THE NEWS.

Terrible Disaster in an English Coal Mine.

Over Three Hundred Persons Meet a Horrible Death.

The Scourge in the South continues with Unabated Fury.

The Democratic Central Committee of Massachusetts Make a Dig at Butler.

YELLOW FEVER.

AINING THE SUFFERERS.

Knoxville, Ill., Sept. 12.—At a concert given in this place last Tuesday evening for the benefit of the yellow fever sufferers sixty-four dollars were raised. This will be applied to a sum of one hundred dollars already raised, and as soon as a subscription already started is completed will be sent with that to the Howard association.

Peru, Ill., Sept. 12.—Since Friday last the citizens have raised \$569 for the southern sufferers, and the same has been placed by telegram subject to the order of the Howards, and still the good work goes on.

AT MEMPHIS.

The thermometer last night marked 60, but a stiff breeze dissipated all hopes of frost, in which lies our only hope for the cessation of the plague. From 6 p. m. yesterday to noon to-day 62 deaths are reported, among whom are several most prominent citizens, such as Dr. B. W. Avert, Judge Robt. Hutchinson, Capt. A. T. Lacy, Prof. E. S. Francis and Capt. Wm. Elliot. Sister Vincentia is also dead. Rev. S. Landrum, pastor of the Central Baptist church was taken sick about midnight while watching by the bedside of dying son, Robt. S. Landrum, city editor of the Avalanche, who breathed his last at 2 a. m. Nurses from southern cities continue to arrive, and are much needed. Dr. J. W. Woodward, a resident physician, is down with the fever. Hon. H. Casey Young, M. C., is confined to his bed, but has not the fever. A cool breeze is blowing, and hopes are entertained that at least there will be a falling off in the number of new cases. Mayor Flippin is convalescing.

AT NEW ORLEANS.

New Orleans, Sept. 12.—Weather clear, cool and windy. New cases of yellow fever, 212; deaths 57.

REQUIEM FOR THE DEAD.

Washington, Sept. 12.—Requiem mass was celebrated at St. Dominic church yesterday for priests who have fallen victims to the yellow fever. The church was crowded.

THE SCOURGE IN OHIO.

Cincinnati, Sept. 12.—H. W. W. Bleitz, of Memphis, who was taken to the hospital Sunday with yellow fever, died last evening. It is stated that a very malignant type of fever has broken out at New Richmond, Ohio, a small place 20 miles from this city up the river. Of six or seven persons attacked up to this time, five have died. The wife of Rev. Dr. Laws, and a servant girl of the next door neighbor, died on Tuesday. Shortly after the wife and sister of Mike McGloire, where the servant girl died, were attacked and died. A daughter of Dr. Kincaid was attacked, but recovered. The patients turn yellow, and before they die present the peculiar symptoms of black vomit. Physicians pronounce the disease bilious fever, however.

POLITICAL.

NEW HAMPSHIRE DEMOCRATS.

Concord, N. H., Sept. 12.—The democratic state convention assembled this morning. Hon. Hosea W. Parker was chosen president.

Hon. Frank A. McKeon was nominated for governor by acclamation. Hadley B. Fowler, David H. Tound and E. R. Peterson were nominated for railroad commissioners, also by acclamation.

BLAINE SPEAKS.

Ogdenburg, N. Y., Sept. 12.—Senator Blaine addressed about five thousand people at the fair here to-day. He devoted himself largely to financial matters, and made no reference to the result of the Maine election. His address was enthusiastically received.

A DIG AT BUTLER.

Boston, Sept. 12.—The executive committee of the Massachusetts democratic convention yesterday decided that under the call for the state convention, no person known to be in favor of nominating through the democratic convention as a candidate for governor, or for any state office, a person who is not a recognized member of the democratic party should be entitled to set or vote in the democratic state convention.

FOREIGN.

DEATH IN A COAL MINE.

London, Sept. 12.—The full extent of the terrible disaster in the coal mine at Abercorn yesterday, is now known. At half past two this morning, flooding the pit was commenced. At that hour the fire was within a short distance of the bottom of the shaft, and all hope of further rescue had to be abandoned. When this decision was announced to the relatives of the 251 men still in the pit, the scene was terrible beyond description. Thirteen additional bodies of victims were recovered before the flooding of the pit began.

