### DIVING FOR SPANISH WEALTH

Treasure Hunters Seeking to Recover Millions From Wreck of Vessel of the Armada.

The treasure hunter usually returns home rich in experience, but poor in this world's goods. Perhaps better luck awaits the divers now busily searching for the wreck of the Florencia, the great ship of the Spanish Armada that is known to have sunk in Tobermory bay after the disastrous flight around the coast of England. The Florencia is well worth finding if it be true, as reports say, that she had something like \$40,000,000 on board, not to speak of a resplendent gold crown intended for the head of the new king after the redoubtable Elizabeth had been disposed of. So far the divers have had a reasonable success. They found a bed of shells nearly five feet thick, the remains of marine animals that are supposed to have gathered to the feast of dead Spaniards. As soon as this shell bed had been pierced the workers were rewarded by what they hope is a foretaste of the triumphs to come. They found many Spanish coins well preserved, a medal of silver bearing an image of Christ, a sword, some pottery and three stone cannon balls. There were curious people in ancient times who dived for a sight of the great ship before the ocean bed swallowed her. One of them left a story to the effect that he had seen the gold crown among the wrecked timbers, but inasmuch as he left it where it was probably it was the eye of faith rather than of the flesh that he used.

### The President's Military Map.

There is in the offices of the White House a map 20 feet long and 8 feet high, which indicates, at a glance, the military information needed by the commander-in-chief of the army and navy.

This map represents the entire world. Different colors show at once the possessions of 12 great powers. Submarine cables, railways, steamship lines, mail routes are all distinctly traceable.

The naval and military forces of the various nations are indicated by miniature flags. Those representing the United States bear the names of commanders, and are readily shifted as the forces move from place to place.

The cavalry, artillery and infantry are represented by flags of their respective colors—yellow, red and white—giving the number of the regiment and the letter of the troop, battery and company. Even the smallest hospital corps is marked by a tiny red cross. Ships of every class are shown by red, white and blue flags bearing the name of each and the number of her guns.—Harper's Weekly.

### Japanese Paper Plants.

It is said that the introduction of European methods of manufacture threaten to destroy the distinctive qualities of Japanese paper. It is a wood or bark paper, made from several plants having no English names, which are cultivated for the purpose. In Japan its varieties are numerous and its uses innumerable. It serves for window light partitions between rooms. Brilliantly colored lanterns are made of it and umbrellas covered with it. It is used for printing bank notes. Oiled, it makes waterproof garments and when covered with paste is made into tapestries. When varnished it can be made to imitate Cordova leather. Handkerchiefs, cords and pressed articles resembling paper mache are among the things formed from this paper.—Harper's Weekly.

### Not at Home.

It was a burning day, says Answers, London. The thermometer stood at about 269 in the shade, whilst no one had the strength to examine what it was doing in the sun.

And yet one cyclist came flying along the Warwickshire lanes as though no such thing as heat existed. He scorched over the dusty roads, even as the sun scorched over his own dusty self.

"Hi!" he shouted, as he whizzed by a yokel recumbent by the roadside. "Is this the way to Shakespeare's house?" "Ay, it be, sir," replied the yokel, sitting up to stare. Then he rose suddenly and put his hand to his mouth. "Hi, mister—hi!" he shouted after the disappearing figure. "You needn't hurry yourself; 'e's dead!"

### Just a Bit in Doubt.

"I don't altogether like the hens I'm keeping this year," the suburbanite said; "do you know anything about chicken raising?"

"Not from my own experience," the city visitor answered, "but I have a cousin in Wyandot county who has made a great success in raising tufted Cumberlands—or else he lives in Cumberland county and raises tufted Wyandots. I always get that mixed up, somehow."

### No Heavy Demand.

Husband—Why did you give my wife gas for pulling her teeth?  
Dentist—Because, my dear sir, it was a case which demanded light treatment.

### Experienced Advice.

"I guess I can cook up a story to explain my doings to my wife."  
"If you do, it will result in a family stew."

