

DAILY EXAMINER.

J. W. DOWNS, Editor and Proprietor.

FRIDAY, JUNE 19.

At midnight on the 16th, as a party of three men were standing together in the passenger depot at Bryan, a shot was fired through the window by some fiend, instantly killing a policeman, Mr. J. P. Farmer. The coroner's jury has not been able to throw any light upon the terrible affair.

The News devotes a column to the proclamation of the Governor finding some things to praise, and others to blame in it. The News slyly accuses His Excellency of stealing a little of its thunder, with regard to the apportionment of the time for the people to vindicate the rights and power they have claimed and asserted, to govern themselves. Under all the circumstances, the article is about all that could have been expected of the News. If it does happen to blunder upon a correct sentiment now and then, we see no reason why others should not make use of it.

The News in noticing a letter by an Illinois farmer—once a Granger—now a renegade, has this to say:

Thoughtful and clear headed friends of the agricultural interest have from the first been apprehensive that, while this movement might result in great benefits to the producing classes of the country, it would be exposed to great danger of abuse. There is, especially, danger that the organization may come under the control of designing demagogues. It is difficult to see what use there can be for secrecy in bringing about a great reform.

Does the News mean to say that because the farmers' movement may be abused by designing demagogues, that it is thereby proven to be unworthy and unwholesome? Because Judas made a like lick at the Christian religion early in its history, must we conclude that it is a false path to the better state of things above, and must it therefore be abandoned?

The Victoria Advocate claims to be Democratic, and, at the same time, feels free to say:

We think Governor Coke, in the master of the printing swindle, and his evident complicity in the International Railroad Robbery, has laid himself liable to the charge of corruption.—*Galveston News.*

Yes, certainly, it claims, but if its claims rest upon such testimony as the above, they are as Pat would say, "flat no claims at all, at all," or as Texan Democrats say of the News: "The good people of the State have endeavored for thirty years to force Democracy upon that paper, and up to this good moment have most signally failed, and should now take a little rest." We are sorry that the loss of the printing job, has so soured and embittered the News, that it will give such a low, scurrilous and unfounded fling as the above, space in its columns. The small modicum of shame that fell to the News' share, has certainly "fled to brutish beasts."

Take a man in a position of great public responsibility, and let him be assailed by a malevolent press, whether the hostility is through personal disappointment, or to accomplish a political purpose, and his safety will always be in a silent endurance and a patient working out of his good objects. The moment he stops to contend, that moment he acknowledges an issue, and gives leverage to the attack. His position should always give weight and dignity enough to his character to withstand all minor onslaughts. He should always be willing to wait, keeping his own counsel, till he has drawn all the fire of the enemy, and then wait till his acts have proved it effectual. No man, however malevolent, can always contend unless the attacked gives evidence that he is reached. So long as he fails to notice the onslaught, so long is it unavailing. No man is worthy such responsibility unless he is fearless of unpopularity. He must be sure he is right by his own judgment, and not by uncertain clamor, and then he must go.—*Telegraph.*

In the main the advice given above is correct. Yet we should not forget that some other things are necessary. If the Telegraph is giving advice to Governor Coke, all right, it should have candor enough to say so. If it means the News and the Statesman when it speaks of a "malevolent press," why not say so? We like the old-fogy, back-woods way of putting things plainly. The Editor of the Telegraph is a "shady" fellow, to be sure.

THE GOVERNOR'S PROCLAMATION

Yesterday we published this able, temperate and statesmanlike document, and promised a short review of its most important recommendations.

Governor Coke sets out in his preamble, in an able, clear and comprehensive manner, the causes and events that called forth the proclamation. The era of crime, and the lawless punishment of it, that has disturbed the quiet and harmony of the State is one of the most remarkable that has ever occurred in her history. In dealing with this state of things, His Excellency is not empowered by law to employ any special or unusual constabulary force, and can only rely upon a greater vigilance of the courts and the peace officers to correct the bloody and terrible state of disorder. The Governor cites in a clear and succinct manner all the laws bearing on crime; and the duties of the officers under those laws, and invokes the efforts of all officers and citizens in bringing to justice those who would tarnish the good name of Texas by their lawless and reprehensible practices.

We are glad that the Governor takes the broad ground that the courts of the State, if properly sustained and assisted, are equal to the task of restoring order, and punishing crime.

Governor Coke appeals to the District Attorneys to double their diligence in ferreting out all offenders against the laws, and recommends the most strenuous prosecutions in every instance; they are also to post the sheriffs thoroughly in their duties, and to hold these officers accountable for the proper discharge of them.

His Excellency's appeal to the people themselves to come forward and vindicate their claims to local self government, by standing squarely to the regularly constituted authorities, and to refrain from acts which are in themselves infractions of the law. He says:

"And I do farther remind the good people of this State, that the time is now upon them to vindicate the right, and power which they have claimed and asserted to govern themselves, and ask that they so conduct themselves, as that it shall not be said that an armed force is necessary to hold them in subjection to the laws of their own making. I ask the people of Texas to remember that this is their government, and that their honor and good name demands that the supremacy of their laws be maintained, and that this can only be done by each and all of them giving their moral support and personal aid to the officers of the law, their own chosen servants."

