6 P. M., yesterday, and that Sedgwick, with 15,000 fresh men, is close on their rear. It is thought they cannot escape, and must either be cut to pieces or surrender. The Potomac is too high to cross, should they reach it. Gen. French is on the line of the Potomac and has destroyed all means of crossing the river.

The rebel loss is estimated at 30,000, the Union loss from twelve to fourteen thousand. The battle ground is still covered with the rebel dead and wounded for many miles.

GETTYSBURG, July 6.

Reports from the front are very cheering. Our cavalry supported by infantry are close upon the heels of the enemy and important results are likely to occur before night. A dispatch from Gen. Gregg this morning says the rebels instead of going to Chambersburg are pushing to Green Castle.

The roads are very heavy in consequence of recent rain and trains are stuck in the mud. The enemy is abandoning all the wounded on his retreat. Every house and barn for fifteen miles is a hospital. They are leaving their Generals and Colonels, as well as privates, and all their wounded will fall into our hands.

We have taken thus far over 6,000 prisoners, besides the wounded. The slaughter among the rebel general officers is very great. Maj. Gen. Trimble is a prisoner in our lines; his left foot is gone. Brig. Gen. Kemper is a prisoner, and in a dying condition. Gen. Armstead, captured on Thursday, is dead. Maj. Gen. Hood is wounded in the arm. Generals Booth, Pender and Ricket are also wounded. Barkesdale and Garnet are killed. The enemy are reported to have gained the tressle bridge just built across the Potomac above Williamsport, and if so I fear their main army may escape.

BALTIMORE, July 6.

The whole number of prisoners arrived here is 4063 and more are on the way. No intelligence has been received here of the capture of rebel prisoners by regiments or brigades.

NEW YORK, July 7.

The Baltimore *American* of yesterday says "Every available man in Baltimore and Washington is being hurried to Frederick to entercept Lee. A great battle will probably come off soon. Meade's forces, reinforced by Couch, Schenck and Heintzelman, will be nearly double Lee's army."

CAIRO, July 7.

The dispatch boat has just arrived here from Vicksburg. She left on Sunday morning. The passengers announce that Pemberton sent a flag of truce on the morning of the 4th of July and offered to surrender if his men were allowed to march out.—Grant replied that no man should leave except as prisoner of war. Pemberton then after consultation with his commanders, unconditionally surrendered.

BALTIMORE, July 7.

The American's special dispatch from Frederick says parties who left Hagerstown to-day report that the head of the rebel army had already commenced crossing there and there were indications that it would be massed there perhaps to try conclusions again with the Army of the Potomac. This however is doubtful. The greater probability is that Lee will push as rapidly on to the river as possible and try to regain for his army in the soil of Virginia that confidence and prestige they have lost on this side of the line.

Sanguine people may dream of bagging or annihilating a great army, but the doing of this is next to impossible.

Though the rebels may reach the other side of the river without further punishment it will still not be for want of an effort on our part to inflict it upon them.

Our cavalry under Pleasanton is on their flank and will not fail to strike hard. Gens. Buford, Gregg and Kilpatrick are miles in front of here and the advance of our infantry columns is also where it ought to be.

The South mountain passes are ours and with these evidences of further possible success we must await the result.

NEW YORK, July 8.

A special Washington despatch to the *Times* July 7 says: Officers bring news that the flag of truce boat last sent to City Point brings back rebel news and files of Richmond papers to July 4. Profound ignorance was existing as to the whereabouts of Lee's forces and the progress of the battle. The rebel authorities had peremptorily ordered Lee's return.

NEW YORK, July 8.

The enemy's train arrived at Hagerstown Tuesday morning, going towards Williamsport. Their train of wounded, 10 miles long, passed through Waynesboro' Sunday.

It is reported that there are large numbers of rebel deserters in the mountains. 160 rebel wagons and 500 prisoners were taken by the N. Y. Cavalry near Mercersburg.

A special dispatch from Washington reports that an order lately issued by Gen. Halleck forbidding officers of the army from remaining in Washington without special leave was put in force on Tuesday.

Gens. Hooker, Naglee and other general officers, were arrested. Gen. Hooker obtained leave to stay. The rest left on the first train.

