Mason county has produced a spar 102 feet long. It is 64 feet at the butt and 42 inches at the tip. In shipping it was placed on three 4-foot cars, and a picture of it was thus taken to show Eastern folks that our people are not all liars in speaking of our timber, if they could charge that the long flag-staff sent to Chicago by Mrs. Miller to show how high we held the flag out here, was made from two trees split together, to overcome the allegation that the pole they claimed to send could not get through the tunnels of the intervening mountain ranges.

The swiftest forest fire in the history of Western Washington, swept over thousands of acres Tuesday, wiping out lives, homes, ranches and mill property in Skagit and adjoining counties. The losses will run up into millions. A big fire raged all day three miles from North Bend and was still burning. Fire in Snohomish and Pierce counties are raging almost unopposed. As indicating the extent and rapidity of spread of the flames it is said that at 11:30 Sunday, the atmosphere was clear and the horizon lines sharply defined; on Tuesday, it was difficult to see across Elliott Bay to West Seattle through the thick clouds of smoke. The sun was obscured the greater part of the afternoon, and even the fresh wind that prevailed failed to clear the air of the heavy pall of smoke. Many families are homeless and individuals penniless. Quite a number of families near Hirdaview are homeless and it is a matter of surprise that 400 men, women and children managed to escape in a district so thoroughly ravaged by the fire. The season opens rather early this year for forest fires and it has been noted with remarkable severity.