This is a strong appeal, and we feel confident will not be made in vain. The majesty of the law must be maintained, and those most interested in its maintenance, are invoked to see that it is done. The military force of the State is to be held in readiness to act with the peace officers wherever necessary or practicable. The minute companies and the frontier battalion are under imperative orders to co-operate in the work. Altogether the proclamation is just such an one as the people had a right to expect, and we rejoice that our Governor has shown himself equal to the expectations of the people.

ANSWERS TO CORRESPONDENTS.

H. H. McLane, San Antonio—Post office order, \$7, in full.

R. O. Page, Madisonville—Specimen copy, as requested.

W. F. Rubottom, Worthy Master Rhea's Mills Grange, 315, McKinney—With pleasure, your name is entered on our lists.

Wm. Warren, Deputy, 7th District, writes, Waskom Station, June 15: I have just returned from organizing five Granges. The names of the Masters and their addresses are:

A. J. Newton, Lanark, Cass county; M. M. Woodward, Lanark, Cass county; P. R. Scott, Scott's Mills, Cass county; W. W. Dillard, Boston, Bowie county; A. P. Rochelle, Kingsville, Bowie county.

Crops through those two counties are very fine. The farmers generally are out of debt and in a prosperous condition.

The people in my District are all anxious to join the Grange, and it is my fault that more have not been organized up to this time. I shall be able to devote more of my time in future to this business, and hope by August to have twenty-five organized.

The outlook for crops at present rather gloomy—partial showers passing daily, gladdening the hearts of some, but the most of us need a general, soaking rain to insure good crops. Will send names and money as I can get them.

Thanks. We sympathize sincerely with those who suffer from hard times, knowing "how it is ourself." We rejoice, however, that the signs of the times are full of promise to them and to us.

B. P. Garrett, Milford.—Names entered by mistake at Hillsboro. A clerical mistake and nothing more.

J. L. Hearn, Covington.—Paper as you request.

PATRONS OF HUSBANDRY.

OFFICE OF MASTER STATE GRANGE, MARLIN, TEXAS, June 17, 1874.

To Masters of Subordinate Granges: Your attention is invited to the III Article of the Constitution of the State Grange, which reads as follows:

"The legislative and all other powers of this State Grange shall be vested in certain of its members, to be selected as follows: All members of the State Grange, as defined by Art. 2, resident in each county where there is an organized Grange, shall meet at the county site of their respective counties, on the 1st Saturday in July, in each year, or at such other subsequent time as the Master of the nearest Grange may, by due notice, appoint, and elect one of their members for the county at large, and one additional member for each ten Granges or fraction equal to eight, (a certificate of said election to be furnished under seal by the nearest Grange) provided that nothing herein shall be construed as to prevent Masters and Past Masters and their wives, who are Matrons, from attending the meetings of the State Grange and receiving the Fifth Degree."

You will see that the election of Delegates to the State Grange which meets on the third Tuesday in August, be held according to the above article of the Constitution. It is desired that a full representation from every county be in attendance. Granges organized and awaiting their dispensation are entitled to representation. Secretaries and treasurers of Subordinate Granges should send up their reports promptly at the beginning of the new quarter.

Wm. W. Lang, Master Texas State Grange.

BY TELEGRAPH.

[SPECIAL TO THE WACO EXAMINER.]

JACKSONVILLE, TEXAS, June 18.—A very bad accident occurred last night. As the south bound freight train was coming into this station, Mr. Phelps, the conductor, started to go forward over the train and accidentally fell between the cars. About ten cars of the train passed over him, cutting off both legs and one arm and otherwise injuring him so that he died in a few minutes after reaching this place. The railroad officials did all in their power for the sufferer, but it was impossible to save his life. No blame attaches to any one.

ATLANTA, GA., June 18.—The Atlanta Typographical Union this morning published a card denying that the strike in the Herald office grew out of a charge for an advertisement, but say they quit because they were paid off in checks instead of cash. All they ask is to be paid off weekly in cash.

WASHINGTON, D. C., June 18.—Senator T. B. Stamps, colored, of Louisiana, had an interview with General Butler this morning regarding the levee interests.

General Butler assures Mr. Stamps that if the bill appropriating three millions of dollars passes the Senate, it will have his earnest support.

General Butler frankly stated to Mr. Stamps that the Civil Rights Bill could not be passed this session. Mr. Stamps, from various conversations with Congressmen and Senators, is of opinion that the Ft. St. Philip Canal Bill will not pass this session.

In the House Mr. Butler made another ineffectual attempt to take the Civil Rights bill off the Speaker's table.

TOLSON, O., June 18.—The indications now are that the question of reading the Bible in the public schools will be agitated here in the Board of Education. Last night the following resolution was offered:

Resolved, That reading from any version of the book commonly known as the Bible, singing any hymns commonly known as religious hymns, and religious action, commonly known as prayer, shall not hereafter be any part of the exercises in any of the schools under the control of this Board, and the same are hereby prohibited.

No action was taken on the resolution.

MARKET REPORT.

