A Canning Factory.

Messrs G. W. Stinson and Small, representing the Hastings Industrial Company, of Chicago are here soliciting stock for a Canning factory and are meeting with a good deal of success. There is no doubt of it being a good business proposition as it furnishes a market for all kinds of vegetables and enables any farmer to make from two to three dollars from an acre of ground where he now makes one. And it also pays a good dividend on the investment besides. They will be around to see you and it will pay you to boost it along. It is money in your pocket to do so. Help it along. The Duff, Birdseye, and Huntington Cannery's all paid excellent dividends last year. And the Jasper one will do the same.

Save Money By Buying Chamberlain's Cough Remedy.

You will pay just as much for a bottle of Chamberlain's Cough Remedy as for any of the other cough medicines, but you save money in buying it. The saving is in what you get, not what you pay. The sure-to-cure quality is in every bottle of this remedy, and you get good results when you take it. Neglected colds often develop serious conditions and when you buy a cough medicine you want to be sure you are getting one that will cure your cold. Chamberlain's Cough Remedy always cures. Price 25 and 50 cents a bottle. For sale by Jos. A. Mehlinger.

Working Buttonholes.

When making a buttonhole in a heavy cloth or one that pulls and frays, it saves much trouble to work the hole by basting thread, then stitching close to this on the machine, putting in two rows just the length of the buttonhole to be. Cut with a sharp penknife between these lines and work closely in the ordinary way over the machine stitching. This buttonhole will keep its shape and remain intact as long as the cloth holds together.

Salted Almonds.

Salted almonds prepared at home always seem better than those purchased, perhaps because they are usually fresher. One only needs to blanch them and to each half pint add one tablespoonful of melted butter and one teaspoonful of fine salt. Stir well and then spread the nuts in a shallow cake tin, baking in a rather cool oven until the almonds become brown. This will take about twenty minutes.

Household Hints.

Remove vaseline stains by washing in warm water and soap; rinse and apply chlorinated soda to the stain.

To keep brass or copper bright for some time after cleaning rub it over with beaten white of egg.

To prevent cane or bamboo from yellowing when washed use warm salt water; rub with soft cloths until dry.

Stains on Mattresses.

Stains on mattresses may be removed by making a paste of fuller's earth and water to which ammonia in the proportion of one teaspoonful to half a pint has been added.

Lay this over the stains, rub slightly in with the fingers and leave till it is dry. A second application may be necessary if the stain has not been removed.