Another special says our wounded at Gettysburg are estimated at the Surgeon General's office at 12,000. 5,000 are to be sent to Philadelphia, 5,000 to New York, 1,000 to Baltimore, and 1,000 to remain in improvised hospitals at Gettysburg.

Between three and four thousand rebel wounded were left in our possession.

A special dispatch from Frederick, Md., says that among the prisoners are twenty-three Colonels and a host of officers of inferior ranks.

The rebels in the late battles lost 14 general officers.

A rebel colonel says that Lee's invading force did not exceed 75,000 with 180 pieces of artillery. The rebel losses are estimated by themselves at 30,000. We have about 12,000 prisoners, not including their wounded.

The whole force is trying to cross the Potomac with Mulligan in their front and Pleasanton in their rear.

NEW YORK, July 8.

The *Herald's* correspondent in the front says: I have good news but cannot telegraph it. He states that all the fords of the Potomac are in our possession.

WASHINGTON, July 8.

The War Department has received intelligence that dispatches from Maj. Gen. Grant with the details of the surrender of Vicksburg are now on the way to the department.

HEADQUARTERS 16th Army Corps, July 5.

To Gen. Halleck:

Gen. Prentiss was attacked in force by the rebels under Holmes and Price at Helena yesterday. He estimated the force at 15,000. I think 9000 will cover the strength.

Gen. Prentiss sustained their attack from daylight till 2 P. M., when the rebels were repulsed at all points, leaving us 1,200 prisoners. Their loss in killed and wounded is about 500 or 600.

Gen. Prentiss lost about 60, rebels sent me 860 prisoners which I sent to Alton to-day, in the Silver Moon.

A. A. HURLBUT,
Maj. Gen. Com'g.

HARRISBURG, July 8.

No information of the latest route of Lee's army at Williamsport has been received here officially or otherwise.

NEW YORK, July 8.

Gold opened to-day at 130½.

HARRISBURG, Pa., July 8.

News received here to-day by telegraph shows that the main body of Lee's army is between South Mountain and Hagerstown. Lee will probably select a place between Hagerstown and the Potomac to give Meade battle, as it is impossible for him to reach Virginia.

Gen. Imboden is at Williamsport with 10,000 troops, protecting rebel supply trains. Lee's wagon train is at that point to the number of 4000 to 5000, making their way into Virginia as fast as their limited means will permit. It has rained the last three days.

WASHINGTON, July 8.

A despatch from Grant to Halleck, dated at Vicksburg, at 10 30 on the morning of the 4th, states that the rebels surrendered this morning; and that their troops were paroled as prisoners of war.

The movements about to be made by the forces of Grant are detailed; but they are not proper for publication.

A DRAFT for 1447 men from this District will be made on Monday. See advertisement.

CAMBRIDGE CATTLE MARKET.

WEDNESDAY, July 8.

At market 285 Cattle, about 250 Beeves, and Stores, consisting of Working Oxen, Cows, one, two and three years old.

Market Beef—extra ℔ cwt., 8 50 @ $8 75.
First quality, $8 00.
Second quality, $7 00 @ 7 25.
Third quality, $4 75.
Ordinary, none.
Working Oxen, $100 @ $175 per pair.
Cows and Calves, $30 @ 37 @ 80.
Sheep and Lambs, 1350 at market. Prices, in lots $2 00 @ 2 50. Extra and selections, $3 00 @ 4 00.
Spring Lambs, $3 50 @ 4 25.
Hides, 8 @ 8½c ℔ lb. Pelts, 50 @ 75c each; Calf Skins 12 @ 14c.
Tallow, 8 @ 8½c.
Veal Calves $5 00 @ 6 50.

REMARKS.

There was not a large supply of stock at market, but sufficient for the demand. Quality poor, but few extra; prices lower than at the opening of the market last week but about the same as at the close. There were eight extra cattle sold for $9 25 and 4 for 9 00 per 100 lbs, but the ruling prices for the best was from $8 50 @ 8 75. Small cattle 50c lower, but few old sheep and they sold lower as there is not much call for them. Spring Lambs in good supply and sales quick.

SPECIAL NOTICES.

