

THE AMERICAN.

LOCAL DEPARTMENT.

TIME TABLE.

White Water Valley Rail Road.

TOOK EFFECT MAY 5, 1867.

Table with columns for LEAVES, ARRIVES, and station names like 'Cincinnati', 'Valley Junction', 'New Trenton'.

Residence For Sale.

The undersigned offers for sale his residence and the two adjoining lots, situated in the Northern part of Brookville.

Railroad Excursion.

Sapt. Avery informs us that there will be a Railroad Excursion to the city next Saturday afternoon, for the accommodation of those who wish to witness the celebrated scenic performance of The Black Crook at the National, or who may wish to visit any other place of amusement in the city.

Senator Morton.

Has our thanks for four bound volumes of documents from the Department of State.

To Correspondent.

We have received another interesting letter from Harrison, but it arrived too late for this week's paper.

May Hop.

There will be a Picnic or Grand May Hop in Heston's Grove, 14 miles north of Blooming Grove, on Saturday, May 25th.

Grand Excursion for Young and Old.

The Sabbath Schools along the line of the W. V. R. R. intend having an excursion to Gen'l Harrison's grave, through the long tunnel, and taking dinner on ice cream, ice water and speeches on the old place.

Corn Planting.

Some of our farmers are planting their corn, but most of them are busy getting the ground ready for planting. A few who put in their corn two or three weeks ago, will have to replant, the ground having been too cold and the seed having rotted.

May Meeting.

The yearly May Meeting on Big Cedar came off last Sunday. A large number from this vicinity were in attendance. We understand there was an immense crowd at this popular meeting of the Baptists.

On a Strike.

The Coopers of Lawrenceburg quit work Saturday evening, and have not yet resumed, nor will they, it is said, until an advance in wages is given. The number there who quit work is over eighty. The Coopers of Aurora have been on a strike for over a week.

Consolidation.

We learn from the Oxford Citizen that the arrangements for consolidating the Female Institute with the Female College are about completed, and that the schools will hold a union commencement at the end of the present college year. The Institute building will probably be rented for a summer hotel and boarding-house for guests from the city—just the thing long needed in Oxford.

New Subscribers.

- John Hensler, Casto Valley, Missouri.
Sam'l McCleary, Metamora.
Jacob Wenger, "
H. C. Pelsor, "
Matthias Temple, "
Isaac Clemens, Laurel.
D. G. Pike, "
T. Duran House, Connersville.
Arnold & Ward, Brookville.
Gallion & Gann, "
Theodore Riefel, "

Temperance Basket Meeting.

A Grand Temperance Basket Meeting will be held in Stanton's Grove, near Quakerstown, above Fairfield, on Sunday, May 26th. Able speakers will be in attendance.

A Strange Animal.

Mr. James Rucker, who lives on the McCarty farm on the East Fork, about two miles above town, informs us that a strange animal has recently made its appearance upon his premises and carried off ducks and chickens. He saw it at a distance of two rods, but could not overtake it with his dog, on account of its lightning speed. He describes it as of a light grey color, about eighteen inches in height, with very large upright ears, very fierce, sharp-looking eyes, tail two or three inches long, rather slim body similar to a greyhound, and very active. Some persons think it a wild-cat, others call it a lynx, others a prairie-wolf. Wonder if it is the strange animal that not very long ago excited the people about Blooming Grove with its childlike eyes at night? Mr. Rucker intends to find it, if possible.

Left Town.

Dr. J. J. Barrett has removed from Laurel to Henry County.

The Soehner Concert.

It will be remembered by our readers that the concert which Prof. Soehner was to have given at Mt. Carmel sometime last winter was deferred in consequence of unfavorable roads and weather. It will be seen by a notice in another column, that it will be held Thursday evening, May 23rd, in the M. E. Church, Mt. Carmel. We predict a rich musical entertainment. It will be remembered that in the previous advertisement in reference to this concert, it was stated that the wife of Mr. Chaffin, the M. E. Minister at Mt. Carmel, having procured a Piano of Prof. Soehner, he kindly proffered to favor her with a donation concert. We trust there may be a large attendance.

A Recent Trip.

Through portions of Metamora, Laurel, Blooming Grove and Brookville Townships, revealing a promising state of affairs in regard to the fruit and grain crops. Nobody complains of injury to the fruit, unless it be the plums. The wheat is growing finely, and though a less quantity than usual has been sown, yet an abundant yield will most probably make up for the deficiency.