## GOSHEN TEACHER IS APPOINTED

Governor Marshall Names C. H. Baldwin

### AS STATE ENTOMOLOGIST

Will Succeed B. W. Douglass, Whose Commission Expired Several Weeks Ago—Change Is to Become Effective November 1.

Indianapolis.—C. H. Baldwin, a teacher in the Goshen high school, has been appointed by Governor Marshall as state entomologist to succeed B. W. Douglass, whose commission expired several weeks ago. Mr. Baldwin's appointment is to be effective November 1.

In appointing Mr. Baldwin the governor adhered to a determination expressed some time ago to appoint a college man to the place. Mr. Baldwin is a graduate of Bucknell university, of Lewisburg, Pa., and much of the time since his graduation has been spent in teaching science in high schools. He is said to have observed closely the operations of the department under Mr. Douglass.

The matter of changes to be made in the operation of the department under Mr. Baldwin will be taken up later. Some time ago the governor expressed the belief that the state department and Purdue university should be brought into closer touch, with a view of eliminating, as much as possible, any duplication of work. The governor believes that much of the field work and the laboratory work in the nature of experiments should be done by the university authorities and that the office at the state house should give its attention chiefly to the inspection of nursery stock to guard against insects, and should join the university authorities in talks to farmers and orchard growers concerning the propagation and care of orchards.

The appointment of Mr. Baldwin is the first change made in the head of the department since it was organized.

Mr. Douglass expects to see the governor to arrange for a later date for turning over the office, in order that he may complete the annual report, which has just been begun. The governor said a reasonable length of time would be given Mr. Douglass for this work. Mr. Baldwin, on receiving notice of his appointment, began to gain an understanding of orchard conditions and to call on newspaper publishers with a view to opening a campaign of education along entomological lines through the newspapers, a plan followed with considerable success by C. C. Deam, secretary of the state board of forestry.

### Denies Veterinary License.

Approximately one-fourth of the persons applying to the state board of veterinary examiners for license under the law which enables veterinarians to obtain license without examination in the event they have practiced in the state for eight continuous years, have been denied licenses by the board, which adjourned its mid-summer session. In many of the cases, it was said, board members knew false affidavits had been made concerning the character of the men applying and concerning their period of practice. There were approximately one hundred applicants under this law. Eighty-five licenses were granted graduates of veterinary colleges under the law which enables them to obtain license without examination.

The board reorganized for the year by electing officers as follows: President, W. F. Myers, Ft. Wayne; vice-president, C. I. Fleming, Terre Haute; secretary, O. L. Boor, Muncie; treasurer, J. J. Herron, Tipton.

### Finds Jobs for 1,317.

During the quarter ending June 30 Thomas W. Broiley, state statistician, in charge of the state central free employment bureau at the state house, succeeded in increasing the percentage of applicants who received employment from approximately 50 per cent. to 69.3 per cent. During the quarter work was found for 1,317 persons out of 1,899 who applied. Of the total to receive employment, 955 were men, 254 were boys and 108 women and girls. One thousand three hundred and forty-five men applied for work, as did 335 boys and 219 women and girls. During the quarter 1,593 jobs were placed at the disposal of the bureau by employers.

There were eighty-three applications by women and girls for places to do housework, but only twenty-four found places suitable to them, although one hundred housewives sought help through the bureau.

### New State Corporations.

Articles of incorporation have been filed in the office of the secretary of state for the following:

Bornmann's Real Estate Exchange, Gary; dealers; capital stock, \$1,000; directors, O. C. Bornmann, J. P. Robb and J. A. O'Donnell.

General Investment company, Indianapolis; bond dealers; capital stock, \$20,000; directors, Jesse A. Ivan and Earl B. Hill.

People's Hardware company, Gary; dealers; capital stock, \$20,000; Carl A. Huetner, president.

Laud Commercial Club Plan.  
Indiana retail merchants favor an amalgamation of the several commercial organizations in Indianapolis. They so indicated when they enthusiastically applauded a speech of Charles A. Bookwalter, advocating the establishment of a central chamber of commerce, during the course of the entertainment for visiting merchants at Indianapolis.

