CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment and even prolong the term of human existence, none can be of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that in medicine or combination of medicines yet known can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affection of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer further enquiry to the circular which the Agents below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these facts.

From the Professor of Amherst College, the CELEBRATED PROFESSOR HITCHCOCK.

"James C. Ayer—Sir—I have used your Cherry Pectoral in my own case of deep seated Bronchitis and am convinced from its chemical combination, that it is a valuable compound for the relief of large and distressing difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper.

EDWARD HITCHCOCK, L.L. D.

From the widely celebrated

PROFESSOR SILLMAN, M.D. L.L.D.,

Professor of Chemistry, Mineralogy, &c. Yale College, Member of the Lit. Hist. Med. Phil. and Scientific Societies of AMERICA AND EUROPE.

"I deem the CHERRY PECTORAL an admirable compound from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure."

New Haven Ct., Nov 1, 1849

MAJOR PATTISON, President of the S. C. Senate states he has used the Cherry Pectoral with wonderful success, to cure an inflammation of the Lungs.

From one of the first Physicans of Maine.

Saco, Me., April 26, 1849.

Dr J. C. Ayer, Lowell—Dear Sir—I am constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases I am convinced it will cure coughs colds and diseases of the lungs, that have put to defiance all other remedies.

I cordially recommend its use in cases of consumption, and consider it much the best remedy known for that disease.

Respectfully yours, I. S. CUSHMAN, M.D.

California Life Risks,

taken at lower rates than by any other company

The business of the Company will be conducted upon the JOINT STOCK, and upon the MUTUAL principal, at the option of the insured, thus meeting the wants and circumstances of the public more fully, it is believed, than purely mutual companies can do.

On the Joint Stock principle the insured will pay 31 1-3 per cent. less for insurance than the rates of the best organized mutual Companies or will receive what is equivalent to 33 1-3 per cent. per annum, in dividend profits, paid in advance, instead of receiving an uncertain amount at the end of each year in script certificates, redeemable on certain contingencies, while at the same time the annual cash payments are increased by the interest paid on notes given for half the amount of the premium.

On the Mutual principle, this company propose to insure at the usual rates of mutual Companies, dividing the net earnings each year, giving script certificates redeemable after a Mutual Insurance Fund of Two Hundred Thousand Dollars is accumulated, and charging a commission for conducting that part of the business, equivalent to only about one half the expenses of the Company, securing (losses being equal) a larger yearly dividend to the mutual insurers, besides giving the members a lien upon a Joint Stock Capital of One Hundred Thousand Dollars, a large Joint Stock Reserve Fund, which will be pledged as security for payment of losses, in addition to the usual Capital and reserve Fund in mutual Companies.

"This company is not only one of the most prosperous but also one of the very best in the country.—*Hartford Daily Courier.*

No Company in the Union has had such a run of business as this company since its organization.

Men for California

are almost universally insuring in this Company because terms are so reasonable.

HEADS OF FAMILIES are anxious to insure in this Company,—a safe institution.

SALARIED MEN, are ensuring in this company by scores.

Hard working men, invest in this company because they regard it as the best of savings banks to lay up their earnings in for their wives and

Capatalists invest with this company by taking out policies for life, because they regard it as good as money at 12 to 20 per cent interest. All classes and conditions of men ensure in this company because, just as they do every thing in artford, when they meet with losses, they pay "up" at once.

BEE HIVE AND PROTECTOR.

BY the use of this Hive, Bees are protected through our severe winters, on account of the even temperature of the air within it and its peculiar arrangement for ventilation, that not a swarm has been lost from the many hives used within the three years past—it is a complete protector against the attacks of neighboring bees, bee-moths, &c., and affords peculiar facilities for replacing old brood combs by new ones. It is unequaled as a stock hive, swarms issuing from it from two to three weeks earlier than from any other hive. The surplus honey is readily obtained from it, in a pure state, without injuring the bees, in boxes of suitable size for family use or the market.

This Hive is constructed on philosophical and scientific principles, and needs only to be seen to insure its use by those who are acquainted with the instincts and natural habits of the honey-bee.

S. P. TOWNSEND'S COMPOUND EXTRACT

SARSAPARILLA

THE WONDER

AND

BLESSING OF THE AGE.

The most extraordinary Medicine in the World!!

This Extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the system.

