Orders for Jewelry.

Superintendent Sommers, of the Ludwig, received orders this week from jewelry concerns in Chicago and New York for a ton of the the specimen copper ore lately discovered in the Ludwig. This ore is a beautiful blue and green malachite and azurite, so hard that it takes a splendid polish and makes very showy jewelry. Considerable of the ore has been shipped to San Francisco for this purpose. The ore runs from 30 to 40 per cent. copper, but for the purposes for which jewelers use it, it brings 50 cents a pound, or \$1,000 per ton.

Squaw Suicides.

Quite a commotion was caused on upper Main street last Sunday afternoon by a Piute squaw committing suicide. The woman's name was Emma and she was of middle age and married. She took a dose of wild parsnip and it overcame her in front of the Ross residence. She was taken to her wickiup in the Bovard field and a doctor summoned, but her life could not be save. The deed was committed in a fit of despondency. Her husband had left her for a younger woman, and only the day before had beaten her and stolen \$20 from her.

Wellington Strike.

G. M. Devereaux and Dan Sherry came down from Smith Valley the first of the week, and the former continued on to Palmetto, where he has some mining interests. He has located four mining claims near the camp of South Camp, about three miles northwest of Wellington, and with but little work opened up some fine ledges. The formation is porphyry, granite and trachyte. A four-foot ledge gives assays of \$99.82, \$200 and \$680 in gold. Mr. Devereaux is highly elated with the strike and will be back soon to have more development work done on the claims. Messrs. Sherry and Freeman have bonded their Mexican mine to Mr. Devereaux, as it is in the same neighborhood, and a streak of ore in this mine gives assays as high as \$10,000 per ton.

The company intends to sink a shaft in the near future and develop the property in a systematic manner.

The Aiken Bros. and John Sommers are still taking shipping ore out of their Red Star claim on the Flat.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 1 drop to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O.

Sold by druggists 75c. Hall's Family Pills are the best.

Off the Track.

The stub train from Mound House to Churchill Station was delayed about four hours last Sunday morning at a point six miles this side of Dayton, by the tender of the locomotive being derailed. The passengers on the train were considerably frightened and shaken up, but nobody was injured. The ties on the road were badly cut up and broken for a distance of about one hundred yards.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter, he says: "I was nearly dead of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God, who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by G. I. Leavitt & Son at 50c a bottle.

A. GRULLI OF ALBERT ISOLA.

Yerington, Nevada.

Creamery Burned.

Last Friday morning the Smith Valley Creamery, together with a recently installed ice plant, was totally destroyed by fire, entailing a loss of about \$5,000 to the stockholders.

John O'Banion, the president of the concern, who owns four-fifths of the capital stock, is making strenuous efforts to rebuild the creamery, having already taken steps in this direction.

In the meantime the several dairymen in Smith Valley are procuring separators as speedily as possible, and will, for some time to come, bring their cream to the Yerington creamery.

From the meagre reports at hand the insurance on that plant amounts to a little over one-half of the actual value.

The origin of the fire is also a matter of conjecture, the general belief prevailing that the stove-pipe, projecting but a few feet above the roof, ignited the cupola. Only thirty minutes elapsed from the time of the discovery of the blaze to the collapse of the roof, which precluded the saving of any part of the costly machinery or any other cumbrous apparatus.

Mining Men Visit.

Thompson Campbell, who held an option on the Douglas copper property in this district, George Kinslingbury, formerly State Mine Inspector of Colorado, and Mr. Walley, a Los Angeles capitalist, visited the Douglas group of mines last Saturday. Like all other mining men who visit this section they were impressed at the showing of our mines.

John McCrimmon and M. C. Gillies, mining men of Tonopah and Butte City, came in last Saturday and continued on up to the Mount Grant country to look at some properties recently located by Messrs. Page and Day. They were accompanied by Mr. Page, and returned to Tonopah Thursday of this week. They expect to be back to look at our copper section as soon as the weather settles.

Wrestling Match.

Both of the principals in the wrestling match to take place in the Owl Hall tonight appear to be in good condition, and each thinks he will be the winner. Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost, if you don't get help from Dr. King's New Discovery for consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery.