Almost six hundred business men from outside the city were entertained by several hundred representatives of the jobbing houses, manufacturing concerns and banks making up the membership of the Indianapolis Trade association. Mr. Bookwalter spoke briefly and in his remarks commended the movement looking to the formation of a central commercial organization.

"It will be for the best interests of all the business men in Indiana," he declared. "For the things that affect the business men in the capital city also affect those in the other portions of the state. The time has come for quick, positive action on this question."

"No one would advocate the arming of an army with shotguns, and to send that army out to fight another army carrying rifles. Yet that is what Indianapolis is trying to do. We are fighting for the commercial supremacy of Indiana by firing scattering shot, while other enterprising cities are using the commercial rifle."

### Orders Beech Grove Line Assessed.

Members of the state board of tax commissioners, in closing up the business of the second sitting, discovered the Beech Grove Traction company, which operates an interurban line between Indianapolis and Beech Grove, had not been assessed by it. The county authorities were communicated with, and it was found that no assessment had been made by those officials. The company's line was being constructed the last tax year, ending February 27, and the board regards it as taxable. The property will be placed on the assessment list by the auditor of state.

Action was taken in a number of cases in which appeals had been made. The appeals for reductions by the Adams Express company and that by the Wells-Fargo company were both denied. An adjustment of the tax on the rolling stock of the Chicago, Terre Haute & Southeastern lines was made by reducing it \$1,500 a mile. A number of readjustments of a minor nature were made in assessments of telephone properties. The assessment of the Lake Shore & Michigan Southern railroad station at Laporte was increased \$15,900.

An appeal by George E. Clarke of Evansville, by which he sought to have the board increase the assessment against the Louisville & Nashville and the Evansville & Terre Haute, was held up.

### Board Will Give Treatment for Rabies.

The state board of health will treat all persons appealing to it for aid under the new law providing for treatment for indigent persons afflicted with rabies. In the pathological laboratory maintained by the board, on the third floor of the statehouse, according to a decision just reached. Arrangements have been made with an eastern concern for the delivery of serum used in treating such cases. Assistant Secretary King of the board said the patients could be treated there as well as in any of the sanitariums of the city, and that the board would thus have the added advantage of having all the data collected in the study of cases. Later the state board expects to arrange with local physicians to give the treatment.

Doctor King said no person need fear living with a person taking treatment for rabies. "A child can, without endangering its playmates, continue in school or continue its daily life at home while the treatment is being given," he said.

A meeting of the state board has been called for this month, when a reorganization will be effected, following the recent resignation of Dr. W. N. Wishard of this city, president, and the appointment of two new members.

### Grand Circuit Races End.

The Grand Circuit races came to a close at Indianapolis, the numerous scratches for the fourth day causing the management to declare the meeting ended. The absence of pool selling is given by many as the reason for the lack of starters. The summaries:

2:11 class pacing, purse, \$1,000; Annie Laurie, won; Trunking, second; Electro Hal, third. Best time, 2:06 1/2.  
2:12 class trotting, stake, \$2,500; Aric Leyburn, won; Electric Todd, second; Johnny G, third. Best time, 2:07 1/4.  
2:24 class pacing, purse, \$1,000; Kirby Star, won; Fleita Americus, second; Bradon Direct, third. Best time, 2:09 1/4.  
2:08 class trotting, purse, \$1,000; Don Labor, won; Al Stanley, second; Willy, third. Best time, 2:05 1/4.

### Barnard Talks to Women.

That one of the issues before the next session of the Indiana legislature will be that of official inspection for the smaller slaughter houses was the statement made by H. E. Barnard, state food and drug commissioner of Indianapolis at the session of the Women's congress at Winona Lake. Mr. Barnard's subject was "The Relation of the Consumer to the Pure Food Movement." He said that much of the hope of the public officials interested in pure food is placed in women's clubs.

