be affirmatively shown.Locators and intermediate owners, other
than applicants, will not be presumed aliens,
in the absence of allegation or objection prior
to issuance of patent.The person making a mining claim sold to an
alien cannot be patented while such owner is
an alien; but on his declaration to become a
citizen his right dates back to his purchase,
and he may thereupon secure United States
patent for his claim.

CROSS LEDGES.

Revised Statutes, Section 2,336:

Where two or more ledges cross or intersect
each other, priority of title shall govern, and
such prior location shall be entitled to all ore
or mineral contained within the space of inter-
section, but the subsequent location shall have
the right of way through the space of inter-
section for the purpose of the convenient
working of the mine. And where two or more
veins unite the oldest or prior location shall
take the vein below the point of union, in-
cluding all the space of intersection.

TUNNELS.

There is no authority of law for a tunnel
location 3,000 by 1,500 feet. A proper loca-
tion is the width of the tunnel for 3,000 feet; the
depth is the provision of law for patenting
tunnel locations, but lodes discovered in run-
ning a tunnel may be patented in like manner
as other lodes.The right is granted to tunnel owners to
1,500 feet of each blind lode, not previously
known to exist, which may be discovered in
their tunnel.When a lode is struck or discovered for the
first time in running a tunnel the tunnel
owners have the option of recording their
claim of 1,500 feet on one side of the point
of discovery or intersection, or partly on one
side thereof and partly on the other.Prospecting for a lode while the tunnel
line is in progress, but other parties are in no way
infringing on the tunnel line, is not prohibited
debarred from prospecting for blind lodes
running tunnels, so long as they keep within
the line of such tunnel.