LIVERPOOL, June 18.—Noon.—Cotton 8mer; Uplands 8½d; Orleans 8½d.

NEW YORK, June 18.—Cotton dull and nominal; Uplands 17½c; Orleans 18½c. Gold 111.

GALVESTON, June 18.—Cotton market—Good Ordinary 15½c; Middling 17½c; Gold 110½.

LATEST BY MAIL.

PARIS, June 17.—It is believed that the Committee of Thirty will not report for a fortnight on the bills referred to it yesterday.

The Left have abandoned, for the present, the agitation for a dissolution of the Assembly, because they hope for an organization of the Republic.

The Bureau of Assembly has been appointed, with eight members of the Right and seven from the Left, including Laboulaie, Perira and Say.

A committee of Parliamentary initiation was also appointed, and consists of eighteen members of the Left, and twelve of the Right. Rochefort's bill, Monarchical resolution of yesterday was finally referred to this committee, but it is considered certain that the resolution will not be referred to the Assembly for discussion.

The fire in the forest of Fontainebleau has been extinguished after destroying ten acres of timber.

LISBON, June 17.—The steamer Africa has returned after successfully submerging her section of the Brazilian cable. The cable has been tested and found to work satisfactorily, and handed over to the Brazilian Cable Company. Unbroken telegraphic communication is thus established from England through Lisbon and Medina, to St. Vincent, Cape Verde Islands.

HAVANA, June 17.—The Diario says that four armed insurgents who belonged to the bands of Camaguan, have come into the Spanish lines at Tercera Jicara, and surrendered themselves. They assert that the Marquis of Santa Lucia has been deposed from the Presidency of the Cuban Republic, and Maximo Gomez appointed his successor. Captain General Concha will visit Matanzas and Cardenas next Sunday.

LONDON, June 17.—At the Ascott races to-day, the Royal Hunt was won by Crolander; the coronation stakes by Apology; the Ascott Derby stakes by Atlantic, and the Ascott biennial stakes by Dumas.

WASHINGTON, June 17.—House—Business generally confined to District affairs. The present government of the District of Columbia passed by a vote of 116 to 22.

Springer, from the committee on Public Lands, reported without amendment, the bill extending the time for the completion of a railroad in the State of Louisiana, from the Texas State line to a point on the Mississippi River, opposite. It was placed in the calendar.

ATLANTA, GA., June 17.—The proprietors of the Herald state in their morning issue that they yesterday discharged their entire force of Union printers, because they demanded pay for the advertising matter set up in another office.

NEW ORLEANS, June 17.—The grand jury found a true bill against H. J. Friable, United States Collector, for extorting money from Wm. Morrison, Master of the British ship Adrian, as pretended dues and fees.

DR. W. BILLE.

A graduate from the University of Copenhagen, Denmark; Honorary M. D. from the University of Padua, Italy; for several years Assistant Physician to the celebrated Prof. Ricord, Paris; from New Orleans, Louisiana.

Having been for years a student at the large hospitals of Paris, London, Vienna and Copenhagen, and a thorough, large and varied practice during fifteen years, has gained a most thorough knowledge of the nature of all chronic diseases and the treatment thereof, and he has, in his extensive practice, had an unparalleled success, and very often effected a cure where every remedy had been tried, and all hopes of restoration to health had been despaired of.

Nobody who ever suffered of the tedious and disconcerting disease—Dyspepsia—has ever in vain called for Dr. Bille. In every case he has, by his new method of treatment, restored the functions of the stomach, and with it the health and vigor of the patient, and many a person does to-day, with gratitude, recall the moment he placed himself under Dr. Bille's care.

For his treatment of Ladies' diseases, Dr. Bille is deservedly renowned, and no lady suffering from Amenorrhoea, and Dysmenorrhoea, Hysteria, Protrusion Uteri, or any other disease peculiar to the female system, should fail to call on Dr. Bille, as they will quickly be relieved of their suffering, and ultimately restored to perfect health.

Diseases of the Genito-Urinary Organs and Chronic Diseases Dr. Bille has made a specialty, and his scourge of humanity is easily and quickly overcome by this new treatment.

Decline and nervous debility in old or young is quickly and permanently cured and full power restored. No man is too old and no young man too delicate that he cannot be entirely reinvigorated by Dr. Bille's treatment.

Dr. Bille has resided for years in New Orleans, and is endorsed by the medical fraternity there, and by his skill and knowledge has obtained a great reputation as a specialist.

Dr. Bille wishes to call particular attention to his New Discovery, by which he, by examining a few drops of blood, can tell if there is any syphilitic poison in the blood, which is of the greatest importance, as the poison can lay quiet in the blood for years, then to break out with all its ravages, and no person who ever had venereal disease can be sure that he is cured without being examined by Dr. Bille.

Diseases of the Lungs, Heart, Liver and Kidneys quickly relieved and finally cured. Solicited by his many friends and patients in Texas, Dr. Bille has been induced to visit Texas this Summer, and is now in Galveston and will be in Houston, at the Hutchins House, until June 1st, and in Dallas, Waco and the western cities during the months of June and July. may5/74