The Abercorn colliery is the property of the Ebbw Vale Steel, Iron & Coal Co., one of the largest iron and coal proprietors in South Wales. It is situated a few hundred yards from Abercorn railroad section of the Monmouthshire railroad. The pit, which is 330 yards deep, and one of the largest and best worked in the district, was yielding 1,000 tons of steam coal daily.

The machinery for winding, pumping and ventilating was of the best kind, and the use of safety lamps in the mine was rigidly enforced. The cause of the explosion cannot even be surmised. Three detonations were successively heard on the surface. The frameworks and castings of the pit were thrown to the height of three hundred feet above the mouth of the shaft. The colliery employs upward of a thousand hands, of which 373, taking their turn or shift, went down at 11 o'clock in the morning. Twenty-one of the number came up at noon, up to which time nothing had occurred to create suspicion of danger. At 12:10 p. m., a loud rumbling noise was heard quickly followed by a flash of flame from the pit's mouth, and a column of smoke, dust and debris ascending high in the air. The explosion damaged the winding gear, thus destroying the only means of communications with the men in the pit. As soon as the gearing could be repaired working parties were sent down the shaft and eighty-two men and boys working within a few hundred yards of the shaft were rescued, but it became evident as attempts were made to advance into the work that little hope could be entertained of any life surviving. About 400 yards from the bottom of the shaft are stables and here 14 horses were found all dead. Beyond this the explorations could not go on account of the impurity of the air, and the prevalence of choke damp. Volunteer explorers succeeded in bringing out 10 or 12 men, very much bruised; also seven dead bodies; but it is feared that no others can be for the present got to in consequence of the fire extending; and there remains no reasonable hope that any further lives will be saved. The whole district of Monmouthshire is much excited, and it seemed last night as if the entire female population of the district had gathered about the mouth of the shaft.

REGARDED AS A VICTORY.

Constantinople, Sept. 12.—The Albanian insurgents have celebrated the massacre of Mehmet Ali Pasha as a victory. Agitation in Albania is increasing. Fresh outrages are apprehended, and Christians are fleeing into Montenegro.

STOPPED BAKING.

Constantinople, Sept. 12.—The bakers of Constantinople have discontinued the sale of bread because of the high price of wheat and depreciation of currency. The sultan thereupon remitted the grain tax, and he has appointed a committee to devise means for retiring the paper currency.

ASSUMING A BELIGERENT ATTITUDE.

Constantinople, Sept. 12.—It is said the Russians at Kastendel, on the Black Sea, are again erecting batteries which they dismantled a month ago, and that orders for the departure of Russian troops has been countermanded.

BOSS GORTSCHAKOFF.

London, Sept. 12.—Roumania has reserved for a separate decision the question of occupying Dobrukscha, the population of which are reported intensely hostile to the Roumanians. The Austrians lost twenty officers and from six to seven hundred men, in the battle at Bayhaca, in killed and wounded. It is reported that the influence of Gortschakoff is paramount at St. Petersburg, and that Schouvaloff has been released from office at his own request.

TELEGRAPHIC BREVITIES.

ATLANTIC, TOPEKA & SANTA FE R. R.

Pueblo, Colorado, Sept. 12.—Tuesday afternoon at three o'clock the first train on the Atchison, Topeka & Santa Fe railroad reached Trinidad. From the commencement of work at La Junta up to the present time the company has pushed the track forward with all possible vigor, and grade work will still continue. No halt will be made at Trinidad, but work will be pushed forward towards Los Vegas, a distance of 133 miles, with all possible speed. No halt will be made at the tunnel through the Raton mountains, but the road will be carried by a system of switch backs over the top of the mountains a distance 3 1/2 miles while the track will be 200 feet long. The grade of the switch backs will be 300 feet to the mile and will be worked by mountain engines especially designed for the purpose. Contracts for the work from Trinidad to Los Vegas have all been awarded, and

it is the intention to have the locomotive reach Los Vegas by the first of April, 1879.