## CONVENTION PLANS OF THE W. C. T. U.

To Be Held at Marion October Thirteenth to Seventeenth.

### TRUSTEES SELECT SPEAKERS

Board Sanctions the Engagement of Three Temperance Workers of National Fame to Speak at the Meeting.

Indianapolis.—Plans for the annual convention of the Indiana W. C. T. U. at Marion, October 13 to 17, were made by the board of trustees of the state organization, which met in quarterly session at the Bertha Ballard, 411 North Delaware street.

The board sanctioned the engagement of three temperance workers of national fame as speakers for the convention. They are Mrs. Edith Smith Davis of Milwaukee, Wis., world and national superintendent of scientific temperance instruction; Charles Scapion of Pittsburg, Pa., secretary of the Presbyterian Temperance association, and Mrs. Edith Stratton, Tennessee field worker for the W. C. T. U.

Mrs. Davis will speak Saturday afternoon and evening, October 14. A mass meeting will be held at the Indiana theater Sunday, when Mr. Scapion will make an address. The board's session was the final one before the convention.

Mrs. Etta Ayres of Upland was named superintendent of Sunday school work during the illness of Miss Madala Bogue of Mill Grove. Mrs. Ella Bowers of Darlington was appointed superintendent of scientific temperance instruction, to fill the vacancy caused by the death of Mrs. Edith Nunzun of Muncie.

Mrs. Martha Ridenour, president of the Allen County W. C. T. U., and a member of the board of trustees, was present. It was reported that Mrs. Ridenour would have to answer to the board because the Allen county workers allowed Senator Stephen Fleming, a Fort Wayne brewer, to address them July the Fourth. Senator Fleming spoke to the women on the new Proctor liquor law. Mrs. Upland, state president, denied that Mrs. Ridenour was censured, and asserted that no movement of that kind ever was inaugurated. She said the state board had no jurisdiction over a local union, excepting when national constitutional statutes of the organization were violated.

### Announce Faculty Changes.

South Bend.—As the result of the session of the Provincial Chapter of the Order of the Holy Cross, several important changes were announced at Notre Dame university. Rev. Thomas A. Crowley, vice-president of Notre Dame, is transferred to St. Joseph college, Cincinnati, where he will take the chair of English. He will be succeeded by Rev. Matthew Walsh, for the last three years professor of political economy. Rev. Bolger and Rev. Cornelius Hagerty are transferred from Holy Cross college at Washington to Notre Dame.

### Convict Asks Decent Burial.

Michigan City.—The first convict who will ever be admitted to probate in the superior court here was filed by W. H. Daly, chief clerk at the state prison. It was executed at the prison June 5 last by Henry Williams, state-prison at Michigan City, and reads as follows: "In case of my death while an inmate of this institution you are hereby directed to use out of any money on deposit to my credit the sum of \$100 or whatever sum may be necessary for my burial. It is my desire that you purchase a lot in the Michigan City cemetery and there decently bury my body."

### Tries to Save Boy; Killed.

Winona Lake.—In an automobile accident Rev. Samuel W. Elliott, a Presbyterian minister of Lafayette, was killed. The accident occurred on the Pierceton road, near here. Dr. Elliott was sixty-five years old and a gate keeper of Winona. A boy outside the grounds got in front of the automobile, and the driver started into the fence to miss the lad, when the aged minister stepped out to save the boy and was struck. His skull was fractured.

### Bishop Removes Priest.

South Bend.—Troubles involving Rev. John Von Froelich of St. Stephen's Catholic church may be near settlement. Word was received in South Bend reporting the accused priest's removal and the appointment of Rev. Louis Kovacs of New York city in his place. Rev. Father Froelich, it is reported, will take charge of Father Kovacs' church in New York.

### Favor Rural Library Routes.

Richmond.—Prominent librarians of the country, assembled at Earlham college in a session, are discussing the rural library extension, a movement which is now being considered by leading educators. The purpose of the discussion is to arouse an interest among librarians in order to get an extension of the library advantages among the farmers, so that persons in the rural districts will be favored with the same educational benefits as are given persons in the cities.

