DIAMONDS
Are set a bending — they represent real investment. Are set with more confidence. They are set with more respect because he knows he has not only made an investment but has backed it with his own reputation. The best of banks is it is backed by the best of the banking world. Our diamond is set with confidence, with money and with respect. It is set with respect for the diamond itself, for the jeweler who sets it, and for the man who is proud enough to set the diamond.

Fairbanks Scales
For over eighty years, the standard of
accuracy and durability, they have
stood the test and used by the
people.

Every man weights his ideas, nat
urally, why not weigh the product of
his ideas, and so prove the idea
practical?

Beaver Board
Honestly it seems almost unnecessary
for us to advertise it any more, still
you’ll probably forget if we didn’t keep
talking; it’s got found out and for
this reason it’s found in (a good
many places). Why, it sells almost
easily as heavy or soup or any other
necessity.

Paint Up and Clean Up

We’re going to start a Paint Up and
Clean up Campaign. Do you wish to
join us? If so send us your name and
address and we’ll tell you what a
clean town this would be if everybody
would take our advice to paint up and
clean up.

When you think of Paint you almost
unconsciously think of Colonial
Paint (the best ever).

Also if you think of C Open you
naturally say “Alas,” the kind Uncle
Sam used on the Panama Canal. Of
course, we sell it.

We are selling Flue Lining; and
its use is increasing. Just ask your
insurance man if he knows what it is;
he’ll probably tell you emphatically that
most fires are set by defective
flues, but our flues will prevent your
house from getting afire.

Of course we could tell you about
Land Tile, another good thing
that the laborers are using more
and more of, and Pittsburgh
Fence, the real thing in wire fence
and the other thing that people use
every day, but we don’t want to
magnify all the advertising space
even if the editor would let us.

Come and see us, it’s a pleasure to
tell you about our goods and if there
are any drawbacks we’ll tell you about
them, too.
