

### THE WONDERBERRY OR SUNBERRY

Has Proved a Great Success—Thousands Say It's the Best Thing They Ever Grew.

The Wonderberry or Sunberry, the marvelous garden fruit originated by Luther Burbank, and introduced by John Lewis Childs, the well-known seedsman of Floral Park, N. Y., has proved a great success all over the country. Thousands of people say it is the best thing they ever grew.

Mr. John Burroughs, the well-known author, Naturalist and bosom-friend of Theodore Roosevelt, says it is the most delicious pie berry he ever tasted, and a marvelous cropper.

A Director of the New York Agricultural Experiment Station says it fruits abundantly even in pure sand. In the short season of North-western Canada it is a godsend, and fruits long after frost has killed most garden truck.

D. S. Hall, Wichita, Kan., says thirty people grew it there last season with perfect satisfaction.

K. S. Enoch, Hammond, La., says it yields \$250 worth of fruit per acre with him. Mrs. J. H. Powers, 4712 Kenwood avenue, Chicago, raised enough berries on a space 4x10 feet to supply herself and friends.

J. P. Swallow, Kenton, Ohio, says it's equal for all purposes does not exist. Rev. H. B. Sheldon, Pacific Grove, Cal., says he likes the berries served in any and every way.

W. T. Davis, Enon, Va., says it is true to description in every way, and fruits in three months from seed.

Judge Morrow, of U. S. Circuit Court, says the Wonderberry is simply delicious raw or cooked.

Mr. Childs exhibited one plant five months old bearing 10,375 berries which measured about eight quarts.

Mrs. Hattie Vincent, Hayden, New Mexico, says it stands the long, hard droughts of that climate and fruits abundantly all summer.

It is certainly the most satisfactory garden fruit and the greatest Novelty ever introduced.

#### On Ghosts.

James H. Hyslop, the brilliant psychologist, narrated, during a discussion of the Palatin case in New York, an original old lady's opinion of ghosts.

"Ghosts!" exclaimed the old lady, scornfully. "I don't take any stock in them. If you die and go to the good place it isn't likely that you'd want to waddle back to this poor vale of trouble, while if you go to the bad place you'll be kept there."

#### Loved to Death.

"Did you ever know a girl to die for love?"

"Yes." "Did she just fade away and die because some man deserted her?"

"No, she just took in washing and worked herself to death because the man she loved married her."

### DOG'S LUNGE SAVES LIFE

Blue Spark Attracts Collie, Which Leaps to Master's Aid and Prevents Man from Being Electrocuted.

Bloomington.—To the sagacity or excitement of the Scotch collie "Fred," Horace E. Railsback, a commission merchant of this city, probably owes his life. While searching in the basement of his commission house on South College avenue for a thermometer, by which he tells how to regulate the temperature of his warehouse, Railsback took hold of an electric wire. Holding to the wire, the merchant started toward the place where the thermometer was hanging. His hand came in contact with an uninsulated space of the wire and he was unable to remove it. The wire burned down into his flesh until he started to lose consciousness and blue sparks shot from the tips of his fingers. Meanwhile he had been tugging at the wire in an attempt to disengage his hand.

All at once a heavy body struck him and knocked him away from the wire. He fell to the floor. He finally gathered strength to retrace his steps to the office upstairs. It developed that his collie dog "Fred" had seen his master's predicament, and, knowing "dogwise" that something was wrong, had aided him in the above manner.

The dog sprang at the arm of the man, which was in contact with the wire. The animal missed its aim, but its body struck the commission merchant in the breast and knocked him loose from the death-dealing wire he was gripping. The hand which came in contact with the wire was badly burned and Railsback suffers intensely from the pain in his back and shoulders.

#### A New Guinness Clew.

Laporte.—In proof of the theory that Mrs. Guinness escaped from her charnel house the night of April 28, 1908, Mayor Darrow gave out the statement that the night of the fire the man in charge of the pumping station at Walkerton was accosted by a stranger. The stranger asked when the next freight train would pass there. The reply was: "Not for several hours, but say," said the pumping station chief, "you are not a man; you are a woman." At this statement the man-woman ran across the tracks and down a deep bank into a clump of willows. "I chased after her and finally found her hiding in the willows. I took her up to the marshal and there she confessed she was a woman. We fitted her out with woman's clothes and she disappeared."

#### Flagman Has Charmed Life.

Logansport.—Frank Richardson, a flagman, fell off of a Panhandle passenger train when it was going at a rate of 40 miles an hour and he was practically uninjured. The accident happened just after the train had passed through Horatio. He was leaning from the rear steps of the last coach of the train trying to see if the right signals were being carried, when he lost his balance. He was unconscious by the fall, but revived quickly and was able to walk back to Horatio. The conductor on the train did not know that Richardson was missing until the operator at Dunkirk handed him a message from the former, stating that he was uninjured. Search of the train revealed that the flagman was gone.

#### Farmer Raises Wild Geese.

Shelbyville.—George Muck, a farmer living near the Johnson county line, has inclosed several acres of ground on which he is raising wild geese. He has built several sheds and at the entrance of each has arranged a trap door with a long rope attached. In this manner he can operate each door while some distance away. The birds that are already in the corral attract other wild geese and when the geese enter the shed, Muck drops the door. He then enters the shed, catches the wild geese, clips their wings and leaves them to become domesticated. Recently Muck captured six wild fowls in this manner.