## STATE HAPPENINGS RECORDED IN BRIEF

NEWS ITEMS FROM ALL OVER INDIANA.

### DISMISSED FROM HIS OFFICE

Terre Haute Postal Official Loses Situation as Consequence of Charges Made Against His Superior.

Terre Haute, July 18.—As a result of charges against his superior in the Terre Haute postoffice, William J. Shepherd, for the last seven years chief of the local money order division was dismissed from the postoffice service. The dismissal came in a letter to Postmaster Parker from the second assistant postmaster general and was at once handed to Shepherd. Shepherd had charged that Parker had taken money from the stamp drawer, placing an "L. O. U." there and had permitted employees of the office to build bee hives in the basement of the building while working on government time, and with using his office to further his political ends. The postmaster said he had been exonerated on the charges.

### Center of Population.

Indianapolis, July 18.—The census bureau announced that the 1910 center of population is located at latitude 39 degrees, 10 minutes and 12 seconds north and longitude 86 degrees 23 minutes and 24 seconds west, approximately four and one-fourth miles south of Unionville, Monroe county, Indiana. Its location at the census of ten years ago was in Bartholomew county, Indiana, six miles northeast of Columbus. Its northern movement during the decade, therefore, was only seven-tenths of a mile, while its western movement was approximately 31 miles, more than twice that of the previous decade, 1890 to 1900, when its western march was 14 miles. The bureau attributes this acceleration of the western movement principally to the growth of the Pacific and Southwestern states.

### Claims Interest in Big Estate.

Washington, July 18.—Mrs. Laura E. Poucher, 3325 Graceland avenue, Indianapolis, according to her attorney, was the common law wife of Edward E. Meredith, who died last week, and as such wife she claims a widow's interest in the estate of \$100,000 left by her common law husband, Eph Imman, an Indianapolis attorney, is here in the interest of Mrs. Poucher and says he will file suit in behalf of his client unless William R. Meredith, brother of the late Edward E. Meredith consents to a division of the dead man's estate. Mr. Imman's statement created great interest here because the Merediths are very wealthy. E. E. Meredith was former city judge and the Republican candidate for mayor in 1904.

### Only 17; Weds Third Time.

Shelbyville, July 18.—Though only 17 years old, Mrs. Mary Luther, the bride of Gary Smith, here, has been one of the principals three times in a wedding ceremony. She was divorced only last week from Andrew Luther, to whom she had been twice wedded. The first time she and Mr. Luther plighted their troth at Greensburg through the aid of the girl's mother, Mrs. Charles Hoover, who assisted them in obtaining the marriage license. The girl was then only 14.

### Batter Jail Doors; Flee.

Huntington, July 18.—Taking advantage of the absence of Sheriff Patrick McCarty, who is at Manitou lake on a fishing trip, and of Deputy Sheriff Floyd Helms, who had gone to his home for a short visit prior to going to the jail, James Moran and "Klondike" Folk, the only prisoners in the Huntington county jail, escaped. They uncrowed a section of the iron stairway and used it as a battering ram to beat open the doors.

### New Trust Company for Gary.

Gary, July 18.—Announcement has been made that Gary, Hammond and Indianapolis capitalists will organize a new trust company in Gary with a possible capital of \$150,000.00. Merger with one or more other local banks is also a possibility. The object of the new banking institution will be to attract eastern insurance money into Gary first mortgages.

### Popular School Teacher to Wed.

Goshen, July 18.—The engagement of Miss Lillian Michael, superintendent of schools, and James S. Drake, of Goshen, judge of the thirty-fourth judicial district, has been announced. Miss Michael has been superintendent of the Goshen schools for five years, and for 11 years was principal of the high school.

### Governor Osborn to Speak.

Lagrange, July 18.—Governor Chase S. Osborn of Michigan, who was born in Huntington county, Indiana, and was graduated from Purdue university, has accepted an invitation to come back to his native state and speak on Corn School day at Lagrange, October 6.