HAIR DYE! HAIR DYE!! BATCHELOR'S Celebrated Hair Dye *is the best in the world!* The only harmless, true and reliable Dye known.—This splendid Hair Dye is Perfect—changes Red, Rusty or Grey Hair, instantly to a *Glossy Black* or *Natural Brown*, without injuring the Hair or Staining the Skin, leaving the Hair Soft and Beautiful, imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of Bad Dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations, and should be avoided. Sold by all Druggists, &c. Factory—81 BARCLAY ST., N. Y. BATCHELOR'S NEW TOILET CREAM FOR DRESSING THE HAIR.
June 23. 1y.

STARTLING: BUT TRUE.—THE VOL-unteers are braving the dangers of Fever, Scurvy, Wounds and Cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of HOLLOWAY'S PILLS AND OINTMENT, would have returned to his family strong and healthy. Soldiers, try them! Only 25 cents per box or pot. 226

DR. TOBIAS' VENETIAN LINIMENT Died of croup—What a pretty and interesting child I saw last week! But now, alas! it is no more.—Such was the conversation of two gentlemen riding in the cars down town. Died of croup! how strange! when Dr. Tobias Venetian Liniment is a certain cure, if taken in time. Now, mothers, we appeal to you. It is not for the paltry gain or profit we make, but for the sake of your infant child that now lies playing at your feet. Croup is a dangerous disease; but use Dr. Tobias' Venetian Liniment in time, and it is robbed of its terrors. Always keep it in the house; you may not want it to-night, or to-morrow, no telling when—but armed with his Liniment you are prepared, let it come when it will. Price only 25 cents a bottle. Office, 56 Cortlandt Street, New York. Sold by all Druggists.

Died.

At Huntington, on the 23d day of June, 1863, Ida M. Norton, daughter of Mrs. Jesse B. Norton, aged seven years and six months.

In Bristol, July 5, Hon. Horatio Needham, aged 67.

NOTICE.

HEAD QUARTERS, PROVOST MARSHAL'S OFFICE, 3d CONGRESSIONAL DISTRICT, BURLINGTON, July 9th, 1863.

PUBLIC NOTICE is hereby given that the Board of Enrollment in the Third District of the State of Vermont is ordered to make a draft, on the first class of the national forces in said district, for one thousand four hundred and forty-seven men, that being the number stated in the President's order, and that said draft will be made publicly at the Town Hall in Burlington, commencing July 13th, at 11 o'clock A. M., and will continue each day until completed. The draft will be made by Sub-Districts.

By order of the Board of Enrollment.

ROLLA GLEASON, President.
ELISHA WHITE, Commissioner
J. L. CHANDLER, Surgeon.
} Board of Enrollment.

MEN WANTED FOR THE INVALID CORPS.

1. Only those faithful soldiers who, from wounds or the hardships of war, are no longer fit for active field duty, will be received in this Corps of Honor. Enlistments will be for three years unless sooner discharged. Pay and allowances same as men of the United States Infantry; except that no premiums or bounty for enlistment will be allowed. This will not invalidate any pension or bounties which may be due for previous service.

2. For the convenience of service, the men will be selected for three grades of duty. Those who are efficient and able-bodied, and capable of performing guard duty, etc., etc., will be armed with muskets, and assigned to companies of the First Battalion. Those of the next degree of efficiency, including those who have lost an hand or an arm; and the least effective, including those who have lost a foot or leg, to the companies of the Second or Third Battalions; they will be armed with swords.

3. The following uniform has been adopted

For Enlisted Men.—Jacket—Of sky-blue kersey, with dark-blue trimmings, cut like the cavalry jacket to come well down on the abdomen.

Trowsers—Present regulation, sky-blue.

Forage cap—Present regulation.

4. The duties will be chiefly to act as provost guards and garrisons for cities; guards for hospitals and other public buildings; and as clerks, orderlies, etc. If found necessary they may be assigned to forts, etc.

Boards of enrollment or Recruiting Officers must determine

1. That the applicant is unfit for service in the field.
2. That he is fit for the duties, or some of them, indicated above.
3. That he was honorably discharged.
4. That he is meritorious and deserving.

For enlistment or further information apply to Recruiting Sergeants at the following stations:

Barton, Orleans County.
St. Johnsbury, Caledonia County.
White River Junction, Windsor County.
Randolph, Orange County.
Montpelier, Washington County.
Burlington, Chittenden County.
St. Albans, Franklin County.