#### Detective Under Arrest.

Marion.—John C. Hisey, who wears a star showing him to be a member of what is known as the Indiana Detective association, is under bond to appear in the city court on February 10 to answer to a charge of "bootlegging." It is said that his arrest may lead to the filing of charges against a downtown druggist. Hisey is alleged to have purchased a bottle of whisky at a drug store and disposed of the liquor to Daniel Wolfe.

#### Plan Hospital for Jail.

Columbus.—A number of charitable residents of this place, headed by Prof. Will Harding, have started a movement to build an addition to the county jail here to be used for hospital purposes. Neither this city nor county has a public hospital and all sick or injured persons who are not able to pay their way at a hospital must be taken to jail for treatment, and there are no hospital facilities at the institution.

#### One Killed in Car Crash.

Muncie.—Charles B. Jackson, a city street car conductor, was killed instantly as the result of a side-on collision between a city car and a Port Wayne-Indianapolis Interurban. The city car was going west, while the interurban was coming into Muncie. Jackson was standing near the middle of the car. He was hurled through a window. After he struck the ground the car rolled over on him. A number of school teachers and children were in the car and their escape is considered miraculous.

### THE KENTUCKIAN WAS PLEASED

HE SECURED A GOOD HALF-SECTION IN CENTRAL CANADA.

It is not only from Kentucky, but from thirty-five to forty different States that there comes the expression of satisfaction from those who have taken up lands in Central Canada as a free homestead or have purchased lands.

Mr. E. K. Bell, of Frankfort, Kentucky, writes to a Canadian Government Official, and says: "I have just returned from Alberta, overjoyed with my trip. Your literature was very flattering, but not half what I found it. I bought a half section between Calgary and Edmonton, one mile from railroad, near a good town. This is the best country I ever saw or ever expect to see. I will go in the spring and get to work on my place. I think it is the coming Country of the World." Some of the papers describe the settling of the Canadian West as "becoming a fever with a great many people. The lure of its golden promises is creeping into their hearts and many are they who are answering the call of that unsettled territory." This paper editorially cautions its readers to exercise care and thought before moving to a distant country. This would be a wise precaution, and is exactly what the Canadian officials ask.

The success of the settler who has made Canada his home for years is the best evidence that can be offered. And of the large number of Americans who have made their homes in Canada, very few have returned. All are satisfied.

#### Money Needed for Good Work.

Twelve years ago, Massachusetts made the first appropriation for a state sanitarium. Since that time, over \$10,000,000 has been appropriated by state legislatures for the prevention of tuberculosis, and about an equal sum by municipal and county authorities. The federal government has over \$1,000,000 invested in tuberculosis hospitals, and spends annually about \$500,000 in their maintenance. Every year the percentage of appropriations made from public funds for tuberculosis work has increased.

While private societies have led the way in the tuberculosis campaign, every effort has been made to have states, cities and counties do their share. A bulletin of the national association states that the final success of the anti-tuberculosis crusade depends on every city and state providing funds to treat and prevent consumption.

#### Asking Too Much.

The mother of little six-year-old Mary had told her a number of times not to hitch her sled to passing sleighs, feeling that it was a dangerous practice. It was such a fascinating sport, however, that Mary could not resist it and one day her mother saw her go skimming past the house behind a farmer's "bobs."

When she came in from play she was taken to task, her mother saying severely: "Mary, haven't I told you that you must not hitch onto bobs? Besides, you know, it is against the law."

Mary tossed her head. "Oh," she said, "don't talk to me about the law. It's all I can do to keep the ten commandments!"—Woman's Home Companion.

#### What the Doctor Did.

Gustave Ulyatt has a little daughter who hasn't been well recently. The other day a physician was called to the Ulyatt home to see her. He examined the child with the aid of a stethoscope. When her father came home that evening he asked what the doctor had said.

"Nothin'," replied the little girl.

"What did he do?" asked Mr. Ulyatt.

"He just telephoned me all over," was the child's reply.—Denver Post.

#### GET POWER.

The Supply Comes From Food.

If we get power from food, why not strive to get all the power we can. That is only possible by use of skillfully selected food that exactly fits the requirements of the body.

Poor fuel makes a poor fire, and a poor fire is not a good steam producer.

"From not knowing how to select the right food to fit my needs, I suffered grievously for a long time from stomach troubles," writes a lady from a little town in Missouri.

"It seemed as if I would never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt gave me heart-burn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton and in time was compelled to keep to my bed."

"A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I have kept up its use ever since. I was surprised at the ease with which I digested it. It proved to be just what I needed."

"All my unpleasant symptoms, the heart-burn, the inflated feeling which gave me such pain disappeared. My weight gradually increased from 98 to 116 lbs. my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. Grape-Nuts did it."

A ten days' trial will show anyone some facts about food.

Look in pkgs. for the little book, "The Road to Well-Being." "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

#### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed it is swollen and the inflamed tissue prevents the air from passing through it. Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; and some cases of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by "Elliott's Catarrh Cure," sent for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by DRUGGISTS, 75c.

#### Teamster's Punishment Earned.

Apparently it pays not to be cruel to horses out in Chicago. A teamster who admitted abandoning his horses for six hours on a recent stormy day was fined \$50 by a magistrate. The humane society prosecuted the case vigorously and promised to report the matter to the driver's employers. Presumably he will lose his job, as he was unable to pay the fine and will have to serve a jail term.

#### Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood, and there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of KNOWN COMPOSITION. # Attention Sick Women

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."—Mrs. Lena Carnocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyer, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