### Grain Elevator Burns.

Plymouth, July 18.—Fire destroyed the large grain elevator of Tribbey & Mullenhour. The loss on the building and contents is \$15,000.

## 50,000 NEEDED TO HARVEST WESTERN CANADA'S CROP

Will Take 160,000 Altogether to Take Care of Yield of Prairie Provinces.

One hundred and sixty-two thousand farm hands will be required this year to harvest the grain crops of Manitoba, Saskatchewan and Alberta. Of this number the local help will provide about 112,000, which will leave about 50,000 extra farm hands. There is, therefore, a great demand for this class of laborers in all parts of Western Canada. In order to meet the requirements it has been arranged to grant very low railway rates from all boundary points reached by Canadian railways. In order to secure these rates it will be necessary for you to call on one of the following authorized agents of the Canadian government: M. V. McInnes, 176 Jefferson Avenue, Detroit, Michigan; C. A. Laurie, Marquette, Michigan; J. S. Crawford, Syracuse, N. Y.; Thos. Hetherington, Room 202, 73 Tremont Street, Boston, Mass.; H. M. Williams, 413 Gardner Bldg., Toledo, Ohio; Geo. Aird, 214 Traction-Terminal Bldg., Indianapolis, Indiana; C. J. Broughton, Room 412 Merchants' Loan & Trust Bldg., Chicago, Ill.; Geo. A. Hall, 2nd Floor, Second Street, Milwaukee, Wis.; T. Holmes, 315 Jackson Street, St. Paul, Minn.; Chas. Pilling, Clifford Block, Grand Forks, N. D.; J. M. MacLachlan, Box 197, Watertown, S. D.; W. V. Bennett, Room 4, Bee Bldg., Omaha, Neb.; W. H. Rogers, 125 West 8th Street, Kansas City, Mo.; Earl Davies, Room 6, Dunn Block, Great Falls, Montana; J. B. Carboneau, Jr., 217 Main Street, Bldfode, Me.; J. N. Greive, Auditorium Building, Spokane, Wash.

This will give to intending harvest laborers a splendid opportunity to look over the magnificent wheat fields of Western Canada and will give them the best evidence that can be secured of the splendid character of that country from the farmer's standpoint. There will be at least 200,000,000 bushels of wheat harvested within the area of the three provinces above named this year and it is expected that the yield will run from 15 to 25 bushels per acre. Many farmers, this year, will net, as a result of their labors, as much as \$8 to \$10 per acre and many of them will deposit as profits as much as \$8,000 to \$10,000.

The wide publicity that has been given to the excellent crop that is being raised in central Alberta and southern Alberta, central Saskatchewan and northern Saskatchewan, and also in Manitoba, will increase the price of lands in these three provinces from \$3 to \$5 per acre and the man who was fortunate enough to secure lands at from \$12 to \$20 per acre will have reason for gratification that he exercised sufficient forethought to invest, while the man who was fortunate enough to secure a homestead of 160 acres free will also have a greater reason to feel pleased.

Notwithstanding the great addition to the acreage this year over last and the large crop that will be ready for harvest there is no reason to become alarmed that the harvest will not be reaped successfully. There will be a great demand for these low rates during the next couple of months; be sure to make your application to any of the agents above mentioned that may be in your territory at as early a date as possible. Harvesting will commence about the 25th of July and continue for five or six weeks, when threshing will begin and there will be plenty of work until November.

### Too Dangerous.

In the struggling days of Tuskegee, Booker T. Washington found that he would have to use an old chicken house for a schoolroom.

"Uncle," said he to an old colored man, "I want you to come down at nine o'clock tomorrow morning and help me clean out a henhouse."

"Law now, Mr. Washington," the old man expostulated, "you-all don't want to begin cleanin' out no hen-house room' yere in de day time!"—Success Magazine.

It's the land of the free—for spinsters and bachelors.