At each of these stations Recruiting Sergeants will be ready to enlist men, subject to a final examination and enlistment by an officer of the Invalid Corps or of the Regular service, who will visit these stations at appointed times, to inspect and muster into service all who have previously enlisted or may then desire to enlist. All who apply should bring with them their discharge papers and such other testimonials of service as they may have.

The great object of the Corps is to give honorable employment to those who have lost health or limbs in the service, and are unfit for other employments. Another object is to enable those who have a desire to serve their country, and have slight physical difficulties which prevent them from going into the field, to take the place of sound, strong men who are now in barracks, hospitals, recruiting officers, &c., whose duties could as well be performed by men of the Invalid Corps. It is supposed that there are honorably discharged men enough to fill all Northern stations, and thus allow many thousand able bodied men to return to the field.

Four Companies will be organized for Vermont.

No one who is mustered into the Invalid Corps can be transferred to active service, unless on special examination and at his own request.

At any place where ten men, who have been honorably discharged, will get together and inform me by letter of the time when they will be ready for examination and enlistment, I will come and muster them into service, or, if not able to go at that time, will appoint a day for such muster.

Any one who is of good character and education, who has been honorably discharged, and who reports to me in person at any of the above named stations, or at my Headquarters, Burlington, Vt., with suitable recommendations, will be appointed Recruiting Sergeant for his own town or county, after having enlisted in the Corps. The same chance for promotion exists in this Corps that exists in the Regular service.

By order of Brig. Gen. T. G. PITCHER, A. A. P. M. Gen. for Vt.

CAPT. J. T. DREW,
Recruiting and Mustering Officer for Invalid Corps, Burlington, Vt.

June 22. A. F. STYLES.

THE SIGHT. THE SIGHT. THE SIGHT

A New discovery for the Preservation of the Eyes

The Periscopic

BRAZILIAN PEBBLES,

INVENTED AND PATENTED BY

MR. LANGTON, of the Manchester Eye Infirmary.

THESE lenses do not in anything resemble those that have come hitherto before the public, they are ground on an entire new principle, having all concave surfaces, however high or low the focus may be required, and are ground and adapted by himself for each case separately, and by the application of

THE OCULOSCOPE.

An instrument invented by Mr. L., he is enabled, with the most unerring accuracy to discover the glasses which are required, thus making the most minute particle of light available, he is enabled to suit the most imperfect sight scientifically and correctly.

The advantages of the Periscopic lenses are so manifold, that it is impossible to describe them in an advertisement, but we may say here, by their aid all the light rays are made to converge in one small focus. The light is made to impinge on one spot, the centre of the Cornea helping the impaired retina in its office.

None Need Despair! All can Find Help!

By the use of these Spectacles aged persons are enabled to perform the most minute work either by day or artificial light, without feeling that sense of fatigue which generally follows when using wrongly adapted spectacles. These glasses need never be changed, will last a lifetime, never scratched, and are not easily broken. They being pebbles are not non-conductors, they do not heat the eyes, but on the contrary keep them always cool.

All Kinds of Tinted Glasses.

Mr. L. has with him a large and most complete stock—he keeps everything pertaining to his profession.

☞ These lenses can be adapted to any frame. ☜

WHEELER & WILSON

FOR SALE BY

Geo. W. & G. G. Benedict,

No. 6 College Street,

BURLINGTON, - - VERMONT.

WE DO NOT offer for sale any of the many kinds of "CHEAP" Machines, all of which make the chain stitch,

which is perfectly worthless for ordinary sewing. None of the cheap chain-stitch machines are worth, practically, more than their weight of old iron.

BUT WE

DO SELL

—THE—

Wheeler & Wilson

SEWING MACHINE.

making the celebrated

"LOCK STITCH,"

alike on both sides of the work, and that will not ravel though every fourth stitch be cut. We recommend this well-known machine for the following qualities:

1st. *Perfection of Stitch.* It makes the lock stitch, alike on both sides of the cloth—which will not rip or ravel—leaves no ridge on the under side to wear or tear off—and uses less thread, by from a third to a half, than any other stitch.

2d. *Rapidity.* Five stitches are made to each tread, and ONE THOUSAND STITCHES A MINUTE with ease, making a full yard of seam a minute. With this surprising rapidity, the ease of its motion is unsurpassed.

3d. *Simplicity.* The working parts are few, easily adjusted and kept in order with the greatest ease.

