Last evening an impromptu meeting was held at Brown's Hall to raise funds for the relief of the destitute at Hamilton. The attendance was not large, but the enthusiasm of those present showed that the popular heart was moved with sympathy for our unfortunate neighbors of Hamilton. W. W. Bishop were called to Hamilton. W. W. Eishop were called to the chair; A. D. Jones was elected Sec-retary, and G. H. Fish Treasurer. The Chairman made a stirring appeal to the meeting to contribute with a liberal hand to the worthy ob-ject which had called them together. A motion was made to appropriate the funds collected for the Fourth of July celebration to the relief of the Hamilton sufferers, but after discussion it was celebration to the relief of the Hamilton sufferers, but after discussion it was voted down. Subscriptions was then called for, and the liberality with which money was subscribed showed that our people had forgotten all about hard times. The following are the sums subscribed, which the Secretary was directed to have published in the Recond.

On motion, a committee was appointed by the Chairman to solicit further subscriptions, as follows: Judge J. S. Pitzer, S. C. Barnes, G. H. Fish, A. Brown, C. H. Light, O. P. Sherwood, Mat Susrich, Louis Sultan, Capt. T. F. Hanly and W. S. Travis. On motion the Treasurer was instructed to telegraph the amount of the funds collected to Hamilton as soon as possible. The meeting then adjourned.

SERIO-COMIC INCIDENT.—So great was the interest in the decision of Judge Fuller on the motion for a new trial in the Raymond & Ely-Hermes case on Saturday, that gentlemen on adverse sides had arranged for signals to be hoisted upon the rendition of the decision by the Court. Each, without the knowledge of the other, had arranged to have a red flag raised upon the announcement of the decision in his favor. When the de-cision was given in favor of a new trial, a Raymond & Ely man unfurled his ban-per to the breeze. The signal was seen ner to the breeze. The signal was seen by a Hermes man, who, mounted on a flery steed, made 1:40 time from the Court-house to the telegraph office and communicated the supposed glad tidings to another Hermes man, who at once telegraphed the supposed result to San Francisco. Flushed with the belief that they had achieved a great triumph, they repaired to a saloon near by and ordered a basket of champague. Before they had time to imbibe their wine, the mistake which had been made was discovered. It won't do for two parties to fight under the same flag.

Since we first alluded to the shocking condition of the city, our attention has been called particularly to certain pestilential nuisances which promise a heavy crop of disease unless abated. We are exceedingly loth to be offensively personal in any matter, but we cannot remain silent while the health of the recule of Piocha is endangered. of the people of Pioche is endangered through the negligence of some of its inhabitants; and unless some of the most iconspicuous and revolting nuisan-ces are abated at once, we shall be com-pelled to call names.

THEATER. - The production of the drama of East Lynne last night was greeted by a numerous and appreciative audience. Carrie Carter, Bella Bird, Dudley, Thorne, and in fact the whole company acquitted themselves admirably. Our unavoidable absence most of the evening at the meeting at Brown's Hall for the purpose of raising funds for the Hamilton sufferers, must be our apology for so brief a notice of what was really an admirable performance. really an admirable performance. From Cerbat, A. T.

Robert Archie, of the Mint Exchange, has kindly permitted us to make the following extracts from the letter of C. Wright, dated Cerbat (Wallapai District, Mojave county, Arizona) June 11, and received a few days since:

The little mill at the Park has com-nenced, under the superintendance of Woods, to turn out some bullion, and Woods, to turn out some bullion, and that is helping some—it is working ore from the Cupel, Tiger, Ida, New Era, Pinkeye, and others, with gratifying success. The Park is the liveliest place in the district. The Lone Star, at a depth of 140 feet, is taking out some of the finest ore I ever saw in any country, the miners bringing out their hats full of native silver Cedar, Maynard, and Aubray districts are taking off a large proportion of the population. The country for one hundred miles South, clear across the Sandy, is full of prespectors, and they are striking some wonderful rich mines, such as the Hope, Hibernia, Amord, Magendie, and a hundred others. A good many of them are shipping ore by a new road to the Needles. There is also a good farming country on the Sandy and Trout Creek. Jim Buel (Dave's by a new road to the Needles. There is also a good farming country on the Sandy and Trout Creek. Jim Buel (Dave's brother) and a large party are "spying out" land, also many runners for San Francisco mining sharps. I think the "good time is almost here." Spencer has hoisting works on the Cupel and Tiger; Lawson is sinking on the Ida, New Era and others; also sinking and taking out good rock. The Diana and Pinkeye, at Chloride, are also taking out good ore. On the whole, things look hooperal, although there is four jaw-bones to one cash. From the inquiry in San Francisco, and the parties there that are sending men down here, I think someending men down here, I think son sending men down here, I think some-thing is going to pop soon. If you are doing any thing, I would not advise you to come yet, but if you are not, and want to take the chances, now is your time. The Calamity at Virginia City:

Disaster follows disaster. Sunday we vere called upon to chronicle a destructive fire at Hamilton, which, though fortunately without loss of life, leaves many tunately without loss of life, leaves many in that city in a destitute condition. But yesterday came to hand intelligence of a most lamentable occurrence at Virginia City, resulting in the loss of ten lives, the wounding of many others, and the destruction of many thousand dollars worth of property. News of the terrible explosion at Virginia was received by private dispatch early yesterday morning, and as soon as particulars could be received by telegraph an extra was issued from the Riconn office, giving all the details which had then been received. The news of the explosion created a profound sensation in this place, as many found sensation in this place, as many of our residents are from Virginia, and are acquainted with the unfortunate who have met their death by the explos-ion on Sunday night. Details of the sad event will be found in our columns this

OUR ANNIVERSARY .--- Among other amusements, a grand ball will be given at Brown's Hall on the evening of the Fourth. GLEANINGS FROM EXCHANGES. THE earnings of the Central Pacific Railroad for the last month are said to be the largest since the completiou of the road, aggregating more than a million and a quarter of dollars.

MRS. FAIR, having failed to effect a compromise with Judge Quint, or to induce him to abate a dollar of his judgment claim against her for legal services of her two trials for murder, has settled the same on the only basis possible, namely: full payment. The judgment was for \$2,900, which was raised by the costs to \$3,200, which sum Mrs. Fair has paid in United States gold coin.

DENVER has already become quite an important railroad centre, having the Kansas Pacific Railroad from the East, the Denver & Pacific Railroad from the within the main limits of the town, three cents per gallon; at the goose-neck of the company, two and a half cents. Parties having pipe connections will be furnished with water through meters at two and a half cents per gallon. The meters have not yet arrived but are expected daily, when the company will be prepared to make pipe connections and furnish water at the above rate to all parties desiring it. July lat, 1873.