Terpsichorean.

The Grand Army of the Republic will give a Ball at Temperance Hall, Metamora, on Friday evening, May 24th—the proceeds to be appropriated to the relief of the families of wounded and deceased soldiers.

Ignatius Koehler.

Attention is directed to the advertisement of Mr. Ignatius Koehler, who manufactures boots and shoes of all kinds. His assortment of ladies' and children's shoes is full and complete. Mr. K. is a first-class workman, and his prices are quite reasonable.

Wool.

It will be advertised that John C. Burton Esq. is Agent for the Harrison Woolen Mills, and will exchange all kinds of Woolen Goods for Wool.

The Markets.

Flour is selling at \$16 per barrel, Corn at 70 cts. per bushel, Wheat \$3 to \$3.15, Potatoes \$1.50, Butter 25 cts. per lb., Eggs 12 1/2 cts. per dozen.

Pearl Street House in Laurel.

This well known hotel is liberally patronized, as it deserves to be. Its accommodations are all that could be desired, its tables are always well supplied, and under the new management is growing in favor with the traveling public.

Another Mass at College Corner.

Two organs belonging to the Methodist Church at College Corner having been smashed to pieces by some of the non-musical members of that church, on Wednesday night, after prayer-meeting, (says the Citizen), a third organ was made on the church, and this time the offensive organ was slaughtered with an ax. It is a little strange that the three organs were destroyed on the same evening; that religious services were held in the church. College Corner will have to be reconstructed, and a new system of religion introduced in that neighborhood.

A Man Run Over by the Cars.

We learn from the Lawrenceburg Press that a man named Pat Lambert, an employee of the O. & M. R. R., who worked at the shops at Cochran, in attempting to get off a train, at Aurora, on Sunday morning, missed his footing and fell under the cars—the train passing over both his legs and so injuring them that he required amputation, from the effects of which he died Monday morning.

Metamora Items.

William Carr is refitting his boarding house for the accommodation of those who want good board and lodging, and will probably take out next license.

The Metamora House, under the supervision of Sam'l McCleary, is doing a good business.

Thomas Tague has about completed the fitting up of his residence, and it looks like a new building.

J. J. Rubottom is making an addition to his handsome residence. His picture gallery is the second story, in the rear of all who want good pictures taken.

T. J. Brooks is doing a good business as a boot and shoe-maker.

John Hitchell's new Tin Shop has the reputation of turning out a large amount of work for the people of Metamora and the country for miles around.

Alf Blackledge has put up an addition to his store building, which will make his store-room considerably deeper, and when finished he can boast of having one of the handsomest store-rooms in the County.

Seclusion and Basardy.

The Lawrenceburg Register states that Rev. Mr. Schneider, Lutheran Minister at Aurora, was brought to Lawrenceburg and placed in jail, upon the charge of seduction and basardy. If reports are true, he has been playing fantastic tricks with quite a number of the female members of his congregation. He is married, and has a respectable family, who are weighed down with the burden of trouble and disgrace thus heaped upon them. We understand there is considerable excitement in Aurora over the disgraceful affair and it became intensified on Wednesday, when the body of a girl recently deceased, was discovered, and a post mortem examination had. We have not learned the result of the investigation.

Assault and Battery.

One James A. Rodman committed an aggravated assault and battery on Thomas Roberts on Saturday last. Rodman went to trial on Saturday night before Esquire Dayton. Notwithstanding the evidence of the witnesses on both sides showed that Rodman first provoked and then struck Roberts a stunning blow with a slung-shot (as Roberts thinks) while he was on his horse, and knocked him off and continuing to follow up his blows, Rodman was acquitted. If it is justice, no confessor we can't see it. We hope Esquire Dayton will not continue to set such precedents.

Ice Cream Saloon.

Mrs. Rachel Bell has newly fitted up the basement room of Adam Heeg's building, where ice-cream, lemon-ade, &c., are served up at all times during the day and evening; also fruits, candies, &c., for sale. Mr. Bell's enterprise is commendable.

Serenade.

We acknowledge a delightful serenade last night by three young gentlemen of rare musical talent. Call again.

Select School.

Mr. C. J. Peterson of Laurel is now teaching a Select School in the Academy building. He is a live teacher, and the Laurellites will be benefited by liberally patronizing his School.