4th. *Durability.* With ordinary care one will last a lifetime. Thousands of these machines have been in constant use five and six years and are still as good as ever. One will outlast a dozen of the cheap, or most [illegible] patents.

5th. *Range of Work.* The Wheeler and Wilson machine will sew anything from the lightest muslins to the heaviest cloth or even leather. It works equally well upon silk, linen, woolen and cotton goods.

SEAMING, QUILTING, HEMMING, GATHERING AND FELLING,

performing every species of sewing except making button-holes [illegible]. Upon straight seams an operator with one machine will perform the work of ten seamstresses. It will do more work, make better work, and in a better manner than any other machine [illegible].

ANY QUANTITY OF REFERENCES

will be given, to parties in this vicinity, in whose families this machine has done away all use of the needle by hand.

The following is an extract from a description of the WHEELER & WILSON SEWING MACHINE, in Appleton's "Dictionary of Mechanics:"

"Two and one-half yards of thread is the average required for a yard of sewing. There is no limit to the number of stitches that may be made in any given time. The driving wheel is graduated variably, so as to make five stitches at each tread, so that from six hundred to one thousand stitches per minute are readily made.

The bearings and friction surfaces are so light, that the propelling power required is merely nominal. The rotary hook, feed, bobbin, and other parts at all subject to wear, are made of finely tempered steel; the other parts of the machine are tastefully ornamented, or heavily silver plated.

Thousands are used by seamstresses, dressmakers, tailors, manufacturers of shirts, cloaks, mantillas, clothing, hats, caps, corsets, ladies' gaiters, umbrellas, parasols, silk and linen goods, with complete success; some thousands from one hundred to two hundred are used in a single manufactory. The amount of sewing that an operator may accomplish depends much upon the kind of sewing and her experience; one thousand stitches per minute are readily made, which would form more than a yard of seam with stitches of medium length. Fifty dozen of shirt collars, or six dozen of shirt bosoms are a day's work. Upon straight seams an operator with one machine will perform the work of twenty by hand; on an average one probably performs the work of ten seamstresses.

The Wheeler & Wilson machine is applicable to every variety of sewing or family wear, from the lightest muslins to the heaviest cloth. Its mechanism is the fruit of the highest inventive genius, combined with practical talent of the first order. Its principles have been elaborated with great care and it involves all the essentials required in a family sewing machine. It is simple and thorough in construction, elegant in model and finish, facile in management, easy, rapid, and quiet in operation, and reflects additional credit upon American mechanical skill."

Also constantly on hand, Needles, Hems, Braiders, Hemming-gauges, Tuckers, Needle-cases, &c., at the

SEWING MACHINE AGENCY,

Free Press Building,

No. 6 COLLEGE ST., - BURLINGTON, VT.

DR. MARSHALL'S HEADACHE
—AND—
Catarrh Snuff.

THIS SNUFF has thoroughly proved itself to be the best article ever known for curing the Catarrh, Cold in the Head, and the Headache. It has been found an excellent remedy in many cases of Sore Eyes. Deafness has been removed by it, and Hearing has been greatly improved by its use. It purges out all obstructions, strengthens the glands and gives a healthy action to the parts affected. It is recommended by many of the best physicians, and is used with great satisfaction everywhere.

OBADIAH WALSTON'S ESTATE

WE THE SUBSCRIBERS, having been appointed by the Honorable the Probate Court for the District of Chittenden, Commissioners to receive, examine and adjust the claims and demands of all persons against the estate of Obadiah Walston late of Williston in said District, deceased, represented insolvent, and also all claims and demands exhibited in offset thereto; and six months from the day of the date hereof, being allowed by said Court for that purpose, we do therefore hereby give notice that we will attend to the business of our appointment, at the dwelling of the late Obadiah Walsons in Williston in said District, on the first Thursday of August and February next, at 10 o'clock, A. M., on each of said days.

Dated this 6th day of July A. D. 1863.

GEO. LANDON,
HARRY LOSLYN.
} Com'rs.
2w3w

STATE OF VERMONT, DISTRICT OF CHITTENDEN, ss. } THE Honorable the Probate Court for the District of Chittenden.

To all persons interested in the estate of Asa Rhoads late of Richmond in said District, deceased, GREETING.

