A FAIRBANKS BOOM

TO TEDDY.

Threatened Party Cyclone-The Post Office temperament. Scandal Is Causing Much Alarm to the Ad-Attorney General.

(From our regular correspondent.) Washington, April 23, 1903.

That the Presidential boom of Senshown during the past week. The Civil duty uprightly performed. Service Commissioner Foulke is going now appears to believe that the best The Canadian Pacific is a heavy chances of Republican success lie in on a political promise.

A report has reached Washington to the effect that Dr. W. Godfrey Hunter, ex-Minister to Guatemala and a prominent Republican leader of Kentucky. has become an active Fairbanks manager in that State and is working to secure a solid delegation pledged to vention. Some prominent Kentucky Republicans say that Dr. Hunter will not be able to "deliver the goods" but the mere fact that he has been authorbler that has set in motion a larger ized to make the attempt is most significant. North Carolina Republicans would, it is stated on excellent authority, gladly vote for Mr. Fairbanks in preference to Mr. Roosevelt and pracfollow the lead of Senator Hanna who is the idol of the Republican party in the South. Meanwhile the split between Senator Platt and Governor stroyed, while the river was dammed Odell in New York is an occasion of as it is now, long before their great serious anxiety and it is held, not grandfathers had peopled the Earth. | without reason, that the President will Mr. Robertson, the government geol-fact, Mr. Lou Payn, a long acknowl-

Justices have often been named in reward for partisan political services; members of the Supreme Court, and even Chief Justices have been so honored. But Justice Thayer never rendered any partisan ator Fairbanks of Indiana is causing service; he loves the law, lives for the grave concern to the President and his law, thinks of the law, and has no disupporters has been unmistakably versions, passions or pleasures except the intellectual enjoyment of arduous

The Weather and Crops.

The following report regarding the weather and crop prospects was issued

Spring-like weather has finally arrived, and the past week was the warmest and most favorable to growth there has yet been this season. The rainfall in the fore part and the latter part part of the week was copious, while there were three fine days in the middle of the week, which afforded an excellent opportunity for farm work including potato planting and making gardens. Great impetus was given to the growth of vegetation by the warm sunshine. Grass has taken a good start and pastures are much improved. Winter wheat which was found to have been badly frozen out in some localities, so as to require resowing, has begun to make progress. The early sown spring wheat is well up and of the country indicates, a similar slide tically all of the Southern States will growing nicely. The spring seeding, although well advanced toward completion generally, will not be entirely or more. The conditions of soil and weather could not be more favorable for such work, and although the spring is so late, it is thought that the prospect for all crops is excellent. Fruit trees, with the exception of apples and ogist, is of the opinion that a mud- edged Republican oracle in New York late prunes, are in general bloom, and