AGUE, CHILLS, OR INTERMITTENT FEVER cured, or nearly cured, Dr. Wirtz's Ague Pills are a new medicine, and having been tried in over 1200 of the very worst and obstinate cases of Chills and Fevers, and not failed even in one case to effect a speedy cure, the proprietor guarantees them to cure every case, even after all other medicines fail. Those suffering should immediately give them a trial. They are warranted to cure. For sale by druggists, or sent by mail on receipt of the price. Address: Dr. Wirtz, Box 611, Cincinnati, Ohio.

It is acknowledged by Physicians, Druggists, and everybody else who ever used it, that Dr. Strickland's Cough Balsam will cure Coughs, Colds, Asthma, and all diseases of the Throat and Lungs, quicker and better than any other remedy known. We would recommend our readers to try this great remedy, knowing it to be a No. 1.

THE HOWE MACHINE CO'S SEWING MACHINES, 699 BROADWAY, NEW YORK.

FOR FAMILIES AND MANUFACTURERS.

THESE WORLD-RENOVED SEWING MACHINES

Were awarded the highest premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, ELIAS HOWE, Jr., the original inventor of the Sewing Machine.

They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dressmakers, Tailors, Manufacturers, Shirt Collars, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Parasols, &c. They work equally well upon silk, linen, woolen and cotton goods, with silk, cotton or linen thread. They will perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitches invented by Mr. HOWE, and made on this Machine, are the most popular, and the most useful and Sewing Machines are subject to the principle invented by him.

SEND FOR CIRCULAR. J. O. BRYANT, GENERAL AGENT, 98 WASHINGTON STREET, CHICAGO, ILL.

MCCORMICK'S TWO-WHEELED LIGHT MOWER.

With DOUBLE JOINTED CUTTER BAR, LIFTING LEVER, AND PATENT TILTING LEVER FOR SETTING THE CUTTING EDGE AT ANY ANGLE WHILE IN RAPID MOTION.

Warranted to cut all grasses in the worst places and conditions. Cleaner, and faster than any other Mower in the market.

Offered on trial with any other Mower through the season.

This popular machine has attained a position and character, second to no other separate Mower in the world, and now rivals the Self-Raker in popularity.

Our Mower is light, neat, of easy draft, compact, simple and durable. The driving wheels give continuous motion to the Knife on the rough ground. The cutter bar is double jointed to cut on the slope of a hill, while the wheels are on the hollow, or the down slope while the wheels are on the ridge, and folds up when not cutting.

THE PATENT TILTING LEVER. Its position favors the second lever also at the driver's hand, by which the points of the guards can be tilted up or down at any angle instantly, and while in rapid motion, enabling the operator to lower the cutting edge and pick up every spear of grass in a hollow, or to tilt up the edge and pass over a mound or hill—cutting where other mowers dare not venture, and keeping the edge of the knife unbarred from grabbing among stones and dirt.

C. H. MCCORMICK & BROS. J. C. SERING, Agent, Whiteoak, Ind. May 3, 2m.

Wool! Wool! Harrison Steam Woolen Mills.

HAVING more than doubled our capacity for manufacturing, (having put in our mill a large amount of the latest improved machinery,) we are prepared to do as good work as any mill in the country, such as: Hosiery, Carding, Spinning, Weaving, &c., &c.

We have on hand at all times a large stock of our own make of goods, viz: Satinets, Jeans, Cassimeres, TWEEDS, BLANKETS, PLAID AND PLAIN FLANNELS Stocking yarns, &c., &c.

Which we will sell at the lowest market prices for cash, or in exchange for Wool.

We are thankful for past favors, and ask a continuance of the same. Cash paid for Wool, and work done at the shortest notice. Special attention paid to kinds of Custom Work. W. W. DAVISON & SON. BEES! BEEF! BEEF!

THE undersigned having opened a regular Meat Store in Brookville, will furnish their customers with the best quality of Beef, Pork, Mutton, and Country Bacon. Terms invariably Cash. Mer 3d

BROOKVILLE MARBLE WORKS. H. H. SCHRIEBER.