Whereas, said Court hath assigned the 6th day of July next for the settlement of the administration account of the Administrator of the estate of said deceased, and ordered that public notice thereof be given to all persons interested in said estate, by publishing this order three weeks successively previous to the day assigned, in the Burlington *Free Press* a newspaper printed in Burlington, in said District.

Therefore, you are hereby notified to appear at the Probate Court rooms, in Burlington, on the day assigned, then and there to contest the allowance of said account, if you see cause.

Given under my hand, this 10th day of June A. D. 1863.

w50w3 T. E. WALES, Judge.

LEVI S. TOMBERSON'S ESTATE.

STATE OF VERMONT, DISTRICT OF CHITTENDEN, ss. } THE HONORABLE the Probate Court, for the District of Chittenden.

To all persons interested in the estate of Levi S. Tomberson, late of Milton, in said District, deceased, GREETING.

WHEREAS, said Court hath assigned the 8th day of July next for the settlement of the administration account of the Executor of the last Will and Testament of said deceased, and ordered that public notice thereof be given to all persons interested in said estate, by publishing this order three weeks successively previous to the day assigned, in the Burlington *Free Press*, printed in Burlington in said District.

THEREFORE, you are hereby notified to appear at the Probate Court rooms, in Burlington, on the day assigned, then and there to contest the allowance of said account, if you see cause.

Given under my hand, this 17th day of June, A. D. 1863.

GRACE'S CELEBRATED SALVE.

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Wens.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

WILLIAM GRACE,
Amesbury, Mass.

Price 25 cents and $1 per Box.

Great saving is made by taking the larger size. Each box has the above cut and the fac-simile of the proprietor's signature attached to it, which is duly copy-righted.

WHEAT, RYE, CORN.

WHEAT, WHEAT,

RYE, RYE,

CORN. CORN.

Golden Sheaf Whiskey.

THE Subscriber, having been engaged for the last twenty years in the importation of Wines and Spirits, now finds from this experience that real

PURE BOURBON WHISKEY,

when made, as it ought to be, from WHEAT, RYE AND CORN, is without doubt, the most healthful and medicinal Spirit that can be used. Having determined to make the sale of this article a specialty to his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"GOLDEN SHEAF,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases, containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels, and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the General Depot for its sale,

91 WASHINGTON STREET, BOSTON.

Each bottle is enclosed in a neat pastboard box, to ensure its safe transportation.

BURLINGTON, - - - VERMONT.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & Co.,
Practical and Analytical Chemists,
Lowell, Mass.

Sold by all druggists every where.

FRIENDS AND RELATIVES
—OF THE—
Brave Soldiers & Sailors,

HOLLOWAY'S PILLS
—AND—
OINTMENT.

ALL who have Friends and Relatives in the Army or Navy, should take especial care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

Coughs and Colds affecting Troops

Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

Sick Headache and Want of Appetite, Incidental to Soldiers.

These feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthful action of the liver and stomach. These organs must be relieved, if you desire to be well. The Pills, taken according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness or Debility Induced by over Fatigue.

Will soon disappear by the use of these valuable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acrid humours from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

Volunteers Attention! Indiscretions of Youth.

Sores and Ulcers, Blotches and Swellings, can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions, if treated in any other way they dry up in one part to break out in another. Whereas this Ointment will remove the humors from the system, and leave the patient a vigorous and healthy man. It will require a little perseverence in bad cases to insure a lasting cure.

For wounds either occasioned by the Bayonet, Sabre or the Bullet, Sores or Bruises,

To which every Soldier or Sailor are liable, there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment. The poor wounded and almost dying Sufferer might have his wounds dressed immediately if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all round it, then cover with a piece of linen from his knapsack and compressed with a handkerchief. Taking night and morning six or eight Pills, to cool the system and prevent inflammation.

Every Soldier's knapsack and Seaman's chest should be provided with these valuable Remedies.

CAUTION.—None are genuine unless the words "Holloway, New-York and London," are discernable as a water-mark in every leaf of the book of directions around each pot or box, the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as will lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

***Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in boxes at 25 cents 62 cents and $1.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

☞ Dealers in my well known medicines can have Show Cards, Circulars, &c., sent them, *FREE OF EXPENSE*, by addressing THOMAS HOLLOWAY, 80 Maiden Lane, N. Y.