TOM GETS A BENEFIT.

New York, Sept. 12.—Theodore Thomas had a benefit concert at Gilmore's garden last night, at which he had the services of Miss Emma Abbot and Signor Tagliapietra, and the assistance of the New York Philharmonic society. A fine programme was performed with an orchestra of ninety. The garden was crowded, there being about six thousand people present, and Mr. Thomas had a very substantial benefit, as well as a most enthusiastic reception, which is all the more significant just now, as hopes are still expressed of retaining him in this city.

RAILROAD ACCIDENT.

New York, Sept. 12.—An accident occurred on the Long Island Southern railroad, two miles from Hunter's Point, this morning. The engine and three cars went down an embankment, and one man killed, and several seriously injured.

ONE OF THE BRIGHTEST CHARMS of a fair face is a fine set of teeth. The ladies being fully alive to this fact, patronize SOZODONT in preference to any dentifrice, since they know by experience that it preserves like no other the pristine whiteness and cleanliness of the teeth, and makes a naturally sweet breath additionally fragrant. It is one of the privileges of the beaux sex to look lovely and that proportion of it which use SOZODONT, has learned that the article contributes in no small degree to the end in view. All druggists sell it.

Invariably on Day of Payment.

Will loan money, pay taxes and sell real estate for non-residents, on favorable terms. Agents for reliable Insurance Companies, and insure property on terms favorable.

VEGETINE

Purifies the Blood & Gives Strength.

Dr. QUINN, ILL., Jan. 21, 1878.

Mr. H. R. STEVENS:

Dear Sir:—Your "Vegetine" has been doing wonders for me. Have been having the Chills and Fever, contracted in the swamps of the south, nothing giving me relief until I began the use of your Vegetine. It gave me immediate relief, restoring my system, purifying my blood, giving strength; whereas, all other medicines weakened me, and filled my system with poison; and I am satisfied that if families that live in the malarious districts of the south and west would take Vegetine two or three times a week, they would not be troubled with the "Chills" or the malignant Fevers that prevail at certain times of the year, save doctors' bills, and live to a good old age. Respectfully yours,

J. E. MITCHELL.

Agent Henderson's Looms, St. Louis, Mo.

ALL DISEASES OF THE BLOOD.—If Vegetine will relieve pain, cleanse, purify, and cure such diseases, restoring the patient to perfect health, after trying different physicians, many remedies, suffering for years, is it not conclusive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great cures? It can truly be called the Great Blood Purifier. The great source of disease originates in the blood; and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention.

VEGETINE

Has Entirely Cured Me of Vertigo.

CAIRO, ILL., Jan. 23, 1878.

Mr. H. R. STEVENS:

Dear Sir:—I have used several bottles of Vegetine; it has entirely cured me of Vertigo. I have also used it for Kidney Complaint. It is the best medicine for kidney complaint. I would recommend it as a good blood purifier. N. YOCUM.

PAIN AND DISEASE.—Can we expect to enjoy good health when bad or corrupt humors circulate with the blood, causing pain and disease; and these humors, being deposited through the entire body, produce pimples, eruptions, ulcers, indigestion, costiveness, headaches, neuralgia, rheumatism, and numerous other complaints. Remove the cause by taking Vegetine, the most reliable remedy for cleansing and purifying the blood.

VEGETINE

Believe it to be a Good Medicine.

NEW, O., March 1, 1877.

Mr. STEVENS:

Dear Sir:—I wish to inform you what your Vegetine has done for me. I have been afflicted with Neuralgia, and after using three bottles of the Vegetine was entirely relieved. I also found my general health much improved. I believe it to be a good medicine. Yours truly,

FRED HANFESTICK.

VEGETINE thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

VEGETINE

DRUGGIST'S REPORT.

H. R. STEVENS:

Dear Sir:—We have been selling your Vegetine for the past eighteen months, and we take pleasure in stating that in every case, to our knowledge, it has given great satisfaction. Respectfully,

BUCK & COWGILL, Druggists, Hickman, Ky.