GRAIN WANTED! AT THE W. R. DEPOT! The undersigned is prepared to purchase all Wheat, Corn, Barley, Rye, Oats, and OTHER GRAINS, that may be brought to market. Having just erected one of FAIRBANKS' CELEBRATED SCALES! he is in readiness to accommodate all who may want correct weights and measures. Farmers can do a little better with their grain at the Depot than at any other place of weighing. Try his statement. [ap12-17] THOS. JOHNSTON.

To Consumptives. The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe lung affection, and that dread disease, Consumption, he desires to make known to his fellow-sufferers the means of cure. He will send a copy of the prescription in reply to a card, with the directions for preparing and using the same, which they will find a rare cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and all Threats and Lung Affections. The only object of the advertisement is to benefit the afflicted, and to spread information, which he believes is invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, free, by return mail, will please address Rev. EDWARD A. WILSON, Williamsburg, Kings Co., New York. My 14.

CARRIAGE AND BUGGY MANUFACTORY! S. & G. LOPER, FAIRFIELD, INDIANA.

Is extensively engaged in the manufacture of Carriages, Buggies, Sulkeys, Spring Wagons, and all other kinds of vehicles for the comfort and accommodation of the public.

They have the largest and most complete establishment for the manufacture of those articles, and are prepared to turn out an order in as short time, and in as workmanlike and substantial manner as can be had at any manufactory at Cincinnati, and at as fair and more accommodating terms.

Sales-room at Brookville. We have in connection with our establishment a sales-room at Brookville, in the warehouse known as the rear of Rockefeller's store, and opposite the Valley House Livery Stable, where we will keep on hand at all times, Carriages, Buggies, &c., of the most approved styles on exhibition and for sale. Persons desiring a good article in our line can be accommodated on good terms. In our absence at Brookville, Mr. Allen Tucker will sell for us. ap24-4m

THE PATENT ARION PIANO FORTE MANUFACTORY AND WAREHOUSES 187 and 189 Bowers, (above Delancy), NEW YORK.

MANNER & CO. Having secured letters patent on their valuable improvements in Pianos and added largely to their previously extensive facilities for manufacturing, are now prepared to furnish to the Trade, on retail, their

GRAND SQUARE AND UPRIGHT PATENT ARION PIANO FORTE, in competition with the Steinway, Chickering, or any other first-class piano, believing as they do that the Arion is superior to any other. Read before an Article from the Brooklyn Daily Times.

Mr. Abbott, Organist of the Church of Our Saviour, writes the Arion Piano Forth, Messrs. Manner & Co. Gentlemen:—I have critically examined and several times played upon your great Arion Piano Forth, and it affords me much pleasure to add my testimony in favor of your superior instrument. For elasticity of touch, for the singing quality, so much sought for by artists, and for richness and purity of tone it is unequalled by any piano I have ever used. M. ABBOTT, Organist of the Church of the Saviour of Brooklyn, N. Y.

Prof. John W. Henry Canell, editor of the American Educational Monthly, says: "Listen, however, to one of another class, for example, one of the Arion Pianos, sent me by Manner & Co. How your head as the hand sends forth its richer, clear and unburied; observe the singing, swelling melody, which is its most notable and wonderful representation of vocal expression, and which predominates above even the silvery brilliancy of the upper treble. Then reflect that this is accomplished by a contrivance of your own, and if you have it before you, you will be struck by the beauty of tone had vanished under the letter of its variety, which is not your fault, but of expression, your wonder when your wife is playing that she seems to have no soul. The instrument as well as the performer must have power of expression; a piano, it may be said, as well as a singer, must have a soul."

"We will say that the Arion Piano Forth is a very elegant instrument of the largest class and very highly finished. Usually, it has a deep, rich tone, and the most powerful that we have ever listened to. It has a higher degree than any piano that we have met with, the singing quality of character, that makes us much admire and seek for in a piano. The bass notes remaining of the deep toned notes of a large organ, the Middle Octave, are more distinct and clear than in most other pianos, owing to peculiar arrangements that we shall speak of hereafter, while the upper notes, which are not your fault, but of expression, a piano, it may be said, as well as a singer, must have a soul."

"They stand in line longer than other pianos, in effect which we are again enabled by the shape of our frame, to use short pins so that the piano is strong close to the wrist-plank; thus almost doing away with a leverage strain on the strings, which in some pianos, is at least three-quarters of an inch above the pin, causing the pin to loosen, and often bringing it in contact with the iron plate. The construction of the wrist-plank has also a great advantage over those of other pianos, in being formed of four sections of hard wood, laid horizontally and firmly glued and fastened, the grain of each section crossing the grain of the one next to it in a different line or direction. So that the tendency to warp or swell, or to contract, is prevented in every direction, making it impossible for the pin to loosen itself as it does when the pressure is against the sides of the grain, as it has in all other pianos. This, too, prevents the splitting of the wrist plank."