We have manufactured 1,500,000 bottles of Sarsaparilla during the past year, and are now putting up at least 5000 bottles per day, using more of the Sarsaparilla root in one month than all the other manufacturers of Sarsaparilla in one year. Dr. S. P. Townsend's Sarsaparilla is warranted to keep for any length of time in all climates. This Extract has cured more of the following diseases than all the other advertised medicines together have done. Scrofula, or Kings Evil, obstinate Cutaneous Eruptions, Pimples or Pustules on the face, Blotches, Boils, Chronic sore Eyes, Ring Worm or Tetter, Scald Head, enlargement and pain of the bones and joints, strumous Ulcers, Syphilitic Disorders, Lumbago, Saltrheum, and all diseases arising from an injudicious use of Mercury, Ascites or Dropsy, expulsive or improdence in life. It invariably cures Rheumatism, Indigestion or Dyspepsia, Neuralgia general and nervous Debility, Palpitation of the Heart, Liver Complaint and Inflamation of the Kidneys. Ladies of pale complexion and consumptive habits and such as are debilitated by those constructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigor.

The number of diseases mentioned above as cured by this preparation of Sarsaparilla, may seem large; but we are nevertheless prepared to prove by an extensive array of certificates, that such is the fact; a fraction of the evidence which we possess concerning each disease, would be received by any judicial tribunal as complete demonstration. It must be remembered that all this rightful array of maladies, though appearing in an endless variety of forms and complications in their origin and causes, for they all spring directly or indirectly from a corrupt fountain. If the blood were in a pure, healthy and active state it would drive all these complaints from the system and chronic disease would be impossible.

THE FACTOY.

The immense and increasing demand for Dr. S. P. Townsend's Sarsaparilla has made it necessary very much to enlarge the operations connected with it. Medicinal substances are used in incredible quantities, and as each ingredient requires to be carefully and accurately tested, the proprietors have found it necessary to place the Compounding Department in charge of a competent and responsible Chemist—one whose scientific reputation will be a full guarantee of public confidence. Dr. JAMES R. CHILTON has assumed this duty.

CAUTION.

To avoid imposition it will be necessary to see that Dr. JAMES R. CHILTON'S CERTIFICATE as well as the signature of DR S. P. Townsend, is on the outside wrapper of each bottle.

VERY REMARKABLE.—An intelligent farmer in the town of Lewiston, related some time since a remarkable account of the cure of a fine horse, which, in the act of ploughing, caught his foot in a root, and tore it partly off. He immediately cleaned out the dirt, and applied G. W. Merchant's celebrated Gargling Oil, replaced the hoof, bandaged it up tight, soaked it occasionally with the Oil, and in two weeks he was able to use the horse.

Copy of a letter from C. L. Safford, Esq.

DEAR MERCHANT—Dear Sir—One of my horses having a *Windgall* of long standing, which had become callous, and which I supposed from the many remedies used by me, was past cure—I was induced to try your "Gargling Oil," which with the use of two bottles, entirely effected a cure. I therefore consider it one of the best medicines that can be used for horses. Truly yours,

Lockport, Jan. 20, 1841. C. L. SAFFORD.

From Mr. J. Sternberg, superintendent of the canal contractor's stable.

This may certify that I have been in the habit of using Mr. Merchant's Gargling Oil, and find it to be one of the best applications that I have ever made use of. I have have had the charge of from forty to fifty horses for the last eight months, and have made use of a number of bottles to my entire satisfaction.

Lockport, Jan 14, 1841. J. STERNBERG

Don't be persuaded to take any thing else with the promise it is just as good, &c. This is practiced by those unprincipled dealers, whose conscience will stretch like India Rubber, and who are of a kindred spirit, of those in our large cities, whose nefarious practices have so recently been exposed to the view of Congress.

Be sure the name of the SOLE PROPRIETOR GEO. W MERCHANT, Lockport, N. Y., is blown in the side of the bottle and in his handwriting over the cork.

All orders addressed to the proprietor will be promptly responded to.

RECOMMENDATIONS.

[Certificate of Dr. Perry, Portsmouth, N. H.]

PORTSMOUTH, September 29, 1849.

Mr. J. P. Moore, Agent for "White's Hair Restorative."—Dear Sir: I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative. Several years ago, after a severe fit of sickness my wife lost all of her hair; the scalp appeared diseased, and the hair grew dry, harsh and uneasy. About a year ago, by another fit of sickness, she lost a lot of her hair a second time, and for a long time there was apparently no action in the scalp. After various applications I was induced to try the above mentioned Restorative and now after the use of a few bottles her hair has grown out as thick, as lustrous, and as beautiful a color as ever. Furthermore, for a long time I have been afflicted with neuralgic and other pains in my head and I have found it the best external remedy I have ever tried. I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen. Most respectfully yours,

A. PERRY, M. D.