"The construction of the case and the combination of the iron frame therewith, we also claim as being new and improved. The left lower end of the frame, being extended or cut in the middle, or we believe (to use a technical term) butted against the wrist-plank, at a point and on a line just inside of the line of the tuning-pins, means first, great additional strength is gained, second, the frame being so sunk in the wood, allows the strings to be more firmly secured to the wrist-plank, and third, the great desideratum, so long sought for by the trade, a tall iron frame without a possibility of the tuning-pins coming in contact with it, is secured."

"Our agraffs arranged in a superior manner, are a hollow bar, and with the frame opening on the under side and extending along the line of the tuning-pins, has fitted into it a reversed wooden bar, in the middle of the wire are inserted. This reversed being, being a trifle lower than the wrist-plank, gives an upward as well as a downward support to the strings, and by this admirable arrangement an agraffe is obtained that gives a firm position to the strings that no blow from the hammer can displace. A similar plan on an iron bedstead has before been attempted, but always in connection with the complicated under-dampers, which invariably become displaced and out of order."

"In the Arion Piano we use the French dampers, universally acknowledged as the best, being from their weight and position, they are truly King, and can move neither to the right nor to the left, but only in the direction required. This being complete, not only in itself, but in all the construction with other parts of the action."

"With other agraffs now in use, there are several difficulties that can not be remedied. First, the wire strings run through an eye in the top of a screw, pin, and nut. In the eye exactly; or it will cause an unpleasant jarring to the chords. None of these disadvantages can happen to the Arion agraffe."

"We have also given Mr. Manner's claims for the superiority of the Arion Piano Forth and his objections to other pianos, in nearly his own words, and to be very candidly brought out before the public, and explain all the different departments of it to us. We had a fair chance of judging of its merits, and think the claims of the Arion, as they are, are fully and exclusively supported by the facts before the public.—[Brooklyn Daily Times.]

All our Pianos will be finished with the new self-cleaning prop stick for holding up the top of the Piano. The patent for which, as also the patent for the Arion, is covered by an exclusively-issued and illustrated Patent List. MANNER & CO., 187 and 189 Bowers, NEW YORK. apr 19-2m

Laurel to the Rescue! ATTENTION EVERYBODY!

I have now on hand and am offering for sale a large assortment of Clocks, Watches and Jewelry, Finger Rings, Silver Tea and Table Spoons, and SPECTACLES TO SUIT ALL SIGHTS.

Persons in need of any of the above goods will do well to call and examine my stock before purchasing elsewhere. I can furnish farmers with a good, durable weight CLOCK, for from \$5 to \$8.

Repairing of all kinds Promptly Attended To. N. B. I will pay cash or work for Gold and Silver. LAWRENCE B. REENO. apr 17-17

D. W. J. O. W. KEELY, BROOKVILLE, INDIANA

Valuable Property For Sale. A RARE CHANCE TO INVEST!

This subscriber being desirous of changing his business and location, will sell at public sale, in the city of Brookville, the following valuable property:—

Stove and Tin Store Building, situated at the best place in Brookville, twenty-one feet front and forty-two feet deep, thirty-two feet high, and built of the best brick. It is adapted for any business, and is well located for a safe chance to make a paying investment for rent or use. Also,

The Fudge Hotel, an entire new building, three stories high, containing thirty-two rooms, all well and neatly furnished. It is the best Hotel in the Railroad Depot, situated in a favorable location, and has the best run of patronage of any Hotel in the country. Persons desiring to enter into the business will be unable to find a better opportunity than this. He will also sell

Four Vacant Village Lots lying on the main street in the upper end of town. Each lot contains one and a quarter acres of ground, and all well set with trees and shrubbery. These lots are to be sold or leased to any person who is desirous of making a safe investment. The terms of sale will be made easy, and the price of each piece of property, which will be sold separately or together, to suit purchasers, will be just and extremely low. Address or enquire of JOHN H. YOUNG, of HENRY CO., Ind. Brookville, Ind. ap 17-17
